#	ARTICLE	IF	CITATIONS
1	Which training methods are effective for learning new smartphone memory apps after acquired brain injury? A pilot randomized controlled trial comparing trial and error, systematic instruction and error-based learning. <i>Neuropsychological Rehabilitation</i> , 2023, 33, 139-172.	1.0	6
2	“Hey, I’m still here!” Maintaining, managing and rebuilding social connections after brain tumour. <i>Neuropsychological Rehabilitation</i> , 2023, 33, 454-479.	1.0	4
3	Feasibility and acceptability of a telehealth platform for delivering the Making Sense of Brain Tumour programme: A mixed-methods pilot study. <i>Neuropsychological Rehabilitation</i> , 2022, 32, 378-406.	1.0	7
4	A systematic review of siblings’ psychosocial outcomes following traumatic brain injury. <i>Disability and Rehabilitation</i> , 2022, 44, 496-508.	0.9	5
5	A Pilot Study of Clinicians' Perceptions of Feasibility, Client-Centeredness, and Usability of the Systematic Tailored Assessment for Responding to Suicidality Protocol. <i>Crisis</i> , 2022, 43, 523-530.	0.9	3
6	Overcoming Age-Based Stereotypes to Optimize Cognitive Performance in Older Adults: A Systematic Review of Methodology and Existing Evidence. <i>Gerontologist</i> , The, 2022, 62, e206-e223.	2.3	3
7	A systematic review of self-concept change in multiple sclerosis. <i>Neuropsychological Rehabilitation</i> , 2022, 32, 1774-1813.	1.0	3
8	Improving self-awareness of prospective memory function after TBI using experiential feedback on a board game activity: An observational study. <i>Neuropsychological Rehabilitation</i> , 2022, , 1-24.	1.0	0
9	Supportive care of patients diagnosed with high grade glioma and their carers in Australia. <i>Journal of Neuro-Oncology</i> , 2022, 157, 475-485.	1.4	5
10	Scoping the psychological support practices of Australian health professionals working with people with primary brain tumor and their families. <i>Psycho-Oncology</i> , 2022, 31, 1313-1321.	1.0	9
11	Evaluation of an occupation-based metacognitive intervention targeting awareness, executive function and goal-related outcomes after traumatic brain injury using single-case experimental design methodology. <i>Neuropsychological Rehabilitation</i> , 2021, 31, 1527-1556.	1.0	3
12	A comparison of systematic instruction, error-based learning and trial and error to train the use of smartphone memory apps after acquired brain injury: A three-armed phase II randomised controlled trial study protocol. <i>Brain Impairment</i> , 2021, 22, 217-232.	0.5	4
13	Use of telehealth platforms for delivering supportive care to adults with primary brain tumors and their family caregivers: A systematic review. <i>Psycho-Oncology</i> , 2021, 30, 16-26.	1.0	30
14	Impaired Self-Awareness after Pediatric Traumatic Brain Injury: Protective Factor or Liability?. <i>Journal of Neurotrauma</i> , 2021, 38, 616-627.	1.7	13
15	Feasibility of modifying the hospital environment to reduce the length of amnesia after traumatic brain injury: a pilot randomized controlled trial. <i>International Journal for Quality in Health Care</i> , 2021, 33, .	0.9	3
16	Electronic finance-related outcome measures (eFROMs): a new approach to screen for cancer-related financial toxicity in clinical practice. <i>Supportive Care in Cancer</i> , 2021, 29, 5549-5551.	1.0	4
17	Measuring domain-specific deficits in self-awareness in children and adolescents with acquired brain injury: Component analysis of the Paediatric Awareness Questionnaire. <i>Neuropsychological Rehabilitation</i> , 2021, , 1-21.	1.0	4
18	Revisiting the Age-Prospective Memory Paradox Using Laboratory and Ecological Tasks. <i>Frontiers in Psychology</i> , 2021, 12, 691752.	1.1	4

#	ARTICLE	IF	CITATIONS
19	Impact of Systematic Tailored Assessment for Responding to Suicidality (STARS) Protocol Training on Mental Health Professionals' Attitudes, Perceived Capabilities, Knowledge, and Reluctance to Intervene. <i>Frontiers in Psychiatry</i> , 2021, 12, 827060.	1.3	4
20	Domain-specific deficits in self-awareness and relationship to psychosocial outcomes after severe traumatic brain injury. <i>Disability and Rehabilitation</i> , 2020, 42, 651-659.	0.9	27
