

Jacqui Robinson

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/799978/jacqui-robinson-publications-by-year.pdf>

Version: 2024-04-10

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

11 papers	3,989 citations	10 h-index	11 g-index
11 ext. papers	4,233 ext. citations	9.4 avg, IF	4.19 L-index

#	Paper	IF	Citations
11	Inside ultrasound vascular reference guide. <i>Sonography</i> , 2015 , 2, 101-102	0.3	
10	Smooth muscle dysfunction occurs independently of impaired endothelium-dependent dilation in adults at risk of atherosclerosis. <i>Journal of the American College of Cardiology</i> , 1998 , 32, 123-7	15.1	259
9	Oral L-arginine improves endothelium-dependent dilatation and reduces monocyte adhesion to endothelial cells in young men with coronary artery disease. <i>Atherosclerosis</i> , 1997 , 129, 261-9	3.1	146
8	Passive smoking and impaired endothelium-dependent arterial dilatation in healthy young adults. <i>New England Journal of Medicine</i> , 1996 , 334, 150-4	59.2	749
7	Hormone replacement therapy is associated with improved arterial physiology in healthy post-menopausal women. <i>Clinical Endocrinology</i> , 1996 , 45, 435-41	3.4	93
6	Oral L-arginine inhibits platelet aggregation but does not enhance endothelium-dependent dilation in healthy young men. <i>Journal of the American College of Cardiology</i> , 1995 , 26, 1054-61	15.1	154
5	Carotid intima-media thickness is only weakly correlated with the extent and severity of coronary artery disease. <i>Circulation</i> , 1995 , 92, 2127-34	16.7	256
4	Endothelium-dependent dilation in the systemic arteries of asymptomatic subjects relates to coronary risk factors and their interaction. <i>Journal of the American College of Cardiology</i> , 1994 , 24, 1468-74	15.1	1028
3	Aging is associated with endothelial dysfunction in healthy men years before the age-related decline in women. <i>Journal of the American College of Cardiology</i> , 1994 , 24, 471-6	15.1	1031
2	Hyperlipidaemia does not impair vascular endothelial function in glycogen storage disease type 1a. <i>Atherosclerosis</i> , 1994 , 110, 95-100	3.1	43
1	Impaired endothelial function occurs in the systemic arteries of children with homozygous homocystinuria but not in their heterozygous parents. <i>Journal of the American College of Cardiology</i> , 1993 , 22, 854-8	15.1	230
