

Aneta Andronowska

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/8071894/aneta-andronowska-publications-by-year.pdf>

Version: 2024-04-25

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
45	Bovine Follicular Fluid Derived Extracellular Vesicles Modulate the Viability, Capacitation and Acrosome Reaction of Bull Spermatozoa. <i>Biology</i> , 2021 , 10,	4.9	3
44	Modulatory effect of chemokines on porcine endometrial stromal and endothelial cells. <i>Domestic Animal Endocrinology</i> , 2020 , 72, 106475	2.3	1
43	The presence of CC chemokines and their aberrant role in the porcine corpus luteum. <i>Reproduction in Domestic Animals</i> , 2020 , 55, 632-646	1.6	1
42	Zeta Potential of Extracellular Vesicles: Toward Understanding the Attributes that Determine Colloidal Stability. <i>ACS Omega</i> , 2020 , 5, 16701-16710	3.9	60
41	Individually cultured bovine embryos produce extracellular vesicles that have the potential to be used as non-invasive embryo quality markers. <i>Theriogenology</i> , 2020 , 149, 104-116	2.8	20
40	Bovine Follicular Fluid and Extracellular Vesicles Derived from Follicular Fluid Alter the Bovine Oviductal Epithelial Cells Transcriptome. <i>International Journal of Molecular Sciences</i> , 2020 , 21,	6.3	9
39	Cellular, Extracellular and Extracellular Vesicular miRNA Profiles of Pre-Ovulatory Follicles Indicate Signaling Disturbances in Polycystic Ovaries. <i>International Journal of Molecular Sciences</i> , 2020 , 21,	6.3	8
38	Chemokines as the modulators of endometrial epithelial cells remodelling. <i>Scientific Reports</i> , 2019 , 9, 12968	4.9	11
37	Efficient isolation, biophysical characterisation and molecular composition of extracellular vesicles secreted by primary and immortalised cells of reproductive origin. <i>Theriogenology</i> , 2019 , 135, 121-137	2.8	15
36	Variable chemokine expression in porcine trophoblasts and endometrium during the peri-implantation period. <i>Theriogenology</i> , 2019 , 131, 16-27	2.8	10
35	Specific trophoblast transcripts transferred by extracellular vesicles affect gene expression in endometrial epithelial cells and may have a role in embryo-maternal crosstalk. <i>Cell Communication and Signaling</i> , 2019 , 17, 146	7.5	19
34	Presence of trophoblast in the uterine lumen affects VEGF-C expression in porcine endometrium. <i>Theriogenology</i> , 2019 , 125, 216-223	2.8	3
33	Lipopolysaccharide and cytokines modulate leukotriene (LT)B and LTC production by porcine endometrial endothelial cells. <i>Reproduction in Domestic Animals</i> , 2018 , 53, 101-109	1.6	2
32	Alterations in the distribution of actin and its binding proteins in the porcine endometrium during early pregnancy: Possible role in epithelial remodeling and embryo adhesion. <i>Theriogenology</i> , 2018 , 116, 17-27	2.8	8
31	Downregulation of LH and FSH receptors after hCG and eCG treatments in the porcine oviduct. <i>Domestic Animal Endocrinology</i> , 2016 , 57, 48-54	2.3	5
30	Ovarian stimulation with human chorionic gonadotropin and equine chorionic gonadotropin affects prostacyclin and its receptor expression in the porcine oviduct. <i>Domestic Animal Endocrinology</i> , 2015 , 53, 17-25	2.3	3
29	Prostacyclin receptor (PTGIR) in the porcine endometrium: Regulation of expression and role in luminal epithelial and stromal cells. <i>Theriogenology</i> , 2015 , 84, 969-82	2.8	5

