#	ARTICLE	IF	CITATIONS
1	Validations of the Brazilian version of the Early Childhood Oral Health Impact Scale (ECOHis). <i>Cadernos De Saude Publica</i> , 2012, 28, 367-374.	0.4	106
2	Impact of untreated dental caries on quality of life of preschool children: different stages and activity. <i>Community Dentistry and Oral Epidemiology</i> , 2014, 42, 311-322.	0.9	93
3	Impact of untreated dental caries and its clinical consequences on the oral health-related quality of life of schoolchildren aged 8-10 years. <i>Quality of Life Research</i> , 2016, 25, 193-199.	1.5	60
4	Impact of dental caries on quality of life among preschool children: emphasis on the type of tooth and stages of progression. <i>European Journal of Oral Sciences</i> , 2015, 123, 88-95.	0.7	52
5	Prospective Longitudinal Study of Signs and Symptoms Associated With Primary Tooth Eruption. <i>Pediatrics</i> , 2011, 128, 471-476.	1.0	44
6	Impact of treated/untreated traumatic dental injuries on quality of life among Brazilian schoolchildren. <i>Dental Traumatology</i> , 2014, 30, 27-31.	0.8	36
7	Degree of dental anxiety in children with and without toothache: prospective assessment. <i>International Journal of Paediatric Dentistry</i> , 2013, 23, 125-130.	1.0	31
8	Association between anterior open bite and impact on quality of life of preschool children. <i>Brazilian Oral Research</i> , 2015, 29, 1-7.	0.6	30
9	Factors associated with masticatory performance among preschool children. <i>Clinical Oral Investigations</i> , 2017, 21, 159-166.	1.4	30
10	Influence of masticatory function, dental caries and socioeconomic status on the body mass index of preschool children. <i>Archives of Oral Biology</i> , 2017, 81, 69-73.	0.8	30
11	Effects of attention deficit hyperactivity disorder signs and socioeconomic status on sleep bruxism and tooth wear among schoolchildren: structural equation modelling approach. <i>International Journal of Paediatric Dentistry</i> , 2017, 27, 523-531.	1.0	29
12	Respiratory disorders and the prevalence of sleep bruxism among schoolchildren aged 8 to 11 years. <i>Sleep and Breathing</i> , 2017, 21, 203-208.	0.9	29
13	Parents' recognition of dental trauma in their children. <i>Dental Traumatology</i> , 2013, 29, 266-271.	0.8	27
14	Association and comparison between visual inspection and bitewing radiography for the detection of recurrent dental caries under restorations. <i>International Dental Journal</i> , 2015, 65, 178-181.	1.0	15
15	Prevalence of probable sleep bruxism and associated factors in Brazilian schoolchildren. <i>International Journal of Paediatric Dentistry</i> , 2019, 29, 221-227.	1.0	14
16	Correlation and comparative analysis of discriminative validity of the Scale of Oral Health Outcomes for Five-Year-Old Children (SOHO-5) and the Early Childhood Oral Health Impact Scale (ECOHis) for dental caries. <i>BMC Oral Health</i> , 2015, 15, 29.	0.8	13
17	Signs of attention deficit/hyperactivity disorder as a risk factor for traumatic dental injury among schoolchildren: a case-control study. <i>International Journal of Paediatric Dentistry</i> , 2016, 26, 471-476.	1.0	10
18	Do family functioning and mothers' and children's stress increase the odds of probable sleep bruxism among schoolchildren? A case control study. <i>Clinical Oral Investigations</i> , 2020, 24, 1025-1033.	1.4	10

#	ARTICLE	IF	CITATIONS
19	Severity of Dental Caries and Quality of Life for Toddlers and Their Families. <i>Pediatric Dentistry</i> (discontinued), 2017, 39, 118-123.	0.4	10
20	Factors associated with dental pain in toddlers detected using the dental discomfort questionnaire. <i>Journal of the Indian Society of Pedodontics and Preventive Dentistry</i> , 2018, 36, 250.	0.1	9