21	Psychosocial functioning following moderate-to-severe pediatric traumatic brain injury: recommended outcome instruments for research and remediation studies. <i>Neuropsychological Rehabilitation</i> , 2020, 30, 973-987.	1.0	7
22	The nature of occupational gaps and relationship with mood, psychosocial functioning and self-discrepancy after severe traumatic brain injury. <i>Disability and Rehabilitation</i> , 2020, 42, 1414-1422.	0.9	14
23	Personality characteristics and cognitive appraisals associated with self-discrepancy after severe traumatic brain injury. <i>Neuropsychological Rehabilitation</i> , 2020, 30, 393-411.	1.0	9
24	An exploratory study of verbal feedback on occupational performance for improving self-awareness in people with traumatic brain injury. <i>Australian Occupational Therapy Journal</i> , 2020, 67, 142-152.	0.6	7
25	End-of-life care in ICU – what clinicians think. <i>Australian Critical Care</i> , 2020, 33, S12.	0.6	0
26	How I See and Feel About Myself: Domain-Specific Self-Concept and Self-Esteem in Autistic Adults. <i>Frontiers in Psychology</i> , 2020, 11, 913.	1.1	25
27	Perceived Usability and Acceptability of Videoconferencing for Delivering Community-Based Rehabilitation to Individuals with Acquired Brain Injury: A Qualitative Investigation. <i>Journal of the International Neuropsychological Society</i> , 2020, 26, 47-57.	1.2	21
28	Investigation of children and adolescents' mood and self-concept after acquired brain injury. <i>Child Neuropsychology</i> , 2020, 26, 1005-1025.	0.8	10
29	Self-focused processing after severe traumatic brain injury: Relationship to neurocognitive functioning and mood symptoms. <i>British Journal of Clinical Psychology</i> , 2019, 58, 35-50.	1.7	7
30	Evaluation of a telehealth psychological support intervention for people with primary brain tumour and their family members: Study protocol for a randomised controlled trial. <i>European Journal of Cancer Care</i> , 2019, 28, e13132.	0.7	13
31	Subjective cognitive functioning and associations with psychological distress in adult brain tumour survivors. <i>Journal of Cancer Survivorship</i> , 2019, 13, 653-662.	1.5	23
32	Adaptations to cognitive problems reported by breast cancer survivors seeking cognitive rehabilitation: A qualitative study. <i>Psycho-Oncology</i> , 2019, 28, 2042-2048.	1.0	5
33	Using a general theory of implementation to plan the introduction of delirium prevention for older people in hospital. <i>Journal of Nursing Management</i> , 2019, 27, 1631-1639.	1.4	6
34	The importance of staying connected: Mediating and moderating effects of social group memberships on psychological well-being after brain tumor. <i>Psycho-Oncology</i> , 2019, 28, 1537-1543.	1.0	14
35	Concordance between the Awareness Questionnaire and Self-Awareness of Deficits Interview for identifying impaired self-awareness in individuals with traumatic brain injury in the community. <i>Journal of Rehabilitation Medicine</i> , 2019, 51, 376-379.	0.8	11
36	Using telepresence for social connection: views of older people with dementia, families, and health professionals from a mixed methods pilot study. <i>Aging and Mental Health</i> , 2019, 23, 1643-1650.	1.5	29

#	ARTICLE	IF	CITATIONS
37	Can lifelike baby dolls reduce symptoms of anxiety, agitation, or aggression for people with dementia in long-term care? Findings from a pilot randomised controlled trial. <i>Aging and Mental Health</i> , 2019, 23, 1442-1450.	1.5	51
38	Outcome instruments in moderate-to-severe adult traumatic brain injury: recommendations for use in psychosocial research. <i>Neuropsychological Rehabilitation</i> , 2019, 29, 896-916.	1.0	51
39	The Big Five personality factors and psychological well-being following stroke: a systematic review. <i>Disability and Rehabilitation</i> , 2019, 41, 1119-1130.	0.9	14
40	A qualitative investigation of sense of self and continuity in younger adults with stroke. <i>Neuropsychological Rehabilitation</i> , 2019, 29, 273-288.	1.0	11
