#	Paper	IF	Citations
42	A systematic review of the effect of breakfast on the cognitive performance of children and adolescents. <i>Nutrition Research Reviews</i> , 2009 , 22, 220-43	7	301
41	Serotonergic drugs : effects on appetite expression and use for the treatment of obesity. <i>Drugs</i> , 2007 , 67, 27-55	12.1	244
40	A randomised trial of the effect of omega-3 polyunsaturated fatty acid supplements on the human intestinal microbiota. <i>Gut</i> , 2018 , 67, 1974-1983	19.2	200
39	Serotonin (5-HT) drugs: effects on appetite expression and use for the treatment of obesity. <i>Current Drug Targets</i> , 2005 , 6, 201-13	3	167
38	The relationship between obesity and cognitive health and decline. <i>Proceedings of the Nutrition Society</i> , 2017 , 76, 443-454	2.9	137
37	The effects of breakfast on behavior and academic performance in children and adolescents. <i>Frontiers in Human Neuroscience</i> , 2013 , 7, 425	3.3	127
36	Impairments in glucose tolerance can have a negative impact on cognitive function: a systematic research review. <i>Neuroscience and Biobehavioral Reviews</i> , 2009 , 33, 394-413	9	115
35	Acute effects of macronutrient manipulations on cognitive test performance in healthy young adults: a systematic research review. <i>Neuroscience and Biobehavioral Reviews</i> , 2008 , 32, 72-85	9	102
34	Serotonin, eating behavior, and fat intake. <i>Obesity</i> , 1995 , 3 Suppl 4, 471S-476S		89
33	The Effects of Breakfast and Breakfast Composition on Cognition in Children and Adolescents: A Systematic Review. <i>Advances in Nutrition</i> , 2016 , 7, 590S-612S	10	84
32	Food commercials increase preference for energy-dense foods, particularly in children who watch more television. <i>Pediatrics</i> , 2011 , 128, e93-100	7.4	82
31	The effects of flavonoid and other polyphenol consumption on cognitive performance: A systematic research review of human experimental and epidemiological studies. <i>Nutrition and Aging (Amsterdam, Netherlands)</i> , 2012 , 1, 5-25		68
30	Children's food preferences: effects of weight status, food type, branding and television food advertisements (commercials). <i>Pediatric Obesity</i> , 2008 , 3, 31-8		60
29	Concord grape juice, cognitive function, and driving performance: a 12-wk, placebo-controlled, randomized crossover trial in mothers of preteen children. <i>American Journal of Clinical Nutrition</i> , 2016 , 103, 775-83	7	50
28	The Effects of Magnesium Supplementation on Subjective Anxiety and Stress-A Systematic Review. <i>Nutrients</i> , 2017 , 9,	6.7	50
27	Serotonergic anti-obesity agents: past experience and future prospects. <i>Drugs</i> , 2011 , 71, 2247-55	12.1	45
26	A medium-term intervention study on the impact of high- and low-fat snacks varying in sweetness and fat content: large shifts in daily fat intake but good compensation for daily energy intake. <i>British Journal of Nutrition</i> , 1998 , 80, 149-61	3.6	38

25	Short term (14 days) consumption of insoluble wheat bran fibre-containing breakfast cereals improves subjective digestive feelings, general wellbeing and bowel function in a dose dependent manner. <i>Nutrients</i> , 2013 , 5, 1436-55	6.7	22
24	Evidence for a second meal cognitive effect: glycaemic responses to high and low glycaemic index evening meals are associated with cognition the following morning. <i>Nutritional Neuroscience</i> , 2011 , 14, 66-71	3.6	22
23	Human galanin (GAL) and galanin 1 receptor (GALR1) variations are not involved in fat intake and early onset obesity. <i>Journal of Nutrition</i> , 2005 , 135, 1387-92	4.1	20
22	Correspondence of continuous interstitial glucose measurement against arterialised and capillary glucose following an oral glucose tolerance test in healthy volunteers. <i>British Journal of Nutrition</i> , 2010 , 103, 134-40	3.6	18
