#	Paper	IF	Citations
48	Social media interventions targeting exercise and diet behaviours in people with noncommunicable diseases (NCDs): A systematic review.. <i>Internet Interventions</i> , 2022 , 27, 100497	4.4	1
47	Prevalence of food insecurity in people with major depression, bipolar disorder, and schizophrenia and related psychoses: A systematic review and meta-analysis. <i>Critical Reviews in Food Science and Nutrition</i> , 2021 , 1-18	11.5	2
46	Keeping our staff in mind: Dietary results of a lifestyle intervention targeting mental health staff. <i>Health Promotion Journal of Australia</i> , 2021 , 32, 451-457	1.7	1
45	An Apple a Day: Psychiatrists, Psychologists and Psychotherapists Report Poor Literacy for Nutritional Medicine: International Survey Spanning 52 Countries. <i>Nutrients</i> , 2021 , 13,	6.7	4
44	How should we judge edible oils and fats? An umbrella review of the health effects of nutrient and bioactive components found in edible oils and fats. <i>Critical Reviews in Food Science and Nutrition</i> , 2021 , 1-15	11.5	2
43	The Dietary Inflammatory Index and Human Health: An Umbrella Review of Meta-Analyses of Observational Studies. <i>Advances in Nutrition</i> , 2021 , 12, 1681-1690	10	25
42	Dietary Inflammation and Mental Health 2021 , 417-429		
41	Dietary intake, physical activity and sedentary behaviour patterns in a sample with established psychosis and associations with mental health symptomatology. <i>Psychological Medicine</i> , 2021 , 1-11	6.9	1
40	Feasibility and Acceptability of Photographic Food Record, Food Diary and Weighed Food Record in People with Serious Mental Illness. <i>Nutrients</i> , 2021 , 13,	6.7	1
39	Prevalence and correlates of food insecurity in community-based individuals with severe mental illness receiving long-acting injectable antipsychotic treatment. <i>British Journal of Nutrition</i> , 2020 , 124, 470-477	3.6	3
38	Changing health workforce attitudes to promote improved physical health in mental health service users: Keeping our Staff in Mind (KoSiM). <i>Health Promotion Journal of Australia</i> , 2020 , 31, 447-455	1.7	8
37	Nutritional psychiatry in the treatment of psychotic disorders: Current hypotheses and research challenges. <i>Brain, Behavior, & Immunity - Health</i> , 2020 , 5, 100070	5.1	6
36	Stepping up early treatment for help-seeking youth with at-risk mental states: Feasibility and acceptability of a real-world exercise program. <i>Microbial Biotechnology</i> , 2020 , 14, 450-462	3.3	8
35	Keeping the body in mind: A qualitative analysis of the experiences of people experiencing first-episode psychosis participating in a lifestyle intervention programme. <i>International Journal of Mental Health Nursing</i> , 2020 , 29, 278-289	3.8	7
34	Authors' Response. <i>Psychosomatic Medicine</i> , 2020 , 82, 534-535	3.7	0
33	A meta-review of "lifestyle psychiatry": the role of exercise, smoking, diet and sleep in the prevention and treatment of mental disorders. <i>World Psychiatry</i> , 2020 , 19, 360-380	14.4	132
32	From impact factors to real impact: translating evidence on lifestyle interventions into routine mental health care. <i>Translational Behavioral Medicine</i> , 2020 , 10, 1070-1073	3.2	22

31	Dietary intake, food addiction and nutrition knowledge in young people with mental illness. <i>Nutrition and Dietetics</i> , 2020 , 77, 315-322	2.5	9
30	The Effects of Dietary Improvement on Symptoms of Depression and Anxiety: A Meta-Analysis of Randomized Controlled Trials. <i>Psychosomatic Medicine</i> , 2019 , 81, 265-280	3.7	176
29	The effectiveness of the Keeping the Body in Mind Xtend pilot lifestyle program on dietary intake in first-episode psychosis: Two-year outcomes. <i>Obesity Research and Clinical Practice</i> , 2019 , 13, 214-216	5.4	10
28	Dietary Intake, Adherence to Mediterranean Diet and Lifestyle-Related Factors in People with Schizophrenia. <i>Issues in Mental Health Nursing</i> , 2019 , 40, 851-860	1.5	7
27	The Lancet Psychiatry Commission: a blueprint for protecting physical health in people with mental illness. <i>Lancet Psychiatry</i> , 2019 , 6, 675-712	23.3	411
26	A qualitative exploration of barriers and enablers of healthy lifestyle engagement for older Australians with intellectual disabilities. <i>Research and Practice in Intellectual and Developmental Disabilities</i> , 2019 , 6, 182-191	0.8	3
