#	ARTICLE	IF	CITATIONS
1	Revisiting Physiologic and Psychologic Triggers that Increase Spasticity. American Journal of Physical Medicine and Rehabilitation, 2013, 92, 357-369.	1.4	33
2	Relationship Between Botulinum Toxin, Spasticity, and Pain: a Survey of Patient Perception. Canadian Journal of Neurological Sciences, 2016, 43, 311-315.	0.5	33
3	Patient-Identified Factors That Influence Spasticity in People with Stroke and Multiple Sclerosis Receiving Botulinum Toxin Injection Treatments. Physiotherapy Canada Physiotherapie Canada, 2015, 67, 157-166.	0.6	30
4	The effect of water-based exercises on balance in persons post-stroke: a randomized controlled trial. Topics in Stroke Rehabilitation, 2017, 24, 228-235.	1.9	25
5	Adverse Clinical Effects of Botulinum Toxin Intramuscular Injections for Spasticity. Canadian Journal of Neurological Sciences, 2016, 43, 298-310.	0.5	22
6	Intrafusal effects of botulinum toxin injections for spasticity: Revisiting a previous paper. Neuroscience Letters, 2013, 541, 20-23.	2.1	21
7	Sleep-Disordered Breathing in Patients Enrolled in an Inpatient Stroke Rehabilitation Program. Archives of Physical Medicine and Rehabilitation, 2010, 91, 659-662.	0.9	20
8	Real-World, Long-Term Quality of Life Following Therapeutic OnabotulinumtoxinA Treatment. Canadian Journal of Neurological Sciences, 2016, 43, 687-696.	0.5	19
9	The impact of post-stroke spasticity and botulinum toxin on standing balance: a systematic review. Expert Review of Neurotherapeutics, 2014, 14, 319-327.	2.8	18
10	Impact of Spasticity on Balance Control during Quiet Standing in Persons after Stroke. Stroke Research and Treatment, 2017, 2017, 1-10.	0.8	18
11	Assessing the neurophysiological effects of botulinum toxin treatment for adults with focal limb spasticity: a systematic review. Disability and Rehabilitation, 2012, 34, 91-100.	1.8	16
12	Effect of Topical Anesthetics on Needle Insertion Pain During Botulinum Toxin Type A Injections for Limb Spasticity. Archives of Physical Medicine and Rehabilitation, 2012, 93, 1643-1647.	0.9	16
13	Neuromuscular Partitioning of Subscapularis Based on Intramuscular Nerve Distribution Patterns: Implications for Botulinum Toxin Injections. Archives of Physical Medicine and Rehabilitation, 2014, 95, 1408-1415.	0.9	12
14	Impact of Passive Leg Cycling in Persons With Spinal Cord Injury: A Systematic Review. Topics in Spinal Cord Injury Rehabilitation, 2019, 25, 83-96.	1.8	11
15	Survey of Botulinum Toxin Injections in Anticoagulated Patients: Korean Physiatrists' Preference in Controlling Anticoagulation Profile Prior to Intramuscular Injection. Annals of Rehabilitation Medicine, 2016, 40, 279.	1.6	11
16	Goals Set by Patients Using the <i>ICF</i> Model before Receiving Botulinum Injections and Their Relation to Spasticity Distribution. Physiotherapy Canada Physiotherapie Canada, 2017, 69, 113-119.	0.6	10
17	Physician Preferences for Botulinum Toxin Injections in Anticoagulated Patients with Spasticity. Canadian Journal of Neurological Sciences, 2016, 43, 581-583.	0.5	9
18	Effect of Botulinum Toxin on Clonus. Archives of Physical Medicine and Rehabilitation, 2017, 98, 381-390.	0.9	8

#	ARTICLE	IF	CITATIONS
19	A Delphi-Based Consensus Statement on the Management of Anticoagulated Patients With Botulinum Toxin for Limb Spasticity. Archives of Physical Medicine and Rehabilitation, 2018, 99, 2183-2189.	0.9	8
20	The Effect of Neural Lesion Type on Botulinum Toxin Dosage: A Retrospective Chart Review. PM and R, 2014, 6, 406-411.	1.6	7
21	Shoulder Retractor Strengthening Exercise to Minimize Rhomboid Muscle Activity and Subacromial Impingement. Physiotherapy Canada Physiotherapie Canada, 2016, 68, 24-28.	0.6	6
22	Patterns of botulinum toxin treatment for spasticity and bleeding complications in patients with thrombotic risk. Toxicon, 2017, 138, 188-190.	1.6	6
23	Practice Patterns of Physicians Using Adjunct Therapies with Botulinum Toxin Injection for Spasticity: A Canadian Multicenter Cross-sectional Survey. PM and R, 2021, 13, 372-378.	1.6	5
24	Physical Therapy for an Adult with Chronic Stroke after Botulinum Toxin Injection for Spasticity: A Case Report. Physiotherapy Canada Physiotherapie Canada, 2015, 67, 65-68.	0.6	4
25	Comparison of Foot Pedal Reaction Time Among Patients with Right or Left Hemiplegia and Able-Bodied Controls. Topics in Stroke Rehabilitation, 2013, 20, 500-508.	1.9	3
26	Botulinum Toxin Induces Chemodenervation of Intrafusal and Extrafusal Fibers. Journal of Child Neurology, 2013, 28, 819-819.	1.4	2
27	Impact of Spasticity and Cognitive Dual-Task on Gait Variability and Asymmetry in Adults With Neurological Disorders. Archives of Physical Medicine and Rehabilitation, 2014, 95, e86.	0.9	2
28	Relationship Between Spasticity and Balance Confidence in Persons Post-Stroke. Archives of Physical Medicine and Rehabilitation, 2014, 95, e15.	0.9	2
29	Biceps Brachii Botulinum Toxin Injections: To Be or Not to Be. Canadian Journal of Neurological Sciences, 2015, 42, 482-482.	0.5	2
30	Challenges in the management of anticoagulated patients with focal spasticity. Toxicon, 2020, 177, 93-95.	1.6	2
31	Spasticity Health Literacy Among Canadian Family Physicians. Canadian Journal of Neurological Sciences, 2015, 42, 450-453.	0.5	1
32	Managing Upper Extremity Clonus With Intramuscular Botulinum Toxinâ€A Injections in a Patient Poststroke. PM and R, 2015, 7, 542-546.	1.6	1
33	Functional Impact of Ankle Clonus Based on Patient Perceptions. Archives of Physical Medicine and Rehabilitation, 2015, 96, e13-e14.	0.9	1
34	ICF-WHO Model to Describe Goal Characteristics Among Individuals with Spasticity Receiving Botulinum Injections. Archives of Physical Medicine and Rehabilitation, 2016, 97, e42.	0.9	1
35	Impact of Seasonal Variations on Spasticity Assessment and Treatment. International Journal of Neurology Research, 2015, 1, 83-87.	0.2	1
36	Poster 33: A Controlled Trial of Foot Pedal Reaction Time Among Stroke Survivors With Right or Left Hemiplegia. Archives of Physical Medicine and Rehabilitation, 2008, 89, e36-e37.	0.9	0

