#	ARTICLE	IF	CITATIONS
1	The role of general practitioners in the work guidance of cancer patients: views of general practitioners and occupational physicians. <i>Journal of Cancer Survivorship</i> , 2023, 17, 416-424.	1.5	6
2	Workersâ€™ health surveillance targeting mental health: evaluation of a training. <i>Occupational Medicine</i> , 2022, 72, 244-247.	0.8	3
3	Work status and work ability of patients receiving kidney replacement therapy: results from a European survey. <i>Nephrology Dialysis Transplantation</i> , 2022, 37, 2022-2033.	0.4	7
4	Effects of a training program for occupational health professionals on the cognitions and perceptions of workers: a randomized controlled trial. <i>International Archives of Occupational and Environmental Health</i> , 2022, , 1.	1.1	1
5	Training on involving cognitions and perceptions in the occupational health management and work disability assessment of workers: development and evaluation. <i>BMC Medical Education</i> , 2022, 22, 20.	1.0	2
6	Impaired Quality of Working Life in Inflammatory Bowel Disease Patients. <i>Digestive Diseases and Sciences</i> , 2021, 66, 2916-2924.	1.1	13
7	High Disease Burden Drives Indirect Costs in Employed Inflammatory Bowel Disease Patients: The WORK-IBD Study. <i>Inflammatory Bowel Diseases</i> , 2021, 27, 352-363.	0.9	35
8	Response to Comment on â€œThe Successful Return-To-Work Questionnaire for Cancer Survivors (I-RTW_CS): Development, Validity and Reproducibilityâ€• Patient, 2021, 14, 141-143.	1.1	1
9	The Use and Perceived Usefulness of an Online Toolbox Targeted at Employers (MiLES Intervention) for Enhancing Successful Return to Work of Cancer Survivors. <i>Journal of Occupational Rehabilitation</i> , 2021, 31, 393-404.	1.2	6
10	Effectiveness of a Tailored Work-Related Support Intervention for Patients Diagnosed with Gastrointestinal Cancer: A Multicenter Randomized Controlled Trial. <i>Journal of Occupational Rehabilitation</i> , 2021, 31, 323-338.	1.2	6
11	Supporting Occupational Physicians in the Implementation of Workersâ€™ Health Surveillance: Development of an Intervention Using the Behavior Change Wheel Framework. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 1939.	1.2	5
12	Work ability and quality of working life in atopic dermatitis patients treated with dupilumab. <i>Journal of Dermatology</i> , 2021, 48, 1305-1314.	0.6	5
13	Determinants for the implementation of person-centered tools for workers with chronic health conditions: a mixed-method study using the Tailored Implementation for Chronic Diseases checklist. <i>BMC Public Health</i> , 2021, 21, 1091.	1.2	3
14	Loss of Paid Employment up to 4 Years after Colorectal Cancer Diagnosisâ€”A Nationwide Register-Based Study with a Population-Based Reference Group. <i>Cancers</i> , 2021, 13, 2868.	1.7	10
15	A randomised feasibility trial of an employer-based intervention for enhancing successful return to work of cancer survivors (MiLES intervention). <i>BMC Public Health</i> , 2021, 21, 1433.	1.2	7
16	Family involvement on nursing wards and the role conflicts experienced by surgical nurses: A multicentre crossâ€”sectional study. <i>Scandinavian Journal of Caring Sciences</i> , 2021, , .	1.0	3
17	Process evaluation of a tailored work-related support intervention for patients diagnosed with gastrointestinal cancer. <i>Journal of Cancer Survivorship</i> , 2020, 14, 59-71.	1.5	5
18	The challenge of return to work in workers with cancer: employer priorities despite variation in social policies related to work and health. <i>Journal of Cancer Survivorship</i> , 2020, 14, 188-199.	1.5	35

#	ARTICLE	IF	CITATIONS
19	Self-efficacy and return to work in cancer survivors: Current knowledge and future prospects. <i>European Journal of Cancer Care</i> , 2020, 29, e13304.	0.7	6
