#	ARTICLE	IF	CITATIONS
1	Psychological interventions for coronary heart disease. The Cochrane Library, 2021, 2021, CD002902.	1.5	212
2	Sex Differences in Voyeuristic and Exhibitionistic Interests: Exploring the Mediating Roles of Sociosexuality and Sexual Compulsivity from an Evolutionary Perspective. Archives of Sexual Behavior, 2021, 50, 2151-2162.	1.2	6
3	Covid-19: recording their stories provides emotional benefit to healthcare workers. BMJ, The, 2020, 369, m2536.	3.0	7
4	COVID-19 confessions: a qualitative exploration of healthcare workers experiences of working with COVID-19. BMJ Open, 2020, 10, e043949.	0.8	121
5	Long-term psychosocial impact of venous thromboembolism: a qualitative study in the community. BMJ Open, 2019, 9, e024805.	0.8	51
6	Novel ACT-based eHealth psychoeducational intervention for students with mental distress: a study protocol for a mixed-methodology pilot trial. BMJ Open, 2019, 9, e029411.	0.8	6
7	The experiences of giving and receiving social support for men with localised prostate cancer and their partners. Ecancermedicalsecience, 2019, 13, 989.	0.6	9
8	Psychological interventions for coronary heart disease: Cochrane systematic review and meta-analysis. European Journal of Preventive Cardiology, 2018, 25, 247-259.	0.8	162
9	Living with an implantable cardioverter defibrillator: partners' experiences. British Journal of Cardiac Nursing, 2018, 13, 279-285.	0.0	1
10	Predicting negative emotional states following first onset acute coronary syndrome. Journal of Health Psychology, 2017, 22, 765-775.	1.3	3
11	“Post-thrombotic panic syndrome”: A thematic analysis of the experience of venous thromboembolism. British Journal of Health Psychology, 2017, 22, 8-25.	1.9	65
12	Psychological Care of Cardiac Patients. , 2017, , 73-88.		0
13	Understanding the relationship between breastfeeding and postnatal depression: the role of pain and physical difficulties. Journal of Advanced Nursing, 2016, 72, 273-282.	1.5	129
14	Dietary and exercise change following acute cardiac syndrome onset: A latent class growth modelling analysis. Journal of Health Psychology, 2016, 21, 2347-2356.	1.3	8
15	Living with an implantable cardioverter defibrillator: The patients' experience. Heart and Lung: Journal of Acute and Critical Care, 2016, 45, 34-40.	0.8	35
16	Predicting post-traumatic stress and health anxiety following a venous thrombotic embolism. Journal of Health Psychology, 2016, 21, 863-871.	1.3	40
17	Comparing personal insight gains due to consideration of a recent dream and consideration of a recent event using the Ullman and Schredl dream group methods. Frontiers in Psychology, 2015, 6, 831.	1.1	12
18	Heterosexual Men's Ratings of Sexual Attractiveness of Adolescent Girls: A Cross-Cultural Analysis. Archives of Sexual Behavior, 2015, 44, 2201-2206.	1.2	1

#	ARTICLE	IF	CITATIONS
19	Long-term psychological consequences of symptomatic pulmonary embolism: a qualitative study. <i>BMJ Open</i> , 2014, 4, e004561.	0.8	73
20	Transition between cultures? Beliefs and attitudes of British and Chinese young adults living in China and the UK towards mental health disorders. <i>International Journal of Culture and Mental Health</i> , 2014, 7, 28-42.	0.6	4
21	Heterosexual Men's Ratings of Sexual Attractiveness of Pubescent Girls: Effects of Labeling the Target as Under or Over the Age of Sexual Consent. <i>Archives of Sexual Behavior</i> , 2014, 43, 267-271.	1.2	1
22	A self-help coping intervention can reduce anxiety and avoidant health behaviours whilst waiting for cancer genetic risk information: results of a phase III randomised trial. <i>Psycho-Oncology</i> , 2013, 22, 837-844.	1.0	14
23	Predicting post-traumatic stress disorder following first onset acute coronary syndrome: Testing a theoretical model. <i>British Journal of Clinical Psychology</i> , 2013, 52, 70-81.	1.7	22
24	Dreaming and insight. <i>Frontiers in Psychology</i> , 2013, 4, 979.	1.1	26
25	Measuring illness and exercise beliefs in osteoarthritis of the hip or knee: psychometric properties of the 'Hip and Knee Beliefs Questionnaire' and the 'Exercise Attitude Questionnaire'. <i>International Musculoskeletal Medicine</i> , 2012, 34, 13-20.	0.1	0
26	Concerns and coping during cancer genetic risk assessment. <i>Psycho-Oncology</i> , 2012, 21, 611-617.	1.0	17
