#	ARTICLE	IF	CITATIONS
1	The Association of Contemporary Screen Behaviours with Physical Activity, Sedentary Behaviour and Sleep in Adolescents: a Cross-sectional Analysis of the Millennium Cohort Study. <i>International Journal of Behavioral Medicine</i> , 2023, 30, 122-132.	0.8	3
2	Associations between socioeconomic position and young people's physical activity and sedentary behaviour in the UK: a scoping review. <i>BMJ Open</i> , 2022, 12, e051736.	0.8	6
3	Is the positive relationship of infant weight gain with adolescent adiposity attenuated by moderate-to-vigorous physical activity in childhood? Evidence from the Millennium Cohort Study. <i>International Journal of Obesity</i> , 2021, 45, 84-94.	1.6	4
4	Stand Out in Class: Investigating the Potential Impact of a Sit-to-stand Desk Intervention on Children's Sitting and Physical Activity during Class Time and after School. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 4759.	1.2	4
5	Age-related change in sedentary behavior during childhood and adolescence: A systematic review and meta-analysis. <i>Obesity Reviews</i> , 2021, 22, e13263.	3.1	21
6	Impacts of a Standing Desk Intervention within an English Primary School Classroom: A Pilot Controlled Trial. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 7048.	1.2	11
7	Cardiometabolic risk factors and mental health status among truck drivers: a systematic review. <i>BMJ Open</i> , 2020, 10, e038993.	0.8	24
8	Screen-time during the after-school period: A contextual perspective. <i>Preventive Medicine Reports</i> , 2020, 19, 101116.	0.8	10
9	Reducing screen-time and unhealthy snacking in 9- to 11-year old children: the Kids FIRST pilot randomised controlled trial. <i>BMC Public Health</i> , 2020, 20, 122.	1.2	13
10	Stand Out in Class: restructuring the classroom environment to reduce sitting time - findings from a pilot cluster randomised controlled trial. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020, 17, 55.	2.0	19
11	Sit-to-stand desks to reduce sedentary behaviour in 9- to 10-year-olds: the Stand Out in Class pilot cluster RCT. <i>Public Health Research</i> , 2020, 8, 1-126.	0.5	6
12	Prevalence and Correlates of Meeting Sleep, Screen-Time, and Physical Activity Guidelines Among Adolescents in the United Kingdom. <i>JAMA Pediatrics</i> , 2019, 173, 993.	3.3	48
13	activPAL-measured sitting levels and patterns in 9- to 10 years old children from a UK city. <i>Journal of Public Health</i> , 2019, 41, 757-764.	1.0	10
14	Sedentary Behaviors and Adiposity in Young People: Causality and Conceptual Model. <i>Exercise and Sport Sciences Reviews</i> , 2018, 46, 18-25.	1.6	44
15	Stand Out in Class: restructuring the classroom environment to reduce sedentary behaviour in 9- to 10-year-olds - study protocol for a pilot cluster randomised controlled trial. <i>Pilot and Feasibility Studies</i> , 2018, 4, 103.	0.5	9
16	Clustering and correlates of screen-time and eating behaviours among young children. <i>BMC Public Health</i> , 2018, 18, 753.	1.2	33
17	Individual, behavioural and home environmental factors associated with eating behaviours in young adolescents. <i>Appetite</i> , 2017, 112, 35-43.	1.8	59
18	Study design and protocol for a mixed methods evaluation of an intervention to reduce and break up sitting time in primary school classrooms in the UK: The CLASS PAL (Physically Active Learning) Programme. <i>BMJ Open</i> , 2017, 7, e019428.	0.8	11

#	ARTICLE	IF	CITATIONS
19	Clustering and correlates of screen-time and eating behaviours among young adolescents. BMC Public Health, 2017, 17, 533.	1.2	52
20	Sedentary behaviour across the primary-secondary school transition: A systematic review. Preventive Medicine, 2017, 94, 40-47.	1.6	79
21	The effects of standing desks within the school classroom: A systematic review. Preventive Medicine Reports, 2016, 3, 338-347.	0.8	51
