#	ARTICLE	IF	CITATIONS
1	Age related increase in impairment across the life course: the use of Zomba curves to estimate assistive technology needs in Malawi. <i>Disability and Rehabilitation: Assistive Technology</i> , 2024, 19, 16-23.	1.3	2
2	An overview of assistive technology products and services provided in Malawi. <i>Disability and Rehabilitation: Assistive Technology</i> , 2023, 18, 387-391.	1.3	2
3	Using a systems thinking approach to understand teachers perceptions and use of assistive technology in the republic of Ireland. <i>Disability and Rehabilitation: Assistive Technology</i> , 2023, 18, 502-510.	1.3	6
4	Empirical research and available data on assistive technology for persons with disabilities in Malawi: A review. <i>Assistive Technology</i> , 2023, 35, 94-106.	1.2	6
5	Mental health of adults in Ireland during the first year of the COVID-19 pandemic: results from a nationally representative, longitudinal study. <i>Psychological Medicine</i> , 2023, 53, 3766-3768.	2.7	14
6	Death anxiety, self-worth, and exposure to human donor remains: A longitudinal study of Irish medical students. <i>Death Studies</i> , 2022, 46, 875-884.	1.8	2
7	Assistive Technologies for Supporting the Wellbeing of Older Adults. <i>Technologies</i> , 2022, 10, 8.	3.0	8
8	Network analysis of assistive technology stakeholders in Malawi. <i>Global Health Action</i> , 2022, 15, 2014046.	0.7	4
9	Including Digital Connection in the United Nations Sustainable Development Goals: A Systems Thinking Approach for Achieving the SDGs. <i>Sustainability</i> , 2022, 14, 1883.	1.6	21
10	Promoting regional coherence and cohesion amidst multiple assistive technology initiatives in Africa. <i>African Journal of Disability</i> , 2022, 11, 937.	0.7	1
11	The coordinates of scaling: Facilitating inclusive innovation. <i>Systems Research and Behavioral Science</i> , 2021, 38, 833-850.	0.9	6
12	Developing inclusive and resilient systems: COVID-19 and assistive technology. <i>Disability and Society</i> , 2021, 36, 151-154.	1.4	11
13	Commentary: Challenges and opportunities in autism assessment – a commentary on Kanne and Bishop (2020). <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2021, 62, 146-148.	3.1	3
14	Psychological Governance and COVID-19: A Case Study in Macropsychology. , 2021, , 303-316.		2
15	Exploring equity and inclusion in Malawi’s National Disability Mainstreaming Strategy and Implementation Plan. <i>International Journal for Equity in Health</i> , 2021, 20, 18.	1.5	5
16	Macropsychology: Definition, Scope, and Conceptualization. , 2021, , 1-27.		0
17	Perspectives on access and usage of assistive technology by people with intellectual disabilities in the Western Cape province of South Africa: Where to from here?. <i>African Journal of Disability</i> , 2021, 10, 767.	0.7	0
18	Socio-Demographic Factors Influencing the Use of Assistive Technology among Children with Disabilities in Malawi. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 3062.	1.2	5

#	ARTICLE	IF	CITATIONS
19	Changes in PTSD, depression, and generalized anxiety before and during the COVID-19 pandemic in Ireland. <i>Journal of Affective Disorders Reports</i> , 2021, 5, 100184.	0.9	6
20	Strengthening the Participation of Organisations of Persons with Disabilities in the Decision-Making of National Government and the United Nations: Further Analyses of the International Disability Alliance Global Survey. <i>Disabilities</i> , 2021, 1, 202-217.	0.5	4
21	Trajectories of change in internalizing symptoms during the COVID-19 pandemic: A longitudinal population-based study. <i>Journal of Affective Disorders</i> , 2021, 295, 1024-1031.	2.0	18
22	A Just Digital framework to ensure equitable achievement of the Sustainable Development Goals. <i>Nature Communications</i> , 2021, 12, 6345.	5.8	17
23	Envisioning the Future: Activity-centred CONOPS in the Co-Design of a Sociotechnical System for Healthy Ageing. , 2021, , .		0
24	A review of innovation strategies and processes to improve access to AT: Looking ahead to open innovation ecosystems. <i>Assistive Technology</i> , 2021, 33, 68-86.	1.2	8