21	Weight loss decreases self-reported appetite and alters food preferences in overweight and obese adults: Observational data from the DiOGenes study. <i>Appetite</i> , 2018 , 125, 314-322	4.5	16
20	Acute glycaemic load breakfast manipulations do not attenuate cognitive impairments in adults with type 2 diabetes. <i>Clinical Nutrition</i> , 2013 , 32, 265-72	5.9	16
19	Dietary intake of 20 polyphenol subclasses in a cohort of UK women. <i>European Journal of Nutrition</i> , 2016 , 55, 1839-47	5.2	14
18	Methodological Challenges in Studies Examining the Effects of Breakfast on Cognitive Performance and Appetite in Children and Adolescents. <i>Advances in Nutrition</i> , 2017 , 8, 184S-196S	10	13
17	Type 2 diabetes and impaired glucose tolerance are associated with word memory source monitoring recollection deficits but not simple recognition familiarity deficits following water, low glycaemic load, and high glycaemic load breakfasts. <i>Physiology and Behavior</i> , 2014 , 124, 54-60	3.5	12
16	The relationship between the home environment and child adiposity: a systematic review. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2021 , 18, 4	8.4	11
15	A substitution model of dietary manipulation is an effective means of optimising lipid profile, reducing C-reactive protein and increasing insulin-like growth factor-1. <i>British Journal of Nutrition</i> , 2004 , 92, 809-18	3.6	10
14	Regulation of energy and fat intakes and body weight: the role of fat substitutes. <i>British Journal of Nutrition</i> , 1998 , 80, 3-4	3.6	10
13	The Relationship between Habitual Breakfast Consumption Frequency and Academic Performance in British Adolescents. <i>Frontiers in Public Health</i> , 2015 , 3, 68	6	7
12	The effects of magnesium supplementation on subjective anxiety. <i>Magnesium Research</i> , 2016 , 29, 120-125		7
11	Effects of milk-based phospholipids on cognitive performance and subjective responses to psychosocial stress: A randomized, double-blind, placebo-controlled trial in high-perfectionist men. <i>Nutrition</i> , 2019 , 57, 183-193	4.8	6
10	Associations Between Habitual School-Day Breakfast Consumption Frequency and Academic Performance in British Adolescents. <i>Frontiers in Public Health</i> , 2019 , 7, 283	6	6
9	Vitamin D status in chronic fatigue syndrome/myalgic encephalomyelitis: a cohort study from the North-West of England. <i>BMJ Open</i> , 2017 , 7, e015296	3	5
8	Adherence to infection prevention and control guidelines: A vignette-based study of decision-making and risk-taking in young adults with cystic fibrosis. <i>Journal of Cystic Fibrosis</i> , 2017 , 16, 146-150	4.1	5

7	The role of reduced fat diets and fat substitutes in the regulation of energy and fat intake and body weight. <i>Current Opinion in Lipidology</i> , 1998 , 9, 41-5	4.4	5
6	Procolipase gene: no association with early-onset obesity or fat intake. <i>Obesity Facts</i> , 2009 , 2, 40-4	5.1	2
5	Obesity: A disorder of appetite. <i>Practical Diabetes International: the International Journal for Diabetes Care Teams Worldwide</i> , 1993 , 10, 10-12		2
4	Ready-to-eat cereal and milk for breakfast compared with no breakfast has a positive acute effect on cognitive function and subjective state in 11-13-year-olds: a school-based, randomised, controlled, parallel groups trial. <i>European Journal of Nutrition</i> , 2021 , 60, 3325-3342	5.2	2
3	Eight-hr postprandial glycemc profiles after consumption of starch versus maltodextrin. <i>FASEB Journal</i> , 2013 , 27, lb310	0.9	1
2	A combination of green tea, rhodiola, magnesium and B vitamins modulates brain activity and protects against the effects of induced social stress in healthy volunteers. <i>Nutritional Neuroscience</i> , 2021 , 1-15	3.6	0
1	The Home Environment Interview and associations with energy balance behaviours and body weight in school-aged children - a feasibility, reliability, and validity study.. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2021 , 18, 167	8.4	0
