#	Article	IF	CITATIONS
1	Risk factors for ischaemic and intracerebral haemorrhagic stroke in 22 countries (the INTERSTROKE) Tj ETQq1 I	1 0.784314	rgBT_/Overloo
2	Prevalence, Awareness, Treatment, and Control of Hypertension in Rural and Urban Communities in High-, Middle-, and Low-Income Countries. JAMA - Journal of the American Medical Association, 2013, 310, 959.	3.8	1,422
3	Global and regional effects of potentially modifiable risk factors associated with acute stroke in 32 countries (INTERSTROKE): a case-control study. Lancet, The, 2016, 388, 761-775.	6.3	1,414
4	Prognostic value of grip strength: findings from the Prospective Urban Rural Epidemiology (PURE) study. Lancet, The, 2015, 386, 266-273.	6.3	1,295
5	Modifiable risk factors, cardiovascular disease, and mortality in 155â€^722 individuals from 21 high-income, middle-income, and low-income countries (PURE): a prospective cohort study. Lancet, The, 2020, 395, 795-808.	6.3	935
6	Associations of fats and carbohydrate intake with cardiovascular disease and mortality in 18 countries from five continents (PURE): a prospective cohort study. Lancet, The, 2017, 390, 2050-2062.	6.3	841
7	The effect of physical activity on mortality and cardiovascular disease in 130â€^000 people from 17 high-income, middle-income, and low-income countries: the PURE study. Lancet, The, 2017, 390, 2643-2654.	6.3	838
8	Use of secondary prevention drugs for cardiovascular disease in the community in high-income, middle-income, and low-income countries (the PURE Study): a prospective epidemiological survey. Lancet, The, 2011, 378, 1231-1243.	6.3	803
9	Urinary Sodium and Potassium Excretion, Mortality, and Cardiovascular Events. New England Journal of Medicine, 2014, 371, 612-623.	13.9	725
10	Association of Urinary Sodium and Potassium Excretion with Blood Pressure. New England Journal of Medicine, 2014, 371, 601-611.	13.9	687
11	Cardiovascular Risk and Events in 17 Low-, Middle-, and High-Income Countries. New England Journal of Medicine, 2014, 371, 818-827.	13.9	679
12	The Prospective Urban Rural Epidemiology (PURE) study: Examining the impact of societal influences on chronic noncommunicable diseases in low-, middle-, and high-income countries. American Heart Journal, 2009, 158, 1-7.e1.	1.2	495
13	Fruit, vegetable, and legume intake, and cardiovascular disease and deaths in 18 countries (PURE): a prospective cohort study. Lancet, The, 2017, 390, 2037-2049.	6.3	446
14	Variations in common diseases, hospital admissions, and deaths in middle-aged adults in 21 countries from five continents (PURE): a prospective cohort study. Lancet, The, 2020, 395, 785-794.	6.3	428
15	Characteristics, complications, and gaps in evidence-based interventions in rheumatic heart disease: the Global Rheumatic Heart Disease Registry (the REMEDY study). European Heart Journal, 2015, 36, 1115-1122.	1.0	391
16	Associations of urinary sodium excretion with cardiovascular events in individuals with and without hypertension: a pooled analysis of data from four studies. Lancet, The, 2016, 388, 465-475.	6.3	381
17	Dietary Patterns and the Risk of Acute Myocardial Infarction in 52 Countries. Circulation, 2008, 118, 1929-1937.	1.6	367
18	Socioeconomic status and risk of cardiovascular disease in 20 low-income, middle-income, and high-income countries: the Prospective Urban Rural Epidemiologic (PURE) study. The Lancet Global Health, 2019, 7, e748-e760.	2.9	340

#	Article	IF	CITATIONS
19	Association of dairy intake with cardiovascular disease and mortality in 21 countries from five continents (PURE): a prospective cohort study. Lancet, The, 2018, 392, 2288-2297.	6.3	295
20	Availability, affordability, and consumption of fruits and vegetables in 18 countries across income levels: findings from the Prospective Urban Rural Epidemiology (PURE) study. The Lancet Global Health, 2016, 4, e695-e703.	2.9	287
21	Availability and affordability of cardiovascular disease medicines and their effect on use in high-income, middle-income, and low-income countries: an analysis of the PURE study data. Lancet, The, 2016, 387, 61-69.	6.3	272
22	Urinary sodium excretion, blood pressure, cardiovascular disease, and mortality: a community-level prospective epidemiological cohort study. Lancet, The, 2018, 392, 496-506.	6.3	243
23	Clinical Outcomes in 3343 Children and Adults With Rheumatic Heart Disease From 14 Low- and Middle-Income Countries. Circulation, 2016, 134, 1456-1466.	1.6	213
24	Association of estimated sleep duration and naps with mortality and cardiovascular events: a study of 116 632 people from 21 countries. European Heart Journal, 2019, 40, 1620-1629.	1.0	208
