#	ARTICLE	IF	CITATIONS
1	What is an adequate sample size? Operationalising data saturation for theory-based interview studies. <i>Psychology and Health</i> , 2010, 25, 1229-1245.	2.2	1,833
2	Interventions to improve outpatient referrals from primary care to secondary care. The Cochrane Library, 2008, , CD005471.	2.8	237
3	Prevalence of Honorary and Ghost Authorship in Cochrane Reviews. <i>JAMA - Journal of the American Medical Association</i> , 2002, 287, 2769.	7.4	186
4	Barriers to effective management of type 2 diabetes in primary care: qualitative systematic review. <i>British Journal of General Practice</i> , 2016, 66, e114-e127.	1.4	168
5	Phase III Randomized Controlled Trial of eRAPID: eHealth Intervention During Chemotherapy. <i>Journal of Clinical Oncology</i> , 2021, 39, 734-747.	1.6	127
6	Applying psychological theories to evidence-based clinical practice: Identifying factors predictive of managing upper respiratory tract infections without antibiotics. <i>Implementation Science</i> , 2007, 2, 26.	6.9	100
7	Applying psychological theory to evidence-based clinical practice: Identifying factors predictive of taking intra-oral radiographs. <i>Social Science and Medicine</i> , 2006, 63, 1889-1899.	3.8	91
8	A systematic review of the clinical effectiveness of orlistat used for the management of obesity. <i>Obesity Reviews</i> , 2004, 5, 51-68.	6.5	90
9	Explaining clinical behaviors using multiple theoretical models. <i>Implementation Science</i> , 2012, 7, 99.	6.9	81
10	Prescribed opioids in primary care: cross-sectional and longitudinal analyses of influence of patient and practice characteristics. <i>BMJ Open</i> , 2016, 6, e010276.	1.9	75
11	Discriminant content validity: A quantitative methodology for assessing content of theory-based measures, with illustrative applications. <i>British Journal of Health Psychology</i> , 2014, 19, 240-257.	3.5	69
12	Using the Theoretical Domains Framework (TDF) to understand adherence to multiple evidence-based indicators in primary care: a qualitative study. <i>Implementation Science</i> , 2015, 11, 113.	6.9	68
13	The question "behavior effect: Genuine effect or spurious phenomenon? A systematic review of randomized controlled trials with meta-analyses.. <i>Health Psychology</i> , 2015, 34, 61-78.	1.6	66
14	Understanding long-term opioid prescribing for non-cancer pain in primary care: a qualitative study. <i>BMC Family Practice</i> , 2015, 16, 121.	2.9	51
15	Application of theory to enhance audit and feedback interventions to increase the uptake of evidence-based transfusion practice: an intervention development protocol. <i>Implementation Science</i> , 2014, 9, 92.	6.9	48
16	Applying psychological theories to evidence-based clinical practice: identifying factors predictive of placing preventive fissure sealants. <i>Implementation Science</i> , 2010, 5, 25.	6.9	47
17	How patients understand depression associated with chronic physical disease " a systematic review. <i>BMC Family Practice</i> , 2012, 13, 41.	2.9	37
18	A multidimensional approach to assessing intervention fidelity in a process evaluation of audit and feedback interventions to reduce unnecessary blood transfusions: a study protocol. <i>Implementation Science</i> , 2016, 11, 163.	6.9	36

#	ARTICLE	IF	CITATIONS
19	Applying psychological theories to evidence-based clinical practice: identifying factors predictive of lumbar spine x-ray for low back pain in UK primary care practice. <i>Implementation Science</i> , 2011, 6, 55.	6.9	35
20	Do incentives, reminders or reduced burden improve healthcare professional response rates in postal questionnaires? two randomised controlled trials. <i>BMC Health Services Research</i> , 2012, 12, 250.	2.2	35
21	Do reviews of healthcare interventions teach us how to improve healthcare systems?. <i>Social Science and Medicine</i> , 2014, 114, 129-137.	3.8	35
22	Enhancing the reporting of implementation research. <i>Implementation Science</i> , 2017, 12, 13.	6.9	32
23	Patients understanding of depression associated with chronic physical illness: a qualitative study. <i>BMC Family Practice</i> , 2014, 15, 37.	2.9	26
24	Using behavioural theories to optimise shared haemodialysis care: a qualitative intervention development study of patient and professional experience. <i>Implementation Science</i> , 2013, 8, 118.	6.9	24
