

## List of Publications by Year in descending order

Source: https://exaly.com/author-pdf/8203032/publications.pdf Version: 2024-02-01

#	Article	IF	CITATIONS
1	Association between averaged meteorological factors and tuberculosis risk: A systematic review and meta-analysis. Environmental Research, 2022, 212, 113279.	7.5	5
2	Clinical characteristics and sociodemographic features of psychotic major depression. Annals of General Psychiatry, 2021, 20, 24.	2.7	2
3	Meteorological and social conditions contribute to infectious diarrhea in China. Scientific Reports, 2021, 11, 23374.	3.3	9
4	Sex differences in the effects of the moon on ischemic stroke incidence: new findings from Beijing, China. Chronobiology International, 2020, 37, 935-945.	2.0	3
5	Associations between birth season and the anatomic subsites of gastric cancer in Beijing, China. Chronobiology International, 2020, 37, 1636-1643.	2.0	3
6	Is being born in spring significantly associated with early-onset bipolar affective disorder? A case-control study. Chronobiology International, 2020, 37, 1644-1649.	2.0	0
7	Lunar cycle and psychiatric hospital admissions for schizophrenia: new findings from Henan province, China. Chronobiology International, 2020, 37, 438-449.	2.0	6
8	Seasonal variation in health impacts associated with visibility in Beijing, China. Science of the Total Environment, 2020, 730, 139149.	8.0	19
9	Time series analysis of mumps and meteorological factors in Beijing, China. BMC Infectious Diseases, 2019, 19, 435.	2.9	12
10	Correlation Analysis of Rubella Incidence and Meteorological Variables Based on Chinese Medicine Theory of Yunqi. Chinese Journal of Integrative Medicine, 2019, 25, 911-916.	1.6	5
11	Does the traditional Chinese medicine theory of five circuits and six qi improve treatment effectiveness? A systematic review of randomized controlled trials. Journal of Traditional Chinese Medical Sciences, 2018, 5, 350-360.	0.2	1
12	Impact of meteorological factors on the incidence of influenza in Beijing: A 35-year retrospective study based on Yunqi theory. Journal of Traditional Chinese Medical Sciences, 2018, 5, 264-270.	0.2	0
13	Time series analysis of correlativity between pulmonary tuberculosis and seasonal meteorological factors based on theory of Human-Environmental Inter Relation. Journal of Traditional Chinese Medical Sciences, 2018, 5, 119-127.	0.2	4
14	Birth in winter can reduce the risk of lung cancer: A retrospective study of the birth season of patients with lung cancer in Beijing area, China. Chronobiology International, 2017, 34, 511-518.	2.0	7
15	Impact of meteorological factors on the incidence of bacillary dysentery in Beijing, China: A time series analysis (1970-2012). PLoS ONE, 2017, 12, e0182937.	2.5	33
16	Incidence of allergic rhinitis and meteorological variables: Non-linear correlation and non-linear regression analysis based on Yunqi theory of chinese medicine. Chinese Journal of Integrative Medicine, 2016, , 1.	1.6	8
17	Effect of meteorological factors on incidence of tuberculosis: A 15-year retrospective study based on Chinese medicine theory of five circuits and six qi. Chinese Journal of Integrative Medicine, 2015, 21, 751-758.	1.6	11
18	Correlation analysis for the attack of bacillary dysentery and meteorological factors based on the Chinese medicine theory of Yunqi and the medical-meteorological forecast model. Chinese Journal of Integrative Medicine, 2013, 19, 182-186.	1.6	26
