#	Paper	IF	Citations
101	Prevalence of resistant hypertension in the United States, 2003-2008. <i>Hypertension</i> , 2011 , 57, 1076-80	8.5	558
100	Effect of Behavioral Interventions on Inappropriate Antibiotic Prescribing Among Primary Care Practices: A Randomized Clinical Trial. <i>JAMA - Journal of the American Medical Association</i> , 2016 , 315, 562-70	27.4	452
99	Awareness, Attitudes, and Actions Related to COVID-19 Among Adults With Chronic Conditions at the Onset of the U.S. Outbreak: A Cross-sectional Survey. <i>Annals of Internal Medicine</i> , 2020 , 173, 100-109 ⁸		300
98	Return of genomic results to research participants: the floor, the ceiling, and the choices in between. <i>American Journal of Human Genetics</i> , 2014 , 94, 818-26	11	283
97	Prompting physicians to address a daily checklist and process of care and clinical outcomes: a single-site study. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2011 , 184, 680-6	10.2	157
96	Distribution of 10-year and lifetime predicted risks for cardiovascular disease in US adults: findings from the National Health and Nutrition Examination Survey 2003 to 2006. <i>Circulation: Cardiovascular Quality and Outcomes</i> , 2010 , 3, 8-14	5.8	124
95	Contextual errors and failures in individualizing patient care: a multicenter study. <i>Annals of Internal Medicine</i> , 2010 , 153, 69-75	8	123
94	Association of Arrhythmia-Related Genetic Variants With Phenotypes Documented in Electronic Medical Records. <i>JAMA - Journal of the American Medical Association</i> , 2016 , 315, 47-57	27.4	115
93	Limited health literacy is a barrier to medication reconciliation in ambulatory care. <i>Journal of General Internal Medicine</i> , 2007 , 22, 1523-6	4	104
92	Education, literacy, and health: Mediating effects on hypertension knowledge and control. <i>Patient Education and Counseling</i> , 2009 , 75, 381-5	3.1	92
91	ACCF/AHA/AMA-PCPI 2011 performance measures for adults with coronary artery disease and hypertension: a report of the American College of Cardiology Foundation/American Heart Association Task Force on Performance Measures and the American Medical Association-Physician and Practice Performance Improvement Committee. <i>Circulation</i> , 2011 , 124, 2418-50	16.7	87
90	Effects of Behavioral Interventions on Inappropriate Antibiotic Prescribing in Primary Care 12 Months After Stopping Interventions. <i>JAMA - Journal of the American Medical Association</i> , 2017 , 318, 1391-1392	27.4	72
89	Automated review of electronic health records to assess quality of care for outpatients with heart failure. <i>Annals of Internal Medicine</i> , 2007 , 146, 270-7	8	62
88	Assessing the validity of national quality measures for coronary artery disease using an electronic health record. <i>Archives of Internal Medicine</i> , 2006 , 166, 2272-7		61
87	Increased blood pressure in the emergency department: pain, anxiety, or undiagnosed hypertension?. <i>Annals of Emergency Medicine</i> , 2008 , 51, 221-9	2.1	60
86	Low Tidal Volume Ventilation Use in Acute Respiratory Distress Syndrome. <i>Critical Care Medicine</i> , 2016 , 44, 1515-22	1.4	60
85	Changes in performance after implementation of a multifaceted electronic-health-record-based quality improvement system. <i>Medical Care</i> , 2011 , 49, 117-25	3.1	59

84	Relationship of diabetes-specific knowledge to self-management activities, ambulatory preventive care, and metabolic outcomes. <i>Preventive Medicine</i> , 2004 , 39, 746-52	4.3	59
83	Association of 10-year and lifetime predicted cardiovascular disease risk with subclinical atherosclerosis in South Asians: findings from the Mediators of Atherosclerosis in South Asians Living in America (MASALA) study. <i>Journal of the American Heart Association</i> , 2014 , 3, e001117	6	47
