#	ARTICLE	IF	CITATIONS
1	Cauchyâ€“Schwarz norm inequalities for elementary operators and inner product type transformers generated by families of subnormal operators. Mediterranean Journal of Mathematics, 2022, 19, .	0.8	2
2	Perturbation norm inequalities for elementary operators generated by analytic functions with positive Taylor coefficients. Positivity, 2022, 26, .	0.7	0
3	Laplace transformers in norm ideals of compact operators. Banach Journal of Mathematical Analysis, 2021, 15, 1.	0.8	3
4	Inequalities for generalized derivations of operator monotone functions in norm ideals of compact operators. Linear Algebra and Its Applications, 2020, 586, 43-63.	0.9	9
5	Cauchyâ€“Schwarz inequalities for inner product type transformers in \mathbb{Q}^* norm ideals of compact operators. Positivity, 2020, 24, 933-956.	0.7	11
6	A note on the paper â€œNorm inequalities in operator idealsâ€•[J. Funct. Anal. 255 (11) (2008), 3208â€“3228] by G. Larotonda. Journal of Functional Analysis, 2019, 277, 641-642.	1.4	1
7	Equality of norms for a class of Bloch and symmetrically weighted Lipschitz spaces of vector valued functions and derivation inequalities for Pick functions. Journal of Functional Analysis, 2019, 277, 2558-2571.	1.4	2
8	Clarksonâ€“McCarthy Inequalities for Several Operators and Related Norm Inequalities for p-Modified Unitarily Invariant Norms. Complex Analysis and Operator Theory, 2019, 13, 583-613.	0.6	1
9	Refinements of Inequalities Related to Landauâ€“GrÃ¼ss Inequalities for Elementary Operators Acting on Ideals Associated to p-Modified Unitarily Invariant Norms. Complex Analysis and Operator Theory, 2018, 12, 195-205.	0.6	3
10	Norm inequalities for a class of elementary operators generated by analytic functions with non-negative Taylor coefficients in ideals of compact operators related to p-modified unitarily invariant norms. Linear Algebra and Its Applications, 2018, 540, 60-83.	0.9	12
11	Norm inequalities for elementary operators and other inner product type integral transformers with the spectra contained in the unit disc. Filomat, 2017, 31, 197-206.	0.5	9
12	Refinements of operator Cauchyâ€“Schwarz and Minkowski inequalities for p-modified norms and related norm inequalities. Linear Algebra and Its Applications, 2016, 488, 284-301.	0.9	6
13	Landau and GrÃ¼ss type inequalities for inner product type integral transformers in norm ideals. Mathematical Inequalities and Applications, 2013, , 109-125.	0.2	7
14	Schurâ€“Laurent multipliers for block matrices and geometric characterization of continuous matrices. Linear and Multilinear Algebra, 2010, 58, 523-534.	1.0	1
15	Multipliers of elementary operators and comparison of row and column space Schatten p norms. Linear Algebra and Its Applications, 2009, 431, 2062-2070.	0.9	12
16	Interpolation norms between row and column spaces and the norm problem for elementary operators. Linear Algebra and Its Applications, 2009, 430, 2961-2974.	0.9	7
17	Cauchyâ€“Schwarz norm inequalities for weakâ€“integrals of operator valued functions. Journal of Functional Analysis, 2005, 218, 318-346.	1.4	27
18	Integral representation formula for generalized normal derivations. Proceedings of the American Mathematical Society, 1999, 127, 2303-2314.	0.8	9

#	ARTICLE	IF	CITATIONS
19	The Cauchy-Schwarz Norm Inequality for Elementary Operators in Schatten Ideals. Journal of the London Mathematical Society, 1999, 60, 925-934.	1.0	13
20	Cauchy-Schwarz and means inequalities for elementary operators into norm ideals. Proceedings of the American Mathematical Society, 1998, 126, 2705-2711.	0.8	19
21	Norm Inequalities for Self-Adjoint Derivations. Journal of Functional Analysis, 1997, 145, 24-34.	1.4	7
22	Extensions of the arithmetic-geometric means and Young's norm inequalities to accretive operators, with applications. Linear and Multilinear Algebra, 0, , 1-41.	1.0	4
