#	ARTICLE	IF	CITATIONS
1	Personality and All-Cause Mortality Among Older Adults Dwelling in a Japanese Community: A Five-Year Population-Based Prospective Cohort Study. <i>American Journal of Geriatric Psychiatry</i> , 2008, 16, 399-405.	0.6	146
2	Assessing competence at a higher level among older adults: development of the Japan Science and Technology Agency Index of Competence (JST-IC). <i>Aging Clinical and Experimental Research</i> , 2018, 30, 383-393.	1.4	61
3	Development of the Japan Science and Technology Agency Index of Competence to Assess Functional Capacity in Older Adults. <i>Gerontology and Geriatric Medicine</i> , 2015, 1, 233372141560949.	0.8	55
4	Depression status as a reliable predictor of functional decline among Japanese community-dwelling older adults: a 12-year population-based prospective cohort study. <i>International Journal of Geriatric Psychiatry</i> , 2009, 24, 1192-1200.	1.3	50
5	Subjective well-being as a predictor of all-cause mortality among middle-aged and elderly people living in an urban Japanese community: A seven-year prospective cohort study. <i>Geriatrics and Gerontology International</i> , 2006, 6, 216-222.	0.7	36
6	Longitudinal association between habitual physical activity and depressive symptoms in older people. <i>Psychiatry and Clinical Neurosciences</i> , 2015, 69, 686-692.	1.0	34
7	Lingering health-related anxiety about radiation among Fukushima residents as correlated with media information following the accident at Fukushima Daiichi Nuclear Power Plant. <i>PLoS ONE</i> , 2019, 14, e0217285.	1.1	32
8	A mortality comparison of participants and non-participants in a comprehensive health examination among elderly people living in an urban Japanese community. <i>Aging Clinical and Experimental Research</i> , 2007, 19, 240-245.	1.4	28
9	Association between Health Literacy and Radiation Anxiety among Residents after a Nuclear Accident: Comparison between Evacuated and Non-Evacuated Areas. <i>International Journal of Environmental Research and Public Health</i> , 2018, 15, 1463.	1.2	28
10	Personality and participation in mass health checkups among Japanese community-dwelling elderly. <i>Journal of Psychosomatic Research</i> , 2009, 66, 155-159.	1.2	27
11	The characteristics of non-respondents and respondents of a mental health survey among evacuees in a disaster: The Fukushima Health Management Survey. <i>Fukushima Journal of Medical Sciences</i> , 2017, 63, 152-159.	0.1	27
12	Psychometric Evaluation of the Japanese Version of the Posttraumatic Stress Disorder Checklist in Community Dwellers Following the Fukushima Daiichi Nuclear Power Plant Incident. <i>SAGE Open</i> , 2016, 6, 215824401665244.	0.8	24
13	Occurrence of depressive tendency and associated social factors among elderly persons forced by the Great East Japan Earthquake and nuclear disaster to live as long-term evacuees: a prospective cohort study. <i>BMJ Open</i> , 2017, 7, e014339.	0.8	21
14	Personality and health literacy among community-dwelling older adults living in Japan. <i>Psychogeriatrics</i> , 2020, 20, 824-832.	0.6	19
15	Psychometric evaluation of the Japanese version of Ten-Item Personality Inventory (TIPI-J) among middle-aged, and elderly adults: Concurrent validity, internal consistency and test-retest reliability. <i>Cogent Psychology</i> , 2018, 5, 1426256.	0.6	18
16	Actual Conditions of Leisure Activity Among Older Community-Dwelling Japanese Adults. <i>Gerontology and Geriatric Medicine</i> , 2018, 4, 233372141878167.	0.8	17
17	Psychometric evaluation of the simplified Japanese version of the Athens Insomnia Scale: The Fukushima Health Management Survey. <i>Journal of Sleep Research</i> , 2019, 28, e12771.	1.7	17
18	Risk Factor for Incident Functional Disability and the Effect of a Preventive Exercise Program: A 4-Year Prospective Cohort Study of Older Survivors from the Great East Japan Earthquake and Nuclear Disaster. <i>International Journal of Environmental Research and Public Health</i> , 2018, 15, 1430.	1.2	15

#	ARTICLE	IF	CITATIONS
19	Leisure activity moderates the relationship between living alone and mental health among Japanese older adults. <i>Geriatrics and Gerontology International</i> , 2021, 21, 421-425.	0.7	15
20	Living in the Restoration Public Housing after the Great East Japan Earthquake Correlates with Lower Subjective Well-Being of Older Adults. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 2696.	1.2	14
