

Johannes Mofors

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/8078301/johannes-mofors-publications-by-year.pdf>

Version: 2024-04-10

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

13 papers	135 citations	7 h-index	11 g-index
15 ext. papers	216 ext. citations	5.8 avg, IF	2.91 L-index

#	Paper	IF	Citations
13	Interferon activation status underlies higher antibody response to viral antigens in patients with systemic lupus erythematosus receiving no or light treatment. <i>Rheumatology</i> , 2021 , 60, 1445-1455	3.9	1
12	Environmental factors in the pathogenesis of primary Sjögrenis syndrome. <i>Journal of Internal Medicine</i> , 2020 , 287, 475-492	10.8	22
11	Increased risk of multiple myeloma in primary Sjögrenis syndrome is limited to individuals with Ro/SSA and La/SSB autoantibodies. <i>Annals of the Rheumatic Diseases</i> , 2020 , 79, 307-308	2.4	2
10	Viral antigens elicit augmented immune responses in primary Sjögrenis syndrome. <i>Rheumatology</i> , 2020 , 59, 1651-1661	3.9	10
9	Response to Letter to the Editor by Bartoloni et al: Interplay of anti-SSA/SSB status and hypertension in determining cardiovascular risk in primary Sjögrenis syndrome. <i>Journal of Internal Medicine</i> , 2020 , 287, 216-217	10.8	
8	Cigarette smoking patterns preceding primary Sjögrenis syndrome. <i>RMD Open</i> , 2020 , 6,	5.9	2
7	Protein and DNA methylation-based scores as surrogate markers for interferon system activation in patients with primary Sjögrenis syndrome. <i>RMD Open</i> , 2020 , 6,	5.9	9
6	Effects of maternal medication on long-term outcome in congenital heart block remain to be established. Response to: Comorbidity and long-term outcome in patients with congenital heart block and their siblings exposed to Ro/SSA autoantibodies in utero by Satis. <i>Annals of the Rheumatic Diseases</i> , 2020 , 79, e95	2.4	1
5	Concomitant Ro/SSA and La/SSB antibodies are biomarkers for the risk of venous thromboembolism and cerebral infarction in primary Sjögrenis syndrome. <i>Journal of Internal Medicine</i> , 2019 , 286, 458-468	10.8	7
4	Infections increase the risk of developing Sjögrenis syndrome. <i>Journal of Internal Medicine</i> , 2019 , 285, 670-680	10.8	15
3	Comorbidity and long-term outcome in patients with congenital heart block and their siblings exposed to Ro/SSA autoantibodies in utero. <i>Annals of the Rheumatic Diseases</i> , 2019 , 78, 696-703	2.4	12
2	Sex differences in clinical presentation of systemic lupus erythematosus. <i>Biology of Sex Differences</i> , 2019 , 10, 60	9.3	15
1	H1N1 vaccination in Sjögrenis syndrome triggers polyclonal B cell activation and promotes autoantibody production. <i>Annals of the Rheumatic Diseases</i> , 2017 , 76, 1755-1763	2.4	38
