#	ARTICLE	IF	CITATIONS
1	Towards a new approach to job-related distress: A three-sample study of the Occupational Depression Inventory. <i>Stress and Health</i> , 2023, 39, 137-153.	2.6	9
2	Is the Occupational Depression Inventory predictive of cognitive performance? A focus on inhibitory control and effortful reasoning. <i>Personality and Individual Differences</i> , 2022, 184, 111213.	2.9	13
3	Perception of the usability of music-genre labels for the assessment of musical tastes. <i>Psychology of Music</i> , 2022, 50, 1362-1368.	1.6	2
4	Aesthetic Disposition, Educational Capital, Personality Trait Openness, and Sex: A Study of French High-School Students. <i>Empirical Studies of the Arts</i> , 2022, 40, 259-274.	1.7	1
5	Is the PHQ-9 a unidimensional measure of depression? A 58,272-participant study.. <i>Psychological Assessment</i> , 2022, 34, 595-603.	1.5	16
6	Occupational Depression in a Spanish-Speaking Sample: Associations with Cognitive Performance and Work-Life Characteristics. <i>Revista De Psicologia Del Trabajo Y De Las Organizaciones</i> , 2022, 38, 59-74.	1.6	6
7	A paradigm shift from burnout to occupational depression. <i>Journal of Affective Disorders</i> , 2022, 303, 230-232.	4.1	10
8	Are Australian teachers burned-out or depressed? A confirmatory factor analytic study involving the Occupational Depression Inventory. <i>Journal of Psychosomatic Research</i> , 2022, 157, 110783.	2.6	11
9	Spanish Validation of the Emotional Reactions to Challenging Behaviours Scale in Employees Working with People Exhibiting Intellectual Disabilities. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 219.	2.6	0
10	Burnout-Depression Overlap: Exploratory Structural Equation Modeling Bifactor Analysis and Network Analysis. <i>Assessment</i> , 2021, 28, 1583-1600.	3.1	33
11	Green et al. Paranoid Thoughts Scale: French validation and development of a brief version. <i>Personality and Individual Differences</i> , 2021, 171, 110554.	2.9	5
12	Psychiatrist Burnout. <i>American Journal of Psychiatry</i> , 2021, 178, 204-204.	7.2	2
13	The Occupational Depression Inventory: A Solution for Breaking the Impasse of Burnout Measurement. <i>JAMA Surgery</i> , 2021, 156, 589.	4.3	5
14	Is Burnout a Depressive Condition? A 14-Sample Meta-Analytic and Bifactor Analytic Study. <i>Clinical Psychological Science</i> , 2021, 9, 579-597.	4.0	59
15	Predictors of Occupational Burnout: A Systematic Review. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 9188.	2.6	44
16	Occupational Depression, Cognitive Performance, and Task Appreciation: A Study Based on Raven's Advanced Progressive Matrices. <i>Frontiers in Psychology</i> , 2021, 12, 695539.	2.1	9
17	The Occupational Depression Inventory: a solution for estimating the prevalence of job-related distress. <i>Psychiatry Research</i> , 2021, 305, 114181.	3.3	3
18	Harmonized definition of occupational burnout: A systematic review, semantic analysis, and Delphi consensus in 29 countries. <i>Scandinavian Journal of Work, Environment and Health</i> , 2021, 47, 95-107.	3.4	103

#	ARTICLE	IF	CITATIONS
19	Who needs to be “burned-out”? Time for a new approach to job-related distress. <i>European Psychiatry</i> , 2021, 64, 1-5.	0.2	5
20	From Burnout to Occupational Depression: Recent Developments in Research on Job-Related Distress and Occupational Health. <i>Frontiers in Public Health</i> , 2021, 9, 796401.	2.7	13
21	Validation and measurement invariance of the Occupational Depression Inventory in South Africa. <i>PLoS ONE</i> , 2021, 16, e0261271.	2.5	10
