|---|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1 | Viruses associated with ill health in wild chimpanzees. American Journal of Primatology, 2022, 84, e23358.                                                                                                    | 1.7 | 11        |
| 2 | Simultaneous outbreaks of respiratory disease in wild chimpanzees caused by distinct viruses of human origin. Emerging Microbes and Infections, 2019, 8, 139-149.                                             | 6.5 | 77        |
| 3 | Association of rhinovirus species with common cold and asthma symptoms and bacterial pathogens. Journal of Allergy and Clinical Immunology, 2018, 141, 822-824.e9.                                            | 2.9 | 36        |
| 4 | Lethal Respiratory Disease Associated with Human RhinovirusÂC in Wild Chimpanzees, Uganda, 2013.<br>Emerging Infectious Diseases, 2018, 24, 267-274.                                                          | 4.3 | 80        |
| 5 | Early life rhinovirus wheezing, allergic sensitization, and asthma risk at adolescence. Journal of Allergy and Clinical Immunology, 2017, 139, 501-507.                                                       | 2.9 | 195       |
| 6 | Community-acquired rhinovirus infection is associated with changes in the airway microbiome. Journal of Allergy and Clinical Immunology, 2017, 140, 312-315.e8.                                               | 2.9 | 26        |
| 7 | Detection of pathogenic bacteria during rhinovirus infection is associated with increased respiratory symptoms and asthma exacerbations. Journal of Allergy and Clinical Immunology, 2014, 133, 1301-1307.e3. | 2.9 | 226       |
