152 peer-reviewed articles	16,725 peer-reviewed citations	51021 47 peer-reviewed h-index	150707 5.68 score
159 documents	18203 doc citations	61181 48 h-index	32207 citing authors

#	Article	IF	Citations
1	Cardiovascular events following coronavirus disease 2019 vaccination in adults: a nationwide Swedish study. European Heart Journal, 2025, 46, 147-157.	2.6	45
2	Bereavement and type 1 diabetes in childhood: a register-based cohort study in Sweden. Diabetologia, 2025, 68, 549-556.	4.9	0
3	The urinary microbiome in association with diabetes and diabetic kidney disease: A systematic review. PLoS ONE, 2025, 20, e0317960.	1.5	3
4	Identification and interpretation of risk factors for Charcot foot. Reply to Milbourn VEL, Bus SA, Game F, van Netten JJ [letter]. Diabetologia, 2025, 68, 1078-1079.	4.9	0
5	Impact of genetic variants linked to liver fat and liver volume on MRI-mapped body composition. JHEP Reports, 2025, 7, 101468.	3.1	1
6	The association between the gut microbiome and 24-h blood pressure measurements in the SCAPIS study. Communications Medicine, 2025, 5, .	3.1	9
7	Adverse drug reactions following SARS-CoV-2 vaccination of 3805 healthcare workers cause substantial sick-leave and are correlated to vaccine regimen, age, sex and serological response. Vaccine, 2025, 62, 127553.	2.0	0
8	Response by Sayols-Baixeras et al to Letter Regarding Article, “ Streptococcus Species Abundance in the Gut Is Linked to Subclinical Coronary Atherosclerosis in 8973 Participants From the SCAPIS Cohort”. Circulation, 2024, 149, 276-276.	13.1	2
9	Predicting COVID-19 hospitalizations: The importance of healthcare hotlines, test positivity rates and vaccination coverage. Spatial and Spatio-temporal Epidemiology, 2024, 48, 100636.	0.7	1
10	#983 Identification of gut microbiome signatures associated with albuminuria in diabetes mellitus. Nephrology Dialysis Transplantation, 2024, 39, .	0.7	0
11	Major cardiovascular events and death in parents of children with type 1 diabetes: a register-based matched cohort study in Sweden. Diabetologia, 2024, 67, 1828-1837.	4.9	1
12	Associations between epigenetic aging and diabetes mellitus in a Swedish longitudinal study. GeroScience, 2024, 46, 5003-5014.	3.3	21
13	The interaction of genetics and physical activity in the pathogenesis of metabolic dysfunction associated liver disease. Scientific Reports, 2024, 14, .	2.7	2
14	Risk factors for Charcot foot development in individuals with diabetes mellitus. Diabetologia, 2024, 67, 2702-2710.	4.9	11
15	The association between novel urinary kidney damage biomarkers and coronary atherosclerosis in an apparently healthy population. Scientific Reports, 2024, 14, .	2.7	3
16	Large-Scale Metabolomics and the Incidence of Cardiovascular Disease. Journal of the American Heart Association, 2023, 12, .	3.1	52
17	The metabolic profile of waist to hip ratio–A multi-cohort study. PLoS ONE, 2023, 18, e0282433.	1.5	12
18	Swedish Snuff (Snus), Cigarette Smoking, and Risk of Type 2 Diabetes. American Journal of Preventive Medicine, 2023, 65, 60-66.	2.3	13

#	Article	IF	Citations
19	OSA Is Associated With the Human Gut Microbiota Composition and Functional Potential in the Population-Based Swedish CardioPulmonary bioImage Study. Chest, 2023, 164, 503-516.	0.8	39
20	Identification of three bacterial species associated with increased appendicular lean mass: the HUNT study. Nature Communications, 2023, 14, .	10.8	26
21	Genome-wide association study and functional characterization identifies candidate genes for insulin-stimulated glucose uptake. Nature Genetics, 2023, 55, 973-983.	14.1	76
22	The metabolomic profiling of total fat and fat distribution in a multi-cohort study of women and men. Scientific Reports, 2023, 13, .	2.7	14
