

Sheng-Fu Cheng

List of Publications by Citations

Source: <https://exaly.com/author-pdf/8024253/sheng-fu-cheng-publications-by-citations.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
21	Clinical outcomes in patients undergoing laparoscopic adrenalectomy for unilateral aldosterone producing adenoma: partial versus total adrenalectomy. <i>Journal of Endourology</i> , 2014 , 28, 1103-6	2.7	28
20	Videourodynamic analysis of the urethral sphincter overactivity and the poor relaxing pelvic floor muscles in women with voiding dysfunction. <i>Neurourology and Urodynamics</i> , 2017 , 36, 2169-2175	2.3	17
19	Therapeutic efficacy of low-dose (25 mg) mirabegron therapy for patients with mild to moderate overactive bladder symptoms due to central nervous system diseases. <i>LUTS: Lower Urinary Tract Symptoms</i> , 2019 , 11, O53-O58	1.9	15
18	Therapeutic outcome and patient adherence to repeated onabotulinumtoxinA detrusor injections in chronic spinal cord-injured patients and neurogenic detrusor overactivity. <i>Journal of the Formosan Medical Association</i> , 2015 , 114, 583-9	3.2	13
17	Different number of intravesical onabotulinumtoxinA injections for patients with refractory detrusor overactivity do not affect treatment outcome: A prospective randomized comparative study. <i>Neurourology and Urodynamics</i> , 2016 , 35, 717-23	2.3	13
16	Therapeutic effect of urethral sphincter onabotulinumtoxinA injection for urethral sphincter hyperactivity. <i>Neurourology and Urodynamics</i> , 2018 , 37, 2651-2657	2.3	13
15	Urothelial Dysfunction and Chronic Inflammation are Associated With Increased Bladder Sensation in Patients With Chronic Renal Insufficiency. <i>International Neurourology Journal</i> , 2018 , 22, S46-54	2.6	9
14	Videourodynamic factors predictive of successful onabotulinumtoxinA urethral sphincter injection for neurogenic or non-neurogenic detrusor underactivity. <i>LUTS: Lower Urinary Tract Symptoms</i> , 2019 , 11, 66-71	1.9	9
13	Urinary biomarkers in patients with detrusor underactivity with and without bladder function recovery. <i>International Urology and Nephrology</i> , 2017 , 49, 1763-1770	2.3	8
12	Bladder management and urological complications in patients with chronic spinal cord injuries in Taiwan. <i>Tzu Chi Medical Journal</i> , 2014 , 26, 25-28	1.1	8
11	Frontiers in the Clinical Applications of Botulinum Toxin A as Treatment for Neurogenic Lower Urinary Tract Dysfunction. <i>International Neurourology Journal</i> , 2020 , 24, 301-312	2.6	6
10	Clinical Efficacy and Changes of Urothelial Dysfunction after Repeated Detrusor Botulinum Toxin A Injections in Chronic Spinal Cord-Injured Bladder. <i>Toxins</i> , 2016 , 8,	4.9	6
9	Changes in sensory proteins in the bladder urothelium of patients with chronic kidney disease and end-stage renal disease. <i>LUTS: Lower Urinary Tract Symptoms</i> , 2019 , 11, O202-O208	1.9	6
8	Change of Detrusor Contractility in Patients with and without Bladder Outlet Obstruction at Ten or More Years of follow-up. <i>Scientific Reports</i> , 2019 , 9, 18887	4.9	5
7	Practical points in the medical treatment of overactive bladder and nocturia in the elderly. <i>Tzu Chi Medical Journal</i> , 2016 , 28, 1-5	1.1	3
6	Will detrusor acontractility recover after medical or surgical treatment? A longitudinal long-term urodynamic follow-up. <i>Neurourology and Urodynamics</i> , 2021 , 40, 228-236	2.3	3
5	Therapeutic Effects of Urethral Sphincter Botulinum Toxin A Injection on Dysfunctional Voiding with Different Videourodynamic Characteristics in Non-Neurogenic Women. <i>Toxins</i> , 2021 , 13,	4.9	1

4	Single onabotulinumtoxinA 200U dose improved clinical symptoms but not urothelial dysfunction in neurogenic detrusor overactivity due to spinal cord injury. <i>Journal of the Formosan Medical Association</i> , 2019 , 118, 125-133	3.2	1
3	Will repeated botulinum toxin A improve detrusor overactivity and bladder compliance in patients with chronic spinal cord injury?. <i>Tzu Chi Medical Journal</i> , 2021 , 33, 101-107	1.1	1
2	Treatment outcomes of detrusor underactivity in women based on clinical and videourodynamic characteristics.. <i>International Urology and Nephrology</i> , 2022 , 1	2.3	1
1	Effect of videourodynamic subtypes on treatment outcomes of female dysfunctional voiding.. <i>International Urogynecology Journal</i> , 2022 , 1	2	0
