#	ARTICLE	IF	CITATIONS
1	Selective outcome reporting in paediatric dentistry restorative treatment randomised clinical trials – A meta-research. <i>International Journal of Paediatric Dentistry</i> , 2023, 33, 89-98.	1.0	3
2	Stainless steel crown vs bulk fill composites for the restoration of primary molars post-pulpotomy: 1-year survival and acceptance results of a randomized clinical trial. <i>International Journal of Paediatric Dentistry</i> , 2022, 32, 11-21.	1.0	10
3	Impact of early childhood caries severity on oral health-related quality of life among preschool children in Mexico: A cross-sectional study. <i>International Journal of Paediatric Dentistry</i> , 2022, 32, 334-343.	1.0	5
4	Efficacy of a calcium-phosphate/fluoride varnish and ionomeric sealant on cervical dentin hypersensitivity: A randomized, double-blind, placebo-controlled clinical study. <i>Journal of Oral Rehabilitation</i> , 2022, 49, 62-70.	1.3	5
5	Efficacy of an iodoform-based filling material for pulpectomy of primary teeth: A 24-month non-inferiority randomized clinical trial. <i>International Journal of Paediatric Dentistry</i> , 2022, 32, 668-677.	1.0	4
6	Dehiscence and buccal bone thickness after rapid maxillary expansion in young patients with unilateral cleft lip and palate. <i>American Journal of Orthodontics and Dentofacial Orthopedics</i> , 2022, , .	0.8	1
7	Comparison of two clinical approaches based on visual criteria for secondary caries assessments and treatment decisions in permanent posterior teeth. <i>BMC Oral Health</i> , 2022, 22, 77.	0.8	4
8	Using information and communication technologies (ICTs) to solve the repressed demand for primary dental care in the Brazilian Unified Health System due to the COVID-19 pandemic: a randomized controlled study protocol nested with a before-and-after study including economic analysis. <i>BMC Oral Health</i> , 2022, 22, 112.	0.8	1
9	Early childhood factors in the development of oral health behaviours in adolescence: A structural equation modelling approach. <i>Community Dentistry and Oral Epidemiology</i> , 2022, , .	0.9	0
10	Clinical Accuracy of Two Different Criteria for the Detection of Caries Lesions around Restorations in Primary Teeth. <i>Caries Research</i> , 2022, 56, 98-108.	0.9	3
11	Pathways between Social Capital and Oral Health from Childhood to Adolescence. <i>Journal of Dental Research</i> , 2022, 101, 1155-1164.	2.5	4
12	Is prior conditioning of dentin necessary in restoration with glass-ionomer cement? A systematic review and network meta-analysis. <i>International Journal of Adhesion and Adhesives</i> , 2021, 104, 102748.	1.4	0
13	Atraumatic Restorative Treatment-Sealed versus Nonsealed First Permanent Molars: A 3-Year Split-Mouth Clinical Trial. <i>Caries Research</i> , 2021, 55, 12-20.	0.9	7
14	Pathways influencing dental caries increment among children: A cohort study. <i>International Journal of Paediatric Dentistry</i> , 2021, 31, 422-432.	1.0	6
15	What diagnostic strategy performs better for caries lesion detection on proximal surfaces of adolescents?. <i>Clinical Oral Investigations</i> , 2021, 25, 3977-3986.	1.4	0
16	The Impact of Early Childhood Factors on Dental Caries Incidence in First Permanent Molars: A 7-Year Follow-Up Study. <i>Caries Research</i> , 2021, 55, 167-173.	0.9	7
17	COVID-19 pandemic reduces the negative perception of oral health-related quality of life in adolescents. <i>Quality of Life Research</i> , 2021, 30, 1685-1691.	1.5	12
18	Three-dimensional evaluation of dental decompensation and mandibular symphysis remodeling on orthodontic-surgical treatment of Class III malocclusion. <i>American Journal of Orthodontics and Dentofacial Orthopedics</i> , 2021, 159, 175-183.e3.	0.8	5

