#	ARTICLE	IF	CITATIONS
1	Mild cognitive impairment and deficits in instrumental activities of daily living: a systematic review. <i>Alzheimer's Research and Therapy</i> , 2015, 7, 17.	3.0	419
2	How can we get access to the experiences of people with dementia?. <i>Scandinavian Journal of Occupational Therapy</i> , 2006, 13, 101-112.	1.1	157
3	Instrumental activities of daily living: a stepping-stone towards Alzheimer's disease diagnosis in subjects with mild cognitive impairment?. <i>Acta Neurologica Scandinavica</i> , 2003, 107, 42-46.	1.0	137
4	Perceived difficulty in everyday technology use among older adults with or without cognitive deficits. <i>Scandinavian Journal of Occupational Therapy</i> , 2009, 16, 216-226.	1.1	124
5	Detection of activity limitations in older adults with MCI or Alzheimer's disease through evaluation of perceived difficulty in use of everyday technology: A replication study. <i>Aging and Mental Health</i> , 2012, 16, 361-371.	1.5	75
6	Readiness for Technology Use With People With Dementia. <i>Journal of Applied Gerontology</i> , 2012, 31, 510-530.	1.0	69
7	Accessibility in public space as perceived by people with Alzheimer's disease. <i>Dementia</i> , 2011, 10, 587-602.	1.0	63
8	Everyday Technology Use Questionnaire: Psychometric Evaluation of a New Assessment of Competence in Technology Use. <i>OTJR Occupation, Participation and Health</i> , 2009, 29, 52-62.	0.4	61
9	Responses of Persons With Dementia To Challenges in Daily Activities: A Synthesis of Findings From Empirical Studies. <i>American Journal of Occupational Therapy</i> , 2004, 58, 435-445.	0.1	57
10	A Life-World of Altering Meaning: Expressions of the Illness Experience of Dementia in Everyday Life over 3 Years. <i>Occupation Participation and Health</i> , 1998, 18, 109-136.	0.9	53
11	Telephone use among noninstitutionalized persons with dementia living alone: Mapping out difficulties and response strategies. <i>Scandinavian Journal of Caring Sciences</i> , 2003, 17, 239-249.	1.0	53
12	Living With Ambiguity: A Metasynthesis of Qualitative Research on Mild Cognitive Impairment. <i>Gerontologist</i> , The, 2015, 55, 892-912.	2.3	50
13	Significant junctures on the way towards becoming a user of assistive technology in Alzheimer's disease. <i>Scandinavian Journal of Occupational Therapy</i> , 2013, 20, 386-396.	1.1	48
14	Psychometric evaluation of a new assessment of the ability to manage technology in everyday life. <i>Scandinavian Journal of Occupational Therapy</i> , 2011, 18, 26-35.	1.1	46
15	Persons with dementia become users of assistive technology: A study of the process. <i>Dementia</i> , 2012, 11, 135-154.	1.0	45
16	Assistive Technologies to Address Capabilities of People with Dementia: From Research to Practice. <i>Dementia</i> , 2019, 18, 1568-1595.	1.0	45
17	How older adults with mild cognitive impairment relate to technology as part of present and future everyday life: a qualitative study. <i>BMC Geriatrics</i> , 2016, 16, 73.	1.1	38
18	Access to and use of everyday technology among older people: An occupational justice issue – but for whom?. <i>Journal of Occupational Science</i> , 2016, 23, 382-388.	0.7	33

#	ARTICLE	IF	CITATIONS
19	Development of a short-form assessment for detection of subtle activity limitations: can use of everyday technology distinguish between MCI and Alzheimer's disease?. <i>Expert Review of Neurotherapeutics</i> , 2011, 11, 647-655.	1.4	29
20	Users' and professionals' contributions in the process of designing an easy-to-use videophone for people with dementia. <i>Disability and Rehabilitation: Assistive Technology</i> , 2014, 9, 164-172.	1.3	29
21	Using a screening tool to evaluate potential use of e-health services for older people with and without cognitive impairment. <i>Aging and Mental Health</i> , 2014, 18, 340-345.	1.5	29
22	Individual variability and environmental characteristics influence older adults' abilities to manage everyday technology. <i>International Psychogeriatrics</i> , 2012, 24, 484-495.	0.6	28
