

# Colin MacLeod

## List of Publications by Citations

**Source:** <https://exaly.com/author-pdf/8333647/colin-macleod-publications-by-citations.pdf>

**Version:** 2024-04-24

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

176  
papers

15,964  
citations

#	Paper	IF	Citations
176	Attentional bias in emotional disorders.. <i>Journal of Abnormal Psychology</i> , <b>1986</b> , 95, 15-20	7	2167
175	The emotional Stroop task and psychopathology. <i>Psychological Bulletin</i> , <b>1996</b> , 120, 3-24	19.1	1735
174	Cognitive vulnerability to emotional disorders. <i>Annual Review of Clinical Psychology</i> , <b>2005</b> , 1, 167-95	20.5	1366
173	Selective attention and emotional vulnerability: Assessing the causal basis of their association through the experimental manipulation of attentional bias.. <i>Journal of Abnormal Psychology</i> , <b>2002</b> , 111, 107-123	7	973
172	Cognitive approaches to emotion and emotional disorders. <i>Annual Review of Psychology</i> , <b>1994</b> , 45, 25-50	26.1	737
171	Selective processing of threat cues in anxiety states. <i>Behaviour Research and Therapy</i> , <b>1985</b> , 23, 563-9	5.2	717
170	Anxiety and the allocation of attention to threat. <i>Quarterly Journal of Experimental Psychology Section A: Human Experimental Psychology</i> , <b>1988</b> , 40, 653-70		471
169	Induced processing biases have causal effects on anxiety. <i>Cognition and Emotion</i> , <b>2002</b> , 16, 331-354	2.3	418
168	Cognitive bias modification approaches to anxiety. <i>Annual Review of Clinical Psychology</i> , <b>2012</b> , 8, 189-217	20.5	386
167	Discrimination of threat cues without awareness in anxiety states.. <i>Journal of Abnormal Psychology</i> , <b>1986</b> , 95, 131-138	7	312
166	Selective attention and emotional vulnerability: assessing the causal basis of their association through the experimental manipulation of attentional bias. <i>Journal of Abnormal Psychology</i> , <b>2002</b> , 111, 107-23	7	306
165	A critical review of the influence of oxytocin nasal spray on social cognition in humans: evidence and future directions. <i>Hormones and Behavior</i> , <b>2012</b> , 61, 410-8	3.7	301
164	Individual differences in the selective processing of threatening information, and emotional responses to a stressful life event. <i>Behaviour Research and Therapy</i> , <b>1992</b> , 30, 151-61	5.2	283
163	Anxiety and the selective processing of emotional information: mediating roles of awareness, trait and state variables, and personal relevance of stimulus materials. <i>Behaviour Research and Therapy</i> , <b>1992</b> , 30, 479-91	5.2	264
162	Cognitive functioning and anxiety. <i>Psychological Research</i> , <b>1987</b> , 49, 189-95	2.5	252
161	The Attentional Bias Modification Approach to Anxiety Intervention. <i>Clinical Psychological Science</i> , <b>2015</b> , 3, 58-78	6	207
160	Integrating Personality Structure, Personality Process, and Personality Development. <i>European Journal of Personality</i> , <b>2017</b> , 31, 503-528	5.1	205

