#	ARTICLE	IF	CITATIONS
1	Short-term efficacy of home-based heart rate variability biofeedback on sleep disturbance in patients with incurable cancer: a randomised open-label study. <i>BMJ Supportive and Palliative Care</i> , 2023, 13, 190-198.	1.6	5
2	Heartbeat tracking task performance, an indicator of interoceptive accuracy, is associated with improvement of exercise tolerance in patients undergoing home-based cardiac rehabilitation. <i>European Heart Journal Digital Health</i> , 2022, 3, 296-306.	1.7	2
3	Interoception and alexithymia are related to differences between the self-reported and the objectively measured physical activity in patients with chronic musculoskeletal pain. <i>Journal of Psychosomatic Research</i> , 2021, 140, 110324.	2.6	5
4	The Association Between Heart Rate Variability and Quality of Life in Patients with Functional Somatic Syndrome and Healthy Controls. <i>Applied Psychophysiology Biofeedback</i> , 2021, 46, 279-285.	1.7	4
5	The effect of aerobic exercise on interoception and cognitive function in healthy university students: a non-randomized controlled trial. <i>BMC Sports Science, Medicine and Rehabilitation</i> , 2021, 13, 99.	1.7	2
6	Effect of Heart Rate Variability Biofeedback Sessions With Resonant Frequency Breathing on Sleep: A Pilot Study Among Family Caregivers of Patients With Cancer. <i>Frontiers in Medicine</i> , 2020, 7, 61.	2.6	16
7	Self-Care System for Family Caregivers of Cancer Patients Using Resonant Breathing with a Portable Home Device: A Randomized Open-Label Study. <i>Journal of Palliative Medicine</i> , 2019, 22, 18-24.	1.1	11
8	Awareness of comfort immediately after a relaxation therapy session affects future quality of life and autonomic function: a prospective cohort study on the expectations of therapy. <i>BioPsychoSocial Medicine</i> , 2018, 12, 16.	2.1	5
9	Factors Associated with the Effectiveness of Intravenous Administration of Chlorpromazine for Delirium in Patients with Terminal Cancer. <i>Journal of Palliative Medicine</i> , 2018, 21, 1257-1264.	1.1	7
10	Hypnotic Intervention for Unexplained Dizziness in Patients with Advanced Cancer: A Preliminary Retrospective Observation Study. <i>Indian Journal of Palliative Care</i> , 2018, 24, 39-43.	1.0	3
11	Factors Associated with the Efficacy of Trigger Point Injection in Advanced Cancer Patients. <i>Journal of Palliative Medicine</i> , 2017, 20, 1085-1090.	1.1	16
12	Pain threshold reflects psychological traits in patients with chronic pain: a cross-sectional study. <i>BioPsychoSocial Medicine</i> , 2017, 11, 13.	2.1	17
13	The relationship between salivary amylase and the physical and psychological changes elicited by continuation of autogenic training in patients with functional somatic syndrome. <i>BioPsychoSocial Medicine</i> , 2017, 11, 17.	2.1	9
14	Tolerable pain reduces gastric fundal accommodation and gastric motility in healthy subjects: a crossover ultrasonographic study. <i>BioPsychoSocial Medicine</i> , 2017, 11, 4.	2.1	10
15	Relationship between Alexithymia and latent trigger points in the upper Trapezius. <i>BioPsychoSocial Medicine</i> , 2017, 11, 31.	2.1	4
16	Self-controllable prodromal symptoms of syncope attributed to carotid sinus syndrome during the end stage of cancer: a case report. <i>BioPsychoSocial Medicine</i> , 2016, 10, 27.	2.1	0
17	Links among emotional awareness, somatic awareness and autonomic homeostatic processing. <i>BioPsychoSocial Medicine</i> , 2016, 10, 16.	2.1	40
18	Myofacial trigger points in advanced cancer patients. <i>Indian Journal of Palliative Care</i> , 2016, 22, 80.	1.0	9

#	ARTICLE	IF	CITATIONS
19	A family caregiver's relaxation enhances the gastric motility function of the patient: a crossover study. <i>BioPsychoSocial Medicine</i> , 2015, 9, 21.	2.1	3
20	Saliva Amylase as a Measure of Sympathetic Change Elicited by Autogenic Training in Patients with Functional Somatic Syndromes. <i>Applied Psychophysiology Biofeedback</i> , 2015, 40, 339-347.	1.7	5
21	An Exploratory Study of Subgrouping of Patients With Functional Somatic Syndrome Based on the Psychophysiological Stress Response: Its Relationship With Moods and Subjective Variables. <i>Psychosomatic Medicine</i> , 2007, 69, 158-165.	2.0	11
22	Paradoxical Results of Psychophysiological Stress Profile in Functional Somatic Syndrome: Correlation Between Subjective Tension Score and Objective Stress Response. <i>Applied Psychophysiology Biofeedback</i> , 2004, 29, 255-268.	1.7	22
