#	Paper	IF	Citations
85	Self-soothing touch and being hugged reduce cortisol responses to stress: A randomized controlled trial on stress, physical touch, and social identity. <i>Comprehensive Psychoneuroendocrinology</i> , 2021 , 8, 100091	1.1	3
84	Oxytocin and the stress buffering effect of social company: a genetic study in daily life. <i>Social Cognitive and Affective Neuroscience</i> , 2020 , 15, 293-301	4	5
83	Psychological stress, cognitive decline and the development of dementia in amnesic mild cognitive impairment. <i>Scientific Reports</i> , 2020 , 10, 3618	4.9	6
82	Why does early childhood deprivation increase the risk for depression and anxiety in adulthood? A developmental cascade model. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2020 , 61, 1043-1053	7.9	11
81	Highs and lows: Genetic susceptibility to daily events. <i>PLoS ONE</i> , 2020 , 15, e0237001	3.7	4
80	If it's Mozart, it must be good? The influence of textual information and age on musical appreciation. <i>Psychology of Music</i> , 2020 , 48, 579-597	1.2	5
79	Adoptees' responses to separation from, and reunion with, their adoptive parent at age 4 years is associated with long-term persistence of autism symptoms following early severe institutional deprivation. <i>Development and Psychopathology</i> , 2020 , 32, 631-640	4.3	1
78	Highs and lows: Genetic susceptibility to daily events 2020 , 15, e0237001		
77	Highs and lows: Genetic susceptibility to daily events 2020 , 15, e0237001		
76	Highs and lows: Genetic susceptibility to daily events 2020 , 15, e0237001		
75	Highs and lows: Genetic susceptibility to daily events 2020 , 15, e0237001		
74	Highs and lows: Genetic susceptibility to daily events 2020 , 15, e0237001		
73	Highs and lows: Genetic susceptibility to daily events 2020 , 15, e0237001		
72	Highs and lows: Genetic susceptibility to daily events 2020 , 15, e0237001		
71	Highs and lows: Genetic susceptibility to daily events 2020 , 15, e0237001		
70	Work-related stress and incident asthma and rhinitis: results from the SOLAR study. <i>International Archives of Occupational and Environmental Health</i> , 2019 , 92, 673-681	3.2	3
69	Modeling Music-Selection Behavior in Everyday Life: A Multilevel Statistical Learning Approach and Mediation Analysis of Experience Sampling Data. <i>Frontiers in Psychology</i> , 2019 , 10, 390	3.4	8

68	The Aim Justifies the Means-Differences Among Musical and Nonmusical Means of Relaxation or Activation Induction in Daily Life. <i>Frontiers in Human Neuroscience</i> , 2019 , 13, 36	3.3	3
67	Beauty, elegance, grace, and sexiness compared. <i>PLoS ONE</i> , 2019 , 14, e0218728	3.7	6
66	Exploring the Time Trend of Stress Levels While Using the Crowdsensing Mobile Health Platform, TrackYourStress, and the Influence of Perceived Stress Reactivity: Ecological Momentary Assessment Pilot Study. <i>JMIR MHealth and UHealth</i> , 2019 , 7, e13978	5.5	7
65	Investigating associations between momentary stress and cortisol in daily life: What have we learned so far?. <i>Psychoneuroendocrinology</i> , 2019 , 105, 105-116	5	25
64	Personal and situational influences on the functions of music listening. <i>Psychology of Music</i> , 2018 , 46, 763-794	1.2	28
63	Understanding music-selection behavior via statistical learning: Using the percentile-Lasso to identify the most important factors. <i>Music & Science</i> , 2018 , 1, 205920431875595	1.6	7
62	Measuring Optimal Reading Experiences: The Reading Flow Short Scale. <i>Frontiers in Psychology</i> , 2018 , 9, 2542	3.4	10
61	Greenness and job-related chronic stress in young adults: a prospective cohort study in Germany. <i>BMJ Open</i> , 2018 , 8, e021599	3	12
60	Child-to-adult neurodevelopmental and mental health trajectories after early life deprivation: the young adult follow-up of the longitudinal English and Romanian Adoptees study. <i>Lancet, The</i> , 2017 , 389, 1539-1548	4.0	188
59	Tracking daily fatigue fluctuations in multiple sclerosis: ecological momentary assessment provides unique insights. <i>Journal of Behavioral Medicine</i> , 2017 , 40, 772-783	3.6	38
58	Exercise versus Nonexercise Activity: E-diaries Unravel Distinct Effects on Mood. <i>Medicine and Science in Sports and Exercise</i> , 2017 , 49, 763-773	1.2	26
57	HPA axis dysregulation in adult adoptees twenty years after severe institutional deprivation in childhood. <i>Psychoneuroendocrinology</i> , 2017 , 86, 196-202	5	42
56	Adult disinhibited social engagement in adoptees exposed to extreme institutional deprivation: examination of its clinical status and functional impact. <i>British Journal of Psychiatry</i> , 2017 , 211, 289-295	5.4	14