25	Effects of an on-board psychosocial programme on stress, resilience, and job satisfaction amongst a sample of merchant seafarers. <i>International Maritime Health</i> , 2021, 72, 268-282.	0.3	4
26	Are there differences in factors influencing access and continued use of assistive products for people with intellectual disabilities living in group homes?. <i>Disability and Rehabilitation: Assistive Technology</i> , 2020, 15, 173-182.	1.3	8
27	Towards coherence across global initiatives in assistive technology. <i>Disability and Rehabilitation: Assistive Technology</i> , 2020, 15, 728-730.	1.3	7
28	COVID-19 as social disability: the opportunity of social empathy for empowerment. <i>BMJ Global Health</i> , 2020, 5, e003039.	2.0	12
29	Assistive technology as a pillar of universal health coverage: qualitative analysis of stakeholder responses to the world health assembly resolution on assistive technology. <i>Disability and Rehabilitation: Assistive Technology</i> , 2020, 15, 825-831.	1.3	12
30	The Digital and Assistive Technologies for Ageing initiative: learning from the GATE initiative. <i>The Lancet Healthy Longevity</i> , 2020, 1, e94-e95.	2.0	16
31	Addressing data deficiencies in assistive technology by using statistical matching methodology: a case study from Malawi. <i>Disability and Rehabilitation: Assistive Technology</i> , 2020, , 1-15.	1.3	2
32	Implementation of the Assistive Product List (APL) in Malawi through development of appropriate policy and systems: an action research protocol. <i>BMJ Open</i> , 2020, 10, e040281.	0.8	12
33	Assistive Technology Use and Provision During COVID-19: Results From a Rapid Global Survey. <i>International Journal of Health Policy and Management</i> , 2020, , .	0.5	21
34	Core Concepts of Human Rights and Inclusion of Vulnerable Groups in the Namibian Policy on Orthopaedic Technical Services. <i>Disability, CBR and Inclusive Development</i> , 2020, 23, 24.	0.1	2
35	Human Rights, Social Inclusion and Health Equity in International Donors' Policies. <i>Disability, CBR and Inclusive Development</i> , 2020, 23, 24.	0.1	4
36	The Human Resources Challenge to Community Based Rehabilitation: The Need for a Scientific, Systematic and Coordinated Global Response. <i>Disability, CBR and Inclusive Development</i> , 2020, 23, 6.	0.1	20

#	ARTICLE	IF	CITATIONS
37	Social Inclusion and Mental Health of Children with Physical Disabilities in Gaza, Palestine. <i>Disability, CBR and Inclusive Development</i> , 2020, 27, 5.	0.1	8
38	The perceived needs-access gap for health services among persons with disabilities in a rural area within South Africa. <i>Disability and Rehabilitation</i> , 2019, 41, 2676-2682.	0.9	4
39	Identifying Predictors of Stress and Job Satisfaction in a Sample of Merchant Seafarers Using Structural Equation Modeling. <i>Frontiers in Psychology</i> , 2019, 10, 70.	1.1	32
40	Perceptions of Well-Being, Resilience and Stress Amongst a Sample of Merchant Seafarers and Superintendents. <i>Maritime Studies</i> , 2019, 18, 139-158.	1.1	14
41	A silver wave? Filipino shipmates' experience of merchant seafaring. <i>Marine Policy</i> , 2019, 99, 283-297.	1.5	19
42	“This one will delay us” barriers to accessing health care services among persons with disabilities in Malawi. <i>Disability and Rehabilitation</i> , 2019, 41, 683-690.	0.9	40
43	Access to Assistive Technology, Systems Thinking, and Market Shaping: A Response to Durocher et al.. <i>Ethics and Behavior</i> , 2019, 29, 196-200.	1.3	9
44	Predictors of Utilisation of Skilled Maternal Healthcare in Lilongwe District, Malawi. <i>International Journal of Health Policy and Management</i> , 2019, 8, 700-710.	0.5	7
45	Macropsychology: Challenging and Changing Social Structures and Systems to Promote Social Inclusion. , 2019, , 166-182.		5
46	Does assistive technology contribute to social inclusion for people with intellectual disability? A systematic review protocol. <i>BMJ Open</i> , 2018, 8, e017533.	0.8	25