82	Frequency of inappropriate medical exceptions to quality measures. <i>Annals of Internal Medicine</i> , 2010 , 152, 225-31	8	47
81	Aspirin use among adults with diabetes: recent trends and emerging sex disparities. <i>Archives of Internal Medicine</i> , 2004 , 164, 2492-9		47
80	Risk scoring for the primary prevention of cardiovascular disease. <i>The Cochrane Library</i> , 2017 , 3, CD006887	9.2	45
79	Behavioral interventions to reduce inappropriate antibiotic prescribing: a randomized pilot trial. <i>BMC Infectious Diseases</i> , 2016 , 16, 373	4	43
78	E-learning and deliberate practice for oral case presentation skills: a randomized trial. <i>Medical Teacher</i> , 2012 , 34, e820-6	3	39
77	Nudging physician prescription decisions by partitioning the order set: results of a vignette-based study. <i>Journal of General Internal Medicine</i> , 2015 , 30, 298-304	4	37
76	Electronic health record-based cardiac risk assessment and identification of unmet preventive needs. <i>Medical Care</i> , 2009 , 47, 418-24	3.1	34
75	Effect of Home Blood Pressure Monitoring via a Smartphone Hypertension Coaching Application or Tracking Application on Adults With Uncontrolled Hypertension: A Randomized Clinical Trial. <i>JAMA Network Open</i> , 2020 , 3, e200255	10.4	32
74	Use of behavioral economics and social psychology to improve treatment of acute respiratory infections (BEARI): rationale and design of a cluster randomized controlled trial [1RC4AG039115-01]--study protocol and baseline practice and provider characteristics. <i>BMC Infectious Diseases</i> , 2013 , 13, 290	4	31
73	Changes in disparities following the implementation of a health information technology-supported quality improvement initiative. <i>Journal of General Internal Medicine</i> , 2012 , 27, 71-7	4	28
72	Electronic health record-based patient identification and individualized mailed outreach for primary cardiovascular disease prevention: a cluster randomized trial. <i>Journal of General Internal Medicine</i> , 2013 , 28, 554-60	4	28
71	Ambulatory hypercholesterolemia management in patients with atherosclerosis. Gender and race differences in processes and outcomes. <i>Journal of General Internal Medicine</i> , 2005 , 20, 123-30	4	27
70	Adoption of a High-Impact Innovation in a Homogeneous Population. <i>Physical Review X</i> , 2014 , 4, 041008	9.1	25
69	Medication reconciliation and hypertension control. <i>American Journal of Medicine</i> , 2010 , 123, 182.e9-182.e15	15	24
68	Changes in COVID-19 Knowledge, Beliefs, Behaviors, and Preparedness Among High-Risk Adults from the Onset to the Acceleration Phase of the US Outbreak. <i>Journal of General Internal Medicine</i> , 2020 , 35, 3285-3292	4	23
67	Improving hypertension quality measurement using electronic health records. <i>Medical Care</i> , 2009 , 47, 388-94	3.1	22

66	ACC/AHA/SCAI/AMA-Convended PCPI/NCQA 2013 Performance Measures for Adults Undergoing Percutaneous Coronary Intervention: A Report of the American College of Cardiology/American Heart Association Task Force on Performance Measures, the Society for Cardiovascular Angiography and Interventions, the American Medical Association-Convended Physician Consortium	16.7	21
65	Understanding of drug indications by ambulatory care patients. <i>American Journal of Health-System Pharmacy</i> , 2004 , 61, 2523-7	2.2	21
64	Social Determinants of Health Training in U.S. Primary Care Residency Programs: A Scoping Review. <i>Academic Medicine</i> , 2019 , 94, 135-143	3.9	21
63	Implications of changing national cholesterol education program goals for the treatment and control of hypercholesterolemia. <i>Journal of General Internal Medicine</i> , 2006 , 21, 171-176	4	20
62	Effect of Electronic Health Record-Based Medication Support and Nurse-Led Medication Therapy Management on Hypertension and Medication Self-management: A Randomized Clinical Trial. <i>JAMA Internal Medicine</i> , 2018 , 178, 1069-1077	11.5	19
