#	ARTICLE	IF	CITATIONS
1	The Design of Artificial Nestboxes for the Study of Secondary Hole-Nesting Birds: A Review of Methodological Inconsistencies and Potential Biases. <i>Acta Ornithologica</i> , 2010, 45, 1-26.	0.1	274
2	Social learning in birds and its role in shaping a foraging niche. <i>Philosophical Transactions of the Royal Society B: Biological Sciences</i> , 2011, 366, 969-977.	1.8	148
3	Mate choice and imprinting in birds studied by cross-fostering in the wild. <i>Proceedings of the Royal Society B: Biological Sciences</i> , 2002, 269, 1449-1455.	1.2	131
4	Influence of Male and Female Quality on Clutch Size in Tits ( <i>Parus Spp.</i> ). <i>Ecology</i> , 1990, 71, 1258-1266.	1.5	124
5	Predation favours cryptic coloration in breeding male pied flycatchers. <i>Animal Behaviour</i> , 1995, 50, 1109-1121.	0.8	119
6	Learning the ecological niche. <i>Proceedings of the Royal Society B: Biological Sciences</i> , 2007, 274, 19-23.	1.2	110
7	Competition for a mate restricts mate search of female pied flycatchers. <i>Behavioral Ecology and Sociobiology</i> , 1992, 30, 165-176.	0.6	108
8	Risk taking during parental care: a test of three hypotheses applied to the pied flycatcher. <i>Behavioral Ecology and Sociobiology</i> , 1996, 39, 31-42.	0.6	106
9	Mate Choice On Multiple Cues, Decision Rules and Sampling Strategies in Female Pied Flycatchers. <i>Behaviour</i> , 1996, 133, 903-944.	0.4	99
10	Dawn Singing in the Great Tit ( <i>Parus Major</i> ): Mate Attraction, Mate Guarding, or Territorial Defence?. <i>Behaviour</i> , 1994, 131, 115-138.	0.4	94
11	Disappearance of Female Pied Flycatchers in Relation to Breeding Stage and Experimentally Induced Molt. <i>Ecology</i> , 1995, 77, 461-471.	1.5	93
12	Annual and Geographical Variation in the Time of Breeding of the Great Tit <i>Parus major</i> and the Pied Flycatcher <i>Ficedula hypoleuca</i> in Relation to Environmental Phenology and Spring Temperature. <i>Ornis Scandinavica</i> , 1976, 7, 127.	1.0	89
13	Nest Site Settlement by the Pied Flycatcher: Does the Female Choose Her Mate for the Quality of His House or Himself?. <i>Ornis Scandinavica</i> , 1986, 17, 210.	1.0	84
14	Competition between the Great Tit <i>Parus major</i> and the Pied Flycatcher <i>Ficedula hypoleuca</i> in the Breeding Season. <i>Ornis Scandinavica</i> , 1975, 6, 179.	1.0	67
15	Selection by sexual conflict for evenly spaced offspring in blue tits. <i>Nature</i> , 1994, 370, 136-138.	13.7	66
16	Experiments on clutch size and nest size in passerine birds. <i>Oecologia</i> , 1989, 80, 297-302.	0.9	65
17	Female-female aggression explains polyterritoriality in male pied flycatchers. <i>Animal Behaviour</i> , 1992, 43, 397-407.	0.8	62
18	Female-Female Aggression and Monogamy in Great Tits <i>Parus major</i> . <i>Ornis Scandinavica</i> , 1993, 24, 155.	1.0	62

#	ARTICLE	IF	CITATIONS
19	Interactions between demography and environmental effects are important determinants of population dynamics. <i>Science Advances</i> , 2017, 3, e1602298.	4.7	57
20	Female Contests for Nest Sites and Mates in the Pied Flycatcher <i>Ficedula hypoleuca</i> . <i>Ethology</i> , 1995, 99, 209-222.	0.5	53
21	Incomplete Female Knowledge of Male Quality May Explain Variation in Extra-Pair Paternity in Birds. <i>Behaviour</i> , 1997, 134, 353-371.	0.4	51
22	Variation in clutch size in relation to nest size in birds. <i>Ecology and Evolution</i> , 2014, 4, 3583-3595.	0.8	49
23	HATCHING ASYNCHRONY IN GREAT TITS: A BET-HEDGING STRATEGY?. <i>Ecology</i> , 1998, 79, 295-304.	1.5	48
24	Sexual Imprinting and the Origin of Obligate Brood Parasitism in Birds. <i>American Naturalist</i> , 2001, 158, 354-367.	1.0	47
