

Victoria Besada

List of Publications by Citations

Source: <https://exaly.com/author-pdf/8157641/victoria-besada-publications-by-citations.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

27
papers

1,149

#	Paper	IF	Citations
27	Ingestion of microplastics by demersal fish from the Spanish Atlantic and Mediterranean coasts. <i>Marine Pollution Bulletin</i> , 2016 , 109, 55-60	6.7	303
26	Heavy metals in edible seaweeds commercialised for human consumption. <i>Journal of Marine Systems</i> , 2009 , 75, 305-313	2.7	146
25	Integrative assessment of marine pollution in Galician estuaries using sediment chemistry, mussel bioaccumulation, and embryo-larval toxicity bioassays. <i>Chemosphere</i> , 2003 , 52, 1209-24	8.4	87
24	Temporal trends of Cd, Cu, Hg, Pb and Zn in mussel (<i>Mytilus galloprovincialis</i>) from the Spanish North-Atlantic coast 1991-1999. <i>Science of the Total Environment</i> , 2002 , 288, 239-53	10.2	85
23	Occurrence, distribution and bioaccumulation of endocrine disrupting compounds in water, sediment and biota samples from a European river basin. <i>Science of the Total Environment</i> , 2015 , 529, 121-30	10.2	69
22	Combined use of chemical, biochemical and physiological variables in mussels for the assessment of marine pollution along the N-NW Spanish coast. <i>Marine Environmental Research</i> , 2014 , 96, 105-17	3.3	64
21	Monitoring of heavy metals in wild mussels (<i>Mytilus galloprovincialis</i>) from the Spanish North-Atlantic coast. <i>Continental Shelf Research</i> , 2011 , 31, 457-465	2.4	55
20	Influence of mussel biological variability on pollution biomarkers. <i>Environmental Research</i> , 2015 , 137, 14-31	7.9	41
19	An assessment of two decades of trace metals monitoring in wild mussels from the Northwest Atlantic and Cantabrian coastal areas of Spain, 1991-2011. <i>Environment International</i> , 2014 , 71, 1-12	12.9	37
18	Mercury, cadmium, lead, arsenic, copper and zinc concentrations in albacore, yellowfin tuna and bigeye tuna from the Atlantic Ocean. <i>Ciencias Marinas</i> , 2006 , 32, 439-445	1.7	35
17	First measurements of the scope for growth (SFG) in mussels from a large scale survey in the North-Atlantic Spanish coast. <i>Science of the Total Environment</i> , 2012 , 435-436, 430-45	10.2	34
16	Mercury concentrations in seawater, sediments and wild mussels from the coast of Galicia (NW Spain). <i>Marine Pollution Bulletin</i> , 2002 , 44, 345-9	6.7	30
15	Comparison of the 2000 and 2005 spatial distributions of heavy metals in wild mussels from the North-Atlantic Spanish coast. <i>Ecotoxicology and Environmental Safety</i> , 2011 , 74, 373-81	7	27
14	Linking chemical contamination to biological effects in coastal pollution monitoring. <i>Ecotoxicology</i> , 2012 , 21, 9-17	2.9	24
13	Evidence of increased anthropogenic emissions of platinum: time-series analysis of mussels (1991-2011) of an urban beach. <i>Science of the Total Environment</i> , 2015 , 514, 366-70	10.2	22
12	Chemometric tools to evaluate the spatial distribution of trace metals in surface sediments of two Spanish rBs. <i>Talanta</i> , 2011 , 87, 197-209	6.2	21
11	Statistical comparison of trace metal concentrations in wild mussels (<i>Mytilus galloprovincialis</i>) in selected sites of Galicia and Gulf of Biscay (Spain). <i>Journal of Marine Systems</i> , 2008 , 72, 320-331	2.7	21

10	Limpets (<i>Patella</i> spp. Mollusca, Gastropoda) as model organisms for biomonitoring environmental quality. <i>Ecological Indicators</i> , 2019 , 101, 150-162	5.8	13
9	A 10-year survey of trace metals in sediments using self-organizing maps. <i>Journal of Chemometrics</i> , 2014 , 28, 558-566	1.6	11
8	The link between descriptors 8 and 9 of the Marine Strategy Framework Directive: lessons learnt in Spain. <i>Environmental Science and Pollution Research</i> , 2014 , 21, 13664-71	5.1	7
7	Concentrations of organic and inorganic pollutants in four Iberian estuaries, North Eastern Atlantic. Study of benchmark values estimation. <i>Marine Chemistry</i> , 2020 , 224, 103828	3.7	6
6	A new perspective on marine assessment of metals and organic pollutants: A case study from Bay of Santander. <i>Science of the Total Environment</i> , 2019 , 691, 156-164	10.2	6
5	Use of whole mussels and mussel gills in metal pollution biomonitoring. <i>Ciencias Marinas</i> , 2018 , 44, 279-294		2
4	Yellow-legged gull eggs (<i>Larus michahellis</i>) as persistent organic pollutants and trace metal bioindicator for two nearby areas with different human impact. <i>Environmental Research</i> , 2020 , 190, 110028	7.9	2
3	Sea snail (<i>Hexaplex trunculus</i>) and sea cucumber (<i>Holothuria polii</i>) as potential sentinel species for organic pollutants and trace metals in coastal ecosystems. <i>Marine Pollution Bulletin</i> , 2021 , 168, 112407	6.7	1
2	Impact assessment of a large river on the sediments and fish from its continental shelf: using <i>Solea solea</i> as sentinel in the Ebro river mouth (NW Mediterranean, Spain). <i>Environmental Science and Pollution Research</i> , 2021 , 1	5.1	0
1	Trace Metal Residues in Marine Mussels: A Global Survey. <i>Environmental Toxicology and Chemistry</i> , 2021 , 40, 3434-3440	3.8	0