22	Memory bias toward emotional information in burnout and depression. <i>Journal of Health Psychology</i> , 2020, 25, 1567-1575.	2.3	23
23	On the relevance of music genre-based analysis in research on musical tastes. <i>Psychology of Music</i> , 2020, 48, 777-794.	1.6	12
24	Is Machiavellianism associated with depression? A cluster-analytic study. <i>Personality and Individual Differences</i> , 2020, 152, 109594.	2.9	13
25	A five-sample confirmatory factor analytic study of burnout–depression overlap. <i>Journal of Clinical Psychology</i> , 2020, 76, 801-821.	1.9	39
26	The Occupational Depression Inventory: A new tool for clinicians and epidemiologists. <i>Journal of Psychosomatic Research</i> , 2020, 138, 110249.	2.6	35
27	The Dark Triad of personality and attitudes toward cognitive enhancement. <i>BMC Psychology</i> , 2020, 8, 119.	2.1	6
28	Machiavellian males with high emotional intelligence exhibit fewer depressive symptoms. <i>Personality and Individual Differences</i> , 2020, 158, 109867.	2.9	4
29	Do burnout and depressive symptoms form a single syndrome? Confirmatory factor analysis and exploratory structural equation modeling bifactor analysis. <i>Journal of Psychosomatic Research</i> , 2020, 131, 109954.	2.6	34
30	Is Burnout Primarily Linked to Work-Situated Factors? A Relative Weight Analytic Study. <i>Frontiers in Psychology</i> , 2020, 11, 623912.	2.1	25
31	Burnout is associated with a depressive interpretation style. <i>Stress and Health</i> , 2019, 35, 642-649.	2.6	8
32	An exploratory study of the link between Machiavellianism and burnout. <i>Personality and Individual Differences</i> , 2019, 148, 27-31.	2.9	11
33	How perceived substance characteristics affect ethical judgement towards cognitive enhancement. <i>PLoS ONE</i> , 2019, 14, e0213619.	2.5	8
34	Implicit and explicit attitudes towards sport among young elite athletes with high versus low burnout symptoms. <i>Journal of Sports Sciences</i> , 2019, 37, 1673-1680.	2.0	13
35	Burnout, depression and paranoid ideation: a cluster-analytic study. <i>Occupational Medicine</i> , 2019, 69, 35-38.	1.4	9
36	Physician burnout: let’s avoid unsubstantiated claims. <i>Nature Reviews Clinical Oncology</i> , 2019, 16, 136-136.	27.6	7

#	ARTICLE	IF	CITATIONS
37	The Trouble With Burnout: An Update on Burnout-Depression Overlap. American Journal of Psychiatry, 2019, 176, 79-79.	7.2	13
38	Burnout and depression: Causal attributions and construct overlap. Journal of Health Psychology, 2019, 24, 1574-1580.	2.3	52
39	Confirmatory Factor Analysis of the Maslach Burnout Inventory. European Journal of Psychological Assessment, 2019, 35, 217-224.	3.0	45
40	Inquiry into the correlation between burnout and depression.. Journal of Occupational Health Psychology, 2019, 24, 603-616.	3.3	50
41	An exploratory structural equation modeling bi-factor analytic approach to uncovering what burnout, depression, and anxiety scales measure.. Psychological Assessment, 2019, 31, 1073-1079.	1.5	32
42	Burnout: Moving beyond the status quo.. International Journal of Stress Management, 2019, 26, 36-45.	1.2	63
43	On the “bubble” of burnout’s prevalence estimates. Intensive Care Medicine, 2018, 44, 544-545.	8.2	3
44	Is a meta-analytic approach to burnout’s prevalence timely?. Psycho-Oncology, 2018, 27, 1355-1355.	2.3	2
45	Burnout Research: Eyes Wide Shut. Critical Care Medicine, 2018, 46, e179-e180.	0.9	5
46	Burnout Syndrome and Depression. , 2018, , 187-202.		17
47	A Neglected Problem in Burnout Research. Academic Medicine, 2018, 93, 518-519.	1.6	0
48	When fatigue symptoms are associated with fatigue symptoms. Psychiatry Research, 2018, 263, 284.	3.3	2