25	Variations in achievement of evidence-based, high-impact quality indicators in general practice: An observational study. <i>PLoS ONE</i> , 2017, 12, e0177949.	2.5	24
26	The evaluation of enhanced feedback interventions to reduce unnecessary blood transfusions (AFFINITIE): protocol for two linked cluster randomised factorial controlled trials. <i>Implementation Science</i> , 2017, 12, 84.	6.9	22
27	To what extent can behaviour change techniques be identified within an adaptable implementation package for primary care? A prospective directed content analysis. <i>Implementation Science</i> , 2018, 13, 32.	6.9	18
28	Predicting Risk of Recurrent Acute Kidney Injury: A Systematic Review. <i>Nephron</i> , 2019, 142, 83-90.	1.8	18
29	An adaptable implementation package targeting evidence-based indicators in primary care: A pragmatic cluster-randomised evaluation. <i>PLoS Medicine</i> , 2020, 17, e1003045.	8.4	18
30	How do hospitals respond to feedback about blood transfusion practice? A multiple case study investigation. <i>PLoS ONE</i> , 2018, 13, e0206676.	2.5	16
31	Does bleeding affect patient-reported outcome measures in patients with myelodysplasia or hematologic malignancies: a systematic review. <i>Transfusion</i> , 2014, 54, 1166-1179.	1.6	15
32	Action to Support Practices Implement Research Evidence (ASPIRE): protocol for a cluster-randomised evaluation of adaptable implementation packages targeting "high impact" clinical practice recommendations in general practice. <i>Implementation Science</i> , 2015, 11, 25.	6.9	13
33	Application of prescribing recommendations in older people with reduced kidney function: a cross-sectional study in general practice. <i>British Journal of General Practice</i> , 2018, 68, e378-e387.	1.4	10
34	'Just another incentive scheme': a qualitative interview study of a local pay-for-performance scheme for primary care. <i>BMC Family Practice</i> , 2014, 15, 168.	2.9	8
35	Shared understandings of dementia? An application of the Common Sense Self Regulation Model to a case study. <i>Dementia</i> , 2012, 11, 217-250.	2.0	7
36	Does a local financial incentive scheme reduce inequalities in the delivery of clinical care in a socially deprived community? A longitudinal data analysis. <i>BMC Family Practice</i> , 2015, 16, 61.	2.9	7

#	ARTICLE	IF	CITATIONS
37	Developing and evaluating packages to support implementation of quality indicators in general practice: the ASPIRE research programme, including two cluster RCTs. Programme Grants for Applied Research, 2020, 8, 1-96.	1.0	7
38	Electronic self-reporting of adverse events for patients undergoing cancer treatment: the eRAPID research programme including two RCTs. Programme Grants for Applied Research, 2022, 10, 1-110.	1.0	6
39	Effectiveness of Enhanced Performance Feedback on Appropriate Use of Blood Transfusions. JAMA Network Open, 2022, 5, e220364.	5.9	6
40	Identifying effective components for mobile health behaviour change interventions for smoking cessation and service uptake: protocol of a systematic review and planned meta-analysis. Systematic Reviews, 2017, 6, 193.	5.3	4
41	Explaining variable effects of an adaptable implementation package to promote evidence-based practice in primary care: a longitudinal process evaluation. Implementation Science, 2022, 17, 9.	6.9	3
42	Optimising participation and generalisability: the use of opt-out recruitment for an implementation trial in primary care. Trials, 2015, 16, .	1.6	2
43	Use of electronic health records in the design and evaluation of implementation research in primary care - experiences from the aspire cluster randomised controlled trials (CRCTS). Trials, 2015, 16, .	1.6	1
44	Running educational outreach meetings in general practice. The Prescriber, 2017, 28, 25-29.	0.3	1
45	The Self in Health and Illness Patients, Professionals and Narrative Identity. Health Expectations, 2008, 11, 96-97.	2.6	0
46	Enhanced feedback interventions to promote evidence-based blood transfusion guidance and reduce unnecessary use of blood components: the AFFINITIE research programme including two cluster factorial RCTs. Programme Grants for Applied Research, 2022, 10, 1-112.	1.0	0
47	Title is missing!. , 2020, 17, e1003045.		0
48	Title is missing!. , 2020, 17, e1003045.		0
49	Title is missing!. , 2020, 17, e1003045.		0
50	Title is missing!. , 2020, 17, e1003045.		0
51	Title is missing!. , 2020, 17, e1003045.		0