159	Introduction to the special section on cognitive bias modification in emotional disorders. <i>Journal of Abnormal Psychology</i> , <b>2009</b> , 118, 1-4	7	188
158	Whither cognitive bias modification research? Commentary on the special section articles. <i>Journal of Abnormal Psychology</i> , <b>2009</b> , 118, 89-99	7	181
157	The causal role of interpretive bias in anxiety reactivity. <i>Journal of Abnormal Psychology</i> , <b>2006</b> , 115, 103-111	7	180
156	Contrasting two accounts of anxiety-linked attentional bias: selective attention to varying levels of stimulus threat intensity. <i>Journal of Abnormal Psychology</i> , <b>2003</b> , 112, 212-8	7	168
155	The reduction of anxiety vulnerability through the modification of attentional bias: a real-world study using a home-based cognitive bias modification procedure. <i>Journal of Abnormal Psychology</i> , <b>2009</b> , 118, 65-75	7	162
154	Anxiety and the interpretation of ambiguity: A text comprehension study.. <i>Journal of Abnormal Psychology</i> , <b>1993</b> , 102, 238-247	7	161
153	Distinguishing Cognitive and Somatic Dimensions of State and Trait Anxiety: Development and Validation of the State-Trait Inventory for Cognitive and Somatic Anxiety (STICSA). <i>Behavioural and Cognitive Psychotherapy</i> , <b>2008</b> , 36,	2.1	141
152	Absence of evidence or evidence of absence: reflecting on therapeutic implementations of attentional bias modification. <i>BMC Psychiatry</i> , <b>2014</b> , 14, 8	4.2	132
151	The causal role of the dorsolateral prefrontal cortex in the modification of attentional bias: evidence from transcranial direct current stimulation. <i>Biological Psychiatry</i> , <b>2014</b> , 76, 946-52	7.9	128
150	Biased cognitive operations in anxiety: accessibility of information or assignment of processing priorities?. <i>Behaviour Research and Therapy</i> , <b>1991</b> , 29, 599-610	5.2	124
149	Behavioral management of headache triggers: Avoidance of triggers is an inadequate strategy. <i>Clinical Psychology Review</i> , <b>2009</b> , 29, 483-95	10.8	116
148	Confusing procedures with process when appraising the impact of cognitive bias modification on emotional vulnerability. <i>British Journal of Psychiatry</i> , <b>2017</b> , 211, 266-271	5.4	105
147	Memory accessibility and probability judgments: An experimental evaluation of the availability heuristic.. <i>Journal of Personality and Social Psychology</i> , <b>1992</b> , 63, 890-902	6.5	105
146	Interpretation revealed in the blink of an eye: Depressive bias in the resolution of ambiguity.. <i>Journal of Abnormal Psychology</i> , <b>2002</b> , 111, 321-328	7	104
145	Psychometric properties of reaction time based experimental paradigms measuring anxiety-related information-processing biases in children. <i>Journal of Anxiety Disorders</i> , <b>2014</b> , 28, 97-107	10.9	97
144	Implicit and explicit memory bias in anxiety: a conceptual replication. <i>Behaviour Research and Therapy</i> , <b>1995</b> , 33, 1-14	5.2	95
143	Enhanced probing of attentional bias: the independence of anxiety-linked selectivity in attentional engagement with and disengagement from negative information. <i>Cognition and Emotion</i> , <b>2014</b> , 28, 1287-302	7.3	91
142	Depression and the interpretation of ambiguity. <i>Behaviour Research and Therapy</i> , <b>1999</b> , 37, 463-74	5.2	85

141	Emotional Mental Imagery as Simulation of Reality: Fear and Beyond-A Tribute to Peter Lang. <i>Behavior Therapy</i> , <b>2016</b> , 47, 702-719	4.8	82
140	Assessing the role of spatial engagement and disengagement of attention in anxiety-linked attentional bias: a critique of current paradigms and suggestions for future research directions. <i>Anxiety, Stress and Coping</i> , <b>2013</b> , 26, 1-19	3.1	80
139	Cognitive bias modification procedures in the management of mental disorders. <i>Current Opinion in Psychiatry</i> , <b>2012</b> , 25, 114-20	4.9	78
138	The sky is falling: evidence of a negativity bias in the social transmission of information. <i>Evolution and Human Behavior</i> , <b>2017</b> , 38, 92-101	4	76
137	Integrating cognitive bias modification into a standard cognitive behavioural treatment package for social phobia: a randomized controlled trial. <i>Behaviour Research and Therapy</i> , <b>2013</b> , 51, 207-15	5.2	76
136	Behavioral management of the triggers of recurrent headache: a randomized controlled trial. <i>Behaviour Research and Therapy</i> , <b>2014</b> , 61, 1-11	5.2	75
135	The pulling power of chocolate: Effects of approach-avoidance training on approach bias and consumption. <i>Appetite</i> , <b>2016</b> , 99, 46-51	4.5	73
134	Individual differences in anxiety and the restriction of working memory capacity. <i>Personality and Individual Differences</i> , <b>1993</b> , 15, 163-173	3.3	72
133	Internet-based attention bias modification for social anxiety: a randomised controlled comparison of training towards negative and training towards positive cues. <i>PLoS ONE</i> , <b>2013</b> , 8, e71760	3.7	71
132	Biased attentional engagement with, and disengagement from, negative information: independent cognitive pathways to anxiety vulnerability?. <i>Cognition and Emotion</i> , <b>2014</b> , 28, 245-59	2.3	61
131	Anxiety-linked attentional bias and its modification: Illustrating the importance of distinguishing processes and procedures in experimental psychopathology research. <i>Behaviour Research and Therapy</i> , <b>2016</b> , 86, 68-86	5.2	59
130	Biased attentional processing of positive stimuli in social anxiety disorder: an eye movement study. <i>Cognitive Behaviour Therapy</i> , <b>2012</b> , 41, 96-107	4.4	55
129	Automatic and controlled activation of stereotypes: Individual differences associated with prejudice. <i>British Journal of Social Psychology</i> , <b>1994</b> , 33, 29-46	6.8	54
128	Internet-delivered assessment and manipulation of anxiety-linked attentional bias: validation of a free-access attentional probe software package. <i>Behavior Research Methods</i> , <b>2007</b> , 39, 533-8	6.1	48
127	Always Look on the Bright Side of Life: The Attentional Basis of Positive Affectivity. <i>European Journal of Personality</i> , <b>2012</b> , 26, 133-144	5.1	47
126	Clinical anxiety and the selective encoding of threatening information. <i>International Review of Psychiatry</i> , <b>1991</b> , 3, 279-292	3.6	47
125	Anxiety-Linked Attentional Bias: Is It Reliable?. <i>Annual Review of Clinical Psychology</i> , <b>2019</b> , 15, 529-554	20.5	47
124	The contribution of attentional bias to worry: distinguishing the roles of selective engagement and disengagement. <i>Journal of Anxiety Disorders</i> , <b>2011</b> , 25, 272-7	10.9	46

