#	ARTICLE	IF	CITATIONS
1	Extremely high prevalence of neural tube defects in a 4-county area in Shanxi Province, China. Birth Defects Research Part A: Clinical and Molecular Teratology, 2006, 76, 237-240.	1.6	162
2	Prevalence and trend of neural tube defects in five counties in Shanxi province of Northern China, 2000 to 2014. Birth Defects Research Part A: Clinical and Molecular Teratology, 2016, 106, 267-274.	1.6	91
3	Folic Acid Supplementation During Early Pregnancy and the Risk of Gestational Hypertension and Preeclampsia. Hypertension, 2013, 61, 873-879.	1.3	75
4	Micronutrient Supplementation and Pregnancy Outcomes. JAMA Internal Medicine, 2013, 173, 276.	2.6	64
5	Periconceptional folic acid supplementation and the risk of preterm births in China: a large prospective cohort study. International Journal of Epidemiology, 2014, 43, 1132-1139.	0.9	43
6	Maternal Passive Smoking and Risk of Cleft Lip With or Without Cleft Palate. Epidemiology, 2010, 21, 240-242.	1.2	42
7	Indoor air pollution affects hypertension risk in rural women in Northern China by interfering with the uptake of metal elements: A preliminary cross-sectional study. Environmental Pollution, 2018, 240, 267-272.	3.7	41
8	Association of maternal serum copper during early pregnancy with the risk of spontaneous preterm birth: A nested case-control study in China. Environment International, 2019, 122, 237-243.	4.8	38
9	Effects of passive smoking on hypertension in rural Chinese nonsmoking women. Journal of Hypertension, 2015, 33, 2210-2214.	0.3	37
10	Impact of Periconceptional Folic Acid Supplementation on Low Birth Weight and Small-for-Gestational-Age Infants in China: A Large Prospective Cohort Study. Journal of Pediatrics, 2017, 187, 105-110.	0.9	33
11	Associations between endocrine-disrupting heavy metals in maternal hair and gestational diabetes mellitus: A nested case-control study in China. Environment International, 2021, 157, 106770.	4.8	32
12	Caesarean delivery on maternal request and childhood psychopathology: a retrospective cohort study in China. BJOG: an International Journal of Obstetrics and Gynaecology, 2011, 118, 42-48.	1.1	29
13	Prevalence of Overweight/Obesity in Chinese Children. Archives of Medical Research, 2007, 38, 882-886.	1.5	28
14	Birth Weight, Maternal Body Mass Index, and Early Childhood Growth: A Prospective Birth Cohort Study in China. Journal of Epidemiology, 2010, 20, 421-428.	1.1	27
15	Micronutrient supplementation during pregnancy and the risk of pregnancy-induced hypertension: A randomized clinical trial. Clinical Nutrition, 2019, 38, 146-151.	2.3	27
16	Maternal Hemoglobin Concentration during Gestation and Risk of Anemia in Infancy: Secondary Analysis of a Randomized Controlled Trial. Journal of Pediatrics, 2016, 175, 106-110.e2.	0.9	24
17	Impact of gestational hypertension and preeclampsia on low birthweight and small-for-gestational-age infants in China: A large prospective cohort study. Journal of Clinical Hypertension, 2021, 23, 835-842.	1.0	23
18	High prevalence of orofacial clefts in Shanxi Province in northern China, 2003-2004. American Journal of Medical Genetics, Part A, 2008, 146A, 2637-2643.	0.7	22

#	ARTICLE	IF	CITATIONS
19	Secular trends of hypospadias prevalence and factors associated with it in southeast China during 1993–2005. <i>Birth Defects Research Part A: Clinical and Molecular Teratology</i> , 2010, 88, 458-465.	1.6	22
20	Folic acid supplementation and risk for congenital limb reduction defects in China. <i>International Journal of Epidemiology</i> , 2019, 48, 2010-2017.	0.9	21
21	Associations between hair levels of trace elements and the risk of preterm birth among pregnant women: A prospective nested case-control study in Beijing Birth Cohort (BBC), China. <i>Environment International</i> , 2022, 158, 106965.	4.8	20
