#	ARTICLE	IF	CITATIONS
1	Education to Reduce Potentially Harmful Medication Use Among Residents of Assisted Living Facilities: A Randomized Controlled Trial. <i>Journal of the American Medical Directors Association</i> , 2014, 15, 892-898.	2.5	82
2	Responses of parathyroid hormone to vitamin D supplementation: A systematic review of clinical trials. <i>Archives of Gerontology and Geriatrics</i> , 2009, 48, 160-166.	3.0	48
3	Difference between total and intact assays for N-terminal propeptide of type I procollagen reflects degradation of pN-collagen rather than denaturation of intact propeptide. <i>Annals of Clinical Biochemistry</i> , 2010, 47, 67-71.	1.6	41
4	Vitamin D supplementation has minor effects on parathyroid hormone and bone turnover markers in vitamin D-deficient bedridden older patients. <i>Age and Ageing</i> , 2008, 37, 25-31.	1.6	36
5	Whey protein supplementation in nursing home residents. A randomized controlled trial. <i>European Geriatric Medicine</i> , 2012, 3, 161-166.	2.8	24
6	Low protein and micronutrient intakes in heterogeneous older population samples. <i>Archives of Gerontology and Geriatrics</i> , 2015, 61, 464-471.	3.0	24
7	Parathyroid Hormone as a Mortality Predictor in Frail Aged Inpatients. <i>Gerontology</i> , 2009, 55, 601-606.	2.8	23
8	Vitamin D supplementation has no major effect on pain or pain behavior in bedridden geriatric patients with advanced dementia. <i>Ageing Clinical and Experimental Research</i> , 2008, 20, 316-321.	2.9	22
9	Reducing inappropriate, anticholinergic and psychotropic drugs among older residents in assisted living facilities: study protocol for a randomized controlled trial. <i>Trials</i> , 2012, 13, 85.	1.6	13
10	Feasibility and baseline findings of an educational intervention in a randomized trial to optimize drug treatment among residents in assisted living facilities. <i>European Geriatric Medicine</i> , 2014, 5, 195-199.	2.8	1
11	Treatment indications of mild primary hyperparathyroidism in old age; a challenge for research. <i>European Geriatric Medicine</i> , 2011, 2, 155-158.	2.8	0
