

Alicia Perez

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/8444484/alicia-perez-publications-by-year.pdf>

Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
34	Explainable ICD multi-label classification of EHRs in Spanish with convolutional attention. <i>International Journal of Medical Informatics</i> , 2022 , 157, 104615	5.3	2
33	Implementation of specialised attention mechanisms: ICD-10 classification of Gastrointestinal discharge summaries in English, Spanish and Swedish.. <i>Journal of Biomedical Informatics</i> , 2022 , 104050	10.2	0
32	Extracting Cause of Death From Verbal Autopsy With Deep Learning Interpretable Methods. <i>IEEE Journal of Biomedical and Health Informatics</i> , 2021 , 25, 1315-1325	7.2	2
31	Adverse Drug Reaction extraction: Tolerance to entity recognition errors and sub-domain variants. <i>Computer Methods and Programs in Biomedicine</i> , 2021 , 199, 105891	6.9	1
30	Neural negated entity recognition in Spanish electronic health records. <i>Journal of Biomedical Informatics</i> , 2020 , 105, 103419	10.2	3
29	Boosting ICD multi-label classification of health records with contextual embeddings and label-granularity. <i>Computer Methods and Programs in Biomedicine</i> , 2020 , 188, 105264	6.9	11
28	Extreme Multi-Label ICD Classification: Sensitivity to Hospital Service and Time. <i>IEEE Access</i> , 2020 , 1-1	3.5	3
27	Measuring the effect of different types of unsupervised word representations on Medical Named Entity Recognition. <i>International Journal of Medical Informatics</i> , 2019 , 129, 100-106	5.3	4
26	Smoothing dense spaces for improved relation extraction between drugs and adverse reactions. <i>International Journal of Medical Informatics</i> , 2019 , 128, 39-45	5.3	2
25	Multi-label clinical document classification: Impact of label-density. <i>Expert Systems With Applications</i> , 2019 , 138, 112835	7.8	9
24	Recent advances in Swedish and Spanish medical entity recognition in clinical texts using deep neural approaches. <i>BMC Medical Informatics and Decision Making</i> , 2019 , 19, 274	3.6	7
23	Exploring Joint AB-LSTM With Embedded Lemmas for Adverse Drug Reaction Discovery. <i>IEEE Journal of Biomedical and Health Informatics</i> , 2019 , 23, 2148-2155	7.2	17
22	Word embeddings for negation detection in health records written in Spanish. <i>Soft Computing</i> , 2019 , 23, 10969-10975	3.5	6
21	The class imbalance problem detecting adverse drug reactions in electronic health records. <i>Health Informatics Journal</i> , 2019 , 25, 1768-1778	3	6
20	Inferred joint multigram models for medical term normalization according to ICD. <i>International Journal of Medical Informatics</i> , 2018 , 110, 111-117	5.3	9
19	Machine Learning Approaches on Diagnostic Term Encoding With the ICD for Clinical Documentation. <i>IEEE Journal of Biomedical and Health Informatics</i> , 2018 , 22, 1323-1329	7.2	9
18	Cardiology record multi-label classification using latent Dirichlet allocation. <i>Computer Methods and Programs in Biomedicine</i> , 2018 , 164, 111-119	6.9	13

17	Deep Medical Entity Recognition for Swedish and Spanish 2018 ,		2
16	Semi-supervised medical entity recognition: A study on Spanish and Swedish clinical corpora. <i>Journal of Biomedical Informatics</i> , 2017 , 71, 16-30	10.2	22
15	Medical Entity Recognition and Negation Extraction: Assessment of NegEx on Health Records in Spanish. <i>Lecture Notes in Computer Science</i> , 2017 , 177-188	0.9	1
14	Learning to extract adverse drug reaction events from electronic health records in Spanish. <i>Expert Systems With Applications</i> , 2016 , 61, 235-245	7.8	24
13	Clinical text mining for efficient extraction of drug-allergy reactions 2016 ,		2
12	On the creation of a clinical gold standard corpus in Spanish: Mining adverse drug reactions. <i>Journal of Biomedical Informatics</i> , 2015 , 56, 318-32	10.2	38
11	Computer aided classification of diagnostic terms in spanish. <i>Expert Systems With Applications</i> , 2015 , 42, 2949-2958	7.8	12
10	IxaMed: Applying Freeling and a Perceptron Sequential Tagger at the Shared Task on Analyzing Clinical Texts 2014 ,		4
9	Adverse Drug Event prediction combining shallow analysis and machine learning 2014 ,		5
8	Automatic Annotation of Medical Records in Spanish with Disease, Drug and Substance Names. <i>Lecture Notes in Computer Science</i> , 2013 , 536-543	0.9	9
7	Impact of the Approaches Involved on Word-Graph Derivation from the ASR System. <i>Lecture Notes in Computer Science</i> , 2011 , 668-675	0.9	3
6	Hierarchical Finite-State Models for Speech Translation Using Categorization of Phrases. <i>Lecture Notes in Computer Science</i> , 2010 , 484-493	0.9	
5	Joining linguistic and statistical methods for Spanish-to-Basque speech translation. <i>Speech Communication</i> , 2008 , 50, 1021-1033	2.8	2
4	Speech Translation with Phrase Based Stochastic Finite-State Transducers 2007 ,		2
3	Towards the Improvement of Statistical Translation Models Using Linguistic Features. <i>Lecture Notes in Computer Science</i> , 2006 , 716-725	0.9	1
2	An incremental and hierarchical k-NN classifier for handwritten characters		3
1	Multidimensional multistage k-NN classifiers for handwritten digit recognition		4