#	ARTICLE	IF	CITATIONS
37	Poster 232: Point of Care Testing in a Rehabilitation Setting: Use and Clinical Impact During Rapid Responses. PM and R, 2009, 1, S204-S204.	1.6	0
38	Poster 61 Association Between Time Since Stroke and Botulinum Toxin Dosage. Archives of Physical Medicine and Rehabilitation, 2013, 94, e32-e33.	0.9	0
39	Poster 6 Differences in Botulinum Toxin Dosage Based on Neural Lesion Type: A Retrospective Study. Archives of Physical Medicine and Rehabilitation, 2013, 94, e13.	0.9	0
40	RE. American Journal of Physical Medicine and Rehabilitation, 2014, 93, 95-96.	1.4	0
41	Poster 365 Evaluation of Health Utility in Patients Receiving OnabotulinumtoxinA (Botox [®]) for the Treatment of Adult Focal Spasticity: Results from MOBILITY [®] , a Prospective Observational Cohort Study. PM and R, 2014, 6, S313.	1.6	0
42	Factors that Influence Spasticity in Individuals with Stroke and Multiple Sclerosis. Archives of Physical Medicine and Rehabilitation, 2014, 95, e33-e34.	0.9	0
43	Spasticity and Goal Attainment Scale Characteristics in Individuals Receiving Botulinum Toxin Type-A Injections. Archives of Physical Medicine and Rehabilitation, 2014, 95, e86.	0.9	0
44	120. A case study of management of upper extremity clonus using botulinum toxin type A. Toxicon, 2015, 93, S37.	1.6	0
45	Is Spasticity Causing Pain? A Cross-sectional Survey of Patient Perception. Archives of Physical Medicine and Rehabilitation, 2015, 96, e13.	0.9	0
46	The influence of a concurrent cognitive task on lower limb reaction time among stroke survivors with right- or left-hemiplegia. Topics in Stroke Rehabilitation, 2015, 22, 342-348.	1.9	0
47	Physician Preferences for Botulinum Toxin Injections in Anticoagulated Patients with Spasticity “CORRIGENDUM. Canadian Journal of Neurological Sciences, 2016, 43, 584-584.	0.5	0
48	Prevalence of compartment syndrome in anticoagulated patients with stroke receiving botulinum toxin injections: A retrospective study. Toxicon, 2016, 123, S79.	1.6	0
49	Differential Lower Extremity Muscle Activation And Gait Patterns In Stroke Patients During Sloped Surface Ambulation At Variable Velocities. Archives of Physical Medicine and Rehabilitation, 2016, 97, e45.	0.9	0
50	Factors Affecting Length of Stay in a Rehabilitation Centre in Patients with Acquired Brain Injury. Archives of Physical Medicine and Rehabilitation, 2016, 97, e41.	0.9	0
51	Impact of Passive Leg Cycling in Persons with Spinal Cord Injury. Archives of Physical Medicine and Rehabilitation, 2017, 98, e135.	0.9	0
52	Brief Skin Cooling Prior to Intramuscular Botulinum Toxin Injections. Canadian Journal of Neurological Sciences, 0, , 1-2.	0.5	0
53	Botulinum toxin injection for hemiplegic shoulder pain: Do we know enough yet?. FASEB Journal, 2013, 27, 749.2.	0.5	0
54	Seasonal Variations in Outdoor Activities in Adults With Spasticity. International Journal of Neurology Research, 2015, 1, 163-168.	0.2	0

#	ARTICLE	IF	CITATIONS
55	Acute neurophysiologic effects of botulinum toxin type A intramuscular injection on extensor digitorum brevis muscle in healthy adults. Toxicon, 2022, 211, 6-10.	1.6	0