47	Intersections Between Systems Thinking and Market Shaping for Assistive Technology: The SMART (Systems-Market for Assistive and Related Technologies) Thinking Matrix. <i>International Journal of Environmental Research and Public Health</i> , 2018, 15, 2627.	1.2	27
48	Assistive technology policy: a position paper from the first global research, innovation, and education on assistive technology (GREAT) summit. <i>Disability and Rehabilitation: Assistive Technology</i> , 2018, 13, 454-466.	1.3	88
49	Enabling appropriate personnel skill-mix for progressive realization of equitable access to assistive technology. <i>Disability and Rehabilitation: Assistive Technology</i> , 2018, 13, 445-453.	1.3	44
50	Introduction to the special issue on the first Global Research, Innovation, and Education on Assistive Technology (GREAT) Summit and invitation to contribute to and continue the discussions. <i>Disability and Rehabilitation: Assistive Technology</i> , 2018, 13, 435-436.	1.3	10
51	Access to assistive technology for people with intellectual disabilities: a systematic review to identify barriers and facilitators. <i>Journal of Intellectual Disability Research</i> , 2018, 62, 900-921.	1.2	81
52	Systems thinking for assistive technology: a commentary on the GREAT summit. <i>Disability and Rehabilitation: Assistive Technology</i> , 2018, 13, 492-496.	1.3	59
53	Assistive technology products: a position paper from the first global research, innovation, and education on assistive technology (GREAT) summit. <i>Disability and Rehabilitation: Assistive Technology</i> , 2018, 13, 473-485.	1.3	103
54	Community-Based Mental Health Intervention Skills: Task Shifting in Low- and Middle-Income Settings. <i>International Perspectives in Psychology: Research, Practice, Consultation</i> , 2018, 7, 205-230.	0.4	19

#	ARTICLE	IF	CITATIONS
55	An Analysis of the Extent of Social Inclusion and Equity Consideration in Malawi's National HIV and AIDS Policy Review Process. <i>International Journal of Health Policy and Management</i> , 2018, 7, 297-307.	0.5	1
56	Positive Psychology and Well-Being at Sea. , 2017, , 19-47.		9
57	A description of assistive technology sources, services and outcomes of use in a number of African settings. <i>Disability and Rehabilitation: Assistive Technology</i> , 2017, 12, 705-712.	1.3	29
58	A study of human resource competencies required to implement community rehabilitation in less resourced settings. <i>Human Resources for Health</i> , 2017, 15, 70.	1.1	24
59	Leaving no-one behind: using assistive technology to enhance community living for people with intellectual disability. <i>Disability and Rehabilitation: Assistive Technology</i> , 2017, 12, 426-428.	1.3	21
60	Still Too POSH to Push for Structural Change? The Need for a Macropsychology Perspective. <i>Industrial and Organizational Psychology</i> , 2017, 10, 403-407.	0.5	8
61	Barriers to the Implementation of the Health and Rehabilitation Articles of the United Nations Convention on the Rights of Persons with Disabilities in South Africa. <i>International Journal of Health Policy and Management</i> , 2017, 6, 207-218.	0.5	37
62	Intellectual Disability and Assistive Technology: Opening the GATE Wider. <i>Frontiers in Public Health</i> , 2017, 5, 10.	1.3	22
63	Access to health care for persons with disabilities in rural South Africa. <i>BMC Health Services Research</i> , 2017, 17, 741.	0.9	65
64	Opportunities for human resources for health and rehabilitation: a response to Jesus et al.. <i>Human Resources for Health</i> , 2017, 15, 73.	1.1	2
65	Factors related to environmental barriers experienced by persons with and without disabilities in diverse African settings. <i>PLoS ONE</i> , 2017, 12, e0186342.	1.1	28
66	Maritime Psychology: Definition, Scope and Conceptualization. , 2017, , 1-17.		1
67	Accessible Home Environments for People with Functional Limitations: A Systematic Review. <i>International Journal of Environmental Research and Public Health</i> , 2016, 13, 826.	1.2	36