22	Periconceptional folic acid supplementation and sex difference in prevention of neural tube defects and their subtypes in China: results from a large prospective cohort study. <i>Nutrition Journal</i> , 2018, 17, 115.	1.5	19
23	Maternal hypertension, preeclampsia, and risk of neonatal respiratory disorders in a large-prospective cohort study. <i>Pregnancy Hypertension</i> , 2020, 19, 131-137.	0.6	19
24	Tea Drinking as a Risk Factor for Neural Tube Defects in Northern China. <i>Epidemiology</i> , 2011, 22, 491-496.	1.2	18
25	Iron-Containing Micronutrient Supplementation of Chinese Women with No or Mild Anemia during Pregnancy Improved Iron Status but Did Not Affect Perinatal Anemia. <i>Journal of Nutrition</i> , 2014, 144, 943-948.	1.3	18
26	Prevalence of anaemia among pregnant women in south-east China, 1993–2005. <i>Public Health Nutrition</i> , 2010, 13, 1511-1518.	1.1	17
27	Levels of folate receptor autoantibodies in maternal and cord blood and risk of neural tube defects in a Chinese population. <i>Birth Defects Research Part A: Clinical and Molecular Teratology</i> , 2016, 106, 685-695.	1.6	16
28	Association of maternal chronic arsenic exposure with the risk of neural tube defects in Northern China. <i>Environment International</i> , 2019, 126, 222-227.	4.8	16
29	Maternal serum level of manganese, single nucleotide polymorphisms, and risk of spontaneous preterm birth: A nested case-control study in China. <i>Environmental Pollution</i> , 2020, 262, 114187.	3.7	16
30	Plasma folate levels in early to mid pregnancy after a nationwide folic acid supplementation program in areas with high and low prevalence of neural tube defects in china. <i>Birth Defects Research Part A: Clinical and Molecular Teratology</i> , 2015, 103, 501-508.	1.6	15
31	Effects of vitamin D supplementation during pregnancy on neonatal vitamin D and calcium concentrations: a systematic review and meta-analysis. <i>Nutrition Research</i> , 2015, 35, 547-556.	1.3	15
32	Maternal Obesity, Caesarean Delivery and Caesarean Delivery on Maternal Request: a Cohort Analysis from China. <i>Paediatric and Perinatal Epidemiology</i> , 2015, 29, 232-240.	0.8	14
33	Maternal haemoglobin concentration and risk of preterm birth in a Chinese population. <i>Journal of Obstetrics and Gynaecology</i> , 2018, 38, 32-37.	0.4	13
34	Recommended acceptable levels of maternal serum typical toxic metals from the perspective of spontaneous preterm birth in Shanxi Province, China. <i>Science of the Total Environment</i> , 2019, 686, 599-605.	3.9	13
35	Preconception blood pressure and risk of gestational hypertension and preeclampsia: a large cohort study in China. <i>Hypertension Research</i> , 2020, 43, 956-962.	1.5	13
36	Preconception Blood Pressure and Risk of Low Birth Weight and Small for Gestational Age. <i>Hypertension</i> , 2016, 68, 873-879.	1.3	12

#	ARTICLE	IF	CITATIONS
37	Association Between Chronic Exposure to Tobacco Smoke and Accumulation of Toxic Metals in Hair Among Pregnant Women. <i>Biological Trace Element Research</i> , 2018, 185, 302-310.	1.9	12
38	Potential interference on the lipid metabolisms by serum copper in a women population: A repeated measurement study. <i>Science of the Total Environment</i> , 2021, 760, 143375.	3.9	12
39	Association between maternal COMT gene polymorphisms and fetal neural tube defects risk in a Chinese population. <i>Birth Defects Research Part A: Clinical and Molecular Teratology</i> , 2014, 100, 22-29.	1.6	10
40	Effects of Prenatal Micronutrient Supplementation on Spontaneous Preterm Birth: A Double-Blind Randomized Controlled Trial in China. <i>American Journal of Epidemiology</i> , 2017, 186, 318-325.	1.6	10
41	Associations of maternal exposure to 41 metals/metalloids during early pregnancy with the risk of spontaneous preterm birth: Does oxidative stress or DNA methylation play a crucial role?. <i>Environment International</i> , 2022, 158, 106966.	4.8	10