23	Streptococcus Species Abundance in the Gut Is Linked to Subclinical Coronary Atherosclerosis in 8973 Participants From the SCAPIS Cohort. Circulation, 2023, 148, 459-472.	13.1	127
24	Prevalence of Charcot Foot in Subjects With Diabetes: A Nationwide Cohort Study. Diabetes Care, 2023, 46, e217-e218.	5.6	8
25	Evidence from Finland and Sweden on the relationship between early-life diseases and lifetime childlessness in men and women. Nature Human Behaviour, 2023, 8, 276-287.	6.8	28
26	Evening chronotype is associated with elevated biomarkers of cardiometabolic risk in the EpiHealth cohort: a cross-sectional study. Sleep, 2022, 45, .	0.6	49
27	Effect of General Adiposity and Central Body Fat Distribution on the Circulating Metabolome: A Multicohort Nontargeted Metabolomics Observational and Mendelian Randomization Study. Diabetes, 2022, 71, 329-339.	3.2	19
28	Metabolic Profiling of Obesity With and Without the Metabolic Syndrome: A Multisample Evaluation. Journal of Clinical Endocrinology and Metabolism, 2022, 107, 1337-1345.	3.1	23
29	App-based COVID-19 syndromic surveillance and prediction of hospital admissions in COVID Symptom Study Sweden. Nature Communications, 2022, 13, .	10.8	34
30	Development of gut microbiota during the first 2 years of life. Scientific Reports, 2022, 12, .	2.7	129
31	Hematopoietic loss of Y chromosome leads to cardiac fibrosis and heart failure mortality. Science, 2022, 377, 292-297.	26.1	252
32	The metabolomic profile associated with clustering of cardiovascular risk factors—A multi-sample evaluation. PLoS ONE, 2022, 17, e0274701.	1.5	11
33	Spatio-temporal predictions of COVID-19 test positivity in Uppsala County, Sweden: a comparative approach. Scientific Reports, 2022, 12, .	2.7	5
34	An online atlas of human plasma metabolite signatures of gut microbiome composition. Nature Communications, 2022, 13, .	10.8	193
35	Targeted proteomics identifies potential biomarkers of dysglycaemia, beta cell function and insulin sensitivity in Black African men and women. Diabetologia, 2022, 66, 174-189.	4.9	4
36	Cancer and Risk of COVID-19 Through a General Community Survey. Oncologist, 2021, 26, e182-e185.	2.5	70

#	Article	IF	Citations
37	Sex-dimorphic genetic effects and novel loci for fasting glucose and insulin variability. Nature Communications, 2021, 12, .	10.8	143
38	Multicohort Metabolomics Analysis Discloses 9-Decenoylcarnitine to Be Associated With Incident Atrial Fibrillation. Journal of the American Heart Association, 2021, 10, .	3.1	21
39	Symptom clusters in COVID-19: A potential clinical prediction tool from the COVID Symptom Study app. Science Advances, 2021, 7, .	8.1	141
40	Sleep duration is associated with protein biomarkers for cardiometabolic health: A large-scale population study. Journal of Sleep Research, 2021, 30, .	2.8	8
41	Fasting glucose, bone area and bone mineral density: a Mendelian randomisation study. Diabetologia, 2021, 64, 1348-1357.	4.9	26
42	Symptoms and syndromes associated with SARS-CoV-2 infection and severity in pregnant women from two community cohorts. Scientific Reports, 2021, 11, .	2.7	28
43	Attributes and predictors of long COVID. Nature Medicine, 2021, 27, 626-631.	22.6	2,320
44	Association between pet ownership and sleep in the Swedish CArdioPulmonary bioImage Study (SCAPIS). Scientific Reports, 2021, 11, .	2.7	10
45	Blood pressure phenotypes based on ambulatory monitoring in a general middle-aged population. Blood Pressure, 2021, 30, 237-249.	1.2	12
46	195 Association between pet ownership and sleep in the Swedish CArdioPulmonary bioImage Study (SCAPIS). Sleep, 2021, 44, A78-A79.	0.6	0
47	Type 2 Diabetes and Change in Total Hip Bone Area and Bone Mineral Density in Swedish Men and Women Older Than 55 Years. Journal of Clinical Endocrinology and Metabolism, 2021, 106, 2840-2854.	3.1	10
48	The ABCC4 gene is associated with pyometra in golden retriever dogs. Scientific Reports, 2021, 11, .	2.7	11