55	The Motivational Value Systems Questionnaire (MVSQ): Psychometric Analysis Using a Forced Choice Thurstonian IRT Model. <i>Frontiers in Psychology</i> , 2017 , 8, 1626	3.4	6
54	Chronic Stress in Young German Adults: Who Is Affected? A Prospective Cohort Study. <i>International Journal of Environmental Research and Public Health</i> , 2017 , 14,	4.6	5
53	TBS-TK Rezension. <i>Psychologische Rundschau</i> , 2017 , 68, 162-164	0.6	2
52	Early severe institutional deprivation is associated with a persistent variant of adult attention-deficit/hyperactivity disorder: clinical presentation, developmental continuities and life circumstances in the English and Romanian Adoptees study. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2016 , 57, 1113-25	7.9	49
51	Rhetorical features facilitate prosodic processing while handicapping ease of semantic comprehension. <i>Cognition</i> , 2015 , 143, 48-60	3.5	82

50	Intra-individual psychological and physiological responses to acute laboratory stressors of different intensity. <i>Psychoneuroendocrinology</i> , 2015 , 51, 227-36	5	143
49	Circadian cortisol and fatigue severity in relapsing-remitting multiple sclerosis. <i>Psychoneuroendocrinology</i> , 2015 , 56, 120-31	5	29
48	Prenatal origins of temperament: fetal growth, brain structure, and inhibitory control in adolescence. <i>PLoS ONE</i> , 2014 , 9, e96715	3.7	15
47	Ambulatory Assessment in Neuropsychology. <i>Zeitschrift für Neuropsychologie = Journal of Neuropsychology</i> , 2014 , 25, 239-251	0.5	1
46	Birth weight and perceived stress reactivity in older age. <i>Stress and Health</i> , 2013 , 29, 56-63	3.7	7
45	Unstimulated cortisol secretory activity in everyday life and its relationship with fatigue and chronic fatigue syndrome: a systematic review and subset meta-analysis. <i>Psychoneuroendocrinology</i> , 2013 , 38, 2405-22	5	62
44	Neuropsychological correlates of emotional lability in children with ADHD. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2012 , 53, 1139-48	7.9	71
43	The importance of coping appraisal in behavioural responses to pandemic flu. <i>British Journal of Health Psychology</i> , 2012 , 17, 44-59	8.3	69
42	Longitudinal studies using a "natural experiment" design: the case of adoptees from Romanian institutions. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2012 , 51, 762-70	7.2	57
41	Daily life stress and the cortisol awakening response: testing the anticipation hypothesis. <i>PLoS ONE</i> , 2012 , 7, e52067	3.7	69
40	Salivary cortisol in ambulatory assessment--some dos, some don'ts, and some open questions. <i>Psychosomatic Medicine</i> , 2012 , 74, 418-31	3.7	146
39	A functional variant of the serotonin transporter gene (SLC6A4) moderates impulsive choice in attention-deficit/hyperactivity disorder boys and siblings. <i>Biological Psychiatry</i> , 2011 , 70, 230-6	7.9	38
38	Specific psychological variables predict quality of diet in women of lower, but not higher, educational attainment. <i>Appetite</i> , 2011 , 56, 46-52	4.5	23
37	Individual differences in the cortisol response to stress in young healthy men: testing the roles of perceived stress reactivity and threat appraisal using multiphase latent growth curve modeling. <i>Biological Psychology</i> , 2011 , 87, 257-64	3.2	63
36	The past makes the present meaningful: nostalgia as an existential resource. <i>Journal of Personality and Social Psychology</i> , 2011 , 101, 638-52	6.5	269
35	The Perceived Stress Reactivity Scale: measurement invariance, stability, and validity in three countries. <i>Psychological Assessment</i> , 2011 , 23, 80-94	5.3	96
34	Evaluation of a Web-based intervention to promote hand hygiene: exploratory randomized controlled trial. <i>Journal of Medical Internet Research</i> , 2011 , 13, e107	7.6	33
33	Lower maternal folate status in early pregnancy is associated with childhood hyperactivity and peer problems in offspring. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2010 , 51, 594-602	7.9	108

32	5HTT genotype moderates the influence of early institutional deprivation on emotional problems in adolescence: evidence from the English and Romanian Adoptee (ERA) study. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2010 , 51, 755-62	7.9	67
31	The stressed student: influence of written examinations and oral presentations on salivary cortisol concentrations in university students. <i>Stress</i> , 2010 , 13, 221-9	3	46
30	V. Differentiating developmental trajectories for conduct, emotion, and peer problems following early deprivation. <i>Monographs of the Society for Research in Child Development</i> , 2010 , 75, 102-24	6.6	63