#	ARTICLE	IF	CITATIONS
19	Negligible therapeutic impact, false-positives, overdiagnosis and lead-time are the reasons why radiographs bring more harm than benefits in the caries diagnosis of preschool children. <i>BMC Oral Health</i> , 2021, 21, 168.	0.8	6
20	What is the most accurate method for detecting caries lesions? A systematic review. <i>Community Dentistry and Oral Epidemiology</i> , 2021, 49, 216-224.	0.9	15
21	Effect of the COVID-19 pandemic on behavioural and psychosocial factors related to oral health in adolescents: A cohort study. <i>International Journal of Paediatric Dentistry</i> , 2021, 31, 539-546.	1.0	27
22	How combining different caries lesions characteristics may be helpful in short-term caries progression prediction: model development on occlusal surfaces of primary teeth. <i>BMC Oral Health</i> , 2021, 21, 255.	0.8	1
23	Intranasal Dexmedetomidine Compared to a Combination of Intranasal Dexmedetomidine with Ketamine for Sedation of Children Requiring Dental Treatment: A Randomized Clinical Trial. <i>Journal of Clinical Medicine</i> , 2021, 10, 2840.	1.0	4
24	Survival rate of primary molar restorations is not influenced by hand mixed or encapsulated GIC: 24-months RCT. <i>BMC Oral Health</i> , 2021, 21, 371.	0.8	2
25	Impact of avulsion of the primary incisors on the occurrence of sequelae in the permanent teeth: A retrospective cohort study. <i>Community Dentistry and Oral Epidemiology</i> , 2021, , .	0.9	1
26	The economic impact of two diagnostic strategies in the management of restorations in primary teeth: a health economic analysis plan for a trial-based economic evaluation. <i>Trials</i> , 2021, 22, 794.	0.7	1
27	Randomized clinical trial to evaluate two methods of caries risk assessment in schoolchildren: the CARDEC-PEL 04 study protocol. <i>BMC Oral Health</i> , 2021, 21, 654.	0.8	0
28	Atraumatic restorative treatment compared to the Hall Technique for occluso-proximal carious lesions in primary molars; 36-month follow-up of a randomised control trial in a school setting. <i>BMC Oral Health</i> , 2020, 20, 318.	0.8	22
29	Is it worth using low-cost glass ionomer cements for occlusal ART restorations in primary molars? 2-year survival and cost analysis of a Randomized clinical trial. <i>Journal of Dentistry</i> , 2020, 101, 103446.	1.7	9
30	Methodological quality and risk of bias of systematic reviews about loading time of multiple dental implants in totally or partially edentulous patients: An umbrella systematic review. <i>Japanese Dental Science Review</i> , 2020, 56, 135-146.	2.0	4
31	How researchers should select the best outcomes for randomised clinical trials in paediatric dentistry?. <i>International Journal of Paediatric Dentistry</i> , 2020, 31, 23-30.	1.0	7
32	Study protocol for a diagnostic randomized clinical trial to evaluate the effect of the use of two clinical criteria in the assessment of caries lesions around restorations in adults: the Caries Cognition and Identification in Adults (CaCIA) trial. <i>BMC Oral Health</i> , 2020, 20, 317.	0.8	3
33	Monitoring enamel caries on resin-treated occlusal surfaces using quantitative light-induced fluorescence: an in vitro study. <i>Lasers in Medical Science</i> , 2020, 35, 1629-1636.	1.0	1
34	Reproducibility of subtraction radiography in monitoring changes in approximal carious lesions in children: An in vivo study. <i>International Journal of Paediatric Dentistry</i> , 2020, 30, 587-596.	1.0	1
35	Influence of different clinical criteria on the decision to replace restorations in primary teeth. <i>Journal of Dentistry</i> , 2020, 101, 103421.	1.7	9
36	Effect of routine dental attendance on child oral health-related quality of life: A cohort study. <i>International Journal of Paediatric Dentistry</i> , 2020, 30, 459-467.	1.0	13

#	ARTICLE	IF	CITATIONS
37	The Hall Technique and exfoliation of primary teeth: a retrospective cohort study. <i>British Dental Journal</i> , 2020, 228, 213-217.	0.3	2