49	Detecting COVID-19 infection hotspots in England using large-scale self-reported data from a mobile application: a prospective, observational study. Lancet Public Health, The, 2021, 6, e21-e29.	10.7	84
50	Is the effect of Mediterranean diet on hip fracture mediated through type 2 diabetes mellitus and body mass index?. International Journal of Epidemiology, 2021, 50, 234-244.	2.8	10
51	Impaired HMG-CoA Reductase Activity Caused by Genetic Variants or Statin Exposure: Impact on Human Adipose Tissue, β-Cells and Metabolome. Metabolites, 2021, 11, 574.	2.6	15
52	Association of cardiometabolic risk factors with hospitalisation or death due to COVID-19: population-based cohort study in Sweden (SCAPIS). BMJ Open, 2021, 11, e051359.	1.2	12
53	A Multi-Cohort Metabolomics Analysis Discloses Sphingomyelin (32:1) Levels to be Inversely Related to Incident Ischemic Stroke. Journal of Stroke and Cerebrovascular Diseases, 2020, 29, 104476.	1.0	25
54	Season of birth, childhood asthma and allergy in a nationwide cohort—Mediation through lower respiratory infections. Clinical and Experimental Allergy, 2020, 50, 222-230.	1.6	34

#	Article	IF	Citations
55	Changes in Proteomic Profiles are Related to Changes in BMI and Fat Distribution During 10 Years of Aging. Obesity, 2020, 28, 178-186.	2.8	21
56	Longitudinal plasma inflammatory proteome profiling during pregnancy in the Born into Life study. Scientific Reports, 2020, 10, .	2.7	33
57	Non-targeted urine metabolomics and associations with prevalent and incident type 2 diabetes. Scientific Reports, 2020, 10, .	2.7	18
58	Global Plasma Metabolomics to Identify Potential Biomarkers of Blood Pressure Progression. Arteriosclerosis, Thrombosis, and Vascular Biology, 2020, 40, .	4.3	53
59	Early Childhood Antibiotic Treatment for Otitis Media and Other Respiratory Tract Infections Is Associated With Risk of Type 1 Diabetes: A Nationwide Register-Based Study With Sibling Analysis. Diabetes Care, 2020, 43, 991-999.	5.6	44
60	Association of the Mediterranean Diet With Onset of Diabetes in the Women's Health Study. JAMA Network Open, 2020, 3, e2025466.	5.2	53
61	GDF-15 is associated with sudden cardiac death due to incident myocardial infarction. Resuscitation, 2020, 152, 165-169.	2.0	30
62	Large-Scale Kidney Volumetry from MRI: Initial Results and Relations to Sex, Age, and Body Size in UK Biobank. Journal of the American Society of Nephrology: JASN, 2020, 31, 49-50.	0.2	0
63	Dog Ownership and Survival After a Major Cardiovascular Event. Circulation: Cardiovascular Quality and Outcomes, 2019, 12, .	2.8	33
64	In search of causal pathways in diabetes: a study using proteomics and genotyping data from a cross-sectional study. Diabetologia, 2019, 62, 1998-2006.	4.9	46
65	Proteomic Analysis of Longitudinal Changes in Blood Pressure. Journal of Clinical Medicine, 2019, 8, 1585.	1.8	6
66	The Metabolites Urobilin and Sphingomyelin (30:1) are Associated with Incident Heart Failure in the General Population. ESC Heart Failure, 2019, 6, 764-773.	1.9	34
67	Evidence of large genetic influences on dog ownership in the Swedish Twin Registry has implications for understanding domestication and health associations. Scientific Reports, 2019, 9, .	2.7	13
68	Dog ownership and cardiovascular risk factors: a nationwide prospective register-based cohort study. BMJ Open, 2019, 9, e023447.	1.2	4
69	Oral Microbiota Development in Early Childhood. Scientific Reports, 2019, 9, .	2.7	58
70	Reference Intervals for Fecal Calprotectin in Pregnant Women Using a Particle Enhanced Turbidimetric Assay. Clinical Laboratory, 2019, 65, .	0.3	1
71	Proteomic Biomarkers for Incident Aortic Stenosis Requiring Valvular Replacement. Circulation, 2018, 138, 590-599.	13.1	40
