citing authors

#	ARTICLE	IF	CITATIONS
1	Levator plate descent correlates with levator ani muscle deficiency. <i>Neurourology and Urodynamics</i> , 2015, 34, 55-59.	1.5	29
2	Pelvic floor shape variations during pregnancy and after vaginal delivery. <i>Computer Methods and Programs in Biomedicine</i> , 2020, 194, 105516.	4.7	21
3	Predictors of successful percutaneous tibial nerve stimulation (PTNS) in the treatment of overactive bladder syndrome. <i>International Urogynecology Journal</i> , 2019, 30, 1735-1745.	1.4	14
4	Descent and hypermobility of the rectum in women with obstructed defecation symptoms. <i>International Urogynecology Journal</i> , 2020, 31, 337-349.	1.4	10
5	Urethral support in female urinary continence part 2: a computational, biomechanical analysis of Valsalva. <i>International Urogynecology Journal</i> , 2022, 33, 551-561.	1.4	7
6	Factors associated with overactive bladder symptom improvement after 1 year of monthly percutaneous tibial nerve stimulation therapy. <i>Neurourology and Urodynamics</i> , 2019, 38, 1676-1684.	1.5	6
7	Urethral support in female urinary continence part 1: dynamic measurements of urethral shape and motion. <i>International Urogynecology Journal</i> , 2022, 33, 541-550.	1.4	6
8	The role of conventional pelvic floor reconstructive surgeries in obstructed defecation symptoms change: CARE and OPTIMAL trials sub-analysis of 2-year follow-up data. <i>International Urogynecology Journal</i> , 2020, 31, 1325-1334.	1.4	4
9	Transvaginal sacrospinous ligament suture rectopexy for obstructed defecation symptoms: 1-year outcomes. <i>International Urogynecology Journal</i> , 2020, 32, 3045-3052.	1.4	3
10	Obstructed Defecation Symptom Severity and Degree of Rectal Hypermobility and Folding Detected by Dynamic Ultrasound. <i>Ultrasound Quarterly</i> , 2021, 37, 229-236.	0.8	3
11	Motion of the vaginal apex during strain and defecation. <i>International Urogynecology Journal</i> , 2020, 31, 391-400.	1.4	2
12	Statistical shape modeling of the pelvic floor to evaluate women with obstructed defecation symptoms. <i>Computer Methods in Biomechanics and Biomedical Engineering</i> , 2021, 24, 122-130.	1.6	2
13	Posterior perineal translevator hernia: application of MRI, 3D ultrasound, and computerized modeling. <i>International Urogynecology Journal</i> , 2018, 29, 1559-1561.	1.4	1
14	Pelvic floor architectural defects in female patients with urge fecal incontinence versus passive fecal leakage: a dynamic ultrasound study. <i>International Urogynecology Journal</i> , 2021, , 1.	1.4	1
15	A commentary on "Evaluation of the histological and biomechanical properties of poly-4-hydroxybutyrate (P4HB) scaffold for pelvic organ prolapse, as compared to polypropylene mesh in a rabbit model". <i>International Urogynecology Journal</i> , 2021, , 1.	1.4	1
16	A commentary on "Long-term outcome of retropubic tension free vaginal tape for stress urinary incontinence after a trans obturator tape failure; a retrospective study". <i>International Urogynecology Journal</i> , 2020, 31, 761-761.	1.4	0
17	A commentary on "8 versus 12 weeks of percutaneous tibial nerve stimulation and response predictors for overactive bladder". <i>International Urogynecology Journal</i> , 2020, 31, 915-915.	1.4	0
18	A commentary on "Surgical repair of vaginal vault prolapse; a comparison between ipsilateral uterosacral ligament suspension and sacrospinous ligament fixation" a nationwide cohort study". <i>International Urogynecology Journal</i> , 2021, 32, 1451-1451.	1.4	0

#	ARTICLE	IF	CITATIONS
19	A commentary on "Does the presence of a true radiological rectocele increase the likelihood of symptoms of prolapse?" International Urogynecology Journal, 2021, 32, 2239-2239.	1.4	0
20	A commentary on "Effects of home-based stabilization exercises focusing on pelvic floor on postnatal stress urinary incontinence and low back pain: a randomized controlled trial" International Urogynecology Journal, 2020, 31, 2309-2309.	1.4	0
21	A commentary on "Age-associated differences in macrophage response in a vaginal wound healing rat model" International Urogynecology Journal, 2020, 31, 1811-1811.	1.4	0
22	A commentary on "Vaginal hysterectomy with anterior and posterior repair for pelvic organ prolapse under local anesthesia: results of a pilot study" International Urogynecology Journal, 2020, 31, 2117-2117.	1.4	0
23	A commentary on "Impact of postoperative instructions on physical activity following pelvic reconstructive surgery: a randomized controlled trial" International Urogynecology Journal, 2020, 31, 1347-1347.	1.4	0
24	A commentary on "Long-term re-procedure rate after mid-urethral slings for stress urinary incontinence" International Urogynecology Journal, 2020, 31, 737-737.	1.4	0
25	A commentary on "Apical suspension is underutilized for repair of stage IV pelvic organ prolapse: an analysis of national practice patterns in the United States" International Urogynecology Journal, 2021, 32, 799-799.	1.4	0
26	A commentary on "Short-, mid-, and long-term incontinence outcomes in women undergoing mid-urethral sling procedures: a retrospective cohort study" International Urogynecology Journal, 2021, 32, 615-615.	1.4	0
27	A commentary on "Do patients with central sensitivity syndromes have poor subjective outcomes despite anatomical cure from pelvic organ prolapse surgery?" International Urogynecology Journal, 2021, 32, 1469-1469.	1.4	0
28	A commentary on "How often should ring pessaries be removed or changed in women with advanced POP? A prospective observational study" International Urogynecology Journal, 2021, 32, 1479-1479.	1.4	0
29	A commentary on "Microablative radiofrequency versus pelvic floor muscle training for stress urinary incontinence: a randomized controlled trial" International Urogynecology Journal, 2021, , 1.	1.4	0
30	A commentary on "Pessary fitting for pelvic organ prolapse: parameters associated with specific reasons for failure" International Urogynecology Journal, 2022, , 1.	1.4	0