61	A Critical Care Clinician Survey Comparing Attitudes and Perceived Barriers to Low Tidal Volume Ventilation with Actual Practice. <i>Annals of the American Thoracic Society</i> , 2017 , 14, 1682-1689	4.7	19
60	Knowledge and Behaviors of Adults with Underlying Health Conditions During the Onset of the COVID-19 U.S. Outbreak: The Chicago COVID-19 Comorbidities Survey. <i>Journal of Community Health</i> , 2020 , 45, 1149-1157	4	17
59	National Cholesterol Education Program risk assessment and potential for risk misclassification. <i>Preventive Medicine</i> , 2006 , 43, 368-71	4.3	16
58	Comparison of handwritten and electronically generated prescription drug instructions. <i>Annals of Pharmacotherapy</i> , 2009 , 43, 151-2	2.9	15
57	Details matter: predicting when nudging clinicians will succeed or fail. <i>BMJ, The</i> , 2020 , 370, m3256	5.9	14
56	Design of healthy hearts in the heartland (H3): A practice-randomized, comparative effectiveness study. <i>Contemporary Clinical Trials</i> , 2018 , 71, 47-54	2.3	13
55	Individualized Risk Communication and Outreach for Primary Cardiovascular Disease Prevention in Community Health Centers: Randomized Trial. <i>Circulation: Cardiovascular Quality and Outcomes</i> , 2015 , 8, 560-6	5.8	13
54	EHR-based medication support and nurse-led medication therapy management: rationale and design for a three-arm clinic randomized trial. <i>Journal of the American Heart Association</i> , 2013 , 2, e000311	6	13
53	An ancillary genomics system to support the return of pharmacogenomic results. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2019 , 26, 306-310	8.6	12
52	867: A RANDOMIZED TRIAL IN THE PICU COMPARING A COMMUNICATION INTERVENTION WITH AN INFORMATIONAL BROCHURE. <i>Critical Care Medicine</i> , 2018 , 46, 418-418	1.4	11
51	Electronic health record identification of prediabetes and an assessment of unmet counselling needs. <i>Journal of Evaluation in Clinical Practice</i> , 2012 , 18, 861-5	2.5	10
50	The Process and Impact of Stakeholder Engagement in Developing a Pediatric Intensive Care Unit Communication and Decision-Making Intervention. <i>Journal of Patient Experience</i> , 2016 , 3, 108-118	1.3	9
49	Understanding Black Patients' Refusal of Pneumococcal Vaccination. <i>Journal of Racial and Ethnic Health Disparities</i> , 2017 , 4, 1-8	3.5	8

48	Patient-directed intervention versus clinician reminders alone to improve aspirin use in diabetes: a cluster randomized trial. <i>Joint Commission Journal on Quality and Patient Safety</i> , 2008 , 34, 98-105	1.4	8
47	Implications of changing national cholesterol education program goals for the treatment and control of hypercholesterolemia. <i>Journal of General Internal Medicine</i> , 2006 , 21, 171-6	4	8
46	Practice Facilitators and Leaders' Perspectives on a Facilitated Quality Improvement Program. <i>Annals of Family Medicine</i> , 2018 , 16, S65-S71	2.9	8
45	Age-related differences in preventive care among adults with diabetes. <i>American Journal of Medicine</i> , 2004 , 116, 630-4	2.4	7
44	Development and evaluation of a patient education video promoting pneumococcal vaccination. <i>Patient Education and Counseling</i> , 2017 , 100, 1024-1027	3.1	6
43	Identifying and addressing social determinants of health in outpatient practice: results of a program-wide survey of internal and family medicine residents. <i>BMC Medical Education</i> , 2020 , 20, 18	3.3	6
42	Rationale and design of the regimen education and messaging in diabetes (REMinD) trial. <i>Contemporary Clinical Trials</i> , 2019 , 83, 46-52	2.3	6
41	Implications of American College of Cardiology/American Heart Association (ACC/AHA) Cholesterol Guidelines on Statin Underutilization for Prevention of Cardiovascular Disease in Diabetes Mellitus Among Several US Networks of Community Health Centers. <i>Journal of the American Heart Association</i> , 2017 , 8, e01017	6	6
