

# Per Ashorn

## List of Publications by Year in Descending Order

**Source:** <https://exaly.com/author-pdf/8287549/per-ashorn-publications-by-year.pdf>

**Version:** 2024-04-23

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

22  
papers

393  
citations

#	Paper	IF	Citations
22	Calcium supplementation for the prevention of hypertensive disorders of pregnancy: current evidence and programmatic considerations.. <i>Annals of the New York Academy of Sciences</i> , <b>2022</b> ,	6.5	3
21	Posture-Related Differences in Cardiovascular Function Between Young Men and Women: Study of Noninvasive Hemodynamics in Rural Malawi.. <i>Journal of the American Heart Association</i> , <b>2022</b> , 11, e022979	6	6
20	Human Protoparvovirus DNA and IgG in Children and Adults with and without Respiratory or Gastrointestinal Infections. <i>Viruses</i> , <b>2021</b> , 13,	6.2	2
19	Wasting and Stunting in Infants and Young Children as Risk Factors for Subsequent Stunting or Mortality: Longitudinal Analysis of Data from Malawi, South Africa, and Pakistan. <i>Journal of Nutrition</i> , <b>2021</b> , 151, 2022-2028	4.1	2
18	Characteristics that modify the effect of small-quantity lipid-based nutrient supplementation on child anemia and micronutrient status: an individual participant data meta-analysis of randomized controlled trials. <i>American Journal of Clinical Nutrition</i> , <b>2021</b> , 114, 68S-94S	7	7
17	Characteristics that modify the effect of small-quantity lipid-based nutrient supplementation on child growth: an individual participant data meta-analysis of randomized controlled trials. <i>American Journal of Clinical Nutrition</i> , <b>2021</b> , 114, 15S-42S	7	15
16	Small-quantity lipid-based nutrient supplements for children age 6-24 months: a systematic review and individual participant data meta-analysis of effects on developmental outcomes and effect modifiers. <i>American Journal of Clinical Nutrition</i> , <b>2021</b> , 114, 43S-67S	7	7
15	Association of maternal prenatal selenium concentration and preterm birth: a multicountry meta-analysis. <i>BMJ Global Health</i> , <b>2021</b> , 6,	6.6	1
14	Supplementation with Small-Quantity Lipid-Based Nutrient Supplements Does Not Increase Child Morbidity in a Semiurban Setting in Ghana: A Secondary Outcome Noninferiority Analysis of the International Lipid-Based Nutrient Supplements (iLINS)-DYAD Randomized Controlled Trial. <i>Journal of Nutrition</i> , <b>2020</b> , 150, 200-208	4.1	2
13	Lipid-based nutrient supplements and all-cause mortality in children 6-24 months of age: a meta-analysis of randomized controlled trials. <i>American Journal of Clinical Nutrition</i> , <b>2020</b> , 111, 207-218	7	20
12	The availability of global guidance for the promotion of women's, newborns', children's and adolescents' health and nutrition in conflicts. <i>BMJ Global Health</i> , <b>2020</b> , 5,	6.6	4
11	Impact of food supplements on early child development in children with moderate acute malnutrition: A randomised 2 x 2 x 3 factorial trial in Burkina Faso. <i>PLoS Medicine</i> , <b>2020</b> , 17, e1003442	11.6	6
10	Associations of human milk oligosaccharides and bioactive proteins with infant growth and development among Malawian mother-infant dyads. <i>American Journal of Clinical Nutrition</i> , <b>2020</b> ,	7	15
9	Lipid based nutrient supplements during pregnancy may improve foetal growth in HIV infected women - A cohort study. <i>PLoS ONE</i> , <b>2019</b> , 14, e0215760	3.7	1
8	Prenatal Iron Deficiency and Replete Iron Status Are Associated with Adverse Birth Outcomes, but Associations Differ in Ghana and Malawi. <i>Journal of Nutrition</i> , <b>2019</b> , 149, 513-521	4.1	10
7	Early development of visual attention in infants in rural Malawi. <i>Developmental Science</i> , <b>2019</b> , 22, e12761	4.5	8
6	Maternal Supplementation with Small-Quantity Lipid-Based Nutrient Supplements Compared with Multiple Micronutrients, but Not with Iron and Folic Acid, Reduces the Prevalence of Low Gestational Weight Gain in Semi-Urban Ghana: A Randomized Controlled Trial. <i>Journal of Nutrition</i> , <b>2017</b> , 147, 697-705	4.1	21

5	Effectiveness of food supplements in increasing fat-free tissue accretion in children with moderate acute malnutrition: A randomised 2 × 2 factorial trial in Burkina Faso. <i>PLoS Medicine</i> , <b>2017</b> , 14, e1002387	11.6	46
4	Effects of maternal and child lipid-based nutrient supplements on infant development: a randomized trial in Malawi. <i>American Journal of Clinical Nutrition</i> , <b>2016</b> , 103, 784-93	7	41
3	Small-quantity, lipid-based nutrient supplements provided to women during pregnancy and 6 mo postpartum and to their infants from 6 mo of age increase the mean attained length of 18-mo-old children in semi-urban Ghana: a randomized controlled trial. <i>American Journal of Clinical Nutrition</i> , <b>2016</b> , 104, 797-808	7	81
2	Supplementation of Maternal Diets during Pregnancy and for 6 Months Postpartum and Infant Diets Thereafter with Small-Quantity Lipid-Based Nutrient Supplements Does Not Promote Child Growth by 18 Months of Age in Rural Malawi: A Randomized Controlled Trial. <i>Journal of Nutrition</i> , <b>2015</b> , 145, 1345-53	4.1	99
1	Characteristics that modify the effect of small-quantity lipid-based nutrient supplementation on child growth: an individual participant data meta-analysis of randomized controlled trials		2