29	VII. Physical growth and maturation following early severe institutional deprivation: do they mediate specific psychopathological effects?. <i>Monographs of the Society for Research in Child Development</i> , 2010 , 75, 143-66	6.6	29
28	Parents' evaluation of adoption success: a follow-up study of intercountry and domestic adoptions. <i>American Journal of Orthopsychiatry</i> , 2009 , 79, 522-31	2.8	10
27	Fetal origins of mental health: evidence and mechanisms. <i>Brain, Behavior, and Immunity</i> , 2009 , 23, 905-16	6.6	291
26	Delay and reward choice in ADHD: an experimental test of the role of delay aversion. <i>Neuropsychology</i> , 2009 , 23, 367-80	3.8	149
25	Oily fish intake during pregnancy--association with lower hyperactivity but not with higher full-scale IQ in offspring. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2008 , 49, 1061-8	7.9	75
24	Effortful control mediates associations of fetal growth with hyperactivity and behavioural problems in 7- to 9-year-old children. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2008 , 49, 1228	7.9	2
23	Associations of the cortisol awakening response (CAR) with cortical activation asymmetry during the course of an exam stress period. <i>Psychoneuroendocrinology</i> , 2008 , 33, 83-91	5	42
22	Covariance between psychological and endocrine responses to pharmacological challenge and psychosocial stress: a question of timing. <i>Psychosomatic Medicine</i> , 2008 , 70, 787-96	3.7	149
21	Distress and affective dysregulation in patients with borderline personality disorder: a psychophysiological ambulatory monitoring study. <i>Journal of Nervous and Mental Disease</i> , 2008 , 196, 314-20	1.8	66
20	Dissociative symptoms are positively related to stress in borderline personality disorder. <i>Acta Psychiatrica Scandinavica</i> , 2008 , 117, 139-47	6.5	94
19	Effortful control mediates associations of fetal growth with hyperactivity and behavioural problems in 7- to 9-year-old children. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2008 , 49, 1228-36	7.9	24
18	Several daily measurements are necessary to reliably assess the cortisol rise after awakening: state- and trait components. <i>Psychoneuroendocrinology</i> , 2007 , 32, 80-6	5	432
17	Is the cortisol awakening rise a response to awakening?. <i>Psychoneuroendocrinology</i> , 2007 , 32, 358-66	5	338
16	Determinants of the diurnal course of salivary alpha-amylase. <i>Psychoneuroendocrinology</i> , 2007 , 32, 392-401	4.9	394
15	Specific associations of insulin resistance with impaired health-related quality of life in the Hertfordshire Cohort Study. <i>Quality of Life Research</i> , 2007 , 16, 429-36	3.7	35

14	Size at birth and motor activity during stress in children aged 7 to 9 years. <i>Pediatrics</i> , 2007 , 120, e1237-44	4.4	8
13	Trait anxiety moderates the impact of performance pressure on salivary cortisol in everyday life. <i>Psychoneuroendocrinology</i> , 2006 , 31, 459-72	5	67
12	Parity does not alter baseline or stimulated activity of the hypothalamus-pituitary-adrenal axis in women. <i>Developmental Psychobiology</i> , 2006 , 48, 703-11	3	10
11	The heritability of perceived stress. <i>Psychological Medicine</i> , 2006 , 36, 375-85	6.9	44
10	Birth weight is associated with salivary cortisol responses to psychosocial stress in adult life. <i>Psychoneuroendocrinology</i> , 2005 , 30, 591-8	5	112
9	Stressreaktivitt: Theoretisches Konzept und Messung. <i>Diagnostica</i> , 2005 , 51, 124-133	0.8	54
8	Persnlichkeit, chronischer Stress und krperliche Gesundheit. <i>Zeitschrift Fur Gesundheitspsychologie</i> , 2004 , 12, 11-23		35
7	Allostatic load, perceived stress, and health: a prospective study in two age groups. <i>Annals of the New York Academy of Sciences</i> , 2004 , 1032, 8-13	6.5	51
6	Perceived work overload and chronic worrying predict weekend-weekday differences in the cortisol awakening response. <i>Psychosomatic Medicine</i> , 2004 , 66, 207-14	3.7	274
5	Zur Bestimmung von Alters- effekten bei der subjektiven Beurteilung des Schlafes. <i>Zeitschrift Fuer Gerontopsychologie Und Psychiatrie</i> , 2003 , 16, 63-75		
4	Arbeitsstress, sozialer Stress und Schlafqualitt. <i>Zeitschrift Fur Gesundheitspsychologie</i> , 2003 , 11, 1-9		18
3	Geschlechtsunterschiede bei stressbezogenen Variablen. <i>Zeitschrift Fur Differentielle Und Diagnostische Psychologie</i> , 2002 , 23, 305-326		6
2	Trierer Inventar zur Erfassung von chronischem Stress (TICS): Skalenkonstruktion, teststatistische Bertugung und Validierung der Skala Arbeitsberlastung. <i>Diagnostica</i> , 1999 , 45, 8-19	0.8	191
1	The Aesthetic Responsiveness Assessment (AReA): A screening tool to assess individual differences in responsiveness to art in English and German.. <i>Psychology of Aesthetics, Creativity, and the Arts</i> ,	4.9	4