38	Influence of school environment on occurrence of traumatic dental injuries in 12 years old children. <i>Dental Traumatology</i> , 2020, 36, 510-517.	0.8	7
39	The effect of two clinical criteria in the assessment of caries lesions around restorations in children (CARDEC-03): study protocol for a diagnostic randomized clinical trial. <i>F1000Research</i> , 2020, 9, 650.	0.8	2
40	Management of deep caries lesions with or without pulp involvement in primary teeth: a systematic review and network meta-analysis. <i>Brazilian Oral Research</i> , 2020, 35, e004.	0.6	5
41	Impact of visual inspection and radiographs for caries detection in children through a 2-year randomized clinical trial. <i>Journal of the American Dental Association</i> , 2020, 151, 407-415.e1.	0.7	16
42	Clinically relevant outcomes in dental clinical trials: challenges and proposals. <i>Brazilian Oral Research</i> , 2020, 34, e073.	0.6	23
43	A Virtual 3D Dynamic Model of Caries Lesion Progression as a Learning Object for Caries Detection Training and Teaching: Video Development Study. <i>JMIR Medical Education</i> , 2020, 6, e14140.	1.2	1
44	The effect of two clinical criteria in the assessment of caries lesions around restorations in children (CARDEC-03): study protocol for a diagnostic randomized clinical trial. <i>F1000Research</i> , 2020, 9, 650.	0.8	1
45	Physicochemical properties and filling capacity of an experimental iodoform-based paste in primary teeth. <i>Brazilian Oral Research</i> , 2020, 34, e089.	0.6	5
46	Oral health of 12-year-old children in Quito, Ecuador: a population-based epidemiological survey. <i>BMC Oral Health</i> , 2019, 19, 184.	0.8	19
47	Health and oral health-related quality of life of children and adolescents with chronic kidney disease: a cross-sectional study. <i>Quality of Life Research</i> , 2019, 28, 2481-2489.	1.5	9
48	Effect of neighborhood and individual social capital in early childhood on oral health-related quality of life: a 7-year cohort study. <i>Quality of Life Research</i> , 2019, 28, 1773-1782.	1.5	30
49	Impact of a diagnostic workshop on undergraduate teaching—learning process for the diagnosis and management of tooth restorations—A randomised controlled study. <i>European Journal of Dental Education</i> , 2019, 23, 304-315.	1.0	0
50	Impact of the radiographic method on treatment decisions related to dental caries in primary molars: a before—after study. <i>Clinical Oral Investigations</i> , 2019, 23, 4075-4081.	1.4	10
51	Trends in use of dental services by Brazilian pre—school children considering Age—Period—Cohort Effect. <i>International Journal of Paediatric Dentistry</i> , 2019, 29, 413-421.	1.0	5
52	Glass carbomer and compomer for ART restorations: 3-year results of a randomized clinical trial. <i>Clinical Oral Investigations</i> , 2019, 23, 1761-1770.	1.4	13
53	The Association between Sense of Coherence and Dental Caries in Low Social Status Schoolchildren. <i>Caries Research</i> , 2019, 53, 314-321.	0.9	21
54	Comproving the multifactorial etiology of molar incisor hypomineralization. <i>International Journal of Paediatric Dentistry</i> , 2019, 29, 4-4.	1.0	2

#	ARTICLE	IF	CITATIONS
55	The International Caries Detection and Assessment System "ICDAS: A Systematic Review. Caries Research, 2018, 52, 406-419.	0.9	101
56	The Influence of Cognitive Bias on Caries Lesion Detection in Preschool Children. Caries Research, 2018, 52, 420-428.	0.9	5
57	The impact of rapid maxillary expansion on maxillary first molar root morphology of cleft subjects. Clinical Oral Investigations, 2018, 22, 369-376.	1.4	7
58	Exploring the association between genetic and environmental factors and molar incisor hypomineralization: evidence from a twin study. International Journal of Paediatric Dentistry, 2018, 28, 198-206.	1.0	68
