#	ARTICLE	IF	CITATIONS
1	Differentiating between bipolar and unipolar depression using prefrontal activation patterns: Promising results from functional near infrared spectroscopy (fNIRS) findings. <i>Journal of Affective Disorders</i> , 2021, 281, 476-484.	4.1	24
2	Brain activation during verbal fluency task in type II bipolar disorder patients: a near-infrared spectroscopy study. <i>Psychiatry Research</i> , 2021, 298, 113762.	3.3	4
3	Prefrontal cortex alterations in major depressive disorder, generalized anxiety disorder and their comorbidity during a verbal fluency task assessed by multi-channel near-infrared spectroscopy. <i>Psychiatry Research</i> , 2021, 306, 114229.	3.3	14
4	Abnormal Cortical Activation Patterns Among Chinese-Speaking Schizophrenia Patients During Category and Letter Verbal Fluency Tasks Revealed by Multi-Channel Functional Near-Infrared Spectroscopy. <i>Frontiers in Psychiatry</i> , 2021, 12, 790732.	2.6	6
5	Personality profile of the primary blepharospasm (BSP): An investigation using the Minnesota Multiphasic Personality Inventory. <i>Neuroscience Letters</i> , 2020, 722, 134821.	2.1	0
6	Improving Mental Time Travel in Schizophrenia: Do Remembering the Past and Imagining the Future Make a Difference?. <i>Cognitive Therapy and Research</i> , 2020, 44, 893-905.	1.9	5
7	Effects of music therapy on major depressive disorder: A study of prefrontal hemodynamic functions using fNIRS. <i>Psychiatry Research</i> , 2019, 275, 86-93.	3.3	30
8	Abnormal prefrontal brain activation during a verbal fluency task in bipolar disorder patients with psychotic symptoms using multichannel NIRS. <i>Neuropsychiatric Disease and Treatment</i> , 2018, Volume 14, 3081-3090.	2.2	9
9	Decreased prefrontal brain activation during verbal fluency task in patients with somatoform pain disorder: An exploratory multi-channel near-infrared spectroscopy study. <i>Progress in Neuro-Psychopharmacology and Biological Psychiatry</i> , 2017, 78, 153-160.	4.8	18
10	Near-Infrared Spectroscopy Reveals Abnormal Hemodynamics in the Left Dorsolateral Prefrontal Cortex of Menopausal Depression Patients. <i>Disease Markers</i> , 2017, 2017, 1-10.	1.3	16
11	Reduced prefrontal activation during verbal fluency task in chronic insomnia disorder: a multichannel near-infrared spectroscopy study. <i>Neuropsychiatric Disease and Treatment</i> , 2017, Volume 13, 1723-1731.	2.2	23
12	Prefrontal Hemodynamic Functions during a Verbal Fluency Task in Blepharospasm Using Multi-Channel NIRS. <i>PLoS ONE</i> , 2016, 11, e0150804.	2.5	0
13	Relationship between the prefrontal function and the severity of the emotional symptoms during a verbal fluency task in patients with major depressive disorder: A multi-channel NIRS study. <i>Progress in Neuro-Psychopharmacology and Biological Psychiatry</i> , 2014, 54, 114-121.	4.8	88