123	Cognition in Clinical Psychology: Measures, Methods or Models?. <i>Behaviour Change</i> , <b>1993</b> , 10, 169-195	1.1	46
122	BRIEF REPORT Negative selectivity effects and emotional selectivity effects in anxiety: Differential attentional correlates of state and trait variables. <i>Cognition and Emotion</i> , <b>2004</b> , 18, 711-720	2.3	45
121	Topical application of the bee hive protectant propolis is well tolerated and improves human diabetic foot ulcer healing in a prospective feasibility study. <i>Journal of Diabetes and Its Complications</i> , <b>2014</b> , 28, 850-7	3.2	44
120	Prepared for the worst: readiness to acquire threat bias and susceptibility to elevate trait anxiety. <i>Emotion</i> , <b>2008</b> , 8, 47-57	4.1	41
119	Stuck in a sad place: Biased attentional disengagement in rumination. <i>Emotion</i> , <b>2016</b> , 16, 63-72	4.1	38
118	Validation of a novel attentional bias modification task: the future may be in the cards. <i>Behaviour Research and Therapy</i> , <b>2015</b> , 65, 93-100	5.2	37
117	Attentional bias modification facilitates attentional control mechanisms: evidence from eye tracking. <i>Biological Psychology</i> , <b>2015</b> , 104, 139-46	3.2	32
116	Interpretation revealed in the blink of an eye: depressive bias in the resolution of ambiguity. <i>Journal of Abnormal Psychology</i> , <b>2002</b> , 111, 321-8	7	32
115	When Ignorance is Bliss: Explicit Instruction and the Efficacy of CBM-A for Anxiety. <i>Cognitive Therapy and Research</i> , <b>2014</b> , 38, 172-188	2.7	31
114	Heightened ruminative disposition is associated with impaired attentional disengagement from negative relative to positive information: support for the "impaired disengagement" hypothesis. <i>Cognition and Emotion</i> , <b>2017</b> , 31, 422-434	2.3	30
113	Anxiety and Anxiety Disorders <b>2005</b> , 447-477		29
112	A Question of Control? Examining the Role of Control Conditions in Experimental Psychopathology using the Example of Cognitive Bias Modification Research. <i>Spanish Journal of Psychology</i> , <b>2017</b> , 20, E54 <sup>1</sup>		28
111	The interaction of approach-alcohol action tendencies, working memory capacity, and current task goals predicts the inability to regulate drinking behavior. <i>Psychology of Addictive Behaviors</i> , <b>2013</b> , 27, 649-61	3.4	28
110	Attentional bias to negative information and 5-HTTLPR genotype interactively predict students' emotional reactivity to first university semester. <i>Emotion</i> , <b>2012</b> , 12, 460-9	4.1	26
109	Modifying social anxiety related to a real-life stressor using online Cognitive Bias Modification for interpretation. <i>Behaviour Research and Therapy</i> , <b>2014</b> , 52, 45-52	5.2	24
108	The effect of approach/avoidance training on alcohol consumption is mediated by change in alcohol action tendency. <i>PLoS ONE</i> , <b>2014</b> , 9, e85855	3.7	24
107	Alcohol-related biases in selective attention and action tendency make distinct contributions to dysregulated drinking behaviour. <i>Addiction</i> , <b>2013</b> , 108, 1758-66	4.6	24
106	Perception of emotionally valenced information in depression. <i>British Journal of Clinical Psychology</i> , <b>1987</b> , 26 ( Pt 1), 67-8	3.6	23