59	Sensitivity of an oral health-related quality-of-life questionnaire in detecting oral health impairment in preschool children. International Journal of Paediatric Dentistry, 2018, 28, 207-216.	1.0	11
60	Presence of Initial Caries Lesions as a Risk Factor for Caries in Preschool Children: A Cohort Study. Caries Research, 2018, 52, 32-41.	0.9	17
61	Management of dental caries among children: a look at the cost-effectiveness. Expert Review of Pharmacoeconomics and Outcomes Research, 2018, 18, 127-134.	0.7	18
62	The impact of oral health on quality of life of urban and riverine populations of the Amazon: A multilevel analysis. PLoS ONE, 2018, 13, e0208096.	1.1	12
63	Is it feasible to use smartphone images to perform tediagnosis of different stages of occlusal caries lesions?. PLoS ONE, 2018, 13, e0202116.	1.1	36
64	Clinical relevance of studies on the visual and radiographic methods for detecting secondary caries lesions " A systematic review. Journal of Dentistry, 2018, 75, 22-33.	1.7	22
65	Visual and radiographic caries detection: a tailored meta-analysis for two different settings, Egypt and Germany. BMC Oral Health, 2018, 18, 105.	0.8	3
66	Decision-making of general practitioners on interventions at restorations based on bitewing radiographs. Journal of Dentistry, 2018, 76, 109-116.	1.7	13
67	Assessment of oxidative stress in saliva of children with dental erosion. Einstein (Sao Paulo, Brazil), 2018, 16, eAO4203.	0.3	6
68	Prevalence of early loss of primary molar and its impact in schoolchildren's quality of life. International Journal of Paediatric Dentistry, 2018, 28, 595-601.	1.0	32
69	Evaluation of enamel mineral loss around cavities prepared by the Er,Cr:YSGG laser and restored with different materials. , 2018, , .		0
70	Association between quantitative measures obtained using fluorescence-based methods and activity status of occlusal caries lesions in primary molars. International Journal of Paediatric Dentistry, 2017, 27, 154-162.	1.0	10
71	Efficacy of photobiomodulation therapy on masseter thickness and oral health-related quality of life in children with spastic cerebral palsy. Lasers in Medical Science, 2017, 32, 1279-1288.	1.0	10
72	Clinical features and factors associated with non-carious cervical lesions and dentin hypersensitivity. Journal of Oral Rehabilitation, 2017, 44, 112-118.	1.3	68

#	ARTICLE	IF	CITATIONS
73	Influence of Electroacupuncture and Laser-Acupuncture on Treating Paresthesia in Patients Submitted to Combined Orthognathic Surgery and Genioplasty. <i>Medical Acupuncture</i> , 2017, 29, 290-299.	0.3	6
74	Efficacy of conventional treatment with composite resin and atraumatic restorative treatment in posterior primary teeth: study protocol for a randomised controlled trial. <i>BMJ Open</i> , 2017, 7, e015542.	0.8	7
75	Performance of cone beam computed tomography and conventional intraoral radiographs in detecting interproximal alveolar bone lesions: a study in pig mandibles. <i>BMC Oral Health</i> , 2017, 17, 100.	0.8	7
76	Effectiveness of conventional treatment using bulk-fill composite resin versus Atraumatic Restorative Treatments in primary and permanent dentition: a pragmatic randomized clinical trial. <i>BMC Oral Health</i> , 2017, 17, 34.	0.8	24
77	Clinical performance of fluorescence-based methods for detection of occlusal caries lesions in primary teeth. <i>Brazilian Oral Research</i> , 2017, 31, e91.	0.6	4
78	Use of artificial primary teeth for endodontic laboratory research: experiments related to canal length determination. <i>BMC Oral Health</i> , 2017, 17, 131.	0.8	5
79	Responsiveness of the Early Childhood Oral Health Impact Scale (ECOHIS) is related to dental treatment complexity. <i>Health and Quality of Life Outcomes</i> , 2017, 15, 182.	1.0	17
80	Individual and contextual factors influencing dental health care utilization by preschool children: a multilevel analysis. <i>Brazilian Oral Research</i> , 2017, 31, e27.	0.6	18