27	The evolution of worry after breast cancer risk assessment: 6-year follow-up of the TRACE study cohort. <i>Psycho-Oncology</i> , 2011, 20, 984-991.	1.0	6
28	Using the Health Action Process Approach and implementation intentions to increase flu vaccine uptake in high risk Thai individuals: A controlled before-after trial. <i>Health Psychology</i> , 2011, 30, 492-500.	1.3	116
29	Activity Increase Despite Arthritis (AIDA): phase II randomised controlled trial of an active management booklet for hip and knee osteoarthritis in primary care. <i>British Journal of General Practice</i> , 2011, 61, e452-e458.	0.7	19
30	Translating patient education theory into practice: Developing material to address the cardiovascular education needs of people with rheumatoid arthritis. <i>Patient Education and Counseling</i> , 2011, 84, 123-127.	1.0	22
31	The Hip and Knee Book: developing an active management booklet for hip and knee osteoarthritis. <i>British Journal of General Practice</i> , 2010, 60, e64-e82.	0.7	11
32	'I have always believed I was at high risk' - The role of expectation in emotional responses to the receipt of an average, moderate or high cancer genetic risk assessment result: a thematic analysis of free-text questionnaire comments. <i>Familial Cancer</i> , 2010, 9, 469-477.	0.9	15
33	Long-term cohort study of women at intermediate risk of familial breast cancer: experiences of living at risk. <i>Psycho-Oncology</i> , 2010, 19, 390-398.	1.0	18
34	The development of a cancer genetic-specific measure of coping: the GRACE. <i>Psycho-Oncology</i> , 2010, 19, 847-854.	1.0	17
35	Psychological Care of Cardiac Patients. , 2010, , 61-86.		1
36	How can We Reduce the Distress Associated with Health Screening? From Psychological Theory to Clinical Practice. <i>Social and Personality Psychology Compass</i> , 2009, 3, 939-948.	2.0	3

#	ARTICLE	IF	CITATIONS
37	Patient preferences and National Health Service costs: a cost-consequences analysis of cancer genetic services. <i>Familial Cancer</i> , 2009, 8, 265-275.	0.9	9
38	Factors associated with intrusive cancer-related worries in women undergoing cancer genetic risk assessment. <i>Familial Cancer</i> , 2009, 8, 159-165.	0.9	18
39	Activity Increase Despite Arthritis (AADA): design of a Phase II randomised controlled trial evaluating an active management booklet for hip and knee osteoarthritis [ISRCTN24554946]. <i>BMC Family Practice</i> , 2009, 10, 62.	2.9	6
40	Associations between visual attention, implicit and explicit attitude and behaviour for physical activity. <i>Psychology and Health</i> , 2009, 24, 1105-1123.	1.2	88
41	Psychological Factors Associated with Emotional Responses to Receiving Genetic Risk Information. <i>Journal of Genetic Counseling</i> , 2008, 17, 234-241.	0.9	42
42	Understanding emotional responses to breast/ovarian cancer genetic risk assessment: An applied test of a cognitive theory of emotion. <i>Psychology, Health and Medicine</i> , 2008, 13, 545-558.	1.3	3
43	Emotions and Their Cognitive Precursors. <i>Journal of Health Psychology</i> , 2008, 13, 537-546.	1.3	9
44	A reaction-time study of social, health, and personal attributions in relation to fluorosed teeth. <i>Psychology, Health and Medicine</i> , 2008, 13, 75-86.	1.3	4
45	A randomized controlled trial of a brief self-help coping intervention designed to reduce distress when awaiting genetic risk information. <i>Journal of Psychosomatic Research</i> , 2007, 63, 59-64.	1.2	44
46	Minds and gaps. <i>British Journal of Health Psychology</i> , 2007, 12, 159-160.	1.9	0
47	The Impact of Breast Cancer Genetic Risk Assessment on Intentions to Perform Cancer Surveillance Behaviors. <i>Journal of Genetic Counseling</i> , 2007, 16, 617-623.	0.9	13
48	The development of a distraction-based coping intervention for women waiting for genetic risk information: a phase 1 qualitative study. <i>Psycho-Oncology</i> , 2006, 15, 169-173.	1.0	28
49	DRINKING AND MOTIVATIONS TO DRINK AMONG ADOLESCENT CHILDREN OF PARENTS WITH ALCOHOL PROBLEMS. <i>Alcohol and Alcoholism</i> , 2006, 41, 107-113.	0.9	66
50	Associations between organizational and incident factors and emotional distress in emergency ambulance personnel. <i>British Journal of Clinical Psychology</i> , 2005, 44, 215-226.	1.7	86
