

List of Publications by Citations

Source: <https://exaly.com/author-pdf/8178689/pam-susi-publications-by-citations.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

25
papers

591
citations

#	Paper	IF	Citations
25	Excessive exposure to silica in the US construction industry. <i>Annals of Occupational Hygiene</i> , 2003 , 47, 111-22		86
24	Ergonomics and construction: a review of potential hazards in new construction. <i>AIHA Journal</i> , 1994 , 55, 635-49		86
23	Neurological risks associated with manganese exposure from welding operations--a literature review. <i>International Journal of Hygiene and Environmental Health</i> , 2009 , 212, 459-69	6.9	79
22	The use of a task-based exposure assessment model (T-BEAM) for assessment of metal fume exposures during welding and thermal cutting. <i>Journal of Occupational and Environmental Hygiene</i> , 2000 , 15, 26-38		61
21	Manganese, iron, and total particulate exposures to welders. <i>Journal of Occupational and Environmental Hygiene</i> , 2010 , 7, 115-26	2.9	45
20	Engineering controls for selected silica and dust exposures in the construction industry--a review. <i>Journal of Occupational and Environmental Hygiene</i> , 2003 , 18, 268-77		40
19	Manganese and welding fume exposure and control in construction. <i>Journal of Occupational and Environmental Hygiene</i> , 2007 , 4, 943-51	2.9	35
18	Engineering control technologies to reduce occupational silica exposures in masonry cutting and tuckpointing. <i>Public Health Reports</i> , 2009 , 124 Suppl 1, 101-11	2.5	21
17	Local exhaust ventilation for the control of welding fumes in the construction industry--a literature review. <i>Annals of Occupational Hygiene</i> , 2012 , 56, 764-76		19
16	Effectiveness of dust control methods for crystalline silica and respirable suspended particulate matter exposure during manual concrete surface grinding. <i>Journal of Occupational and Environmental Hygiene</i> , 2010 , 7, 700-11	2.9	18
15	Hexavalent chromium exposure and control in welding tasks. <i>Journal of Occupational and Environmental Hygiene</i> , 2010 , 7, 607-15	2.9	16
14	Implications of applying cumulative risk assessment to the workplace. <i>Environment International</i> , 2018 , 115, 230-238	12.9	15
13	Database Needs for a Task-Based Exposure Assessment Model for Construction. <i>Journal of Occupational and Environmental Hygiene</i> , 1995 , 10, 394-399		13
12	A review of engineering control technology for exposures generated during abrasive blasting operations. <i>Journal of Occupational and Environmental Hygiene</i> , 2004 , 1, 680-7	2.9	12
11	Ergonomics and Construction: A Review of Potential Hazards in New Construction		10
10	Comparison of occupational exposures among painters using three alternative blasting abrasives. <i>Journal of Occupational and Environmental Hygiene</i> , 2006 , 3, D80-4	2.9	8
9	Evaluation and control of respirable silica exposure during lateral drilling of concrete. <i>Journal of Occupational and Environmental Hygiene</i> , 2012 , 9, D35-41	2.9	7

8	Assessment of silica exposure and engineering controls during tuckpointing. <i>Journal of Occupational and Environmental Hygiene</i> , 2003 , 18, 977-84		7
7	Modeling mixed exposures: an application to welding fumes in the construction trades. <i>Stochastic Environmental Research and Risk Assessment</i> , 2010 , 24, 377-388	3.5	4
6	Silica Measurement with High Flow Rate Respirable Size Selective Samplers: A Field Study. <i>Annals of Occupational Hygiene</i> , 2016 , 60, 334-47		3
5	Exposure to silica and metals among painters using specular hematite abrasive. <i>Journal of Occupational and Environmental Hygiene</i> , 2005 , 2, D60-4	2.9	3
4	Construction Chemical Exposures on a New Construction Site. <i>Journal of Occupational and Environmental Hygiene</i> , 1995 , 10, 100-103		2
3	The power of local action in occupational health: the adoption of local exhaust ventilation in the Chicago tuckpointing trade. <i>International Journal of Occupational and Environmental Health</i> , 2016 , 22, 142-50		1
2	Industrial maintenance and rehabilitation: construction in the pulp and paper industry. <i>Journal of Occupational and Environmental Hygiene</i> , 2002 , 17, 534-5		
1	Methanol Exposure among School Workers during Spirit Duplicator Use. <i>Journal of Occupational and Environmental Hygiene</i> , 1996 , 11, 1340-1345