20	The association of subjective fit perceptions, distress, emotional exhaustion, and work engagement, with work functioning problems: A cross-sectional study conducted among young construction project management professionals. <i>Journal of Occupational Health</i> , 2020, 62, e12174.	1.0	7
21	Long-term employment status and quality of life after cancer: A longitudinal prospective cohort study from diagnosis up to and including 5 years post diagnosis. <i>Work</i> , 2020, 66, 901-907.	0.6	16
22	Interventions on cognitions and perceptions that influence work participation of employees with chronic health problems: a scoping review. <i>BMC Public Health</i> , 2020, 20, 1610.	1.2	4
23	Is a tailored work-related support intervention feasible in everyday clinical practice? The experience of healthcare professionals and patients with cancer. <i>Work</i> , 2020, 66, 871-884.	0.6	2
24	The Successful Return-To-Work Questionnaire for Cancer Survivors (I-RTW_CS): Development, Validity and Reproducibility. <i>Patient</i> , 2020, 13, 567-582.	1.1	11
25	Long-term work retention after treatment for cancer: a systematic review and meta-analysis. <i>Journal of Cancer Survivorship</i> , 2020, 14, 135-150.	1.5	71
26	Introduction to special section on: current topics in cancer survivorship and work. <i>Journal of Cancer Survivorship</i> , 2020, 14, 101-105.	1.5	13
27	Proposal to extend the PROMIS® item bank v2.0 "Ability to Participate in Social Roles and Activities": item generation and content validity. <i>Quality of Life Research</i> , 2020, 29, 2851-2861.	1.5	4
28	Risk for unemployment at 10 years following cancer diagnosis among very long-term survivors: a population based study. <i>Journal of Cancer Survivorship</i> , 2020, 14, 151-157.	1.5	9
29	The MiLES intervention targeting employers to promote successful return to work of employees with cancer: design of a pilot randomised controlled trial. <i>Trials</i> , 2020, 21, 363.	0.7	8
30	Supporting employers to enhance the return to work of cancer survivors: development of a web-based intervention (MiLES intervention). <i>Journal of Cancer Survivorship</i> , 2020, 14, 200-210.	1.5	26
31	What Employer Actions Are Considered Most Important for the Return to Work of Employees with Cancer? A Delphi Study Among Employees and Employers. <i>Journal of Occupational Rehabilitation</i> , 2019, 29, 406-422.	1.2	24
32	Work-Related Outcomes in Self-Employed Cancer Survivors: A European Multi-country Study. <i>Journal of Occupational Rehabilitation</i> , 2019, 29, 361-374.	1.2	20
33	Obtaining person-related information from employees with chronic health problems: a focus group study. <i>International Archives of Occupational and Environmental Health</i> , 2019, 92, 1003-1012.	1.1	4
34	A qualitative study investigating the meaning of participation to improve the measurement of this construct. <i>Quality of Life Research</i> , 2019, 28, 2233-2246.	1.5	7
35	Factors associated with an adverse work outcome in breast cancer survivors 5-10 years after diagnosis: a cross-sectional study. <i>Journal of Cancer Survivorship</i> , 2019, 13, 108-116.	1.5	14
36	Work cessation after cancer diagnosis: a population-based study. <i>Occupational Medicine</i> , 2019, 69, 126-132.	0.8	5

#	ARTICLE	IF	CITATIONS
37	Barriers to and Facilitators of Implementing Programs for Return to Work (RTW) of Cancer Survivors in Four European Countries: A Qualitative Study. <i>Journal of Occupational Rehabilitation</i> , 2019, 29, 550-559.	1.2	15
38	Two-Year Follow-Up of a Multi-centre Randomized Controlled Trial to Study Effectiveness of a Hospital-Based Work Support Intervention for Cancer Patients. <i>Journal of Occupational Rehabilitation</i> , 2019, 29, 701-710.	1.2	11
39	The Implementation of Workers' Health Surveillance by Occupational Physicians. <i>Journal of Occupational and Environmental Medicine</i> , 2019, 61, e497-e502.	0.9	9