51	Health Psychology and Public Health: Theoretical Possibilities. <i>Journal of Health Psychology</i> , 2004, 9, 13-27.	1.3	22
52	Exploring coping reactions to work-stress: Application of an appraisal theory. <i>Journal of Occupational and Organizational Psychology</i> , 2003, 76, 393-400.	2.6	54
53	Emotion-related primary and secondary appraisals, adjustment and coping: Associations in women awaiting breast disease diagnosis. <i>British Journal of Health Psychology</i> , 2003, 8, 377-391.	1.9	13
54	Predicting postnatal depression. <i>Journal of Affective Disorders</i> , 2003, 76, 201-210.	2.0	48

#	ARTICLE	IF	CITATIONS
55	Enhancement of Antibody Responses to Influenza Vaccination in the Elderly following a Cognitive-Behavioural Stress Management Intervention. <i>Psychotherapy and Psychosomatics</i> , 2003, 72, 245-252.	4.0	59
56	An investigation into the relationship between salivary cortisol, stress, anxiety and depression. <i>Biological Psychology</i> , 2003, 62, 89-96.	1.1	141
57	BRIEF REPORT. <i>Cognition and Emotion</i> , 2003, 17, 511-520.	1.2	23
58	Advice to Eat Fish and Mood: A Randomised Controlled Trial in Men with Angina. <i>Nutritional Neuroscience</i> , 2003, 6, 63-65.	1.5	45
59	A stress-coping transactional model of low mood following childbirth. <i>Journal of Reproductive and Infant Psychology</i> , 2003, 21, 129-143.	0.9	28
60	A connectionist implementation of the theory of planned behavior: Association of beliefs with exercise intention.. <i>Health Psychology</i> , 2003, 22, 464-470.	1.3	11
61	Personality, Social Context and Cognitive Predictors of Post-Traumatic Stress Disorder in Myocardial Infarction Patients. <i>Psychology and Health</i> , 2002, 17, 489-500.	1.2	61
62	A brief psycho-educational group intervention for postnatal depression. <i>British Journal of Clinical Psychology</i> , 2002, 41, 405-409.	1.7	81
63	Predicting post-traumatic symptoms in cardiac patients. <i>Heart and Lung: Journal of Acute and Critical Care</i> , 2001, 30, 458-465.	0.8	60
64	Coronary heart disease: impact. , 2001, , 644-647.		0
65	Stress in nurses: coping, managerial support and work demand. <i>Stress and Health</i> , 2001, 17, 55-63.	1.4	69
66	Cardiac coping style, heartbeat detection, and the interpretation of cardiac events. <i>British Journal of Health Psychology</i> , 2001, 6, 285-301.	1.9	13
67	Coping, emotion and perceived health following myocardial infarction: Concurrent and predictive associations. <i>British Journal of Health Psychology</i> , 2000, 5, 337-350.	1.9	45
68	The Theory of Planned Behaviour as Predictor of Exercise. <i>Journal of Health Psychology</i> , 1999, 4, 517-529.	1.3	99
69	Intrusive memories, post-traumatic stress disorder and myocardial infarction. <i>British Journal of Clinical Psychology</i> , 1999, 38, 411-416.	1.7	94
70	Affective and social-cognitive predictors of behavioural change following first myocardial infarction. <i>British Journal of Health Psychology</i> , 1999, 4, 247-256.	1.9	29
71	Stress and coping in hospital doctors. <i>Stress and Health</i> , 1999, 15, 109-113.	0.7	45
72	Health Locus of Control and Health Behaviour. <i>Journal of Health Psychology</i> , 1998, 3, 171-180.	1.3	117

#	ARTICLE	IF	CITATIONS
73	Paper one: Social cognition models as a framework for health promotion: Necessary, but not sufficient. <i>Health Care Analysis</i> , 1995, 3, 15-22.	1.4	4
74	Type A behaviour: A suitable case for treatment?. <i>Irish Journal of Psychology</i> , 1994, 15, 43-53.	0.2	3
75	Psychological care of the coronary patient. <i>Journal of Mental Health</i> , 1994, 3, 477-484.	1.0	6
76	Health locus of control and value for health as predictors of dietary behaviour. <i>Psychology and Health</i> , 1994, 10, 41-54.	1.2	32
77	Cognitive-behavioural interventions in cardiac rehabilitation. <i>Journal of Psychosomatic Research</i> , 1994, 38, 169-182.	1.2	43
78	Psychological care in physical illness. <i>Journal of Mental Health</i> , 1994, 3, 441-442.	1.0	0
79	Socio-economic health inequalities: Their origins and implications. <i>Psychology and Health</i> , 1993, 8, 295-316.	1.2	41
80	Coronary care and rehabilitation. <i>British Journal of Clinical Psychology</i> , 1992, 31, 123-124.	1.7	1