41	“We don’t even have Wi-Fi”: a descriptive study exploring current use and availability of communication technologies in residential aged care. <i>Contemporary Nurse</i> , 2018, 54, 35-43.	0.4	28
42	The social trajectory of brain tumor: a qualitative metasynthesis. <i>Disability and Rehabilitation</i> , 2018, 40, 1857-1869.	0.9	31
43	High-functioning autism spectrum disorder in adulthood: A systematic review of factors related to psychosocial outcomes. <i>Journal of Intellectual and Developmental Disability</i> , 2018, 43, 2-19.	1.1	24
44	Development and preliminary validation of the Paediatric Awareness Questionnaire for children and adolescents with traumatic brain injury. <i>Child Neuropsychology</i> , 2018, 24, 702-722.	0.8	10
45	Efficacy of Telerehabilitation for Adults With Traumatic Brain Injury: A Systematic Review. <i>Journal of Head Trauma Rehabilitation</i> , 2018, 33, E33-E46.	1.0	66
46	Relationship Between Neurocognitive Function and Self-Discrepancy After Severe Traumatic Brain Injury. <i>Journal of Head Trauma Rehabilitation</i> , 2018, 33, E42-E50.	1.0	8
47	A systematic review of factors related to children's quality of life and mental health after brain tumor. <i>Psycho-Oncology</i> , 2018, 27, 2317-2326.	1.0	25
48	Errors: Friend or foe?. , 2018, , 164-179.		6
49	A biopsychosocial investigation of changes in self-concept on the Head Injury Semantic Differential Scale. <i>Neuropsychological Rehabilitation</i> , 2017, 27, 1103-1123.	1.0	8
50	Associations between executive functions and mental health outcomes for adults with autism spectrum disorder. <i>Psychiatry Research</i> , 2017, 253, 360-363.	1.7	36
51	Reliability of the NEO Five Factor Inventory short form for assessing personality after stroke. <i>International Psychogeriatrics</i> , 2017, 29, 1157-1168.	0.6	6
52	The occurrence of early impaired self-awareness after traumatic brain injury and its relationship with emotional distress and psychosocial functioning. <i>Brain Injury</i> , 2017, 31, 1791-1798.	0.6	35
53	Potential of telepresence robots to enhance social connectedness in older adults with dementia: an integrative review of feasibility. <i>International Psychogeriatrics</i> , 2017, 29, 1951-1964.	0.6	70
54	Do People With Severe Traumatic Brain Injury Benefit From Making Errors? A Randomized Controlled Trial of Error-Based and Errorless Learning. <i>Neurorehabilitation and Neural Repair</i> , 2017, 31, 1072-1082.	1.4	45

#	ARTICLE	IF	CITATIONS
55	The Single-Case Reporting Guideline In BEhavioural Interventions (SCRIBE) 2016 Statement. Neuropsychological Rehabilitation, 2017, 27, 1-15.	1.0	37
56	An occupation-based, metacognitive approach to assessing error performance and online awareness. Australian Occupational Therapy Journal, 2017, 64, 137-148.	0.6	12
57	The efficacy of prospective memory rehabilitation plus metacognitive skills training for adults with traumatic brain injury: study protocol for a randomized controlled trial. Trials, 2017, 18, 3.	0.7	19
58	Cognitive Deficits Underlying Error Behavior on a Naturalistic Task after Severe Traumatic Brain Injury. Frontiers in Behavioral Neuroscience, 2016, 10, 190.	1.0	5
59	Independence of Hot and Cold Executive Function Deficits in High-Functioning Adults with Autism Spectrum Disorder. Frontiers in Human Neuroscience, 2016, 10, 24.	1.0	51
60	The Impact of Traumatic Brain Injury on Self-Identity. Journal of Head Trauma Rehabilitation, 2016, 31, E12-E25.	1.0	53
61	Coping with the Unthinkable: Psychosocial Advances in the Management of Primary Brain Tumour. Brain Impairment, 2016, 17, 265-272.	0.5	10
62	The Single-Case Reporting guideline In BEhavioural interventions (SCRIBE) 2016 statement. Journal of School Psychology, 2016, 56, 133-142.	1.5	38
63	The Single-Case Reporting Guideline In BEhavioural Interventions (SCRIBE) 2016 Statement. Journal of Clinical Epidemiology, 2016, 73, 142-152.	2.4	36
64	The Single-Case Reporting Guideline In BEhavioural Interventions (SCRIBE) 2016 Statement. Physical Therapy, 2016, 96, e1-e10.	1.1	89
65	The Single-Case Reporting Guideline In BEhavioural Interventions (SCRIBE) 2016 Statement. Evidence-Based Communication Assessment and Intervention, 2016, 10, 44-58.	0.6	18
