citing authors

#	ARTICLE	IF	CITATIONS
1	A Novel Use of Nanocrystalline Suspensions to Develop Sub-Microgram Dose Micro-Tablets. Journal of Pharmaceutical Sciences, 2021, 110, 3276-3288.	3.3	6
2	Role of wetting agents and disintegrants in development of danazol nanocrystalline tablets. International Journal of Pharmaceutics, 2020, 577, 119026.	5.2	8
3	Downstream processing of irbesartan nanocrystalline suspension and mini-tablet development “ Part II. International Journal of Pharmaceutics, 2019, 568, 118509.	5.2	10
4	Formulation and performance of Irbesartan nanocrystalline suspension and granulated or bead-layered dried powders “ Part I. International Journal of Pharmaceutics, 2019, 568, 118189.	5.2	25
5	Formulation design and evaluation of amorphous ABT-102 nanoparticles. International Journal of Pharmaceutics, 2016, 498, 153-169.	5.2	20
6	Formulation and Performance of Danazol Nano-crystalline Suspensions and Spray Dried Powders. Pharmaceutical Research, 2015, 32, 1694-1703.	3.5	19
7	Optimization and dissolution performance of spray-dried naproxen nano-crystals. International Journal of Pharmaceutics, 2015, 486, 159-166.	5.2	26
8	In Vitro and In Vivo Performance of Different Sized Spray-Dried Crystalline Itraconazole. Journal of Pharmaceutical Sciences, 2015, 104, 3018-3028.	3.3	29
9	Formulation parameters of crystalline nanosuspensions on spray drying processing: A DoE approach. International Journal of Pharmaceutics, 2014, 464, 34-45.	5.2	45
10	Quality by Design approach to spray drying processing of crystalline nanosuspensions. International Journal of Pharmaceutics, 2014, 464, 234-242.	5.2	55
11	Nano-amorphous spray dried powder to improve oral bioavailability of itraconazole. Journal of Controlled Release, 2014, 192, 95-102.	9.9	61
12	Wet milling induced physical and chemical instabilities of naproxen nano-crystalline suspensions. International Journal of Pharmaceutics, 2014, 466, 223-232.	5.2	48
13	A new combination approach of CI jet and QESD to formulate pH-susceptible amorphous solid dispersions. International Journal of Pharmaceutics, 2014, 466, 368-374.	5.2	8
14	Sugars as bulking agents to prevent nano-crystal aggregation during spray or freeze-drying. International Journal of Pharmaceutics, 2014, 471, 303-311.	5.2	65
15	Physical stability of nanosuspensions: Investigation of the role of stabilizers on Ostwald ripening. International Journal of Pharmaceutics, 2011, 406, 145-152.	5.2	220
