#	ARTICLE	IF	CITATIONS
1	SDN in the home: A survey of home network solutions using Software Defined Networking. Cogent Engineering, 2018, 5, 1469949.	2.2	10
2	A Comparative Study with RapidMiner and WEKA Tools over some Classification Techniques for SMS Spam. IOP Conference Series: Materials Science and Engineering, 2017, 226, 012100.	0.6	6
3	The Rise of Ransomware. , 2017, , .		12
4	A passive and privacy-friendly area based localization for wireless indoor networks. , 2016, , .		3
5	Dimension of mobile security model: mobile user security threats and awareness. International Journal of Mobile Learning and Organisation, 2015, 9, 66.	0.3	8
6	An empirical investigation of RSSI-based distance estimation for wireless indoor positioning system. International Journal of Wireless and Mobile Computing, 2015, 8, 206.	0.2	1
7	Designing Ensemble Based Security Framework for M-Learning System. International Journal of Distance Education Technologies, 2014, 12, 66-82.	2.9	0
8	The implementation of mixed method in developing a mobile learners security framework. , 2014, , .		0
9	A RSSI-based rogue access point detection framework for Wi-Fi hotspots. , 2014, , .		3
10	Analysis of Features Selection and Machine Learning Classifier in Android Malware Detection. , 2014, , .		40
11	Understanding the Threats of Botnets Detection: A Wide Scale Survey. Research Journal of Information Technology, 2014, 6, 135-153.	0.4	2
12	Android Malware Detection System Classification. Research Journal of Information Technology, 2014, 6, 325-341.	0.4	3
13	A Practical Rule Based Technique by Splitting SMS Phishing from SMS Spam for Better Accuracy in Mobile Device. International Review on Computers and Software, 2014, 9, 1776.	0.1	5
14	Profiling mobile malware behaviour through hybrid malware analysis approach. , 2013, , .		6
15	Electrocardiogram (ECG) signals as biometrics in securing Wireless Body Area Network. , 2013, , .		1
16	Preliminary study of host and network-based analysis on P2P Botnet detection. , 2013, , .		6
17	Electrocardiogram (ECG) signals as biometrics in securing Wireless Body Area Network. , 2013, , .		6
18	Enhanced P2P botnets detection framework architecture with hybrid analyzer: Host-based and network-based. , 2013, , .		0

#	ARTICLE	IF	CITATIONS
19	Effectiveness of Security Tools to Anomalies on Tunneled Traffic. Information Technology Journal, 2012, 11, 191-199.	0.3	3
20	Thresholding and Fuzzy Rule-Based Classification Approaches in Handling Mangrove Forest Mixed Pixel Problems Associated with in QuickBird Remote Sensing Image Analysis. International Journal of Agriculture and Forestry (Print), 2012, 2, 300-306.	1.0	4
21	Traceability in digital forensic investigation process. , 2011, , .		4
22	Enhanced Alert Correlation Framework for Heterogeneous Log. Communications in Computer and Information Science, 2011, , 107-122.	0.5	4
23	A novel approach on teaching network security for ICT courses. , 2009, , .		1
