

Robert T Boyd

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/8453500/robert-t-boyd-publications-by-year.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
42	Evolution of Social Learning with Payoff and Content Bias. <i>Games</i> , 2022 , 13, 7	0.9	0
41	The role of causal knowledge in the evolution of traditional technology. <i>Current Biology</i> , 2021 , 31, 1798-1803.e4	6.7	1
40	Behavioral convergence in humans and animals. <i>Science</i> , 2021 , 371, 235-236	33.3	3
39	Arbitration supports reciprocity when there are frequent perception errors. <i>Nature Human Behaviour</i> , 2021 , 5, 596-603	12.8	3
38	The human life history is adapted to exploit the adaptive advantages of culture. <i>Philosophical Transactions of the Royal Society B: Biological Sciences</i> , 2020 , 375, 20190498	5.8	17
37	A theory limited in scope and evidence. <i>Behavioral and Brain Sciences</i> , 2020 , 43, e171	0.9	1
36	Technical reasoning alone does not take humans this far. <i>Behavioral and Brain Sciences</i> , 2020 , 43, e162	0.9	1
35	Irrelevant-action imitation is short-term and contextual: Evidence from two under-studied populations. <i>Developmental Science</i> , 2020 , 23, e12903	4.5	2
34	A Different Kind of Animal 2018 ,		35
33	Tragedy revisited. <i>Science</i> , 2018 , 362, 1236-1241	33.3	32
32	Understanding cumulative cultural evolution. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2016 , 113, E6724-E6725	11.5	101
31	A simple rule for the evolution of contingent cooperation in large groups. <i>Philosophical Transactions of the Royal Society B: Biological Sciences</i> , 2016 , 371, 20150099	5.8	12
30	Partial connectivity increases cultural accumulation within groups. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2016 , 113, 2982-7	11.5	127
29	How evolved psychological mechanisms empower cultural group selection. <i>Behavioral and Brain Sciences</i> , 2016 , 39, e40	0.9	5
28	Reasoning About Cultural and Genetic Transmission: Developmental and Cross-Cultural Evidence From Peru, Fiji, and the United States on How People Make Inferences About Trait Transmission. <i>Topics in Cognitive Science</i> , 2015 , 7, 595-610	2.5	25
27	The Big Man Mechanism: how prestige fosters cooperation and creates prosocial leaders. <i>Philosophical Transactions of the Royal Society B: Biological Sciences</i> , 2015 , 370, 20150013	5.8	66
26	The cost of cowardice: punitive sentiments towards free riders in Turkana raids. <i>Evolution and Human Behavior</i> , 2014 , 35, 58-64	4	43

25	Hunter-gatherer inter-band interaction rates: implications for cumulative culture. <i>PLoS ONE</i> , 2014 , 9, e102806	3.7	171
24	Teaching and the life history of cultural transmission in Fijian villages. <i>Human Nature</i> , 2013 , 24, 351-74	1.8	167
23	Human Cooperation among Kin and Close Associates May Require Enforcement of Norms by Third Parties 2013 , 45-60		7
22	A Bayesian approach to the evolution of social learning. <i>Evolution and Human Behavior</i> , 2012 , 33, 449-459		91
21	The cultural niche: why social learning is essential for human adaptation. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2011 , 108 Suppl 2, 10918-25	11.5	772
20	Population size predicts technological complexity in Oceania. <i>Proceedings of the Royal Society B: Biological Sciences</i> , 2010 , 277, 2559-64	4.4	225
19	Transmission coupling mechanisms: cultural group selection. <i>Philosophical Transactions of the Royal Society B: Biological Sciences</i> , 2010 , 365, 3787-95	5.8	54
18	Colloquium paper: gene-culture coevolution in the age of genomics. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2010 , 107 Suppl 2, 8985-92	11.5	288
17	Coordinated punishment of defectors sustains cooperation and can proliferate when rare. <i>Science</i> , 2010 , 328, 617-20	33.3	423
16	Culture and the evolution of human cooperation. <i>Philosophical Transactions of the Royal Society B: Biological Sciences</i> , 2009 , 364, 3281-8	5.8	504
15	Voting with your feet: Payoff biased migration and the evolution of group beneficial behavior. <i>Journal of Theoretical Biology</i> , 2009 , 257, 331-9	2.3	157
14	Response to our critics. <i>Biology and Philosophy</i> , 2008 , 23, 301-315	1.7	44
13	Five Misunderstandings About Cultural Evolution. <i>Human Nature</i> , 2008 , 19, 119-37	1.8	332
12	Behavior. A narrow road to cooperation. <i>Science</i> , 2007 , 316, 1858-9	33.3	41
11	Evolution. The puzzle of human sociality. <i>Science</i> , 2006 , 314, 1555-6	33.3	55
10	Models of decision-making and the coevolution of social preferences. <i>Behavioral and Brain Sciences</i> , 2005 , 28, 838-855	0.9	44
9	Shared Norms and the Evolution of Ethnic Markers. <i>Current Anthropology</i> , 2003 , 44, 122-130	2.1	430
8	The evolution of altruistic punishment. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2003 , 100, 3531-5	11.5	1255

7	Group beneficial norms can spread rapidly in a structured population. <i>Journal of Theoretical Biology</i> , 2002 , 215, 287-96	2.3	405
6	Was Agriculture Impossible during the Pleistocene but Mandatory during the Holocene? A Climate Change Hypothesis. <i>American Antiquity</i> , 2001 , 66, 387-411	0.9	468
5	Darwinian models of culture: Toward replacing the nature/nurture dichotomy. <i>World Futures</i> , 1992 , 34, 43-57	0.4	2
4	Mistakes allow evolutionary stability in the repeated prisoner's dilemma game. <i>Journal of Theoretical Biology</i> , 1989 , 136, 47-56	2.3	159
3	The Evolution of Ethnic Markers. <i>Cultural Anthropology</i> , 1987 , 2, 65-79	1.5	191
2	No pure strategy is evolutionarily stable in the repeated Prisoner's Dilemma game. <i>Nature</i> , 1987 , 327, 58-59	50.4	324
1	Large-scale cooperation in small-scale foraging societies		3
