## Joana Ramos-Jorge

List of Publications by Year in descending order

Source: https://exaly.com/author-pdf/8093937/publications.pdf Version: 2024-02-01

#	Article	IF	CITATIONS
1	Validations of the Brazilian version of the Early Childhood Oral Health Impact Scale (ECOHIS). Cadernos De Saude Publica, 2012, 28, 367-374.	1.0	106
2	Impact of untreated dental caries on quality of life of preschool children: different stages and activity. Community Dentistry and Oral Epidemiology, 2014, 42, 311-322.	1.9	93
3	Impact of untreated dental caries and its clinical consequences on the oral health-related quality of life of schoolchildren aged 8–10Âyears. Quality of Life Research, 2016, 25, 193-199.	3.1	60
4	Impact of dental caries on quality of life among preschool children: emphasis on the type of tooth and stages of progression. European Journal of Oral Sciences, 2015, 123, 88-95.	1.5	52
5	Prospective Longitudinal Study of Signs and Symptoms Associated With Primary Tooth Eruption. Pediatrics, 2011, 128, 471-476.	2.1	44
6	Impact of treated/untreated traumatic dental injuries on quality of life among <scp>B</scp> razilian schoolchildren. Dental Traumatology, 2014, 30, 27-31.	2.0	36
7	Degree of dental anxiety in children with and without toothache: prospective assessment. International Journal of Paediatric Dentistry, 2013, 23, 125-130.	1.8	31
8	Association between anterior open bite and impact on quality of life of preschool children. Brazilian Oral Research, 2015, 29, 1-7.	1.4	30
9	Factors associated with masticatory performance among preschool children. Clinical Oral Investigations, 2017, 21, 159-166.	3.0	30
10	Influence of masticatory function, dental caries and socioeconomic status on the body mass index of preschool children. Archives of Oral Biology, 2017, 81, 69-73.	1.8	30
11	Effects of attention deficit hyperactivity disorder signs and socioâ€economic status on sleep bruxism and tooth wear among schoolchildren: structural equation modelling approach. International Journal of Paediatric Dentistry, 2017, 27, 523-531.	1.8	29
12	Respiratory disorders and the prevalence of sleep bruxism among schoolchildren aged 8 to 11Âyears. Sleep and Breathing, 2017, 21, 203-208.	1.7	29
13	Parents' recognition of dental trauma in their children. Dental Traumatology, 2013, 29, 266-271.	2.0	27
14	Association and comparison between visual inspection and bitewing radiography for the detection of recurrent dental caries under restorations. International Dental Journal, 2015, 65, 178-181.	2.6	15
15	Prevalence of probable sleep bruxism and associated factors in Brazilian schoolchildren. International Journal of Paediatric Dentistry, 2019, 29, 221-227.	1.8	14
16	Correlation and comparative analysis of discriminative validity of the Scale of Oral Health Outcomes for Five-Year-Old Children (SOHO-5) and the Early Childhood Oral Health Impact Scale (ECOHIS) for dental caries. BMC Oral Health, 2015, 15, 29.	2.3	13
17	Signs of attention deficit/hyperactivity disorder as a risk factor for traumatic dental injury among schoolchildren: a case–control study. International Journal of Paediatric Dentistry, 2016, 26, 471-476.	1.8	10
18	Do family functioning and mothers' and children's stress increase the odds of probable sleep bruxism among schoolchildren? A case control study. Clinical Oral Investigations, 2020, 24, 1025-1033.	3.0	10

JOANA RAMOS-JORGE

#	Article	IF	CITATIONS
19	Severity of Dental Caries and Quality of Life for Toddlers and Their Families. Pediatric Dentistry (discontinued), 2017, 39, 118-123.	0.4	10
20	Factors associated with dental pain in toddlers detected using the dental discomfort questionnaire. Journal of the Indian Society of Pedodontics and Preventive Dentistry, 2018, 36, 250.	0.3	9
21	Mechanical control of biofilm in children with cerebral palsy: a randomized clinical trial. International Journal of Paediatric Dentistry, 2015, 25, 213-220.	1.8	8
22	Nickel-free vs conventional braces for patients allergic to nickel: Gingival and blood parameters during and after treatment. American Journal of Orthodontics and Dentofacial Orthopedics, 2016, 150, 1014-1019.	1.7	8
23	Prospective evaluation of the psychosocial impact of the first 6 months of orthodontic treatment with fixed appliance among young adults. Angle Orthodontist, 2016, 86, 644-648.	2.4	8
24	Do Signs of Attention-Deficit/Hyperactivity Disorder Increase the Odds of Dental Caries? A Case-Control Study. Caries Research, 2018, 52, 212-219.	2.0	7
25	Association between occlusal characteristics and the occurrence of dental trauma in preschool children: a caseâ€control study. Dental Traumatology, 2019, 35, 95-100.	2.0	7
26	Untreated dental caries and visible plaque of mothers are not determinant for the incidence of caries in dentin among children: evidence from a 3-year prospective cohort study. Clinical Oral Investigations, 2021, 25, 5431-5439.	3.0	7
27	The influence of malocclusion, sucking habits and dental caries in the masticatory function of preschool children. Brazilian Oral Research, 2020, 34, e059.	1.4	7
28	Correlation and comparative analysis of the CPQ8-10 and child-OIDP indexes for dental caries and malocclusion. Brazilian Oral Research, 2017, 31, e111.	1.4	5
29	Acidic food choice among adolescents with bulimic symptomatology: a major risk factor for erosive tooth wear?. Eating and Weight Disorders, 2021, 26, 1119-1127.	2.5	5
30	Non-nutritive sucking habits after three years of age: A case-control study. Journal of the Indian Society of Pedodontics and Preventive Dentistry, 2015, 33, 19.	0.3	4
31	Mothers' reports on systemic signs and symptoms associated with teething. Journal of Dentistry for Children, 2013, 80, 107-10.	0.2	4
32	Longitudinal evaluation of determinants of the clinical consequences of untreated dental caries in early childhood. Community Dentistry and Oral Epidemiology, 2021, , .	1.9	3
33	The prevalence of malocclusion is higher in schoolchildren with signs of hyperactivity. American Journal of Orthodontics and Dentofacial Orthopedics, 2021, 159, 653-659.	1.7	2
34	Children who have more toothacheâ€related behaviors have worse masticatory performance. Journal of Texture Studies, 2022, 53, 52-59.	2.5	2
35	Association between different stages of dental caries in preschoolers and familial socioeconomic factors. Brazilian Oral Research, 2022, 36, e018.	1.4	1
36	Association of the prevalence and severity of untreated traumatic dental injuries with body mass index among Brazilian preschool children. Dental Traumatology, 2022, 38, 206-212.	2.0	1

#	Article	IF	CITATIONS
37	Risk indicators of untreated dental caries incidence among preschoolers: a prospective longitudinal study. Brazilian Oral Research, 0, 36, .	1.4	1
38	Influence of breastfeeding duration on the incidence of dental caries in preschoolers: a cohort study. Revista Brasileira De Saude Materno Infantil, 2021, 21, 227-238.	0.5	0
39	Association between obesity and traumatic dental injuries in preâ€school children—A caseâ€control study. Dental Traumatology, 2021, , .	2.0	0
40	Maternal Stress and Behavioral and Clinical Factors Associated with Dental Trauma in Schoolchildren. Journal of Dentistry for Children, 2017, 84, 132-138.	0.2	0