105	Assessing the Therapeutic Potential of Targeted Attentional Bias Modification for Insomnia Using Smartphone Delivery. <i>Psychotherapy and Psychosomatics</i> , <b>2016</b> , 85, 187-9	9.4	23
104	Attentional bias mediates the effect of neurostimulation on emotional vulnerability. <i>Journal of Psychiatric Research</i> , <b>2017</b> , 93, 12-19	5.2	20
103	Simply Imagining Sunshine, Lollipops and Rainbows Will Not Budge the Bias: The Role of Ambiguity in Interpretive Bias Modification. <i>Cognitive Therapy and Research</i> , <b>2014</b> , 38, 120-131	2.7	20
102	Erratum to A critical review of the influence of oxytocin nasal spray on social cognition in humans: Evidence and future directions [Horm. Behav. 61 (2012) 410-418]. <i>Hormones and Behavior</i> , <b>2012</b> , 61, 773	3.7	20
101	Anxiety-linked task performance: Dissociating the influence of restricted working memory capacity and increased investment of effort. <i>Cognition and Emotion</i> , <b>2009</b> , 23, 753-781	2.3	20
100	The causal status of anxiety-linked attentional and interpretive bias <b>2004</b> , 172-189		20
99	Mental imagery in psychiatry: conceptual & clinical implications. <i>CNS Spectrums</i> , <b>2019</b> , 24, 114-126	1.8	19
98	The ups and downs of cognitive bias: Dissociating the attentional characteristics of positive and negative affectivity. <i>Journal of Cognitive Psychology</i> , <b>2012</b> , 24, 33-53	0.9	19
97	Antibiotic-associated colitis and cystic fibrosis. <i>Digestive Diseases and Sciences</i> , <b>1992</b> , 37, 1464-8	4	19
96	Emotion Regulation and the Cognitive-Experimental Approach to Emotional Dysfunction. <i>Emotion Review</i> , <b>2011</b> , 3, 62-73	4.6	18
95	Anxiety reactivity and anxiety perseveration represent dissociable dimensions of trait anxiety. <i>Emotion</i> , <b>2012</b> , 12, 903-7	4.1	18
94	Engaging With the Wrong People: The Basis of Selective Attention to Negative Faces in Social Anxiety. <i>Clinical Psychological Science</i> , <b>2016</b> , 4, 793-804	6	17
93	Anxiety-linked expectancy bias across the adult lifespan. <i>Cognition and Emotion</i> , <b>2013</b> , 27, 345-55	2.3	17
92	Selective Memory Effects in Anxiety Disorders <b>2004</b> , 155-185		17
91	Expectancy bias in anxious samples. <i>Emotion</i> , <b>2014</b> , 14, 588-601	4.1	16
90	Internet-based attentional bias modification training as add-on to regular treatment in alcohol and cannabis dependent outpatients: a study protocol of a randomized control trial. <i>BMC Psychiatry</i> , <b>2017</b> , 17, 193	4.2	16
89	Aberrant Gaze Patterns in Social Anxiety Disorder: An Eye Movement Assessment during Public Speaking. <i>Journal of Experimental Psychopathology</i> , <b>2016</b> , 7, 1-17	2.3	16
88	Biased saccadic responses to emotional stimuli in anxiety: an antisaccade study. <i>PLoS ONE</i> , <b>2014</b> , 9, e86474	3.4	15

