#	ARTICLE	IF	CITATIONS
1	HLA-A29 Birdshot Retinochoroiditis in Its 5th Decade: Selected Glimpses into the Intellectual Meanderings and Progresses in the Knowledge of a Long-Time Misunderstood Disease. <i>Diagnostics</i> , 2021, 11, 1291.	2.6	10
2	MEWDS is a true primary choriocapillaritis and basic mechanisms do not seem to differ from other choriocapillaritis entities. <i>Journal of Current Ophthalmology</i> , 2018, 30, 281-286.	0.8	24
3	Why birdshot retinochoroiditis should rather be called "HLA-A29 uveitis"? <i>British Journal of Ophthalmology</i> , 2017, 101, 851-855.	3.9	59
4	Reappraisal of the management of Vogt-Koyanagi-Harada disease: sunset glow fundus is no more a fatality. <i>International Ophthalmology</i> , 2017, 37, 1383-1395.	1.4	36
5	New concepts in the appraisal and management of birdshot retinochoroiditis, a global perspective. <i>International Ophthalmology</i> , 2015, 35, 287-301.	1.4	27
6	The influence of anti-VEGF therapy on present day management of macular edema due to BRVO and CRVO: a longitudinal analysis on visual function, injection time interval and complications. <i>International Ophthalmology</i> , 2014, 34, 1193-1201.	1.4	15
7	Early and sustained treatment modifies the phenotype of birdshot retinochoroiditis. <i>International Ophthalmology</i> , 2014, 34, 563-574.	1.4	36
8	Reappraisal of birdshot retinochoroiditis (BRC): a global approach. <i>Graefe's Archive for Clinical and Experimental Ophthalmology</i> , 2013, 251, 861-869.	1.9	40
9	Granulomatous keratic precipitates in birdshot retinochoroiditis. <i>International Ophthalmology</i> , 2013, 33, 133-137.	1.4	18
10	Secondary choriocapillaritis in infectious chorioretinitis. <i>Acta Ophthalmologica</i> , 2013, 91, e550-e555.	1.1	27
11	Use of Indocyanine Green Angiography in Uveitis. <i>International Ophthalmology Clinics</i> , 2012, 52, 13-31.	0.7	33
12	Is ICGA Still Relevant in Inflammatory Eye Disorders? Why This Question Has to Be Dealt With Separately From Other Eye Conditions. <i>Retina</i> , 2012, 32, 1701-1703.	1.7	15
13	Tuberculosis-related choriocapillaritis (multifocal "serpiginous choroiditis): follow-up and precise monitoring of therapy by indocyanine green angiography. <i>International Ophthalmology</i> , 2012, 32, 55-60.	1.4	40
14	OCT Findings in Birdshot Chorioretinitis: A Glimpse Into Retinal Disease Evolution. <i>Ophthalmic Surgery Lasers and Imaging Retina</i> , 2012, 43, S25-31.	0.7	24
15	The role of serology in active ocular toxoplasmosis. <i>International Ophthalmology</i> , 2011, 31, 461-465.	1.4	30
16	Sensitivity of laser flare photometry compared to slit-lamp cell evaluation in monitoring anterior chamber inflammation in uveitis. <i>International Ophthalmology</i> , 2010, 30, 495-500.	1.4	49
17	Diagnosis of Ocular Sarcoidosis. <i>Ocular Immunology and Inflammation</i> , 2010, 18, 432-441.	1.8	38
