#	ARTICLE	IF	CITATIONS
1	Do subjects with forced lip closure have different perioral and jaw muscles activity?. Cranio - Journal of Craniomandibular Practice, 2022, 40, 48-54.	0.6	2
2	Effect of laterotrusive occlusal scheme on chewing duration, external intercostal muscular activity, heart rate, and oxygen saturation. Cranio - Journal of Craniomandibular Practice, 2022, 40, 401-408.	0.6	1
3	Developing a protocol for a preventive oral health exam for elderly people (EDePAM) using E-Delphi methodology. Brazilian Oral Research, 2022, 36, e013.	0.6	0
4	Mandibular border movements: The two envelopes of motion. Journal of Oral Rehabilitation, 2021, 48, 384-391.	1.3	2
5	Overexpression of MMPs, cytokines, and RANKL/OPG in temporomandibular joint osteoarthritis and their association with joint pain, mouth opening, and bone degeneration: A preliminary report. Oral Diseases, 2021, 27, 970-980.	1.5	7
6	Awake teeth grinding in participants with canine guidance or group function: Effect on diaphragm EMG activity, heart rate, and oxygen saturation. Cranio - Journal of Craniomandibular Practice, 2020, 38, 412-418.	0.6	2
7	Effect of breathing type on electromyographic activity of respiratory muscles during tooth clenching at different decubitus positions. Cranio - Journal of Craniomandibular Practice, 2019, 37, 28-34.	0.6	2
8	Assessment of electromyographic activity in patients with temporomandibular disorders and natural mediotrusive occlusal contact during chewing and tooth grinding. Cranio - Journal of Craniomandibular Practice, 2017, 35, 152-161.	0.6	6
9	Electromyographic activity of the jaw muscles and mandibular kinematics in young adults with theoretically ideal dental occlusion: Reference values. Medicina Oral, Patología Oral Y Cirugía Bucal, 2017, 22, 0-0.	0.7	8
10	Natural mediotrusive contact: does it affect the masticatory and neck EMG activity during tooth grinding?. Cranio - Journal of Craniomandibular Practice, 2016, 34, 227-233.	0.6	3
11	Effect of natural mediotrusive contact on electromyographic activity of jaw and cervical muscles during chewing. Acta Odontologica Scandinavica, 2015, 73, 626-632.	0.9	3
12	Does breathing type influence electromyographic activity of obligatory and accessory respiratory muscles?. Journal of Oral Rehabilitation, 2014, 41, 801-808.	1.3	11
13	<b>Electromyographic activity during awake tooth grinding tasks at different jaw posture in the sagittal plane</b>. Acta Odontologica Scandinavica, 2013, 71, 917-922.	0.9	4
14	Sensopercepci3n olfatoria: una revisi3n. Revista Medica De Chile, 2011, 139, 362-367.	0.1	5
15	Despu3s de cien a3os de uso: ¿las f3rulas oclusales tienen alg3n efecto terap3utico?. Revista Cl3nica De Periodoncia Implantolog3a Y Rehabilitaci3n Oral, 2011, 4, 29-35.	0.1	1
16	Influence of Jaw Clenching and Tooth Grinding on Bilateral Sternocleidomastoid EMG Activity. Cranio - Journal of Craniomandibular Practice, 2011, 29, 14-22.	0.6	21
17	Anterior Temporalis and Suprahyoid EMG Activity During Jaw Clenching and Tooth Grinding. Cranio - Journal of Craniomandibular Practice, 2011, 29, 261-269.	0.6	6
18	The Effect of Tooth Clenching and Grinding on Anterior Temporalis Electromyographic Activity in Healthy Subjects. Cranio - Journal of Craniomandibular Practice, 2010, 28, 43-49.	0.6	12

#	ARTICLE	IF	CITATIONS
19	Sensopercepci3n Gustativa: una Revisi3n. International Journal of Odontostomatology, 2010, 4, 161-168.	0.0	4
20	Clenching and Grinding: Effect on Masseter and Sternocleidomastoid Electromyographic Activity in Healthy Subjects. Cranio - Journal of Craniomandibular Practice, 2009, 27, 159-166.	0.6	7
21	Influence of Laterotrusive Occlusal Scheme On Bilateral Masseter EMG Activity During Clenching and Grinding. Cranio - Journal of Craniomandibular Practice, 2008, 26, 263-273.	0.6	13
22	Electromyographic Evaluation of Anterior Temporal and Suprahyoid Muscles Using Habitual Methods to Determine Clinical Rest Position. Cranio - Journal of Craniomandibular Practice, 2007, 25, 257-263.	0.6	5
23	Natural mediotrusive contact: does it affect the masticatory and neck EMG activity during tooth grinding?. Cranio - Journal of Craniomandibular Practice, 0, , 1-7.	0.6	1