40	The marginal value of pre-visit paper reminders when added to a multifaceted electronic health record based quality improvement system. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2011 , 18, 805-11	8.6	6
39	Effects of 2 Forms of Practice Facilitation on Cardiovascular Prevention in Primary Care: A Practice-randomized, Comparative Effectiveness Trial. <i>Medical Care</i> , 2020 , 58, 344-351	3.1	6
38	Design of a randomized controlled trial comparing a mobile phone-based hypertension health coaching application to home blood pressure monitoring alone: The Smart Hypertension Control Study. <i>Contemporary Clinical Trials</i> , 2018 , 73, 92-97	2.3	6
37	Clinician-Level Variation in Three Measures Representing Overuse Based on the American Geriatrics Society Choosing Wisely Statement. <i>Journal of General Internal Medicine</i> , 2020 , 35, 1797-1802 ⁴		5
36	Associations Between Health Literacy and Medication Self-Management Among Community Health Center Patients with Uncontrolled Hypertension. <i>Patient Preference and Adherence</i> , 2020 , 14, 87-95	2.4	5
35	Improving Performance on Preventive Health Quality Measures Using Clinical Decision Support to Capture Care Done Elsewhere and Patient Exceptions. <i>American Journal of Medical Quality</i> , 2018 , 33, 237-245	1.1	5
34	Challenges to electronic clinical quality measurement using third-party platforms in primary care practices: the healthy hearts in the heartland experience. <i>JAMIA Open</i> , 2019 , 2, 423-428	2.9	5
33	Point-of-care testing to promote cardiovascular disease risk assessment: A proof of concept study. <i>Preventive Medicine Reports</i> , 2017 , 7, 136-139	2.6	5
32	The implications of using adjusted versus unadjusted methods to measure health care disparities at the practice level. <i>American Journal of Medical Quality</i> , 2011 , 26, 491-501	1.1	5
31	Predictors of cholesterol treatment discussions and statin prescribing for primary cardiovascular disease prevention in community health centers. <i>Preventive Medicine</i> , 2016 , 88, 176-81	4.3	5

30	Changes in Care After Implementing a Multifaceted Intervention to Improve Preventive Cardiology Practice in Rheumatoid Arthritis. <i>American Journal of Medical Quality</i> , 2019 , 34, 276-283	1.1	5
29	Effects of standardized outreach for patients refusing preventive services: a quasiexperimental quality improvement study. <i>American Journal of Managed Care</i> , 2011 , 17, e249-54	2.1	3
28	A quantitative approach for the analysis of clinician recognition of acute respiratory distress syndrome using electronic health record data. <i>PLoS ONE</i> , 2019 , 14, e0222826	3.7	2
27	Cognitive impairment no dementia and associations with health literacy, self-management skills, and functional health status. <i>Patient Education and Counseling</i> , 2020 , 103, 1805-1811	3.1	2
26	Criteria for waiver of informed consent for quality improvement research. <i>JAMA Internal Medicine</i> , 2015 , 175, 142-3	11.5	2
25	Factors Influencing the Increasing Disparity in LDL Cholesterol Control Between White and Black Patients With Diabetes in a Context of Active Quality Improvement. <i>American Journal of Medical Quality</i> , 2014 , 29, 308-14	1.1	2
24	The protocol of the Application of Economics & Social psychology to improve Opioid Prescribing Safety Trial 1 (AESOPS-1): Electronic health record nudges. <i>Contemporary Clinical Trials</i> , 2021 , 103, 106329	2.3	2
23	Examining primary care physician rationale for not following geriatric choosing wisely recommendations. <i>BMC Family Practice</i> , 2021 , 22, 95	2.6	2
22	Implementation of EHR-based strategies to improve outpatient CAD care. <i>American Journal of Managed Care</i> , 2012 , 18, 603-10	2.1	2
