#	ARTICLE	IF	CITATIONS
1	Is there consensus in defining childhood cerebral visual impairment? A systematic review of terminology and definitions. <i>British Journal of Ophthalmology</i> , 2018, 102, 424-432.	2.1	116
2	Visual impairment in infancy: impact on neurodevelopmental and neurobiological processes. <i>Developmental Medicine and Child Neurology</i> , 2002, 44, 782-791.	1.1	99
3	Developmental outcome, including setback, in young children with severe visual impairment. <i>Developmental Medicine and Child Neurology</i> , 2002, 44, 613-622.	1.1	76
4	Social communication difficulties and autism spectrum disorder in young children with optic nerve hypoplasia and/or septo- \rightarrow optic dysplasia. <i>Developmental Medicine and Child Neurology</i> , 2010, 52, 917-921.	1.1	73
5	Are language and social communication intact in children with congenital visual impairment at school age?. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2010, 51, 696-705.	3.1	67
6	Effect of growth hormone deficiency on brain structure, motor function and cognition. <i>Brain</i> , 2012, 135, 216-227.	3.7	67
7	I a Daddy: 2-Year-Olds' Collaboration in Joint Pretend with Sibling and with Mother**Dale's study was conducted while the author was supported by a Medical Council Research Studentship and a grant from the Wellcome Foundation. The study by Dunn and Munn is supported by the Medical Research Council. We are very grateful for the help of the families in the sample... 1984... 131-158.		62
8	Visual impairment in infancy: impact on neurodevelopmental and neurobiological processes. <i>Developmental Medicine and Child Neurology</i> , 2002, 44, 782-91.	1.1	55
9	Developmental outcome, including setback, in young children with severe visual impairment. <i>Developmental Medicine and Child Neurology</i> , 2002, 44, 613-22.	1.1	44
10	Cerebral Visual Impairment and Clinical Assessment: The European Perspective. <i>Seminars in Pediatric Neurology</i> , 2019, 31, 15-24.	1.0	44
11	Attentional processes in young children with congenital visual impairment. <i>British Journal of Developmental Psychology</i> , 2009, 27, 311-330.	0.9	39
12	Adaptive behaviour and quality of life in school-age children with congenital visual disorders and different levels of visual impairment. <i>Research in Developmental Disabilities</i> , 2019, 85, 154-162.	1.2	32
13	Home-based early intervention in infants and young children with visual impairment using the <i>Developmental Journal: longitudinal cohort study</i> . <i>Developmental Medicine and Child Neurology</i> , 2019, 61, 697-709.	1.1	31
14	Functional vision and cognition in infants with congenital disorders of the peripheral visual system. <i>Developmental Medicine and Child Neurology</i> , 2017, 59, 725-731.	1.1	29
15	Parenting stress, anxiety, and depression in mothers with visually impaired infants: a cross-sectional and longitudinal cohort analysis. <i>Developmental Medicine and Child Neurology</i> , 2018, 60, 290-298.	1.1	29
16	Visual function subtyping in children with early-onset cerebral visual impairment. <i>Developmental Medicine and Child Neurology</i> , 2021, 63, 303-312.	1.1	29
17	Developing a schedule to identify social communication difficulties and autism spectrum disorder in young children with visual impairment. <i>Developmental Medicine and Child Neurology</i> , 2011, 53, 285-288.	1.1	26
18	Social identity, autism and visual impairment (VI) in the early years. <i>British Journal of Visual Impairment</i> , 2008, 26, 135-146.	0.5	25

#	ARTICLE	IF	CITATIONS
19	Pretend Play with Mothers and Siblings: Relations between Early Performance and Partners. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 1989, 30, 751-759.	3.1	18
20	Story discourse and use of mental state language between mothers and school-aged children with and without visual impairment. <i>International Journal of Language and Communication Disorders</i> , 2013, 48, 679-688.	0.7	13
21	Event-related potential response to auditory social stimuli, parent-reported social communicative deficits and autism risk in school-aged children with congenital visual impairment. <i>Developmental Cognitive Neuroscience</i> , 2017, 27, 10-18.	1.9	9
22	Brain structure in children with congenital visual disorders and visual impairment. <i>Developmental Medicine and Child Neurology</i> , 2020, 62, 125-131.	1.1	9
23	Frontal EEG asymmetry and later behavior vulnerability in infants with congenital visual impairment. <i>Clinical Neurophysiology</i> , 2017, 128, 2191-2199.	0.7	8
24	Mother-infant interactions with infants with congenital visual impairment and associations with longitudinal outcomes in cognition and language. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2021, 62, 742-750.	3.1	8
25	Reduced Ventral Cingulum Integrity and Increased Behavioral Problems in Children with Isolated Optic Nerve Hypoplasia and Mild to Moderate or No Visual Impairment. <i>PLoS ONE</i> , 2013, 8, e59048.	1.1	7
26	Congenital Visual Impairment. <i>Perspectives in Pragmatics, Philosophy and Psychology</i> , 2017, , 441-469.	0.2	7
27	Detection vision development in infants and toddlers with congenital vision disorders and profound-severe visual impairment. <i>Developmental Medicine and Child Neurology</i> , 2020, 62, 962-968.	1.1	6
28	Development of a national monitoring protocol (developmental guide) for children with visual impairment 0-36 months. <i>International Congress Series</i> , 2005, 1282, 293-297.	0.2	3
29	Predictors of Zimbabwean children's neuro-cognitive performance on the Detroit Tests of Learning Aptitude fourth edition (DTLA-4): Implications for policy, practice and research. <i>World Federation of Occupational Therapists Bulletin</i> , 2017, 73, 94-106.	0.9	2
30	Cerebral visual impairment-related vision problems in the classroom. <i>Developmental Medicine and Child Neurology</i> , 2021, 63, 632-632.	1.1	2
31	Prognostic value of transient pattern visual evoked potentials in children with cerebral visual impairment. <i>Developmental Medicine and Child Neurology</i> , 2022, 64, 618-624.	1.1	2
32	Exploratory Investigation of Brain MRI Lesions According to Whole Sample and Visual Function Subtyping in Children With Cerebral Visual Impairment. <i>Frontiers in Human Neuroscience</i> , 2021, 15, 765371.	1.0	2
33	Middle Childhood: The Perspectives of Children and Parents. M. Borland, A. Laybourn, M. Hill, & J. Brown. London: Jessica Kingsley, 1998. pp. 188. £14.95 (pb).. <i>Child Psychology and Psychiatry Review</i> , 1999, 4, 190-193.	0.1	0
34	Special Issue on Children and Young People with Visual Impairment: Identity, Interaction and Inclusion. <i>British Journal of Visual Impairment</i> , 2008, 26, 115-118.	0.5	0