87	Non-threatening other-race faces capture visual attention: evidence from a dot-probe task. <i>PLoS ONE</i> , <b>2012</b> , 7, e46119	3.7	14
86	Representational consequences of two modes of learning. <i>Quarterly Journal of Experimental Psychology Section A: Human Experimental Psychology</i> , <b>1995</b> , 48, 296-319		13
85	The effects of attentional bias modification on emotion regulation. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , <b>2019</b> , 62, 38-48	2.6	13
84	Attention bias modification training under working memory load increases the magnitude of change in attentional bias. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , <b>2017</b> , 57, 25-31	2.6	12
83	Emotion-in-Motion, a Novel Approach for the Modification of Attentional Bias: An Experimental Proof-of-Concept Study. <i>JMIR Serious Games</i> , <b>2018</b> , 6, e10993	3.4	12
82	How Victim Sensitivity leads to Uncooperative Behavior via Expectancies of Injustice. <i>Frontiers in Psychology</i> , <b>2015</b> , 6, 2059	3.4	12
81	Causal underpinnings of working memory and Stroop interference control: Testing the effects of anodal and cathodal tDCS over the left DLPFC. <i>Cognitive, Affective and Behavioral Neuroscience</i> , <b>2020</b> , 20, 34-48	3.5	12
80	The Potential Benefits of Targeted Attentional Bias Modification on Cognitive Arousal and Sleep Quality in Worry-Related Sleep Disturbance. <i>Clinical Psychological Science</i> , <b>2016</b> , 4, 1015-1027	6	10
79	A FISTful of Emotion: Individual Differences in Trait Anxiety and Cognitive-Affective Flexibility During Preadolescence. <i>Journal of Abnormal Child Psychology</i> , <b>2016</b> , 44, 1231-42	4	10
78	Referential focus moderates depression-linked attentional avoidance of positive information. <i>Behaviour Research and Therapy</i> , <b>2017</b> , 93, 47-54	5.2	9
77	Direction of stimulus movement alters fear-linked individual differences in attentional vigilance to spider stimuli. <i>Behaviour Research and Therapy</i> , <b>2017</b> , 99, 117-123	5.2	9
76	Spontaneous cognition in dysphoria: reduced positive bias in imagining the future. <i>Psychological Research</i> , <b>2019</b> , 83, 817-831	2.5	9
75	A new approach to facilitating attentional disengagement from food cues in unsuccessful dieters: The bouncing image training task. <i>Behaviour Research and Therapy</i> , <b>2019</b> , 120, 103445	5.2	9
74	Facilitated cognitive disengagement in depression. <i>Behavior Therapy</i> , <b>2006</b> , 37, 304-13	4.8	9
73	To risk or not to risk: Anxiety and the calibration between risk perception and danger mitigation. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , <b>2016</b> , 42, 985-95	2.2	9
72	Inhibitory attentional control in anxiety: Manipulating cognitive load in an antisaccade task. <i>PLoS ONE</i> , <b>2018</b> , 13, e0205720	3.7	9
71	Does anxiety-linked attentional bias to threatening information reflect bias in the setting of attentional goals, or bias in the execution of attentional goals?. <i>Cognition and Emotion</i> , <b>2017</b> , 31, 538-557	2.3	8
70	When a Bad Bias Can Be Good: Anxiety-Linked Attentional Bias to Threat in Contexts Where Dangers Can Be Avoided. <i>Clinical Psychological Science</i> , <b>2017</b> , 5, 485-496	6	8