40	Employees Diagnosed with Cancer: Current Perspectives and Future Directions from an Employer's Point of View. <i>Journal of Occupational Rehabilitation</i> , 2019, 29, 472-474.	1.2	14
41	Longitudinal Associations Between Fatigue and Perceived Work Ability in Cancer Survivors. <i>Journal of Occupational Rehabilitation</i> , 2019, 29, 540-549.	1.2	20
42	The quality of working life questionnaire for cancer survivors (QWLQ-CS): factorial structure, internal consistency, construct validity and reproducibility. <i>BMC Cancer</i> , 2018, 18, 66.	1.1	21
43	The role of the general practitioner in return to work after cancer—a systematic review. <i>Family Practice</i> , 2018, 35, 531-541.	0.8	14
44	Feasibility of a multidisciplinary intervention to help cancer patients return to work. <i>European Journal of Cancer Care</i> , 2018, 27, e12690.	0.7	11
45	Perceived employer-related barriers and facilitators for work participation of cancer survivors: A systematic review of employers' and survivors' perspectives. <i>Psycho-Oncology</i> , 2018, 27, 725-733.	1.0	100
46	Predictors for earlier return to work of cancer patients. <i>Journal of Cancer Survivorship</i> , 2018, 12, 169-177.	1.5	65
47	Development of a tailored work-related support intervention for gastrointestinal cancer patients. <i>European Journal of Cancer Care</i> , 2018, 27, e12782.	0.7	6
48	254—Quality of working life of cancer survivors: associations with health- and work-related variables. , 2018, , .		0
49	259—Return to work of cancer patients after a multidisciplinary intervention including occupational counselling and physical exercise: a prospective study. , 2018, , .		0
50	371—Employer-related barriers and facilitators for work participation of cancer survivors: a systematic review of qualitative studies. , 2018, , .		2
51	706—What is the perceived importance of work and work ability of patients with gastrointestinal cancer shortly after diagnosis?. , 2018, , .		0
52	380—Supporting employers during return to work of employees with cancer; development of an online intervention using the intervention mapping approach. , 2018, , .		0
53	702—A tailored work-related support intervention for gastro-intestinal cancer patients: intervention protocol. , 2018, , .		0
54	1645—Quality of working life and value of work of cancer survivors. , 2018, , .		0

#	ARTICLE	IF	CITATIONS
55	The Quality of Working Life Questionnaire for Cancer Survivors: Sufficient responsiveness for use as a patient-reported outcome measurement. <i>European Journal of Cancer Care</i> , 2018, 27, e12910.	0.7	4
56	Higher incidence of screening-related cancers in the employed population. <i>Occupational Medicine</i> , 2018, 68, 273-278.	0.8	2
57	Chronic solvent-induced encephalopathy: course and prognostic factors of neuropsychological functioning. <i>International Archives of Occupational and Environmental Health</i> , 2018, 91, 843-858.	1.1	11
58	Employment status transitions in employees with and without chronic disease in the Netherlands. <i>International Journal of Public Health</i> , 2018, 63, 713-722.	1.0	36
59	Prognostic factors for return to work and work disability among colorectal cancer survivors; A systematic review. <i>PLoS ONE</i> , 2018, 13, e0200720.	1.1	36
60	Interventions to enhance return-to-work for cancer patients. <i>The Cochrane Library</i> , 2017, 2017, CD007569.	1.5	205
61	Supporting cancer patients with work-related problems through an oncological occupational physician: a feasibility study. <i>European Journal of Cancer Care</i> , 2017, 26, e12378.	0.7	15
62	Return to work of cancer patients after a multidisciplinary intervention including occupational counselling and physical exercise in cancer patients: a prospective study in the Netherlands. <i>BMJ Open</i> , 2017, 7, e014746.	0.8	55
63	Employers' experience of employees with cancer: trajectories of complex communication. <i>Journal of Cancer Survivorship</i> , 2017, 11, 562-577.	1.5	46