28	Temporal Changes in Gametogenesis of the Invasive Chinese Pond Mussel <i>Sinanodonta woodiana</i> (Lea, 1834) (Bivalvia: Unionidae) from the Konin Lakes System (Central Poland). <i>Folia Biologica</i> , 2015 , 63, 175-85	0.7	7
27	Expression of factors associated with apoptosis in the porcine corpus luteum throughout the luteal phase of the estrous cycle and early pregnancy: their possible involvement in acquisition of luteolytic sensitivity. <i>Theriogenology</i> , 2015 , 83, 535-45	2.8	20
26	Expression of the vascular endothelial growth factor receptor system in porcine oviducts after induction of ovulation and superovulation. <i>Domestic Animal Endocrinology</i> , 2014 , 49, 86-95	2.3	9
25	Characterization of lake minnow <i>Eupallasella percnurus</i> semen in relation to sperm morphology, regulation of sperm motility and interpopulation diversity. <i>Journal of Fish Biology</i> , 2014 , 85, 446-55	1.9	5
24	Pro- and anti-inflammatory mediators change leukotriene B4 and leukotriene C4 synthesis and secretion in an inflamed porcine endometrium. <i>Domestic Animal Endocrinology</i> , 2014 , 49, 49-59	2.3	7
23	Effect of vaginal administration of prostaglandin E2 and/or 17beta-estradiol on luteal function and histological characteristics of the cervix in cyclic pigs. <i>Polish Journal of Veterinary Sciences</i> , 2014 , 17, 123-30	0.7	1
22	Effect of hCG and eCG treatments on prostaglandins synthesis in the porcine oviduct. <i>Reproduction in Domestic Animals</i> , 2013 , 48, 1034-42	1.6	10
21	The novel effect of hCG administration on luteal function maintenance during the estrous cycle/pregnancy and early embryo development in the pig. <i>Polish Journal of Veterinary Sciences</i> , 2013 , 16, 323-32	0.7	19
20	Expression of nerve growth factor and its receptors in the uterus of gilts with endometritis induced by infection with <i>Escherichia coli</i> . <i>Journal of Comparative Pathology</i> , 2012 , 147, 522-32	1	5
19	Gene expression of WNTs, β -catenin and E-cadherin during the periimplantation period of pregnancy in pigs--involvement of steroid hormones. <i>Theriogenology</i> , 2011 , 76, 687-99	2.8	20
18	Expression of the vascular endothelial growth factor (VEGF-A) and its receptors in the umbilical cord in the course of pregnancy in the pig. <i>Reproduction in Domestic Animals</i> , 2011 , 46, 434-43	1.6	5
17	Mechanisms for the establishment of pregnancy in the pig. <i>Reproduction in Domestic Animals</i> , 2011 , 46 Suppl 3, 31-41	1.6	57
16	Immortalization of swine umbilical vein endothelial cells (SUVECs) with the simian virus 40 large-T antigen. <i>Molecular Reproduction and Development</i> , 2011 , 78, 597-610	2.6	9
15	The Influence of Interleukin (IL)-1 β and IL-6 and Tumour Necrosis Factor- β on Prostaglandin Secretion from Porcine Myometrium during the First Third of Pregnancy. <i>Acta Veterinaria Brno</i> , 2010 , 79, 559-569	0.8	1
14	Semen biology of vendace (<i>Coregonus albula</i> L.). <i>Fish Physiology and Biochemistry</i> , 2010 , 36, 419-425	2.7	8
13	mRNA and protein expression of FGF-1, FGF-2 and their receptors in the porcine umbilical cord during pregnancy. <i>Folia Histochemica Et Cytobiologica</i> , 2010 , 48, 572-80	1.4	8
12	Expression patterns of endothelial and inducible nitric oxide isoforms in the porcine umbilical cord. <i>Reproduction in Domestic Animals</i> , 2009 , 44, 621-30	1.6	3
11	The localization and expression of NADPH-diaphorase and isoforms of nitric oxide synthase in the porcine gravid uterus. <i>Reproductive Biology</i> , 2008 , 8, 263-78	2.3	3

10	The influence of steroid hormones on in vitro NOx production by porcine fetal membranes. <i>Reproductive Biology</i> , 2008 , 8, 121-34	2.3	1
9	Influence of estradiol-17beta and progesterone on nitric oxide (NO) production in the porcine endometrium during first half of pregnancy. <i>Reproductive Biology</i> , 2008 , 8, 43-55	2.3	11
8	The effect of tumor necrosis factor-alpha (TNF-alpha), interleukin (IL)-1 beta and IL-6 on chorioamnion secretion of prostaglandins (PG)F 2 alpha and E2 in pigs. <i>Reproductive Biology</i> , 2008 , 8, 57-68	2.3	21
7	Expression of VEGF-A, Flt-1, and Flk-1 in the arterial endothelial cells of the uterine broad ligament throughout the estrous cycle. <i>Cell and Tissue Research</i> , 2007 , 330, 313-9	4.2	2
6	Endometrial nitric oxide production and nitric oxide synthases in the equine endometrium: Relationship with microvascular density during the estrous cycle. <i>Domestic Animal Endocrinology</i> , 2007 , 32, 287-302	2.3	30
5	Expression and cellular distribution of NADPH-diaphorase and nitric oxide synthases in the porcine uterus during early pregnancy. <i>Folia Histochemica Et Cytobiologica</i> , 2007 , 45, 375-80	1.4	6
4	Semen biology and stimulation of milt production in the European smelt (<i>Osmerus eperlanus</i> L.). <i>Aquaculture</i> , 2006 , 261, 760-770	4.4	16
3	Localization and correlation between NADPH-diaphorase and nitric oxide synthase isoforms in the porcine uterus during the estrous cycle. <i>Cell and Tissue Research</i> , 2005 , 321, 243-50	4.2	18
2	Morphological analysis of transportation pathways of microspheres after their introduction into the uterine horn cavity in cyclic pigs. <i>Cell and Tissue Research</i> , 2004 , 317, 91-9	4.2	1
1	Endothelin-1 and endothelial nitric oxide synthase immunoreactivity in lymphatic vessels of the uterine broad ligament during the estrous cycle in the pig. <i>Cells Tissues Organs</i> , 2002 , 171, 152-61	2.1	7