69	When children forget to remember: Effects of reduced working memory availability on prospective memory performance. <i>Memory and Cognition</i> , <b>2017</b> , 45, 651-663	2.2	8
68	Attentional Avoidance is Associated With Increased Pain Sensitivity in Patients With Chronic Posttraumatic Pain and Comorbid Posttraumatic Stress. <i>Clinical Journal of Pain</i> , <b>2018</b> , 34, 22-29	3.5	8
67	Selective attention in perfectionism: Dissociating valence from perfectionism-relevance. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , <b>2016</b> , 51, 100-8	2.6	8
66	Cognitive bias modification to prevent depression (COPE): study protocol for a randomised controlled trial. <i>Trials</i> , <b>2014</b> , 15, 282	2.8	8
65	Attachment insecurity as a predictor of obsessive-compulsive symptoms in female children. <i>Counselling Psychology Quarterly</i> , <b>2012</b> , 25, 403-415	2.5	8
64	Anxiety & inhibition: dissociating the involvement of state and trait anxiety in inhibitory control deficits observed on the anti-saccade task. <i>Cognition and Emotion</i> , <b>2020</b> , 34, 1746-1752	2.3	8
63	Prediction of pre-exam state anxiety from ruminative disposition: The mediating role of impaired attentional disengagement from negative information. <i>Behaviour Research and Therapy</i> , <b>2017</b> , 91, 102-110	5.2	7
62	Effects of interpretation bias modification on unregulated and regulated emotional reactivity. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , <b>2019</b> , 64, 123-132	2.6	7
61	For Ruminators, the Emotional Future Is Bound to the Emotional Past: Heightened Ruminative Disposition Is Characterized by Increased Emotional Extrapolation. <i>Clinical Psychological Science</i> , <b>2015</b> , 3, 648-658	6	7
60	A Cross-Cultural Study of Justice Sensitivity and Its Consequences for Cooperation. <i>Social Psychological and Personality Science</i> , <b>2020</b> , 11, 899-907	4.3	7
59	Effects of cognitive load during interpretation bias modification on interpretation bias and stress reactivity. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , <b>2020</b> , 68, 101561	2.6	7
58	Negative emotional processing induced by spoken scenarios modulates corticospinal excitability. <i>Cognitive, Affective and Behavioral Neuroscience</i> , <b>2011</b> , 11, 404-12	3.5	7
57	Current directions at the juncture of clinical and cognitive science: A commentary on the special issue. <i>Applied Cognitive Psychology</i> , <b>2010</b> , 24, 450-463	2.1	7
56	When we should worry more: using cognitive bias modification to drive adaptive health behaviour. <i>PLoS ONE</i> , <b>2014</b> , 9, e85092	3.7	7
55	Introduction to the Special Issue: Understanding the Role of Attentional Control in the Development of Anxiety in Childhood, Adolescence and across the Lifespan. <i>Journal of Experimental Psychopathology</i> , <b>2016</b> , 7, 277-295	2.3	7
54	High Spider-Fearful and Low Spider-Fearful Individuals Differentially Perceive the Speed of Approaching, but not Receding, Spider Stimuli. <i>Cognitive Therapy and Research</i> , <b>2019</b> , 43, 514-521	2.7	7
53	Trait anxiety and the alignment of attentional bias with controllability of danger. <i>Psychological Research</i> , <b>2020</b> , 84, 743-756	2.5	7
52	Does attentional bias to threat ameliorate or exacerbate the detrimental effect of trait anxiety on behavioural preparedness for real-world danger?. <i>Australian Journal of Psychology</i> , <b>2016</b> , 68, 166-177	2.3	6

51	Examining attentional biases underlying trait anxiety in younger and older adults. <i>Cognition and Emotion</i> , <b>2014</b> , 28, 84-97	2.3	6
50	The effects of diazepam on cognitive processing. <i>Human Psychopharmacology</i> , <b>1990</b> , 5, 143-147	2.3	6
49	Two probes and better than one: Development of a psychometrically reliable variant of the attentional probe task. <i>Behaviour Research and Therapy</i> , <b>2021</b> , 138, 103805	5.2	6
48	Is Selective Attention in Anxiety Characterised by Biased Attentional Engagement with or Disengagement from Threat: Evidence from a Colour-Naming Paradigm. <i>Journal of Experimental Psychopathology</i> , <b>2014</b> , 5, 38-51	2.3	5
47	Anxiety reactivity and anxiety perseveration represent independent dimensions of anxiety vulnerability: an in vivo study. <i>Anxiety, Stress and Coping</i> , <b>2014</b> , 27, 361-75	3.1	5
46	Don't start what you can't stop: differentiating individual differences in ruminative onset and ruminative persistence, and their contributions to dysphoria. <i>Emotion</i> , <b>2013</b> , 13, 1080-5	4.1	5
45	It's all about Control: Memory Bias in Anxiety is Restricted to Threat Cues that Signal Controllable Danger. <i>Journal of Experimental Psychopathology</i> , <b>2016</b> , 7, 190-204	2.3	5
44	A Positive Perspective on Attentional Bias: Positive Affectivity and Attentional Bias to Positive Information. <i>Journal of Happiness Studies</i> , <b>2017</b> , 18, 1029-1043	3.7	4
43	Anxiety reactivity and anxiety perseveration represent dissociable dimensions of anxiety vulnerability: A replication and extension. <i>Australian Journal of Psychology</i> , <b>2013</b> , 65, 232-235	2.3	4
42	Controlling the Bias: Inhibitory Attentional Control Moderates the Association between Social Anxiety and Selective Attentional Responding to Negative Social Information in Children and Adolescents. <i>Journal of Experimental Psychopathology</i> , <b>2016</b> , 7, 423-436	2.3	4