64	Cancer and its impact on work among the self-employed: A need to bridge the knowledge gap. <i>European Journal of Cancer Care</i> , 2017, 26, e12746.	0.7	19
65	Quality of Working Life of cancer survivors: associations with health- and work-related variables. <i>Supportive Care in Cancer</i> , 2017, 25, 1475-1484.	1.0	25
66	Unemployment risk 2 years and 4 years following gastric cancer diagnosis: a population-based study. <i>Journal of Cancer Survivorship</i> , 2017, 11, 119-125.	1.5	11
67	Adjustment between work demands and health needs: Development of the Work-Health Balance Questionnaire. <i>Rehabilitation Psychology</i> , 2017, 62, 374-386.	0.7	28
68	The Quality of Working Life Questionnaire for Cancer Survivors (QWLQ-CS): a Pre-test Study. <i>BMC Health Services Research</i> , 2016, 16, 194.	0.9	7
69	Employment status, difficulties at work and quality of life in inflammatory bowel disease patients. <i>European Journal of Gastroenterology and Hepatology</i> , 2016, 28, 1130-1136.	0.8	55
70	Cancer@Work – a nurse-led, stepped-care, e-health intervention to enhance the return to work of patients with cancer: study protocol for a randomized controlled trial. <i>Trials</i> , 2016, 17, 453.	0.7	20
71	35P Unemployment risk among lung cancer survivors: A population based study. <i>Journal of Thoracic Oncology</i> , 2016, 11, S70.	0.5	0
72	Cancer in Europe: Death sentence or life sentence?. <i>European Journal of Cancer</i> , 2016, 65, 150-155.	1.3	17

#	ARTICLE	IF	CITATIONS
73	Unemployment Risk and Decreased Income Two and Four Years After Thyroid Cancer Diagnosis: A Population-Based Study. <i>Thyroid</i> , 2016, 26, 1251-1258.	2.4	9
74	Unemployment risk at 2 and 4 years following colorectal cancer diagnosis: a population based study. <i>European Journal of Cancer</i> , 2016, 69, 70-76.	1.3	13
75	Design of a multicentre randomized controlled trial to evaluate the effectiveness of a tailored clinical support intervention to enhance return to work for gastrointestinal cancer patients. <i>BMC Cancer</i> , 2016, 16, 303.	1.1	17
76	Employment and insurance outcomes and factors associated with employment among long-term thyroid cancer survivors: a population-based study from the PROFILES registry. <i>Quality of Life Research</i> , 2016, 25, 997-1005.	1.5	29
77	Employment and social benefits up to 10 years after breast cancer diagnosis: a population-based study. <i>British Journal of Cancer</i> , 2016, 114, 81-87.	2.9	69
78	Unemployment risk and income change after testicular cancer diagnosis: A population-based study. <i>Urologic Oncology: Seminars and Original Investigations</i> , 2016, 34, 5.e27-5.e33.	0.8	8
79	Quality of working life of cancer survivors: development of a cancer-specific questionnaire. <i>Journal of Cancer Survivorship</i> , 2016, 10, 394-405.	1.5	22
80	Improving Return to Work in Cancer Survivors. <i>Handbooks in Health, Work, and Disability</i> , 2016, , 481-503.	0.0	1
81	Enhancing the Return to Work of Cancer Survivors: Development and Feasibility of the Nurse-Led eHealth Intervention Cancer@Work. <i>JMIR Research Protocols</i> , 2016, 5, e118.	0.5	16
82	Return-to-work intervention for cancer survivors: budget impact and allocation of costs and returns in the Netherlands and six major EU-countries. <i>BMC Cancer</i> , 2015, 15, 899.	1.1	15
83	Quality of Working Life Issues of Employees with a Chronic Physical Disease: A Systematic Review. <i>Journal of Occupational Rehabilitation</i> , 2015, 25, 182-196.	1.2	62
84	Measurement properties of the Work Limitations Questionnaire were sufficient among cancer survivors. <i>Quality of Life Research</i> , 2014, 23, 515-525.	1.5	28
85	The European Cancer and Work Network: CANWON. <i>Journal of Occupational Rehabilitation</i> , 2014, 24, 393-398.	1.2	54