42	Environmental titanium exposure and reproductive health: Risk of low birth weight associated with maternal titanium exposure from a nested case-control study in northern China. <i>Ecotoxicology and Environmental Safety</i> , 2021, 208, 111632.	2.9	9
43	Preconception blood pressure and risk of preterm birth. <i>Journal of Hypertension</i> , 2016, 34, 2243-2247.	0.3	8
44	Variants in maternal COMT and MTHFR genes and risk of neural tube defects in offspring. <i>Metabolic Brain Disease</i> , 2015, 30, 507-513.	1.4	7
45	Poor sleep during the periconceptional period increases risk for neural tube defects in offspring. <i>Birth Defects Research Part A: Clinical and Molecular Teratology</i> , 2015, 103, 780-786.	1.6	6
46	Impact of gestational hypertension and preeclampsia on fetal gender: A large prospective cohort study in China. <i>Pregnancy Hypertension</i> , 2019, 18, 132-136.	0.6	6
47	Periconceptional folic acid supplementation and risk of parent-reported asthma in children at 4–6 years of age. <i>ERJ Open Research</i> , 2020, 6, 00250-2019.	1.1	6
48	Association of Rare Earth Elements with Passive Smoking among Housewives in Shanxi Province, China. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 559.	1.2	6
49	Tea consumption is not associated with reduced plasma folate concentration among chinese pregnant women. <i>Birth Defects Research Part A: Clinical and Molecular Teratology</i> , 2015, 103, 747-753.	1.6	5
50	Folic acid supplementation and risk for congenital hydrocephalus in China. <i>Public Health Nutrition</i> , 2021, 24, 4238-4244.	1.1	4
51	Preconception Hemoglobin Concentration and Risk of Low Birth Weight and Small-for-Gestational-Age: A Large Prospective Cohort Study in China. <i>Nutrients</i> , 2022, 14, 271.	1.7	4
52	The impact of self-reported preconception body mass index on gestational abnormal glucose tolerance in a Chinese center. <i>Journal of Diabetes and Its Complications</i> , 2018, 32, 951-954.	1.2	3
53	Folic acid supplementation and risk for fetal abdominal wall defects in China: results from a large population-based intervention cohort study. <i>British Journal of Nutrition</i> , 2021, 126, 1558-1563.	1.2	3
54	Effects of prenatal micronutrients supplementation timing on pregnancy-induced hypertension: Secondary analysis of a double-blind randomized controlled trial. <i>Maternal and Child Nutrition</i> , 2021, 17, e13157.	1.4	3

#	ARTICLE	IF	CITATIONS
55	Distribution of mercury in serum and blood cells and risk of spontaneous preterm birth: A nested caseâ€“control study in China. <i>Ecotoxicology and Environmental Safety</i> , 2021, 217, 112228.	2.9	3
56	Associations between blood heavy metal(loid)s and serum heme oxygenase-1 in pregnant women: Do their distribution patterns matter?. <i>Environmental Pollution</i> , 2021, 286, 117249.	3.7	3
57	Impact of cervical length on preterm birth in northern China: a prospective cohort study. <i>Journal of Maternal-Fetal and Neonatal Medicine</i> , 2020, 33, 3209-3214.	0.7	2
58	Association of Infants Small for Gestational Age with Anemia under Five Years Old in Two Large Longitudinal Chinese Birth Cohorts. <i>Nutrients</i> , 2022, 14, 1006.	1.7	2
59	Association between gestational weight gain and exclusive breast-feeding for the first 6 months postpartum in Chinese women. <i>Public Health Nutrition</i> , 2019, 22, 2092-2098.	1.1	1
60	Association between tea drinking and plasma folate concentration among women aged 18â€“30 years in China. <i>Public Health Nutrition</i> , 2021, 24, 4929-4936.	1.1	1
61	Association of Gestational Hypertension with Anemia under 5 Years Old: Two Large Longitudinal Chinese Birth Cohorts. <i>Nutrients</i> , 2022, 14, 1621.	1.7	0