25	Interspecific variation in the relationship between clutch size, laying date and intensity of urbanization in four species of hole-nesting birds. <i>Ecology and Evolution</i> , 2016, 6, 5907-5920.	0.8	47
26	Mate retention and male polyterritoriality in the pied flycatcher <i>Ficedula hypoleuca</i> . <i>Behavioral Ecology and Sociobiology</i> , 1986, 19, 25-30.	0.6	45
27	Rival imprinting: interspecifically cross-fostered tits defend their territories against heterospecific intruders. <i>Animal Behaviour</i> , 2003, 65, 1117-1123.	0.8	45
28	PLUMAGE COLOR IS A CONDITION-DEPENDENT SEXUAL TRAIT IN MALE PIED FLYCATCHERS. <i>Evolution; International Journal of Organic Evolution</i> , 1992, 46, 825-828.	1.1	40
29	Assessing the Effects of Climate on Host-Parasite Interactions: A Comparative Study of European Birds and Their Parasites. <i>PLoS ONE</i> , 2013, 8, e82886.	1.1	38
30	Reproductive strategy and singing activity: blue tit and great tit compared. <i>Behavioral Ecology and Sociobiology</i> , 2008, 62, 1633-1641.	0.6	37
31	Clutch size variation in Western Palaearctic secondary hole-nesting passerine birds in relation to nest box design. <i>Methods in Ecology and Evolution</i> , 2014, 5, 353-362.	2.2	36
32	Competition between the Great Tit <i>Parus major</i> and the Pied Flycatcher <i>Ficedula hypoleuca</i> : An Experiment. <i>Ornis Scandinavica</i> , 1978, 9, 46.	1.0	35
33	EVOLUTION OF PLUMAGE COLOR IN MALE PIED FLYCATCHERS ( <i>FICEDULA HYPOLEUCA</i> ): EVIDENCE FOR FEMALE MIMICRY. <i>Evolution; International Journal of Organic Evolution</i> , 1991, 45, 910-917.	1.1	35
34	Mouth coloration in nestling birds: increasing detection or signalling quality?. <i>Animal Behaviour</i> , 2009, 78, 1413-1420.	0.8	33
35	Plumage Coloration and Conspicuousness in Birds: Experiments with the Pied Flycatcher. <i>Auk</i> , 1996, 113, 849-857.	0.7	32
36	POPULATION DIVERGENCE IN SEXUAL ORNAMENTS: THE WHITE FOREHEAD PATCH OF NORWEGIAN PIED FLYCATCHERS IS SMALL AND UNSEXY. <i>Evolution; International Journal of Organic Evolution</i> , 1999, 53, 1235-1246.	1.1	31

#	ARTICLE	IF	CITATIONS
37	Effects of social rearing conditions on song structure and repertoire size: experimental evidence from the field. <i>Animal Behaviour</i> , 2006, 72, 83-95.	0.8	31
38	Imprinted species recognition lasts for life in free-living great tits and blue tits. <i>Animal Behaviour</i> , 2008, 75, 921-927.	0.8	28
39	Parents adjust feeding effort in relation to nestling age in the Eurasian Kestrel ( <i>Falco tinnunculus</i> ). <i>Journal of Ornithology</i> , 2012, 153, 1087-1099.	0.5	27
40	Connecting the data landscape of long-term ecological studies: The SPI-Birds data hub. <i>Journal of Animal Ecology</i> , 2021, 90, 2147-2160.	1.3	25
41	Female Pied Flycatchers Respond Differently to Songs of Mates, Neighbours and Strangers. <i>Behaviour</i> , 1998, 135, 269-285.	0.4	23
42	Evolution of parental roles in provisioning birds: diet determines role asymmetry in raptors. <i>Behavioral Ecology</i> , 2014, 25, 762-772.	1.0	23
43	Female pied flycatchers trade between male quality and mating status in mate choice. <i>Proceedings of the Royal Society B: Biological Sciences</i> , 1999, 266, 917-921.	1.2	22
44	Vocal Plasticity - are Pied Flycatchers, <i>Ficedula Hypoleuca</i> , Open-Ended Learners?. <i>Ethology</i> , 2011, 117, 188-198.	0.5	22
45	Does female aggression prevent polygyny? An experiment with pied flycatchers ( <i>Ficedula hypoleuca</i> ). <i>Behavioral Ecology and Sociobiology</i> , 1999, 45, 403-410.	0.6	21
46	Parental Sex Differences in Food Allocation to Junior Brood Members as Mediated by Prey Size. <i>Ethology</i> , 2009, 115, 49-58.	0.5	21