21	Mechanical control of biofilm in children with cerebral palsy: a randomized clinical trial. <i>International Journal of Paediatric Dentistry</i> , 2015, 25, 213-220.	1.0	8
22	Nickel-free vs conventional braces for patients allergic to nickel: Gingival and blood parameters during and after treatment. <i>American Journal of Orthodontics and Dentofacial Orthopedics</i> , 2016, 150, 1014-1019.	0.8	8
23	Prospective evaluation of the psychosocial impact of the first 6 months of orthodontic treatment with fixed appliance among young adults. <i>Angle Orthodontist</i> , 2016, 86, 644-648.	1.1	8
24	Do Signs of Attention-Deficit/Hyperactivity Disorder Increase the Odds of Dental Caries? A Case-Control Study. <i>Caries Research</i> , 2018, 52, 212-219.	0.9	7
25	Association between occlusal characteristics and the occurrence of dental trauma in preschool children: a case-control study. <i>Dental Traumatology</i> , 2019, 35, 95-100.	0.8	7
26	Untreated dental caries and visible plaque of mothers are not determinant for the incidence of caries in dentin among children: evidence from a 3-year prospective cohort study. <i>Clinical Oral Investigations</i> , 2021, 25, 5431-5439.	1.4	7
27	The influence of malocclusion, sucking habits and dental caries in the masticatory function of preschool children. <i>Brazilian Oral Research</i> , 2020, 34, e059.	0.6	7
28	Correlation and comparative analysis of the CPQ8-10 and child-OIDP indexes for dental caries and malocclusion. <i>Brazilian Oral Research</i> , 2017, 31, e111.	0.6	5
29	Acidic food choice among adolescents with bulimic symptomatology: a major risk factor for erosive tooth wear?. <i>Eating and Weight Disorders</i> , 2021, 26, 1119-1127.	1.2	5
30	Non-nutritive sucking habits after three years of age: A case-control study. <i>Journal of the Indian Society of Pedodontics and Preventive Dentistry</i> , 2015, 33, 19.	0.1	4
31	Mothers' reports on systemic signs and symptoms associated with teething. <i>Journal of Dentistry for Children</i> , 2013, 80, 107-10.	0.2	4
32	Longitudinal evaluation of determinants of the clinical consequences of untreated dental caries in early childhood. <i>Community Dentistry and Oral Epidemiology</i> , 2021, , .	0.9	3
33	The prevalence of malocclusion is higher in schoolchildren with signs of hyperactivity. <i>American Journal of Orthodontics and Dentofacial Orthopedics</i> , 2021, 159, 653-659.	0.8	2
34	Children who have more toothache-related behaviors have worse masticatory performance. <i>Journal of Texture Studies</i> , 2022, 53, 52-59.	1.1	2
35	Association between different stages of dental caries in preschoolers and familial socioeconomic factors. <i>Brazilian Oral Research</i> , 2022, 36, e018.	0.6	1
36	Association of the prevalence and severity of untreated traumatic dental injuries with body mass index among Brazilian preschool children. <i>Dental Traumatology</i> , 2022, 38, 206-212.	0.8	1

#	ARTICLE	IF	CITATIONS
37	Risk indicators of untreated dental caries incidence among preschoolers: a prospective longitudinal study. <i>Brazilian Oral Research</i> , 0, 36, .	0.6	1
38	Influence of breastfeeding duration on the incidence of dental caries in preschoolers: a cohort study. <i>Revista Brasileira De Saude Materno Infantil</i> , 2021, 21, 227-238.	0.2	0
39	Association between obesity and traumatic dental injuries in pre-school children – A case-control study. <i>Dental Traumatology</i> , 2021, , .	0.8	0
40	Maternal Stress and Behavioral and Clinical Factors Associated with Dental Trauma in Schoolchildren. <i>Journal of Dentistry for Children</i> , 2017, 84, 132-138.	0.2	0
