#	ARTICLE	IF	CITATIONS
1	Impact of meteorological factors on the incidence of bacillary dysentery in Beijing, China: A time series analysis (1970-2012). PLoS ONE, 2017, 12, e0182937.	2.5	33
2	Correlation analysis for the attack of bacillary dysentery and meteorological factors based on the Chinese medicine theory of Yunqi and the medical-meteorological forecast model. Chinese Journal of Integrative Medicine, 2013, 19, 182-186.	1.6	26
3	Seasonal variation in health impacts associated with visibility in Beijing, China. Science of the Total Environment, 2020, 730, 139149.	8.0	19
4	Time series analysis of mumps and meteorological factors in Beijing, China. BMC Infectious Diseases, 2019, 19, 435.	2.9	12
5	Effect of meteorological factors on incidence of tuberculosis: A 15-year retrospective study based on Chinese medicine theory of five circuits and six qi. Chinese Journal of Integrative Medicine, 2015, 21, 751-758.	1.6	11
6	Meteorological and social conditions contribute to infectious diarrhea in China. Scientific Reports, 2021, 11, 23374.	3.3	9
7	Incidence of allergic rhinitis and meteorological variables: Non-linear correlation and non-linear regression analysis based on Yunqi theory of chinese medicine. Chinese Journal of Integrative Medicine, 2016, , 1.	1.6	8
8	Birth in winter can reduce the risk of lung cancer: A retrospective study of the birth season of patients with lung cancer in Beijing area, China. Chronobiology International, 2017, 34, 511-518.	2.0	7
9	Lunar cycle and psychiatric hospital admissions for schizophrenia: new findings from Henan province, China. Chronobiology International, 2020, 37, 438-449.	2.0	6
10	Correlation Analysis of Rubella Incidence and Meteorological Variables Based on Chinese Medicine Theory of Yunqi. Chinese Journal of Integrative Medicine, 2019, 25, 911-916.	1.6	5
11	Association between averaged meteorological factors and tuberculosis risk: A systematic review and meta-analysis. Environmental Research, 2022, 212, 113279.	7.5	5
12	Time series analysis of correlativity between pulmonary tuberculosis and seasonal meteorological factors based on theory of Human-Environmental Inter Relation. Journal of Traditional Chinese Medical Sciences, 2018, 5, 119-127.	0.2	4
13	Sex differences in the effects of the moon on ischemic stroke incidence: new findings from Beijing, China. Chronobiology International, 2020, 37, 935-945.	2.0	3
14	Associations between birth season and the anatomic subsites of gastric cancer in Beijing, China. Chronobiology International, 2020, 37, 1636-1643.	2.0	3
15	Clinical characteristics and sociodemographic features of psychotic major depression. Annals of General Psychiatry, 2021, 20, 24.	2.7	2
16	Does the traditional Chinese medicine theory of five circuits and six qi improve treatment effectiveness? A systematic review of randomized controlled trials. Journal of Traditional Chinese Medical Sciences, 2018, 5, 350-360.	0.2	1
17	Impact of meteorological factors on the incidence of influenza in Beijing: A 35-year retrospective study based on Yunqi theory. Journal of Traditional Chinese Medical Sciences, 2018, 5, 264-270.	0.2	0
18	Is being born in spring significantly associated with early-onset bipolar affective disorder? A case-control study. Chronobiology International, 2020, 37, 1644-1649.	2.0	0
