1	Safety of dipeptidyl peptidase-4 inhibitors in older adults with type 2 diabetes: a systematic review and meta-analysis of randomized controlled trials. Therapeutic Advances in Drug Safety, 2022, 13, 204209862110723.	1.0	7
2	Efficacy and safety of Z-substances in the management of insomnia in older adults: a systematic review for the development of recommendations to reduce potentially inappropriate prescribing. BMC Geriatrics, 2022, 22, 87.	1.1	17
3	Quality improvement in chronic care by self-audit, benchmarking and networking in general practices in South Tyrol, Italy: results from an interventional study. Family Practice, 2021, 38, 253-258.	0.8	2
4	A volunteer-supported walking programme to improve physical function in older people (the POWER) Tj ETQq0 0 0 rgBT /Overlock 10 Tf	1.1	2
5	Epidemiology and associated factors of polypharmacy in older patients in primary care: a northern Italian cross-sectional study. BMC Geriatrics, 2021, 21, 197.	1.1	11
6	Second-generation antidepressants for treatment of seasonal affective disorder. The Cochrane Library, 2021, 2021, CD008591.	1.5	4
7	Typology of drug discontinuation trials - Methodological recommendations. Journal of Clinical Epidemiology, 2021, 137, 23-30.	2.4	2
8	Expert-based medication reviews to reduce polypharmacy in older patients in primary care: a northern-Italian cluster-randomised controlled trial. BMC Geriatrics, 2021, 21, 659.	1.1	12
9	Methodological problems of SARS-CoV-2 rapid point-of-care tests when used in mass testing. AIMS Public Health, 2021, 9, 73-93.	1.1	3
10	Are quality promotion initiatives in Austrian and Italian general practices associated with higher patient satisfaction and quality of life? Results from the interventional study 'IQuaB'. Health and Social Care in the Community, 2020, , .	0.7	2
11	Communication training and the prescribing pattern of antibiotic prescription in primary health care. PLoS ONE, 2020, 15, e0233345.	1.1	26
12	Use of an electronic decision support tool to reduce polypharmacy in elderly people with chronic diseases: cluster randomised controlled trial. BMJ, The, 2020, 369, m1822.	3.0	58
13	Title is missing!. , 2020, 15, e0233345.		0
14	Title is missing!. , 2020, 15, e0233345.		0
15	Title is missing!. , 2020, 15, e0233345.		0
16	Title is missing!. , 2020, 15, e0233345.		0
17	Title is missing!. , 2020, 15, e0233345.		0
18	Reduction of inappropriate medication in older populations by electronic decision support (the) Tj ETQq0 0 0 rgBT /Overlock 10 Tf 50 67 Informatics Association: JAMIA, 2019, 26, 1323-1332.	2.2	18

#	Article	IF	Citations
19	Effect of person-centred care on antipsychotic drug use in nursing homes (EPCentCare): a cluster-randomised controlled trial. Age and Ageing, 2019, 48, 419-425.	0.7	26
20	Reduction of the long-term use of proton pump inhibitors by a patient-oriented electronic decision support tool (arriba-PPI): study protocol for a randomized controlled trial. Trials, 2019, 20, 636.	0.7	8
21	Reduction of inappropriate medication in older populations by electronic decision support (the) Tj ETQq1 1 0.784314 rgBT /Overlock 2018, 19, 110.	2.9	29
22	Polypharmacy in older patients with chronic diseases: a cross-sectional analysis of factors associated with excessive polypharmacy. BMC Family Practice, 2018, 19, 113.	2.9	73
23	Interventions to reduce inappropriate polypharmacy: Implications for research and practice. Maturitas, 2017, 97, 66-68.	1.0	3
24	Reply to â€˜Endpoints in strategies to reduce polypharmacyâ€™. British Journal of Clinical Pharmacology, 2017, 83, 434-434.	1.1	1
25	Effectiveness and safety of vitamin K antagonists and new anticoagulants in the prevention of thromboembolism in atrial fibrillation in older adults â€“ a systematic review of reviews and the development of recommendations to reduce inappropriate prescribing. BMC Geriatrics, 2017, 17, 223.	1.1	19
26	Thiazides in the management of hypertension in older adults â€“ a systematic review. BMC Geriatrics, 2017, 17, 228.	1.1	15
27	A set of systematic reviews to help reduce inappropriate prescribing to older people: study protocol. BMC Geriatrics, 2017, 17, 231.	1.1	14
28	Effectiveness and safety of dipeptidyl peptidase 4 inhibitors in the management of type 2 diabetes in older adults: a systematic review and development of recommendations to reduce inappropriate prescribing. BMC Geriatrics, 2017, 17, 226.	1.1	38
29	Effectiveness and patient safety of platelet aggregation inhibitors in the prevention of cardiovascular disease and ischemic stroke in older adults â€“ a systematic review. BMC Geriatrics, 2017, 17, 225.	1.1	10
30	Efficacy and safety of metformin in the management of type 2 diabetes mellitus in older adults: a systematic review for the development of recommendations to reduce potentially inappropriate prescribing. BMC Geriatrics, 2017, 17, 227.	1.1	49
31	Effectiveness and safety of beta blockers in the management of hypertension in older adults: a systematic review to help reduce inappropriate prescribing. BMC Geriatrics, 2017, 17, 224.	1.1	25
32	Impact of strategies to reduce polypharmacy on clinically relevant endpoints: a systematic review and metaâ€analysis. British Journal of Clinical Pharmacology, 2016, 82, 532-548.	1.1	160
33	Polypharmacy in chronic diseasesâ€“Reduction of Inappropriate Medication and Adverse drug events in older populations by electronic Decision Support (PRIMA-eDS): study protocol for a randomized controlled trial. Trials, 2016, 17, 57.	0.7	74
34	Does COPD have a clinically relevant impact on hearing loss? A retrospective matched cohort study with selection of patients diagnosed with COPD. BMJ Open, 2015, 5, e008247.	0.8	8
35	Effect of person-centred care on antipsychotic drug use in nursing homes (EPCentCare): study protocol for a cluster-randomised controlled trial. Implementation Science, 2015, 10, 82.	2.5	23