23	Managing critical incidents in grocery shopping by community-living people with Alzheimer's disease. <i>Scandinavian Journal of Occupational Therapy</i> , 2013, 20, 292-301.	1.1	28
24	Awareness through interaction in everyday occupations: Experiences of people with Alzheimer's disease. <i>Scandinavian Journal of Occupational Therapy</i> , 2008, 15, 43-51.	1.1	27
25	Learning and using technology in intertwined processes: A study of people with mild cognitive impairment or Alzheimer's disease. <i>Dementia</i> , 2014, 13, 662-677.	1.0	27
26	Access technology and dementia care: Influences on residents' everyday lives in a secure unit. <i>Scandinavian Journal of Occupational Therapy</i> , 2006, 13, 113-124.	1.1	26
27	Using a timer device for the stove: Experiences of older adults with memory impairment or dementia and their families. <i>Technology and Disability</i> , 2008, 20, 179-191.	0.3	26
28	Amount and type of everyday technology use over time in older adults with cognitive impairment. <i>Scandinavian Journal of Occupational Therapy</i> , 2015, 22, 196-206.	1.1	25
29	Perceived difficulty in use of everyday technology in persons with acquired brain injury of different severity: A comparison with controls. <i>Journal of Rehabilitation Medicine</i> , 2014, 46, 635-641.	0.8	24
30	Learning and knowing technology as lived experience in people with Alzheimer's disease: a phenomenological study. <i>Aging and Mental Health</i> , 2017, 21, 1272-1279.	1.5	24
31	Engagement in Instrumental Activities of Daily Living, Social Activities, and Use of Everyday Technology in Older Adults with and without Cognitive Impairment. <i>British Journal of Occupational Therapy</i> , 2014, 77, 565-573.	0.5	23
32	Experiences from using eHealth in contact with health care among older adults with cognitive impairment. <i>Scandinavian Journal of Caring Sciences</i> , 2019, 33, 380-389.	1.0	22
33	The use of everyday information communication technologies in the lives of older adults living with and without dementia in Sweden. <i>Assistive Technology</i> , 2021, 33, 333-340.	1.2	20
34	Development of a Questionnaire to Evaluate Out-of-Home Participation for People With Dementia. <i>American Journal of Occupational Therapy</i> , 2019, 73, 7301205030p1-7301205030p10.	0.1	20
35	Changes in the technological landscape over time: Relevance and difficulty levels of everyday technologies as perceived by older adults with and without cognitive impairment. <i>Technology and Disability</i> , 2015, 27, 91-101.	0.3	19
36	Associations between performance of activities of daily living and everyday technology use among older adults with mild stage Alzheimer's disease or mild cognitive impairment. <i>Scandinavian Journal of Occupational Therapy</i> , 2015, 22, 33-42.	1.1	19

#	ARTICLE	IF	CITATIONS
37	Differences in the use of everyday technology among persons with MCI, SCI and older adults without known cognitive impairment. <i>International Psychogeriatrics</i> , 2017, 29, 1193-1200.	0.6	19
38	Everyday technologies and public space participation among people with and without dementia. <i>Canadian Journal of Occupational Therapy</i> , 2019, 86, 000841741983776.	0.8	19
39	Factors that impact the level of difficulty of everyday technology in a sample of older adults with and without cognitive impairment. <i>Technology and Disability</i> , 2011, 23, 243-250.	0.3	18
40	Patterns of functioning in older adults with mild cognitive impairment: a two-year study focusing on everyday technology use. <i>Aging and Mental Health</i> , 2013, 17, 679-688.	1.5	18
41	Participation after acquired brain injury: Associations with everyday technology and activities in daily life. <i>Scandinavian Journal of Occupational Therapy</i> , 2015, 22, 366-376.	1.1	18
42	Design and Management Features of Everyday Technology That Challenge Older Adults. <i>British Journal of Occupational Therapy</i> , 2013, 76, 390-398.	0.5	17