25	Association of dietary nutrients with blood lipids and blood pressure in 18 countries: a cross-sectional analysis from the PURE study. Lancet Diabetes and Endocrinology,the, 2017, 5, 774-787.	5.5	198
26	Metabolic Syndrome and Risk of Acute Myocardial Infarction. Journal of the American College of Cardiology, 2010, 55, 2390-2398.	1.2	197
27	Variations between women and men in risk factors, treatments, cardiovascular disease incidence, and death in 27 high-income, middle-income, and low-income countries (PURE): a prospective cohort study. Lancet, The, 2020, 396, 97-109.	6.3	194
28	Reference ranges of handgrip strength from 125,462 healthy adults in 21 countries: a prospective urban rural epidemiologic (PURE) study. Journal of Cachexia, Sarcopenia and Muscle, 2016, 7, 535-546.	2.9	191
29	Alcohol consumption and cardiovascular disease, cancer, injury, admission to hospital, and mortality: a prospective cohort study. Lancet, The, 2015, 386, 1945-1954.	6.3	163
30	Variations in Diabetes Prevalence in Low-, Middle-, and High-Income Countries: Results From the Prospective Urban and Rural Epidemiological Study. Diabetes Care, 2016, 39, 780-787.	4.3	138
31	Association of ultra-processed food intake with risk of inflammatory bowel disease: prospective cohort study. BMJ, The, 2021, 374, n1554.	3.0	136
32	Availability and affordability of blood pressure-lowering medicines and the effect on blood pressure control in high-income, middle-income, and low-income countries: an analysis of the PURE study data. Lancet Public Health, The, 2017, 2, e411-e419.	4.7	134
33	Glycemic Index, Glycemic Load, and Cardiovascular Disease and Mortality. New England Journal of Medicine, 2021, 384, 1312-1322.	13.9	124
34	Mortality and cardiovascular and respiratory morbidity in individuals with impaired FEV1 (PURE): an international, community-based cohort study. The Lancet Global Health, 2019, 7, e613-e623.	2.9	122
35	Plasma ACE2 and risk of death or cardiometabolic diseases: a case-cohort analysis. Lancet, The, 2020, 396, 968-976.	6.3	119
36	Health Effects of Household Solid Fuel Use: Findings from 11 Countries within the Prospective Urban and Rural Epidemiology Study. Environmental Health Perspectives, 2019, 127, 57003.	2.8	117

#	Article	IF	CITATIONS
37	Association of Symptoms of Depression With Cardiovascular Disease and Mortality in Low-, Middle-, and High-Income Countries. JAMA Psychiatry, 2020, 77, 1052.	6.0	116
38	Prospective Urban Rural Epidemiology (PURE) study: Baseline characteristics of the household sample and comparative analyses with national data in 17 countries. American Heart Journal, 2013, 166, 636-646.e4.	1.2	113
39	Physical Activity and Anger or Emotional Upset as Triggers of Acute Myocardial Infarction. Circulation, 2016, 134, 1059-1067.	1.6	112
40	Associations of outdoor fine particulate air pollution and cardiovascular disease in 157â€^436 individuals from 21 high-income, middle-income, and low-income countries (PURE): a prospective cohort study. Lancet Planetary Health, The, 2020, 4, e235-e245.	5.1	106
41	The household economic burden of non-communicable diseases in 18 countries. BMJ Global Health, 2020, 5, e002040.	2.0	90
42	Household and personal air pollution exposure measurements from 120 communities in eight countries: results from the PURE-AIR study. Lancet Planetary Health, The, 2020, 4, e451-e462.	5.1	88
43	Joint association of urinary sodium and potassium excretion with cardiovascular events and mortality: prospective cohort study. BMJ: British Medical Journal, 2019, 364, 1772.	2.4	85
44	Inequalities in the use of secondary prevention of cardiovascular disease by socioeconomic status: evidence from the PURE observational study. The Lancet Global Health, 2018, 6, e292-e301.	2.9	73
45	Global differences in lung function by region (PURE): an international, community-based prospective study. Lancet Respiratory Medicine,the, 2013, 1, 599-609.	5.2	68
46	Associations of Fish Consumption With Risk of Cardiovascular Disease and Mortality Among Individuals With or Without Vascular Disease From 58 Countries. JAMA Internal Medicine, 2021, 181, 631.	2.6	68
47	Wealth and cardiovascular health: a cross-sectional study of wealth-related inequalities in the awareness, treatment and control of hypertension in high-, middle- and low-income countries. International Journal for Equity in Health, 2016, 15, 199.	1.5	67
48	Association of dairy consumption with metabolic syndrome, hypertension and diabetes in 147 812 individuals from 21 countries. BMJ Open Diabetes Research and Care, 2020, 8, e000826.	1.2	57