72	Normal values for calprotectin in stool samples of infants from the population-based longitudinal born into life study. Scandinavian Journal of Clinical and Laboratory Investigation, 2018, 78, 120-124.	0.9	17

#	Article	IF	Citations
73	Circulating Proteins as Predictors of Incident Heart Failure in the Elderly. European Journal of Heart Failure, 2018, 20, 55-62.	5.0	119
74	Dog characteristics and future risk of asthma in children growing up with dogs. Scientific Reports, 2018, 8, .	2.7	18
75	Associations of Circulating Protein Levels With Lipid Fractions in the General Population. Arteriosclerosis, Thrombosis, and Vascular Biology, 2018, 38, 2505-2518.	4.3	24
76	Multiplex proteomics for prediction of major cardiovascular events in type 2 diabetes. Diabetologia, 2018, 61, 1748-1757.	4.9	58
77	Type 2 Diabetes in Relation to Hip Bone Density, Area, and Bone Turnover in Swedish Men and Women: A Cross-Sectional Study. Calcified Tissue International, 2018, 103, 501-511.	1.7	24
78	Role of peroxisome proliferator-activated receptor gamma Pro12Ala polymorphism in human adipose tissue: assessment of adipogenesis and adipocyte glucose and lipid turnover. Adipocyte, 2018, 7, 285-296.	2.1	7
79	Genome-wide association study of coronary artery disease among individuals with diabetes: the UK Biobank. Diabetologia, 2018, 61, 2174-2179.	4.9	42
80	Changes in markers of liver function in relation to changes in perfluoroalkyl substances - A longitudinal study. Environment International, 2018, 117, 196-203.	6.5	125
81	Effect of insulin treatment on circulating insulin-like growth factor I and IGF-binding proteins in cats with diabetes mellitus. Journal of Veterinary Internal Medicine, 2018, 32, 1579-1590.	1.4	12
82	Glucose challenge metabolomics implicates medium-chain acylcarnitines in insulin resistance. Scientific Reports, 2018, 8, .	2.7	66
83	Identification of metabolic profiles associated with human exposure to perfluoroalkyl substances. Journal of Exposure Science and Environmental Epidemiology, 2018, 29, 196-205.	3.4	77
84	Circulating proteins as predictors of cardiovascular mortality in end-stage renal disease. Journal of Nephrology, 2018, 32, 111-119.	1.1	60
85	Recent Advances in Human Genetics and Epigenetics of Adiposity: Pathway to Precision Medicine?. Gastroenterology, 2017, 152, 1695-1706.	0.9	39
86	Dog Exposure During the First Year of Life and Type 1 Diabetes in Childhood. JAMA Pediatrics, 2017, 171, 663.	4.6	4
87	Parental antibiotics and childhood asthma—a population-based study. Journal of Allergy and Clinical Immunology: in Practice, 2017, 5, 1451-1454.e4.	2.5	10
88	Sensitivity Analyses for Robust Causal Inference from Mendelian Randomization Analyses with Multiple Genetic Variants. Epidemiology, 2017, 28, 30-42.	2.0	1,805
89	Dog ownership and the risk of cardiovascular disease and death – a nationwide cohort study. Scientific Reports, 2017, 7, .	2.7	147
90	SO059CIRCULATING PROTEINS AS PREDICTORS OF CARDIOVASCULAR MORTALITY IN END-STAGE RENAL DISEASE PATIENTS ON HEMODIALYSIS - A PROTEOMIC APPROACH. Nephrology Dialysis Transplantation, 2017, 32, iii34-iii34.	0.7	0

#	Article	IF	Citations
91	Childhood adiposity and risk of type 1 diabetes: A Mendelian randomization study. PLoS Medicine, 2017, 14, e1002362.	4.6	113
92	Reference Intervals for Fecal Calprotectin in Adults Using Two Different Extraction Methods in the Uppsala-SCAPIS Cohort. Clinical Laboratory, 2017, 63, .	0.3	5
93	Protein Biomarkers for Insulin Resistance and Type 2 Diabetes Risk in Two Large Community Cohorts. Diabetes, 2016, 65, 276-284.	3.2	114
94	Measurement of serum C-reactive protein concentration for discriminating between suppurative arthritis and osteoarthritis in dogs. BMC Veterinary Research, 2016, 12, .	1.6	28
95	Cystatin C and Cardiovascular Disease. Journal of the American College of Cardiology, 2016, 68, 934-945.	0.7	140