43	Perceived difficulty in the use of everyday technology: relationships with everyday functioning in people with acquired brain injury with a special focus on returning to work. <i>Disability and Rehabilitation</i> , 2014, 36, 1618-1625.	0.9	17
44	Everyday Technology Use Related to Activity Involvement Among People in Cognitive Decline. <i>American Journal of Occupational Therapy</i> , 2017, 71, 7105190040p1-7105190040p8.	0.1	17
45	The provision of stove timers to individuals with cognitive impairment. <i>Scandinavian Journal of Occupational Therapy</i> , 2008, 15, 4-12.	1.1	16
46	How attention to everyday technology could contribute to modern occupational therapy: A focus group study. <i>British Journal of Occupational Therapy</i> , 2016, 79, 467-474.	0.5	16
47	Challenge levels of everyday technologies as perceived over five years by older adults with mild cognitive impairment. <i>International Psychogeriatrics</i> , 2018, 30, 1447-1454.	0.6	16
48	Being a pedestrian with dementia: A qualitative study using photo documentation and focus group interviews. <i>Dementia</i> , 2016, 15, 1124-1140.	1.0	15
49	The contrasting role of technology as both supportive and hindering in the everyday lives of people with mild cognitive deficits: a focus group study. <i>BMC Geriatrics</i> , 2018, 18, 185.	1.1	15
50	Validation of the Everyday Technology Use Questionnaire in a Japanese Context. <i>Hong Kong Journal of Occupational Therapy</i> , 2015, 26, 1-8.	0.2	14
51	Sustaining care for a parent with dementia: an indefinite and intertwined process. <i>International Journal of Qualitative Studies on Health and Well-being</i> , 2017, 12, 1389578.	0.6	14
52	Everyday technology use among older adults in Sweden and Portugal. <i>Scandinavian Journal of Occupational Therapy</i> , 2018, 25, 436-445.	1.1	13
53	Patterns of everyday technology use and activity involvement in mild cognitive impairment: a five-year follow-up study. <i>Aging and Mental Health</i> , 2018, 22, 603-610.	1.5	13
54	Social Participation in Relation to Technology Use and Social Deprivation: A Mixed Methods Study Among Older People with and without Dementia. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 4022.	1.2	13

#	ARTICLE	IF	CITATIONS
55	An approach to facilitate healthcare professionals' readiness to support technology use in everyday life for persons with dementia. <i>Scandinavian Journal of Occupational Therapy</i> , 2014, 21, 199-209.	1.1	12
56	Can the everyday technology use questionnaire predict overall functional level among older adults with mild cognitive impairment or mild-stage alzheimer's disease? â€” a pilot study. <i>Scandinavian Journal of Caring Sciences</i> , 2017, 31, 201-209.	1.0	12
57	Older adults' experiences of daily life occupations as everyday technology changes. <i>British Journal of Occupational Therapy</i> , 2018, 81, 601-608.	0.5	11
58	The stove timer as a device for older adults with cognitive impairment or dementia: Different professionals' reasoning and actions. <i>Technology and Disability</i> , 2009, 21, 53-66.	0.3	10
59	Everyday technology use among people with mental retardation: relevance, perceived difficulty, and influencing factors. <i>Scandinavian Journal of Occupational Therapy</i> , 2014, 21, 210-218.	1.1	10
60	Making use of research: Clinical views on an evaluation of everyday technology use. <i>Scandinavian Journal of Occupational Therapy</i> , 2015, 22, 24-32.	1.1	10
61	Changing everyday activities and technology use in mild cognitive impairment. <i>British Journal of Occupational Therapy</i> , 2016, 79, 111-119.	0.5	10
62	Skill clusters of ability to manage everyday technology among people with and without cognitive impairment, dementia and acquired brain injury. <i>Scandinavian Journal of Occupational Therapy</i> , 2018, 25, 99-107.	1.1	10
63	Familiarity and participation outside home for persons living with dementia. <i>Dementia</i> , 2021, 20, 2526-2541.	1.0	10
64	Exploring How Persons with Dementia and Care Partners Collaboratively Appropriate Information and Communication Technologies. <i>ACM Transactions on Computer-Human Interaction</i> , 2020, 27, 1-38.	4.6	10
