|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | Gallic Acid Inhibits Mesaconitine-Activated TRPV1-Channel-Induced Cardiotoxicity. Evidence-based Complementary and Alternative Medicine, 2022, 2022, 1-12.                                                                                                                                | 1.2 | 4         |
| 2  | Changes of Mineralogical Properties and Biological Activities of Gypsum and Its Calcined Products with Different Phase Structures. Evidence-based Complementary and Alternative Medicine, 2021, 2021, 1-14.                                                                               | 1.2 | 5         |
| 3  | Influence of Different Dosage Forms on Pharmacokinetics of 6 Alkaloids in Raw <i>Aconiti Kusnezoffii</i> Radix ( <i>Caowu</i> ) and <i>Chebulae Fructus</i> ( <i>Hezi</i> ) Processed <i>Caowu</i> by UPLC-MS/MS. BioMed Research International, 2020, 2020, 1-12.                        | 1.9 | 5         |
| 4  | Metabolomic Determination of Specialized Metabolites Using Liquid Chromatography-Tandem Mass Spectrometry in the Traditional Chinese Medicines <i>Astragali Radix</i> and <i>Hedysari Radix</i> . Natural Product Communications, 2020, 15, 1934578X1990119.                              | 0.5 | 1         |
| 5  | Metabolomics study of different parts of licorice from different geographical origins and their anti-inflammatory activities. Journal of Separation Science, 2020, 43, 1593-1602.                                                                                                         | 2.5 | 23        |
| 6  | Identification of Chemical Markers for the Discrimination of <i>Radix Angelica sinensis</i> Grown in Geoherb and Non-Geoherb Regions Using UHPLC-QTOF-MS/MS Based Metabolomics. Molecules, 2019, 24, 3536.                                                                                | 3.8 | 23        |
| 7  | Analysis on the Constituents of Branches, Berries, and Leaves of <i>Hippophae rhamnoides</i> L. by UHPLC-ESI-QTOF-MS and Their Anti-Inflammatory Activities. Natural Product Communications, 2019, 14, 1934578X1987140.                                                                   | 0.5 | 8         |
| 8  | Fractional Deletion of Compound Kushen Injection Indicates Cytokine Signaling Pathways are Critical for its Perturbation of the Cell Cycle. Scientific Reports, 2019, 9, 14200.                                                                                                           | 3.3 | 10        |
| 9  | Constituents Isolated from the Leaves of <i>Glycyrrhiza uralensis</i> and Their Anti-Inflammatory Activities on LPS-Induced RAW264.7 Cells. Molecules, 2019, 24, 1923.                                                                                                                    | 3.8 | 29        |
| 10 | A review of traditional and current methods used to potentially reduce toxicity of <i>Aconitum</i> roots in Traditional Chinese Medicine. Journal of Ethnopharmacology, 2017, 207, 237-250.                                                                                               | 4.1 | 97        |
| 11 | A new biocompatible microemulsion increases extraction yield and bioavailability of <i>Andrographis paniculata</i> . Chinese Journal of Natural Medicines, 2016, 14, 683-691.                                                                                                             | 1.3 | 6         |
| 12 | Whole Chinese angelica microemulsion: its preparation and <i>in vivo</i> and <i>in vitro</i> evaluations. Drug Development and Industrial Pharmacy, 2014, 40, 1330-1339.                                                                                                                  | 2.0 | 6         |
| 13 | IDENTIFICATION OF RAW CUSCUTAE SEMEN AND ITS PROCESSED PRODUCTS BY HIGH PERFORMANCE LIQUID CHROMATOGRAPHY/DIODE-ARRAY DETECTION/MASS SPECTROMETRY (HPLC-DAD-MS) COMBINED WITH PRINCIPLE COMPONENT ANALYSIS. Journal of Liquid Chromatography and Related Technologies, 2014, 37, 748-759. | 1.0 | 5         |
| 14 | Preparation and evaluation of andrographolide-loaded microemulsion. Journal of Microencapsulation, 2012, 29, 657-665.                                                                                                                                                                     | 2.8 | 27        |