47	Vertical and horizontal transmission of nest site preferences in titmice. <i>Animal Behaviour</i> , 2013, 85, 323-328.	0.8	19
48	On the use of heterospecific information for nest site selection in birds. <i>Journal of Avian Biology</i> , 2017, 48, 1035-1040.	0.6	18
49	Low but contrasting neutral genetic differentiation shaped by winter temperature in European great tits. <i>Biological Journal of the Linnean Society</i> , 2016, 118, 668-685.	0.7	17
50	Do Male Pied Flycatchers ( <i>Ficedula hypoleuca</i> ) Adjust Their Feeding Effort According to Egg Colour?. <i>Ethology</i> , 2011, 117, 309-317.	0.5	15
51	Growth and sex ratio of nestlings in two species of crows: how important is hatching asynchrony?. <i>Oecologia</i> , 1992, 90, 43-49.	0.9	14
52	The roles of temperature, nest predators and information parasites for geographical variation in egg covering behaviour of tits ( <i>Paridae</i> ). <i>Journal of Biogeography</i> , 2020, 47, 1482-1493.	1.4	14
53	An Evolutionary Interpretation of Gift-Giving Behavior in Modern Norwegian Society. <i>Evolutionary Psychology</i> , 2006, 4, 147470490600400.	0.6	10
54	Postfledging movements in birds: Do tit families track environmental phenology?. <i>Auk</i> , 2013, 130, 36-45.	0.7	9

#	ARTICLE	IF	CITATIONS
55	No cultural transmission of species recognition between parents and offspring in free-living great tits and blue tits. <i>Behavioral Ecology and Sociobiology</i> , 2007, 61, 1203-1209.	0.6	8
56	Foraging Trade-offs between Prey Size, Delivery Rate and Prey Type: How Does Niche Breadth and Early Learning of the Foraging Niche Affect Food Delivery?. <i>Ethology</i> , 2015, 121, 1010-1017.	0.5	8
57	Interspecific cross-fostering affects mate guarding behaviour in great tits ( <i>Parus major</i> ). <i>Behaviour</i> , 2009, 146, 1349-1361.	0.4	7
58	Immigrants and locally recruited birds differ in prey delivered to their offspring in blue tits and great tits. <i>Animal Behaviour</i> , 2018, 139, 127-135.	0.8	7
59	No cultural transmission of use of nest materials in titmice <i>Paridae</i> . <i>Animal Behaviour</i> , 2020, 170, 27-32.	0.8	6
60	Brood parasites may use gape size constraints to exploit provisioning rules of smaller hosts: an experimental test of mechanisms of food allocation. <i>Behavioral Ecology</i> , 2012, 23, 391-396.	1.0	5
61	On heterospecific learning in birds – comments on Samplonius and Forsman et al. <i>Journal of Avian Biology</i> , 2018, 49, jav-01706.	0.6	5
62	Interspecific aggression and defence of extra nest sites in two species of songbirds. <i>Ethology</i> , 2021, 127, 294-301.	0.5	5
63	Egg covering in cavity nesting birds may prevent nest usurpation by other species. <i>Behavioral Ecology and Sociobiology</i> , 2021, 75, 116.	0.6	4
64	Why do female pied flycatchers mate with already mated males: deception or restricted mate sampling?. <i>Behavioral Ecology and Sociobiology</i> , 1994, 34, 239-250.	0.6	4
65	Nest decoration: birds exploit a fear of feathers to guard their nest from usurpation. <i>Royal Society Open Science</i> , 2021, 8, 211579.	1.1	4
66	No evidence that nest site choice in Pied Flycatchers is mediated by assessing the clutch size of a heterospecific, the Great Tit. <i>Journal of Ornithology</i> , 2021, 162, 997-1007.	0.5	3
67	Facultative Adjustment of Brood Sex Ratio in Response to Indirect Manipulation of Behaviour. <i>Ethology</i> , 2009, 115, 1057-1065.	0.5	2
68	Use of landmarks for nest site choice and small-scale navigation to the nest in birds. <i>Behaviour</i> , 2021, 158, 705-726.	0.4	2
69	Why are some males dull?. <i>Nature</i> , 2000, 407, 955-956.	13.7	1