21	The Association between Utilization of Media Information and Current Health Anxiety Among the Fukushima Daiichi Nuclear Disaster Evacuees. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 3921.	1.2	13
22	The association between self-reported sleep dissatisfaction after the Great East Japan Earthquake, and a deteriorated socioeconomic status in the evacuation area: the Fukushima Health Management Survey. <i>Sleep Medicine</i> , 2020, 68, 63-70.	0.8	11
23	Mental Health Status of Children After the Great East Japan Earthquake and Fukushima Daiichi Nuclear Power Plant Accident. <i>Asia-Pacific Journal of Public Health</i> , 2017, 29, 131S-138S.	0.4	10
24	The Usefulness of Brief Telephonic Intervention After a Nuclear Crisis: Long-Term Community-Based Support for Fukushima Evacuees. <i>Disaster Medicine and Public Health Preparedness</i> , 2020, , 1-9.	0.7	9
25	Recovery from radiation anxiety and posttraumatic growth among community dwellers after the nuclear disaster in Fukushima. <i>Cogent Psychology</i> , 2019, 6, .	0.6	7
26	Associated factors related to participation in general health checkup and survey of the effect of low-dose radiation exposure on health of residents of Fukushima Prefecture after the Fukushima Daiichi nuclear power plant accident. <i>Preventive Medicine Reports</i> , 2020, 20, 101214.	0.8	6
27	Socioeconomic status, damage-related conditions, and PTSD following the Fukushima-daiichi nuclear power plant accident: The Fukushima Health Management Survey. <i>Fukushima Journal of Medical Sciences</i> , 2021, 67, 71-82.	0.1	4
28	Factors associated with cognitive failure among mothers involved in child care. <i>Cogent Psychology</i> , 2021, 8, .	0.6	4
29	Vulnerability of Evacuees Having No One to Consult after the Fukushima Nuclear Disaster: The Fukushima Health Management Survey. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 10075.	1.2	3
30	Association of Instrumental Activities of Daily Living, Physical Function, and Mental Health among Older Returnees after the Fukushima Daiichi Nuclear Power Station Accident. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 11639.	1.2	3
31	Subjective Wellbeing and Related Factors of Older Adults Nine and a Half Years after the Great East Japan Earthquake: A Cross-Sectional Study in the Coastal Area of Soma City. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 2639.	1.2	3
32	Tobacco Exposure During Pregnancy and Infections in Infants up to 1 Year of Age: The Japan Environment and Children's Study. <i>Journal of Epidemiology</i> , 2022, , .	1.1	1
33	Relationship between Personality and Mortality among Japanese Older Adults: A 14-Year Longitudinal Study. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 2413.	1.2	1
34	Association of personality traits with polypharmacy among community-dwelling older adults in Japan: a cross-sectional analysis of data from the SONIC study. <i>BMC Geriatrics</i> , 2022, 22, 372.	1.1	1
35	Association of Personality with Cognitive Failure among Japanese Middle-Aged and Older Adults. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 7215.	1.2	1
36	Cognitive plasticity: The role of midlife stimulation and late life prevention in cognitive performance in old age. <i>The Proceedings of the Annual Convention of the Japanese Psychological Association</i> , 2014, 78, SS-012-SS-012.	0.0	0

#	ARTICLE	IF	CITATIONS
37	Development of leisure activity scale among modern Japanese elderly for prevention of cognitive decline. The Proceedings of the Annual Convention of the Japanese Psychological Association, 2018, 82, 2EV-077-2EV-077.	0.0	0
38	Personality and cognitive failures among women in child care. The Proceedings of the Annual Convention of the Japanese Psychological Association, 2019, 83, 1A-025-1A-025.	0.0	0
39	Personality and aging well: How does personality relate to development tasks in adulthood?. The Proceedings of the Annual Convention of the Japanese Psychological Association, 2019, 83, SS-064-SS-064.	0.0	0
40	Relationship between fathers'™ engagement in childcare and housework, gender role attitude, and social support from spouses. The Proceedings of the Annual Convention of the Japanese Psychological Association, 2020, 84, PC-114-PC-114.	0.0	0
41	Posttraumatic Growth after the Fukushima Nuclear Disaster: Examination of Free Descriptions among Fukushima Residents Who Lived in the Evacuation Area. International Journal of Environmental Research and Public Health, 2022, 19, 192.	1.2	0