49	Association of Household Wealth Index, Educational Status, and Social Capital with Hypertension Awareness, Treatment, and Control in South Asia. American Journal of Hypertension, 2017, 30, 373-381.	1.0	56
50	Prevalence, awareness, treatment and control of hypertension in rural and urban communities in Latin American countries. Journal of Hypertension, 2019, 37, 1813-1821.	0.3	56
51	White Rice Intake and Incident Diabetes: A Study of 132,373 Participants in 21 Countries. Diabetes Care, 2020, 43, 2643-2650.	4.3	55
52	Socioeconomic factors and use of secondary preventive therapies for cardiovascular diseases in South Asia: The PURE study. European Journal of Preventive Cardiology, 2015, 22, 1261-1271.	0.8	54
53	Associations of cereal grains intake with cardiovascular disease and mortality across 21 countries in Prospective Urban and Rural Epidemiology study: prospective cohort study. BMJ, The, 2021, 372, m4948.	3.0	53
54	Prognostic validation of a non-laboratory and a laboratory based cardiovascular disease risk score in multiple regions of the world. Heart, 2018, 104, 581-587.	1.2	49

#	Article	IF	CITATIONS
55	Long-term exposure to outdoor and household air pollution and blood pressure in the Prospective Urban and Rural Epidemiological (PURE) study. Environmental Pollution, 2020, 262, 114197.	3.7	47
56	Associations of unprocessed and processed meat intake with mortality and cardiovascular disease in 21 countries [Prospective Urban Rural Epidemiology (PURE) Study]: a prospective cohort study. American Journal of Clinical Nutrition, 2021, 114, 1049-1058.	2.2	46
57	Modifiable risk factors associated with cardiovascular disease and mortality in China: a PURE substudy. European Heart Journal, 2022, 43, 2852-2863.	1.0	42
58	Cardiovascular disease, mortality, and their associations with modifiable risk factors in a multi-national South Asia cohort: a PURE substudy. European Heart Journal, 2022, 43, 2831-2840.	1.0	42
59	Social disparities explain differences in hypertension prevalence, detection and control in Colombia. Journal of Hypertension, 2016, 34, 2344-2352.	0.3	41
60	Association of nut intake with risk factors, cardiovascular disease, and mortality in 16 countries from 5 continents: analysis from the Prospective Urban and Rural Epidemiology (PURE) study. American Journal of Clinical Nutrition, 2020, 112, 208-219.	2.2	33
61	Global variations in the prevalence, treatment, and impact of atrial fibrillation in a multi-national cohort of 153 152 middle-aged individuals. Cardiovascular Research, 2021, 117, 1523-1531.	1.8	33
62	Effects of bidi smoking on all-cause mortality and cardiorespiratory outcomes in men from south Asia: an observational community-based substudy of the Prospective Urban Rural Epidemiology Study (PURE). The Lancet Global Health, 2017, 5, e168-e176.	2.9	31
63	Variations in incidence of venous thromboembolism in low-, middle-, and high-income countries. Cardiovascular Research, 2021, 117, 576-584.	1.8	31
64	Risk factors, cardiovascular disease, and mortality in South America: a PURE substudy. European Heart Journal, 2022, 43, 2841-2851.	1.0	30
65	Association of Sitting Time With Mortality and Cardiovascular Events in High-Income, Middle-Income, and Low-Income Countries. JAMA Cardiology, 2022, 7, 796.	3.0	30
66	Exploring the Association between Serum BDNF and Attempted Suicide. Scientific Reports, 2016, 6, 25229.	1.6	29
67	The environmental profile of a community's health: a cross-sectional study on tobacco marketing in 16 countries. Bulletin of the World Health Organization, 2015, 93, 851-861G.	1.5	29
68	Assessing global risk factors for non-fatal injuries from road traffic accidents and falls in adults aged 35–70 years in 17 countries: a cross-sectional analysis of the Prospective Urban Rural Epidemiological (PURE) study. Injury Prevention, 2016, 22, 92-98.	1.2	28
69	Household, community, sub-national and country-level predictors of primary cooking fuel switching in nine countries from the PURE study. Environmental Research Letters, 2019, 14, 085006.	2.2	27
70	Association of Urinary Sodium Excretion With Blood Pressure and Cardiovascular Clinical Events in 17,033 Latin Americans. American Journal of Hypertension, 2016, 29, 796-805.	1.0	26
71	Assessment of Dietary Sodium and Potassium in Canadians Using 24-Hour Urinary Collection. Canadian Journal of Cardiology, 2016, 32, 319-326.	0.8	25
72	Variations in knowledge, awareness and treatment of hypertension and stroke risk by country income level. Heart, 2021, 107, 282-289.	1.2	25