86	Beyond treatment â€“ Psychosocial and behavioural issues in cancer survivorship research and practice. <i>European Journal of Cancer, Supplement</i> , 2014, 12, 54-64.	2.2	177
87	Work Adjustments in a Representative Sample of Employees with a Chronic Disease in the Netherlands. <i>Journal of Occupational Rehabilitation</i> , 2013, 23, 200-208.	1.2	37
88	Employment challenges for cancer survivors. <i>Cancer</i> , 2013, 119, 2151-2159.	2.0	244
89	Physical exercise and return to work: cancer survivorsâ€™ experiences. <i>Journal of Cancer Survivorship</i> , 2013, 7, 237-246.	1.5	53
90	A work-directed intervention to enhance the return to work of employees with cancer: A case study. <i>Work</i> , 2013, 46, 477-485.	0.6	7

#	ARTICLE	IF	CITATIONS
91	Effectiveness of a Hospital-Based Work Support Intervention for Female Cancer Patients â€” A Multi-Centre Randomised Controlled Trial. PLoS ONE, 2013, 8, e63271.	1.1	65
92	The Coping with Attention and Memory Complaints Questionnaire (CAMQ): Psychometric evaluation of an instrument in suspected chronic solvent-induced encephalopathy (CSE). Neuropsychological Rehabilitation, 2012, 22, 794-808.	1.0	0
93	A multidisciplinary intervention to facilitate return to work in cancer patients: intervention protocol and design of a feasibility study. BMJ Open, 2012, 2, e001321.	0.8	18
94	A Hospital-Based Work Support Intervention to Enhance the Return to Work of Cancer Patients: A Process Evaluation. Journal of Occupational Rehabilitation, 2012, 22, 565-578.	1.2	38
95	Rehabilitation Using High-Intensity Physical Training and Long-Term Return-to-Work in Cancer Survivors. Journal of Occupational Rehabilitation, 2012, 22, 220-229.	1.2	44
96	Breast cancer survivorsâ€™ views of factors that influence the return-to-work process â€” a qualitative study. Scandinavian Journal of Work, Environment and Health, 2012, 38, 144-154.	1.7	156
97	Prevalence of psychiatric disorders in patients with chronic solvent induced encephalopathy (CSE). NeuroToxicology, 2011, 32, 916-922.	1.4	17
98	Employment status and work-related problems of gastrointestinal cancer patients at diagnosis: a cross-sectional study. BMJ Open, 2011, 1, e000190-e000190.	0.8	18
99	Interventions to enhance return-to-work for cancer patients. , 2011, , CD007569.		83
100	Work-related upper extremity disorders: one-year follow-up in an occupational diseases registry. International Archives of Occupational and Environmental Health, 2011, 84, 789-796.	1.1	9
101	Fatigue and its correlates in cancer patients who had returned to workâ€”a cohort study. Psycho-Oncology, 2011, 20, 1236-1241.	1.0	32
102	Effect of job maintenance training program for employees with chronic disease â€” a randomized controlled trial on self-efficacy, job satisfaction, and fatigue. Scandinavian Journal of Work, Environment and Health, 2011, 37, 288-297.	1.7	43
103	Preoperative and Early Postoperative Quality of Life Predict Survival in Potentially Curable Patients with Esophageal Cancer. Annals of Surgical Oncology, 2010, 17, 23-30.	0.7	54
104	Irrational Beliefs in Employees with an Adjustment, a Depressive, or an Anxiety Disorder: a Prospective Cohort Study. Journal of Rational - Emotive and Cognitive - Behavior Therapy, 2010, 28, 57-72.	1.0	18
105	Enhancing return-to-work in cancer patients, development of an intervention and design of a randomised controlled trial. BMC Cancer, 2010, 10, 345.	1.1	38
106	Evaluation of occupational disease surveillance in six EU countries. Occupational Medicine, 2010, 60, 509-516.	0.8	35
107	Return-to-work interventions integrated into cancer care: a systematic review. Occupational and Environmental Medicine, 2010, 67, 639-648.	1.3	120
108	Developing guidelines for good practice in the economic evaluation of occupational safety and health interventions. Scandinavian Journal of Work, Environment and Health, 2010, 36, 313-318.	1.7	26
