citing authors

#	ARTICLE	IF	CITATIONS
1	Weak laws of large numbers for maximal weighted sums of random variables. Communications in Statistics - Theory and Methods, 2021, 50, 105-115.	1.0	9
2	On a Weak Law of Large Numbers with Regularly Varying Normalizing Sequences. Journal of Theoretical Probability, 0, , 1.	0.8	7
3	A note on the weak law of large numbers for weighted negatively superadditive dependent random variables. Communications in Statistics - Theory and Methods, 2022, 51, 7465-7475.	1.0	5
4	Limit theorems for dependent random variables with infinite means. Statistics and Probability Letters, 2022, 189, 109563.	0.7	4
5	The Marcinkiewicsâ€Žygmund strong law of large numbers for dependent random variables. Statistics and Probability Letters, 2020, 161, 108727.	0.7	3
6	A lower bound for the tail probability of partial maxima of dependent random variables and applications. Proceedings of the Indian Academy of Sciences: Mathematical Sciences, 2021, 131, 1.	0.1	3
7	On Convergence Rates in the Marcinkiewiczâ€Žygmund Strong Law of Large Numbers. Results in Mathematics, 2021, 76, 1.	0.8	3
8	Convergence of series of strongly integrable random variables and applications. Statistics and Probability Letters, 2018, 137, 191-200.	0.7	2
9	On a Fellerâ€Žajte strong law of large numbers. Communications in Statistics - Theory and Methods, 2022, 51, 6218-6226.	1.0	1
10	Maximal inequalities with exponential decay under weak dependence conditions. AIP Conference Proceedings, 2021, , .	0.4	1
11	On the almost sure convergence of some ergodic means. Lobachevskii Journal of Mathematics, 2014, 35, 185-197.	0.9	0
12	On a Spitzer-type law of large numbers for partial sums of $\{\mathbf{m}\}$ -negatively associated random variables. Revista De La Real Academia De Ciencias Exactas, Fisicas Y Naturales - Serie A: Matematicas, 2021, 115, 1.	1.2	0