22	Using Sit-to-Stand Workstations in Offices. Medicine and Science in Sports and Exercise, 2016, 48, 720-725.	0.2	70
23	Reducing children's classroom sitting time using sit-to-stand desks: findings from pilot studies in UK and Australian primary schools. Journal of Public Health, 2016, 38, 526-533.	1.0	80
24	Devices for Self-Monitoring Sedentary Time or Physical Activity: A Scoping Review. Journal of Medical Internet Research, 2016, 18, e90.	2.1	98
25	Energy expenditure during common sitting and standing tasks: examining the 1.5 MET definition of sedentary behaviour. BMC Public Health, 2015, 15, 516.	1.2	147
26	The Effectiveness of Interventions to Increase Physical Activity Among Adolescent Girls: A Meta-analysis. Academic Pediatrics, 2015, 15, 9-18.	1.0	94
27	Sedentary behaviour and diet across the lifespan: an updated systematic review. British Journal of Sports Medicine, 2015, 49, 1179-1188.	3.1	131
28	Interventions designed to reduce sedentary behaviours in young people: a review of reviews. British Journal of Sports Medicine, 2014, 48, 182-186.	3.1	151
29	Adolescent television viewing and unhealthy snack food consumption: the mediating role of home availability of unhealthy snack foods. Public Health Nutrition, 2014, 17, 317-323.	1.1	40
30	The effectiveness of interventions to increase physical activity among young girls: A meta-analysis. Preventive Medicine, 2014, 62, 119-131.	1.6	70
31	The relationship between sedentary behaviour and physical activity in adults: A systematic review. Preventive Medicine, 2014, 69, 28-35.	1.6	163
32	Family food involvement and frequency of family dinner meals among Australian children aged 10-12 years. Cross-sectional and longitudinal associations with dietary patterns. Appetite, 2014, 75, 64-70.	1.8	50
33	Conceptual Understanding of Screen Media Parenting: Report of a Working Group. Childhood Obesity, 2013, 9, S-110-S-118.	0.8	39
34	Maternal and best friends' influences on meal-skipping behaviours. British Journal of Nutrition, 2012, 108, 932-938.	1.2	20
35	Parental influences on adolescent fruit consumption: the role of adolescent self-efficacy. Health Education Research, 2012, 27, 14-23.	1.0	28
36	Sedentary Behavior and Dietary Intake in Children, Adolescents, and Adults. American Journal of Preventive Medicine, 2011, 41, 178-188.	1.6	465

#	ARTICLE	IF	CITATIONS
37	Tracking of children's body-mass index, television viewing and dietary intake over five-years. Preventive Medicine, 2011, 53, 268-270.	1.6	57
38	Are parental concerns for child TV viewing associated with child TV viewing and the home sedentary environment?. International Journal of Behavioral Nutrition and Physical Activity, 2011, 8, 102.	2.0	50
39	Mediators of longitudinal associations between television viewing and eating behaviours in adolescents. International Journal of Behavioral Nutrition and Physical Activity, 2011, 8, 23.	2.0	39
40	Predictors of changes in adolescents' consumption of fruits, vegetables and energy-dense snacks. British Journal of Nutrition, 2011, 105, 795-803.	1.2	83
41	Parenting styles, family structure and adolescent dietary behaviour. Public Health Nutrition, 2010, 13, 1245-1253.	1.1	115
42	A family-based intervention to increase fruit and vegetable consumption in adolescents: a pilot study. Public Health Nutrition, 2010, 13, 876-885.	1.1	32
43	Tracking of sedentary behaviours of young people: A systematic review. Preventive Medicine, 2010, 51, 345-351.	1.6	495
44	Family influences on children's physical activity and fruit and vegetable consumption. International Journal of Behavioral Nutrition and Physical Activity, 2009, 6, 34.	2.0	69
45	Patterns of adolescent physical activity and dietary behaviours. International Journal of Behavioral Nutrition and Physical Activity, 2009, 6, 45.	2.0	88
46	Family correlates of fruit and vegetable consumption in children and adolescents: a systematic review. Public Health Nutrition, 2009, 12, 267-283.	1.1	593