49	Late-Life Depression, Cortisol, and the Hippocampus: On the Need to Consider Depressive, Hippocampal, and Pharmacological Complexities. Biological Psychiatry, 2018, 83, e23-e24.	1.3	1
50	Editorial commentary: Burnout in cardiology”Going to the heart of the misunderstanding. Trends in Cardiovascular Medicine, 2018, 28, 8-9.	4.9	4
51	Burnout is more strongly linked to neuroticism than to work-contextualized factors. Psychiatry Research, 2018, 270, 901-905.	3.3	55
52	Cross-Sectional and Longitudinal Associations Between Athlete Burnout, Insomnia, and Polysomnographic Indices in Young Elite Athletes. Journal of Sport and Exercise Psychology, 2018, 40, 312-324.	1.2	27
53	Burnout and depressive symptoms are not primarily linked to perceived organizational problems. Psychology, Health and Medicine, 2018, 23, 1094-1105.	2.4	13
54	Letter to the Editor. “Burned out” at work but satisfied with one’s job: anatomy of a false paradox. Journal of Neurosurgery, 2018, 129, 1371-1373.	1.6	2

#	ARTICLE	IF	CITATIONS
55	Effects of stress and mental toughness on burnout and depressive symptoms: A prospective study with young elite athletes. <i>Journal of Science and Medicine in Sport</i> , 2018, 21, 1200-1205.	1.3	84
56	Burnoutâ€depression overlap: Nomological network examination and factorâ€analytic approach. <i>Scandinavian Journal of Psychology</i> , 2018, 59, 532-539.	1.5	29
57	Usefulness of the Athlete Burnout Questionnaire (ABQ) as a screening tool for the detection of clinically relevant burnout symptoms among young elite athletes. <i>Psychology of Sport and Exercise</i> , 2018, 39, 104-113.	2.1	41
58	Interpretation bias toward ambiguous information in burnout and depression. <i>Personality and Individual Differences</i> , 2018, 135, 216-221.	2.9	25
59	On the depressive nature of the â€œburnout syndromeâ€: A clarification. <i>European Psychiatry</i> , 2017, 41, 109-110.	0.2	45
60	Burnout and the hypothalamic-pituitary-thyroid axis: A methodological comment. <i>Psychoneuroendocrinology</i> , 2017, 78, 254-255.	2.7	1
61	On the overlap of vital exhaustion and depression. <i>European Psychiatry</i> , 2017, 44, 161-163.	0.2	10
62	On parsimony and tautology in the study of acute coronary syndrome. <i>International Journal of Cardiology</i> , 2017, 242, 40.	1.7	1
63	Can we trust burnout research?. <i>Annals of Oncology</i> , 2017, 28, 2320-2321.	1.2	31
64	Physician burnout is better conceptualised as depression. <i>Lancet, The</i> , 2017, 389, 1397-1398.	13.7	43
65	On the Inconsistency of Burnout Conceptualization and Measurement. <i>Journal of the American College of Surgeons</i> , 2017, 224, 87.	0.5	12
66	Is the â€œburnout epidemicâ€an academic fiction?. <i>BMJ: British Medical Journal</i> , 2017, 358, j4389.	2.3	8
67	Consequences of Job Stress for the Mental Health of Teachers. <i>Aligning Perspectives on Health, Safety and Well-being</i> , 2017, , 55-75.	0.3	28
68	Distinction at the Class-Fraction Level? A Re-Examination of Bourdieuâ€™s Dataset. <i>Cultural Sociology</i> , 2017, 11, 489-535.	1.3	4
69	Burnout symptoms: Depressive manifestations under psychosocial labels?. <i>Asia-Pacific Psychiatry</i> , 2017, 9, e12280.	2.2	10
70	Defining Physician Burnout, and Differentiating Between Burnout and Depressionâ€I. <i>Mayo Clinic Proceedings</i> , 2017, 92, 1455.	3.0	16
71	Burnout or depression: both individual and social issue. <i>Lancet, The</i> , 2017, 390, 230.	13.7	41
72	Does vital exhaustion enhance our ability to predict type 2 diabetes?. <i>Journal of Psychosomatic Research</i> , 2017, 101, 137.	2.6	2
