#	ARTICLE	IF	CITATIONS
1	Immediate impact of stay-at-home orders to control COVID-19 transmission on socioeconomic conditions, food insecurity, mental health, and intimate partner violence in Bangladeshi women and their families: an interrupted time series. <i>The Lancet Global Health</i> , 2020, 8, e1380-e1389.	2.9	318
2	Use of Family Care Indicators and Their Relationship with Child Development in Bangladesh. <i>Journal of Health, Population and Nutrition</i> , 2010, 28, 23-33.	0.7	155
3	Effects of prenatal food and micronutrient supplementation on infant development: a randomized trial from the Maternal and Infant Nutrition Interventions, Matlab (MINIMat) study. <i>American Journal of Clinical Nutrition</i> , 2008, 87, 704-711.	2.2	140
4	Integrating an early childhood development programme into Bangladeshi primary health-care services: an open-label, cluster-randomised controlled trial. <i>The Lancet Global Health</i> , 2019, 7, e366-e375.	2.9	87
5	Supplementation of fish-oil and soy-oil during pregnancy and psychomotor development of infants. <i>Journal of Health, Population and Nutrition</i> , 2006, 24, 48-56.	0.7	76
6	Effect of water quality, sanitation, hand washing, and nutritional interventions on child development in rural Bangladesh (WASH Benefits Bangladesh): a cluster-randomised controlled trial. <i>The Lancet Child and Adolescent Health</i> , 2018, 2, 255-268.	2.7	73
7	Febrile illness and pro-inflammatory cytokines are associated with lower neurodevelopmental scores in Bangladeshi infants living in poverty. <i>BMC Pediatrics</i> , 2014, 14, 50.	0.7	67
8	The MAL-ED Cohort Study: Methods and Lessons Learned When Assessing Early Child Development and Caregiving Mediators in Infants and Young Children in 8 Low- and Middle-Income Countries. <i>Clinical Infectious Diseases</i> , 2014, 59, S261-S272.	2.9	61
9	Psychosocial Stimulation Benefits Development in Nonanemic Children but Not in Anemic, Iron-Deficient Children. <i>Journal of Nutrition</i> , 2013, 143, 885-893.	1.3	57
10	Validity and Reliability of Mothers' Reports of Language Development in 1-Year-Old Children in a Large-Scale Survey in Bangladesh. <i>Food and Nutrition Bulletin</i> , 2010, 31, S198-S206.	0.5	48
11	The relation between age of attainment of motor milestones and future cognitive and motor development in Bangladeshi children. <i>Maternal and Child Nutrition</i> , 2013, 9, 89-104.	1.4	31
12	Home fortification during the first 1000 d improves child development in Bangladesh: a cluster-randomized effectiveness trial. <i>American Journal of Clinical Nutrition</i> , 2017, 105, 958-969.	2.2	31
13	Effect of maternal antenatal and newborn supplementation with vitamin A on cognitive development of school-aged children in rural Bangladesh: a follow-up of a placebo-controlled, randomized trial. <i>American Journal of Clinical Nutrition</i> , 2017, 106, 77-87.	2.2	24
14	Small-quantity lipid-based nutrient supplements for children age 6–24 months: a systematic review and individual participant data meta-analysis of effects on developmental outcomes and effect modifiers. <i>American Journal of Clinical Nutrition</i> , 2021, 114, 43S-67S.	2.2	24
15	Counting outcomes, coverage and quality for early child development programmes. <i>Archives of Disease in Childhood</i> , 2019, 104, S13-S21.	1.0	23
16	Benefits and risks of Iron interventions in children (BRISC): protocol for a three-arm parallel-group randomised controlled field trial in Bangladesh. <i>BMJ Open</i> , 2017, 7, e018325.	0.8	16
17	A holistic approach to promoting early child development: a cluster randomised trial of a group-based, multicomponent intervention in rural Bangladesh. <i>BMJ Global Health</i> , 2021, 6, e004307.	2.0	16
18	Effects of the COVID-19 pandemic on caregiver mental health and the child caregiving environment in a low-resource, rural context. <i>Child Development</i> , 2021, 92, e764-e780.	1.7	16

#	ARTICLE	IF	CITATIONS
19	Burden of major depressive disorder and quality of life among mothers of children with autism spectrum disorder in urban bangladesh. <i>Autism Research</i> , 2020, 13, 284-297.	2.1	15
20	Adaptation and Integration of Psychosocial Stimulation, Maternal Mental Health and Nutritional Interventions for Pregnant and Lactating Women in Rural Bangladesh. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 6233.	1.2	11
21	The ASHA (Hope) Project: Testing an Integrated Depression Treatment and Economic Strengthening Intervention in Rural Bangladesh: A Pilot Randomized Controlled Trial. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 279.	1.2	10
22	Seroprevalence of SARS-CoV-2 infection and associated factors among Bangladeshi slum and non-slum dwellers in pre-COVID-19 vaccination era: October 2020 to February 2021. <i>PLoS ONE</i> , 2022, 17, e0268093.	1.1	9
23	Association of vitamin D nutrition with neuro-developmental outcome of infants of slums in Bangladesh. <i>PLoS ONE</i> , 2019, 14, e0221805.	1.1	5
24	Exploration of Attendance, Active Participation, and Behavior Change in a Group-Based Responsive Stimulation, Maternal and Child Health, and Nutrition Intervention. <i>American Journal of Tropical Medicine and Hygiene</i> , 2021, 104, 1586-1595.	0.6	5
25	Approach temperament across cultures: Validity of the Infant Temperament Scale in MAL-ED. <i>International Journal of School and Educational Psychology</i> , 2018, 6, 266-278.	1.0	4
26	Factors associated with school achievement of children aged 8â€“10 years in rural Bangladesh: Findings from a post hoc analysis of a community-based study. <i>PLoS ONE</i> , 2021, 16, e0254693.	1.1	4
27	Low dietary diversity is associated with linear growth faltering and subsequent adverse child developmental outcomes in rural Democratic Republic of the Congo (REDUCE program). <i>Maternal and Child Nutrition</i> , 2022, 18, e13340.	1.4	3
28	Success Factors for Community Health Workers in Implementing an Integrated Group-Based Child Development Intervention in Rural Bangladesh. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 7891.	1.2	2
29	The Shishu Pushti Trialâ€“Extended Peer Counseling for Improving Feeding Practices and Reducing Undernutrition in Children Aged 0-48 Months in Urban Bangladesh: Protocol for a Cluster-Randomized Controlled Trial. <i>JMIR Research Protocols</i> , 2022, 11, e31475.	0.5	1
30	Child Mouthing of Soil and Contaminated Fomites and Unimproved Sanitation are Associated with Subsequent Poor Child Developmental Outcomes in Urban Bangladesh (CHoBI7 Program). <i>Journal of Pediatrics</i> , 2021, 235, 184-189.	0.9	0