65	Activities people with cognitive deficits want to continue mastering â€” A scoping study. <i>British Journal of Occupational Therapy</i> , 2016, 79, 399-408.	0.5	9
66	Gender and diagnostic impact on everyday technology use: a differential item functioning (DIF) analysis of the Everyday Technology Use Questionnaire (ETUQ). <i>Disability and Rehabilitation</i> , 2019, 41, 2688-2694.	0.9	9
67	How accessible are grocery shops for people with dementia? A qualitative study using photo documentation and focus group interviews. <i>Dementia</i> , 2020, 19, 1872-1888.	1.0	9
68	Visiting Out-of-Home Places When Living With Dementia: A Cross-Sectional Observational Study: Visiter des lieux hors du domicile lorsque l'on vit avec une d�mence: �tude transversale observationnelle. <i>Canadian Journal of Occupational Therapy</i> , 2021, 88, 131-141.	0.8	9
69	The perceived challenge of everyday technologies in Sweden, the United States and England: Exploring differential item functioning in the everyday technology use questionnaire. <i>Scandinavian Journal of Occupational Therapy</i> , 2020, 27, 554-566.	1.1	7
70	Self-initiated management approaches in everyday occupations used by people with acquired cognitive impairment. <i>Scandinavian Journal of Occupational Therapy</i> , 2022, 29, 139-151.	1.1	7
71	Everyday technology use among older adults in Sweden and Japan: A comparative study. <i>Scandinavian Journal of Occupational Therapy</i> , 2018, 25, 446-456.	1.1	6
72	Perceived risks, concession travel pass access and everyday technology use for out-of-home participation: cross-sectional interviews among older people in the UK. <i>BMC Geriatrics</i> , 2020, 20, 192.	1.1	6

#	ARTICLE	IF	CITATIONS
73	Depression, everyday technology use and life satisfaction in older adults with cognitive impairments: a cross-sectional exploratory study. <i>Scandinavian Journal of Caring Sciences</i> , 2021, 35, 233-243.	1.0	6
74	Understanding exercise promotion in rheumatic diseases: A qualitative study among physical therapists. <i>Physiotherapy Theory and Practice</i> , 2021, 37, 963-972.	0.6	5
75	Perceived difficulty in everyday technology use among older adults with or without cognitive deficits. <i>Scandinavian Journal of Occupational Therapy</i> , 0, , 1-11.	1.1	5
76	Kaleidoscopic associations between life outside home and the technological environment that shape occupational injustice as revealed through cross-sectional statistical modelling. <i>Journal of Occupational Science</i> , 2021, 28, 42-58.	0.7	3
77	Enacting citizenship through participation in a technological society: a longitudinal three-year study among people with dementia in Sweden. <i>Ageing and Society</i> , 0, , 1-22.	1.2	3
78	Does the purpose matter? A comparison of everyday information and communication technologies between eHealth use and general use as perceived by older adults with cognitive impairment. <i>Disability and Rehabilitation: Assistive Technology</i> , 2022, 17, 897-906.	1.3	2
79	Test-retest reliability of the short version of the everyday technology use questionnaire (S-ETUQ). <i>Scandinavian Journal of Occupational Therapy</i> , 2020, 27, 567-576.	1.1	2
80	The use of everyday technology; a comparison of older persons with cognitive impairments' self-reports and their proxies' reports. <i>British Journal of Occupational Therapy</i> , 2021, 84, 446-455.	0.5	2
81	Out-of-home participation among people living with dementia: A study in four countries. <i>Dementia</i> , 2022, 21, 1636-1652.	1.0	2
82	Social Citizenship Through Out-of-Home Participation Among Older Adults With and Without Dementia. <i>Journal of Applied Gerontology</i> , 0, , 073346482211124.	1.0	1
83	Communication and engagement as potentiality in everyday life between persons with young onset dementia living in a nursing home and caregivers. <i>International Journal of Qualitative Studies on Health and Well-being</i> , 2022, 17, 2035305.	0.6	0