25	Cardio-metabolic risk in individuals prescribed long-acting injectable antipsychotic medication. <i>Psychiatry Research</i> , 2019 , 281, 112606	9.9	7
24	The efficacy and safety of nutrient supplements in the treatment of mental disorders: a meta-review of meta-analyses of randomized-controlled trials. <i>World Psychiatry</i> , 2019 , 18, 308-324	14.4	86
23	Dietary intake of people with severe mental illness: systematic review and meta-analysis. <i>British Journal of Psychiatry</i> , 2019 , 214, 251-259	5.4	82
22	Do reductions in ghrelin contribute towards antipsychotic-induced weight gain?. <i>Schizophrenia Research</i> , 2019 , 210, 301-302	3.6	7
21	Cardio-metabolic risk and its management in a cohort of clozapine-treated outpatients. <i>Schizophrenia Research</i> , 2018 , 199, 367-373	3.6	19
20	S204. NUTRITIONAL DEFICIENCIES AND CLINICAL CORRELATES IN FIRST-EPISODE PSYCHOSIS: A SYSTEMATIC REVIEW AND META-ANALYSIS. <i>Schizophrenia Bulletin</i> , 2018 , 44, S405-S405	1.3	78
19	Adjunctive nutrients in first-episode psychosis: A systematic review of efficacy, tolerability and neurobiological mechanisms. <i>Microbial Biotechnology</i> , 2018 , 12, 774-783	3.3	11
18	You are what you eatT(not what you said you ate yesterday): Why a one-off 24-hour dietary recall fails capture usual dietary intake in schizophrenia. <i>Schizophrenia Research</i> , 2018 , 199, 447-448	3.6	3
17	2-year follow-up: Still keeping the body in mind. <i>Australian and New Zealand Journal of Psychiatry</i> , 2018 , 52, 602-603	2.6	9
16	Nutritional Deficiencies and Clinical Correlates in First-Episode Psychosis: A Systematic Review and Meta-analysis. <i>Schizophrenia Bulletin</i> , 2018 , 44, 1275-1292	1.3	47
15	Expanding collaborative care: integrating the role of dietitians and nutrition interventions in services for people with mental illness. <i>Australasian Psychiatry</i> , 2018 , 26, 47-49	1.7	12
14	Is Obesity in Young People With Psychosis a Foregone Conclusion? Markedly Excessive Energy Intake Is Evident Soon After Antipsychotic Initiation. <i>Frontiers in Psychiatry</i> , 2018 , 9, 725	5	8

13	Get Healthy!TA physical activity and nutrition program for older adults with intellectual disability: pilot study protocol. <i>Pilot and Feasibility Studies</i> , 2018 , 4, 144	1.9	4
12	Diet as a hot topic in psychiatry: a population-scale study of nutritional intake and inflammatory potential in severe mental illness. <i>World Psychiatry</i> , 2018 , 17, 365-367	14.4	58
11	The effects of vitamin and mineral supplementation on symptoms of schizophrenia: a systematic review and meta-analysis. <i>Psychological Medicine</i> , 2017 , 47, 1515-1527	6.9	43
10	A review of the nutritional challenges experienced by people living with severe mental illness: a role for dietitians in addressing physical health gaps. <i>Journal of Human Nutrition and Dietetics</i> , 2017 , 30, 545-553	3.1	29
9	Solving a weighty problem: systematic review and meta-analysis of nutrition interventions in severe mental illness. <i>British Journal of Psychiatry</i> , 2017 , 210, 110-118	5.4	103
8	Dietary intervention in the dystopian world of severe mental illness: measure for measure, then manage. <i>Acta Psychiatrica Scandinavica</i> , 2017 , 135, 180	6.5	2
7	Preventing antipsychotic-induced weight gain in first-episode psychosis: Transitioning dietitians into routine care. <i>Nutrition and Dietetics</i> , 2016 , 73, 303-304	2.5	3
6	Evaluating an individualized lifestyle and life skills intervention to prevent antipsychotic-induced weight gain in first-episode psychosis. <i>Microbial Biotechnology</i> , 2016 , 10, 267-76	3.3	143
5	A nutrition intervention is effective in improving dietary components linked to cardiometabolic risk in youth with first-episode psychosis. <i>British Journal of Nutrition</i> , 2016 , 115, 1987-93	3.6	42
4	Preventing weight gain and increased waist circumference during the first two years after antipsychotic initiation in youth with first-episode psychosis. <i>European Psychiatry</i> , 2016 , 33, S112-S113	6	2
3	Why moving more should be promoted for severe mental illness. <i>Lancet Psychiatry</i> , 2015 , 2, 295	23.3	34
2	Individual dietetic consultations in first episode psychosis: a novel intervention to reduce cardiometabolic risk. <i>Community Mental Health Journal</i> , 2015 , 51, 211-4	2.1	11
1	Aerobic exercise capacity: an important correlate of psychosocial function in first episode psychosis. <i>Acta Psychiatrica Scandinavica</i> , 2015 , 131, 234	6.5	18