81	Impact of a Tutored Theoretical-Practical Training to Develop Undergraduate Students's Skills for the Detection of Caries Lesions: Study Protocol for a Multicenter Controlled Randomized Study. <i>JMIR Research Protocols</i> , 2017, 6, e155.	0.5	5
82	Adhesive systems for restoring primary teeth: a systematic review and meta-analysis of <i>in vitro</i> studies. <i>International Journal of Paediatric Dentistry</i> , 2016, 26, 364-375.	1.0	32
83	Influence of initial caries lesions on quality of life in preschool children: a 2-year cohort study. <i>Community Dentistry and Oral Epidemiology</i> , 2016, 44, 292-300.	0.9	26
84	Risk of initial and moderate caries lesions in primary teeth to progress to dentine cavitation: a 2-year cohort study. <i>International Journal of Paediatric Dentistry</i> , 2016, 26, 116-124.	1.0	28
85	Do the ball-ended probe cause less damage than sharp explorers? An ultrastructural analysis. <i>BMC Oral Health</i> , 2016, 16, 39.	0.8	12
86	Can we trust visual methods alone for detecting caries in teeth?. <i>Evidence-Based Dentistry</i> , 2016, 17, 41-42.	0.3	13
87	The nutritional state of children and adolescents with cerebral palsy is associated with oral motor dysfunction and social conditions: a cross sectional study. <i>BMC Neurology</i> , 2016, 16, 55.	0.8	25
88	Impact of the radiographic examination on diagnosis and treatment decision of caries lesions in primary teeth – the Caries Detection in Children (CARDEC-01) trial: study protocol for a randomized controlled trial. <i>Trials</i> , 2016, 17, 69.	0.7	16
89	Changes in preschool children's OHRQoL after treatment of dental caries: responsiveness of the B-ECOHIS. <i>International Journal of Paediatric Dentistry</i> , 2016, 26, 259-265.	1.0	38
90	Performance of fluorescence-based methods for detecting and quantifying smooth-surface caries lesions in primary teeth: an <i>in vitro</i> study. <i>International Journal of Paediatric Dentistry</i> , 2016, 26, 13-19.	1.0	9

#	ARTICLE	IF	CITATIONS
91	<i>In vitro</i> performance of <scp>QLF</scp> system and conventional methods for detection of occlusal caries around toothâ€colored restorations in primary molars. International Journal of Paediatric Dentistry, 2016, 26, 26-34.	1.0	11
92	Lithium Induces Glycogen Accumulation in Salivary Glands of the Rat. Biological Trace Element Research, 2016, 169, 271-278.	1.9	4
93	Does the Decline in Caries Prevalence of Latin American and Caribbean Children Continue in the New Century? Evidence from Systematic Review with Meta-Analysis. PLoS ONE, 2016, 11, e0164903.	1.1	61
94	Does the hybrid light source (LED/laser) influence temperature variation on the enamel surface during 35% hydrogen peroxide bleaching? A randomized clinical trial. Quintessence International, 2016, 47, 61-73.	0.3	4
95	Answer to the letter â€œComplete clinical retention of sealant materials should not be contemplated as cut-off for clinical successâ€¸ Braz Oral Res. 2016;30:e32. doi: 10.1590/1807-3107BOR-2016.vol30.0032. Brazilian Oral Research, 2016, 30, .	0.6	0
96	Bond Strength of High-Viscosity Glass Ionomer Cements is Affected by Tubular Density and Location in Dentin?. Microscopy and Microanalysis, 2015, 21, 849-854.	0.2	5
97	Oral Health Education Program on Dental Caries Incidence for School Children. Journal of Clinical Pediatric Dentistry, 2015, 39, 277-283.	0.5	21
98	Children's discomfort may vary among different treatments for initial approximal caries lesions: preliminary findings of a randomized controlled clinical trial. International Journal of Paediatric Dentistry, 2015, 25, 300-304.	1.0	21
99	Low-cost glass ionomer cement as ART sealant in permanent molars: a randomized clinical trial. Brazilian Oral Research, 2015, 29, 1-9.	0.6	11