21	Mailed outreach and facilitated test ordering to promote cholesterol screening in community health centers: A randomized trial. <i>Journal of Evaluation in Clinical Practice</i> , 2017 , 23, 620-624	2.5	1
20	Outreach to Promote Management of Cardiovascular Risk in Primary Care Among Patients With Rheumatoid Arthritis Seen in Rheumatology Practice. <i>ACR Open Rheumatology</i> , 2020 , 2, 131-137	3.5	1
19	Development of a Case-Based-Learning Curriculum to Engage Pre-clerkship Students in Principles of Health Equity, Quality, Safety, Teamwork, and Economics. <i>Medical Science Educator</i> , 2015 , 25, 493-496	0.7	1
18	Prehypertension: Progression to hypertension and management considerations. <i>Current Cardiovascular Risk Reports</i> , 2007 , 1, 188-197	0.9	1
17	Development of High-Risk Geriatric Polypharmacy Electronic Clinical Quality Measures and a Pilot Test of EHR Nudges Based on These Measures.. <i>Journal of General Internal Medicine</i> , 2022 , 1	4	1
16	Design of Behavioral Economic Applications to Geriatrics Leveraging Electronic Health Records (BEAGLE): A pragmatic cluster randomized controlled trial.. <i>Contemporary Clinical Trials</i> , 2021 , 112, 106649	2.3	1
15	Effect of Peer Benchmarking on Specialist Electronic Consult Performance in a Los Angeles Safety-Net: a Cluster Randomized Trial. <i>Journal of General Internal Medicine</i> , 2021 , 1	4	1
14	Medical exceptions to decision support: a tool to identify provider misconceptions and direct academic detailing 2008 , 1090	0.7	1
13	Navigator-Based Intervention to Support Communication in the Pediatric Intensive Care Unit: A Pilot Study. <i>American Journal of Critical Care</i> , 2020 , 29, 271-282	1.7	0

12	A Framework for Transforming Primary Care Health Care Professions Education and Training to Promote Health Equity.. <i>Journal of Health Care for the Poor and Underserved</i> , 2020 , 31, 193-207	1.4	0
11	Qualitative evaluation of a cardiovascular quality improvement programmereveals sizable data inaccuracies in small primary care practices. <i>BMJ Open Quality</i> , 2019 , 8, e000702	1.9	0
10	Community health center patientsSresponse to and beliefs about outreach promoting clinical preventive services. <i>Preventive Medicine Reports</i> , 2017 , 5, 71-74	2.6	
9	Health System-Community Partnerships: Implementation and Intensity Matter. <i>American Journal of Preventive Medicine</i> , 2020 , 58, 283-284	6.1	
8	The protocol of the Application of Economics & Social psychology to improve Opioid Prescribing Safety trial 2 (AESOPS-2): Availability of opioid harm.. <i>Contemporary Clinical Trials</i> , 2021 , 112, 106650	2.3	
7	Elevated Creatinine Levels and Quality of Care in Heart Failure. <i>Annals of Internal Medicine</i> , 2007 , 147, 672	8	
6	Meeting the Criteria of Medication Therapy Management-Reply. <i>JAMA Internal Medicine</i> , 2018 , 178, 1563	1.5	
5	The first step is recognizing there is a problem: a methodology for adjusting for variability in disease severity when estimating clinician performance.. <i>BMC Medical Research Methodology</i> , 2022 , 22, 69	4.7	
4	A quantitative approach for the analysis of clinician recognition of acute respiratory distress syndrome using electronic health record data 2019 , 14, e0222826		
3	A quantitative approach for the analysis of clinician recognition of acute respiratory distress syndrome using electronic health record data 2019 , 14, e0222826		
2	A quantitative approach for the analysis of clinician recognition of acute respiratory distress syndrome using electronic health record data 2019 , 14, e0222826		
1	A quantitative approach for the analysis of clinician recognition of acute respiratory distress syndrome using electronic health record data 2019 , 14, e0222826
