

Anna Maleszka

List of Publications by Citations

Source: <https://exaly.com/author-pdf/8332787/anna-maleszka-publications-by-citations.pdf>

Version: 2024-04-29

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
20	Adiponectin expression in the porcine pituitary during the estrous cycle and its effect on LH and FSH secretion. <i>American Journal of Physiology - Endocrinology and Metabolism</i> , 2014 , 307, E1038-46	6	35
19	Adiponectin Expression in the Porcine Ovary during the Oestrous Cycle and Its Effect on Ovarian Steroidogenesis. <i>International Journal of Endocrinology</i> , 2014 , 2014, 957076	2.7	34
18	Expression of adiponectin and adiponectin receptors 1 (AdipoR1) and 2 (AdipoR2) in the porcine uterus during the oestrous cycle. <i>Animal Reproduction Science</i> , 2014 , 146, 42-54	2.1	33
17	Expression of adiponectin receptors 1 (AdipoR1) and 2 (AdipoR2) in the porcine pituitary during the oestrous cycle. <i>Reproductive Biology and Endocrinology</i> , 2013 , 11, 18	5	27
16	Localization of orexin A and orexin B in the porcine uterus. <i>Reproductive Biology</i> , 2012 , 12, 135-55	2.3	27
15	Therapeutic Potential of Olfactory Ensheathing Cells and Mesenchymal Stem Cells in Spinal Cord Injuries. <i>Stem Cells International</i> , 2017 , 2017, 3978595	5	24
14	Expression of adiponectin and its receptors in the porcine hypothalamus during the oestrous cycle. <i>Reproduction in Domestic Animals</i> , 2014 , 49, 378-86	1.6	24
13	Expression of orexins and their precursor in the porcine ovary and the influence of orexins on ovarian steroidogenesis in pigs. <i>Animal Reproduction Science</i> , 2014 , 148, 53-62	2.1	21
12	Expression of adiponectin and adiponectin receptors 1 and 2 in the porcine uterus, conceptus, and trophoblast during early pregnancy. <i>Theriogenology</i> , 2014 , 82, 951-65	2.8	20
11	Expression of the orexin system in the porcine uterus, conceptus and trophoblast during early pregnancy. <i>Animal</i> , 2015 , 9, 1820-31	3.1	18
10	Expression of adiponectin receptors 1 and 2 in the ovary and concentration of plasma adiponectin during the oestrous cycle of the pig. <i>Acta Veterinaria Hungarica</i> , 2014 , 62, 386-96	1	16
9	The effect of the estrous cycle on the expression of prepro-orexin gene and protein and the levels of orexin A and B in the porcine pituitary. <i>Animal</i> , 2014 , 8, 300-7	3.1	14
8	The influence of adiponectin on the transcriptomic profile of porcine luteal cells. <i>Functional and Integrative Genomics</i> , 2016 , 16, 101-14	3.8	11
7	Adiponectin, orexin A and orexin B concentrations in the serum and uterine luminal fluid during early pregnancy of pigs. <i>Animal Reproduction Science</i> , 2017 , 178, 1-8	2.1	10
6	Effect of progesterone on adiponectin system in the porcine uterus during early pregnancy. <i>Journal of Animal Science</i> , 2017 , 95, 338-352	0.7	7
5	The effect of estrone and estradiol on the expression of the adiponectin system in the porcine uterus during early pregnancy. <i>Theriogenology</i> , 2017 , 88, 183-196	2.8	7
4	Effect of ovarian steroids on vascular endothelial growth factor a expression in bovine uterine endothelial cells during adenomyosis. <i>BMC Veterinary Research</i> , 2019 , 15, 473	2.7	2

3	Modulation of adiponectin system expression in the porcine uterus during early pregnancy by prostaglandin E and F. <i>Reproduction, Fertility and Development</i> , 2017 , 29, 1832-1845	1.8	1
2	Profiles of maternal origin factors during transition from embryonic diapause to implantation in roe deer. <i>Animal Science Journal</i> , 2019 , 90, 1444-1452	1.8	1
1	Correction: Expression of adiponectin receptors 1 (AdipoR1) and 2 (AdipoR2) in the porcine pituitary during the oestrous cycle. <i>Reproductive Biology and Endocrinology</i> , 2013 , 11, 95	5
