Version: 2024-02-01

#	Article	IF	CITATIONS
1	eHealth supported multi-months dispensing of antiretroviral therapy: a mixed-methods preference assessment in rural Lesotho. Pilot and Feasibility Studies, 2022, 8, 61.	1.2	4
2	Community-based care models for arterial hypertension management in non-pregnant adults in sub-Saharan Africa: a literature scoping review and framework for designing chronic services. BMC Public Health, 2022, 22, .	2.9	6
3	Emergence of Human Immunodeficiency Virus-1 Drug Resistance During the 3-Month World Health Organization-Recommended Enhanced Adherence Counseling Period in the CART-1 Cohort Study. Open Forum Infectious Diseases, 2021, 8, ofab046.	0.9	0
4	Reaching Absent and Refusing Individuals During Home-Based HIV Testing Through Self-Testing—at What Cost?. Frontiers in Medicine, 2021, 8, 653677.	2.6	1
5	Offering ART refill through community health workers versus clinic-based follow-up after home-based same-day ART initiation in rural Lesotho: The VIBRA cluster-randomized clinical trial. PLoS Medicine, 2021, 18, e1003839.	8.4	8
6	Engagement in Care, Viral Suppression, Drug Resistance, and Reasons for Nonengagement After Home-Based Same-Day Antiretroviral Therapy Initiation in Lesotho: A Two-Year Follow-up of the CASCADE Trial. Clinical Infectious Diseases, 2020, 71, 2608-2614.	5.8	15
7	Home-based oral self-testing for absent and declining individuals during a door-to-door HIV testing campaign in rural Lesotho (HOSENG): a cluster-randomised trial. Lancet HIV,the, 2020, 7, e752-e761.	4.7	21
8	Low rates of active hepatitis B and C infections among adults and children living with HIV and taking antiretroviral therapy: A multicenter screening study in Lesotho. Journal of Medical Virology, 2020, 92, 3857-3861.	5.0	1
9	Emerging priorities for HIV service delivery. PLoS Medicine, 2020, 17, e1003028.	8.4	39
10	PEBRA trial – effect of a peer-educator coordinated preference-based ART service delivery model on viral suppression among adolescents and young adults living with HIV: protocol of a cluster-randomized clinical trial in rural Lesotho. BMC Public Health, 2020, 20, 425.	2.9	9
11	The HOSENG trial – Effect of the provision of oral self-testing for absent and refusing individuals during a door-to-door HIV-testing campaign on testing coverage: protocol of a cluster-randomized clinical trial in rural Lesotho. Trials, 2019, 20, 496.	1.6	6
12	VIBRA trial – Effect of village-based refill of ART following home-based same-day ART initiation vs clinic-based ART refill on viral suppression among individuals living with HIV: protocol of a cluster-randomized clinical trial in rural Lesotho. Trials, 2019, 20, 522.	1.6	9
13	Effect and cost of two successive home visits to increase HIV testing coverage: a prospective study in Lesotho, Southern Africa. BMC Public Health, 2019, 19, 1441.	2.9	6
14	The viral load monitoring cascade in a resource-limited setting: A prospective multicentre cohort study after introduction of routine viral load monitoring in rural Lesotho. PLoS ONE, 2019, 14, e0220337.	2.5	41
15	Importance of routine viral load monitoring: higher levels of resistance at ART failure in Uganda and Lesotho compared with Switzerland. Journal of Antimicrobial Chemotherapy, 2019, 74, 468-472.	3.0	9
16	Effect of Offering Same-Day ART vs Usual Health Facility Referral During Home-Based HIV Testing on Linkage to Care and Viral Suppression Among Adults With HIV in Lesotho. JAMA - Journal of the American Medical Association, 2018, 319, 1103.	7.4	199
17	The Treatment Cascade in Children With Unsuppressed Viral Load—A Reality Check in Rural Lesotho, Southern Africa. Journal of Acquired Immune Deficiency Syndromes (1999), 2018, 77, 250-256.	2.1	6
18	When patients fail UNAIDS' last 90 ―the "failure cascade―beyond 90â€90â€90 in rural Lesotho, Sout	hern	23

Africa: a <i>prospective cohort study</i>. Journal of the International AIDS Society, 2017, 20, 21803. io, South 18

#	Article	IF	CITATIONS
19	Still Far From 90-90-90. Pediatric Infectious Disease Journal, 2016, 35, 78-80.	2.0	6
20	Should viral load thresholds be lowered?. Medicine (United States), 2016, 95, e3985.	1.0	36
21	Same day ART initiation versus clinic-based pre-ART assessment and counselling for individuals newly tested HIV-positive during community-based HIV testing in rural Lesotho – a randomized controlled trial). BMC Public Health, 2016, 16, 329.	2.9	35
22	ls zidovudine firstâ€line therapy virologically comparable to tenofovir in resourceâ€limited settings?. Tropical Medicine and International Health, 2015, 20, 914-918.	2.3	17
23	Higher rates of metabolic syndrome among women taking zidovudine as compared to tenofovir in rural Africa: preliminary data from the CART-1 study. Journal of the International AIDS Society, 2014, 17, 19552.	3.0	4
24	Clinical and socio-demographic predictors for virologic failure in rural Southern Africa: preliminary findings from CART-1. Journal of the International AIDS Society, 2014, 17, 19666.	3.0	14
25	Outcomes of antiretroviral treatment programmes in rural Lesotho: health centres and hospitals compared. Journal of the International AIDS Society, 2013, 16, 18616.	3.0	17
26	A Clinical Prediction Score in Addition to WHO Criteria for Anti-Retroviral Treatment Failure in Resource-Limited Settings - Experience from Lesotho. PLoS ONE, 2012, 7, e47937.	2.5	15
27	Adoption of new HIV treatment guidelines and drug substitutions within firstâ€line as a measure of quality of care in rural Lesotho: health centers and hospitals compared. Tropical Medicine and International Health, 2012, 17, 1245-1254.	2.3	15