96	Sibship and risk of asthma in a total population: A disease comparative approach. Journal of Allergy and Clinical Immunology, 2016, 138, 1219-1222.e3.	4.4	7
97	The genetics of blood pressure regulation and its target organs from association studies in 342,415 individuals. Nature Genetics, 2016, 48, 1171-1184.	14.1	422
98	Non-targeted metabolomics combined with genetic analyses identifies bile acid synthesis and phospholipid metabolism as being associated with incident type 2 diabetes. Diabetologia, 2016, 59, 2114-2124.	4.9	97
99	The metabolic fingerprint of p,p'-DDE and HCB exposure in humans. Environment International, 2016, 88, 60-66.	6.5	66
100	Effect of Insulin Resistance on Monounsaturated Fatty Acid Levels: A Multi-cohort Non-targeted Metabolomics and Mendelian Randomization Study. PLoS Genetics, 2016, 12, e1006379.	2.2	25
101	Antibiotics in Fetal and Early Life and Subsequent Childhood Asthma. Obstetrical and Gynecological Survey, 2015, 70, 229-231.	0.4	3
102	No Evidence of a Causal Relationship between Plasma Homocysteine and Type 2 Diabetes: A Mendelian Randomization Study. Frontiers in Cardiovascular Medicine, 2015, 2, .	1.6	27
103	The Influence of Age and Sex on Genetic Associations with Adult Body Size and Shape: A Large-Scale Genome-Wide Interaction Study. PLoS Genetics, 2015, 11, e1005378.	2.2	412
104	Adiposity as a cause of cardiovascular disease: a Mendelian randomization study. International Journal of Epidemiology, 2015, 44, 578-586.	2.8	140
105	New genetic loci link adipose and insulin biology to body fat distribution. Nature, 2015, 518, 187-196.	30.7	1,606
106	Genetic studies of body mass index yield new insights for obesity biology. Nature, 2015, 518, 197-206.	30.7	4,579
107	Age- and Sex-Specific Causal Effects of Adiposity on Cardiovascular Risk Factors. Diabetes, 2015, 64, 1841-1852.	3.2	72
108	Using Genetic Variants to Assess the Relationship Between Circulating Lipids and Type 2 Diabetes. Diabetes, 2015, 64, 2676-2684.	3.2	124

#	Article	IF	Citations
109	Early Exposure to Dogs and Farm Animals and the Risk of Childhood Asthma. JAMA Pediatrics, 2015, 169, e153219.	4.6	134
110	Large-scale non-targeted metabolomic profiling in three human population-based studies. Metabolomics, 2015, 12, .	1.9	32
111	Large-Scale Genome-Wide Association Studies and Meta-Analyses of Longitudinal Change in Adult Lung Function. PLoS ONE, 2014, 9, e100776.	1.5	60
112	Lack of Evidence for a Role of Islet Autoimmunity in the Aetiology of Canine Diabetes Mellitus. PLoS ONE, 2014, 9, e105473.	1.5	34
113	Large-scale Metabolomic Profiling Identifies Novel Biomarkers for Incident Coronary Heart Disease. PLoS Genetics, 2014, 10, e1004801.	2.2	273
114	A Central Role for GRB10 in Regulation of Islet Function in Man. PLoS Genetics, 2014, 10, e1004235.	2.2	176
115	Antibiotics in fetal and early life and subsequent childhood asthma: nationwide population based study with sibling analysis. BMJ, The, 2014, 349, g6979-g6979.	0.2	145
116	Amylase activity is associated withAMY2Bcopy numbers in dog: implications for dog domestication, diet and diabetes. Animal Genetics, 2014, 45, 716-722.	1.5	77
117	FTO genetic variants and risk of obesity and type 2 diabetes: A meta-analysis of 28,394 Indians. Obesity, 2014, 22, 964-970.	2.8	46
118	Genome-wide association analysis identifies six new loci associated with forced vital capacity. Nature Genetics, 2014, 46, 669-677.	14.1	142
119	Defining the role of common variation in the genomic and biological architecture of adult human height. Nature Genetics, 2014, 46, 1173-1186.	14.1	1,994
120	Common Genetic Variants Highlight the Role of Insulin Resistance and Body Fat Distribution in Type 2 Diabetes, Independent of Obesity. Diabetes, 2014, 63, 4378-4387.	3.2	172
121	The dog as a genetic model for immunoglobulin A (IgA) deficiency: Identification of several breeds with low serum IgA concentrations. Veterinary Immunology and Immunopathology, 2014, 160, 255-259.	1.0	34
122	FKBP5 expression in human adipose tissue increases following dexamethasone exposure and is associated with insulin resistance. Metabolism: Clinical and Experimental, 2014, 63, 1198-1208.	8.9	95
123	Genome-wide association studies of obesity and metabolic syndrome. Molecular and Cellular Endocrinology, 2014, 382, 740-757.	2.0	279
124	Meta-analysis of Gene-Level Associations for Rare Variants Based on Single-Variant Statistics. American Journal of Human Genetics, 2013, 93, 236-248.	4.0	66
125	Evidence of a Causal Relationship Between Adiponectin Levels and Insulin Sensitivity. Diabetes, 2013, 62, 1338-1344.	3.2	85
126	Global DNA hypermethylation is associated with high serum levels of persistent organic pollutants in an elderly population. Environment International, 2013, 59, 456-461.	6.5	95

#	Article	IF	Citations
127	Genome-wide meta-analysis identifies 11 new loci for anthropometric traits and provides insights into genetic architecture. Nature Genetics, 2013, 45, 501-512.	14.1	660
128	Sex-stratified Genome-wide Association Studies Including 270,000 Individuals Show Sexual Dimorphism in Genetic Loci for Anthropometric Traits. PLoS Genetics, 2013, 9, e1003500.	2.2	425
129	The Role of Adiposity in Cardiometabolic Traits: A Mendelian Randomization Analysis. PLoS Medicine, 2013, 10, e1001474.	4.6	196
130	Multifactorial analysis of changes in body mass index across the adult life course: a study with 65 years of follow-up. International Journal of Obesity, 2013, 38, 1133-1141.	2.8	56
131	Large-scale association analyses identify new loci influencing glycemic traits and provide insight into the underlying biological pathways. Nature Genetics, 2012, 44, 991-1005.	14.1	812
132	Associations of Variants in FTO and Near MC4R With Obesity Traits in South Asian Indians. Obesity, 2012, 20, 2268-2277.	2.8	67
133	Validation of a species-optimized enzyme-linked immunosorbent assay for determination of serum concentrations of insulin in dogs. Veterinary Clinical Pathology, 2011, 40, 66-73.	0.6	12
134	Identification of Genomic Regions Associated with Phenotypic Variation between Dog Breeds using Selection Mapping. PLoS Genetics, 2011, 7, e1002316.	2.2	393
135	Mammary Tumor Development in Dogs Is Associated with BRCA1 and BRCA2. Cancer Research, 2009, 69, 8770-8774.	2.6	143
136	Diabetes Mellitus in a Population of 180,000 Insured Dogs: Incidence, Survival, and Breed Distribution. Journal of Veterinary Internal Medicine, 2007, 21, 1209-1216.	1.4	126
137	The shared risk of diabetes between dog and cat owners and their pets: register based cohort study. BMJ, The, 0, , m4337.	0.2	22
138	Comment on 'AIRE-deficient patients harbor unique high-affinity disease-ameliorating autoantibodies'. ELife, 0, 8, .	1.0	6
139	Mendelian randomization suggests a bidirectional, causal relationship between physical inactivity and adiposity. ELife, 0, 11, .	1.0	47
140	Plasma proteomic and metabolomic profiling of coronary and carotid atherosclerosis in the SCAPIS study—differences and similarities. Cardiovascular Research, 0, 121, 1649-1652.	5.7	4
141	The impact of child type 1 diabetes on parental incomes in a welfare state context: quasi-experimental evidence from Swedish national registers. Diabetologia, 0, 68, 2168-2178.	4.9	0
142	Identification of Gut Microbiome Signatures and Metabolites Associated With Albuminuria in Type 2 Diabetes. Journal of Clinical Endocrinology and Metabolism, 0, 111, e927-e936.	3.1	3
143	The metabolic signature of salt intake: a cross-sectional analysis from the SCAPIS-study. Nutrition and Metabolism, 0, 22, .	2.1	3
144	Time series anomaly detection in helpline call trends for early detection of COVID-19 spread across Sweden, 2020. Scientific Reports, 0, 15, .	2.7	1
